Issue of USD 255,000,000 Callable Zero Coupon Notes due February 2038

(CACIB USD 255,000,000 Callable Zero Coupon Notes due February 2038, or the "Securities")

under the €50,000,000,000

## Structured Debt Instruments Issuance Programme

Issue Price: 100 per cent. of the aggregate nominal amount

Issue Date: 7 February 2018

This information package includes (i) the Base Prospectus pertaining to the €50,000,000,000 Structured Debt Instruments Issuance Programme dated 10 May 2017 as supplemented by the third supplement dated 2 November 2017 (the **Base Prospectus**) and (ii) the Pricing Supplement dated 7 February 2018 in respect of the Notes (the **Pricing Supplement**). The Pricing Supplement together with the Base Prospectus, are hereinafter referred to as the "Information Package".

The Notes will be issued by Crédit Agricole Corporate and Investment Bank (the **Issuer**).

Application will be made by the Issuer for the Notes to be listed on the Taipei Exchange in the Republic of China (the **ROC**).

The Notes will be traded on the Taipei Exchange pursuant to the applicable rules of the Taipei Exchange. Effective date of listing and trading of the Notes is on or about 7 February 2018.

For the avoidance of doubt, the Dealer, Crédit Agricole Corporate and Investment Bank, is not a licensed underwriter in the ROC, and the Dealer has not offered, sold or resold, or will not offer, sell or re-sell, directly or indirectly, any Securities as a part of the offering of the Securities in the ROC. Accordingly, the Dealer has procured Crédit Agricole Corporate and Investment Bank, Taipei Branch, KGI Bank, CTBC Bank Co., Ltd., and E.SUN Commercial Bank, Ltd. to be appointed by the Issuer as the underwriters for the purposes of distribution of the Securities to the "professional investors" (as defined under Article 2-1 of the Taipei Exchange Rules Governing Management of Foreign Currency Denominated International Bonds) in the ROC.

The Taipei Exchange is not responsible for the content of the Information Package and no representation is made by the Taipei Exchange to the accuracy or completeness of the Information Package. The Taipei Exchange expressly disclaims any and all liability for any losses arising from, or as a result of the reliance on, all or part of the contents of this Information Package. Admission to the listing and trading of the Notes on the Taipei Exchange shall not be taken as an indication of the merits of the Issuer or the Notes.

The Notes have not been, and shall not be, offered, sold or re-sold, directly or indirectly, in the ROC, to investors other than "professional investors" as defined under Article 2-1 of the Taipei Exchange Rules Governing Management of Foreign Currency Denominated International Bonds.

## ROC SETTLEMENT AND TRADING

Investors with a securities book-entry account with an ROC securities broker and a foreign currency deposit account with an ROC bank, may request the approval of the Taiwan Depository & Clearing Corporation (the **TDCC**) for the settlement of the Notes through the account of TDCC with Euroclear or Clearstream, Luxembourg and if such approval is granted by TDCC, the Notes may be so cleared

and settled. In such circumstances, TDCC will allocate the respective book-entry interests of such investor in the Notes position to the securities book-entry account designated by such investor in the ROC. The Notes will be traded and settled pursuant to the applicable rules and operating procedures of TDCC and the TPEX as domestic bonds.

In addition, an investor may apply to TDCC (by filing in a prescribed form) to transfer the Notes in its own account with Euroclear or Clearstream, Luxembourg to the TDCC account with Euroclear or Clearstream, Luxembourg for trading in the domestic market or vice versa for trading in overseas markets.

For such investors who hold their interests in the Notes through an account opened and held by TDCC with Euroclear or Clearstream, Luxembourg, distributions of principal and/or interests for the Notes to such holders may be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the holders. Such payment is expected to be made on the second Taiwanese business day following TDCC's receipt of such payment (due to time difference, the payment is expected to be received by TDCC one Taiwanese business day after the distribution date). However, when the holders will actually receive such distributions may vary depending upon the daily operations of the ROC banks with which the holder has the foreign currency deposit account.

## TAXATION IN THE ROC

### Interests on the Securities

As the Issuer of the Securities is not an ROC statutory tax withholder, there is no ROC withholding tax on the interests or deemed interests to be paid by the Issuer on the Securities.

Payments of interests or deemed interests under the Securities to an ROC individual holder are not subject to ROC income tax as such payments received by him/her are not considered to be ROC-sourced income. However, such holder must include the interests or deemed interests in calculating his/her basic income for the purpose of calculating his/her alternative minimum tax (the **AMT**), unless the sum of the interests or deemed interests and other non-ROC-sourced income received by such holder and the person(s) who is(are) required to jointly file the tax return in a calendar year is below NTD1 million. If the amount of the AMT exceeds the ordinary income tax calculated pursuant to the AMT Act, the excess becomes such holder's AMT payable.

ROC corporate holders must include the interests or deemed interests receivable under the Securities as part of their taxable income and pay income tax at a flat rate of 17 per cent. (unless the total taxable income for a fiscal year is under NTD120,000), as they are subject to income tax on their worldwide income on an accrual basis. The AMT is not applicable. On 18 January 2018, an amendment to the ROC Income Tax Act has been passed by the Legislative Yuan to increase the corporate income tax rate from 17 per cent. to 20 per cent. Once such amendment is announced by the President of the ROC, it will take retroactive effect from 1 January 2018.

### Sale of the Securities

In general, the sale of corporate bonds or financial bonds is subject to 0.1 per cent. Securities transaction tax (the **STT**) on the transaction price. However, Article 2-1 of the Securities Transaction Tax Act prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds from 1 January 2010 to 31 December 2026. Therefore, the sale of the Securities will be exempt from STT if the sale is conducted on or before 31 December 2026. Starting from 1 January 2027, any sale of the Securities will be subject to STT at 0.1 per cent. of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are exempt from income tax. Accordingly, ROC individual and corporate holders are not subject to income tax on any capital gains generated from the sale of the Securities. In addition, ROC individual holders are not subject to AMT on any capital gains generated from the sale of the Securities. However, ROC corporate holders should include the capital

gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the annual income tax calculated pursuant to the ROC Income Tax Act, the excess becomes the ROC corporate holders' AMT payable. Capital losses, if any, incurred by such holders could be carried over 5 years to offset against capital gains of same category of income for the purposes of calculating their AMT.

*The above information is a general description of the principal ROC tax consequences for investors receiving interests in respect of, or disposing of, the Securities and is of a general nature based on the Issuers' understanding of current law and practice. It does not purport to be comprehensive and does not constitute legal or tax advice.*

*This general description is based upon the law as in effect on the date hereof and that the Securities will be issued, offered, sold and re-sold, directly or indirectly, in the ROC, to professional investors as defined under the Taipei Exchange Rules Governing Management of Foreign Currency Denominated International Bonds only. This description is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below.*

*Investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding or selling the Securities.*

**2) Update of the Standard & Poor's Rating's rating (page 999 of the Base Prospectus).**

The following paragraph in the section headed "Description of Crédit Agricole Corporate and Investment Bank" (pages 998 to 1000 of the Base Prospectus) is amended as follows (for ease of reference changes have been indicated in bold and underlined):

**"As of 25 October 2017** (last rating action) Standard & Poor's Rating Services, a division of Standard & Poor's Credit Market Service Europe Limited has assigned the following Ratings:

- Short Term Debt: A-1
- Long Term Debt: A, **positive** outlook

Standard & Poor's credit ratings express Standard & Poor's opinion about the ability and willingness of an issuer to meet its financial obligations in full - and on time. Beyond that, credit ratings can also speak to the credit quality of an individual debt issue and the relative likelihood that the issue may default. Ratings are expressed as letter grades that range from 'AAA' to 'D' (in the case of long term ratings) or 'A-1' to 'D' (in the case of short term ratings) to communicate Standard & Poor's opinion of relative level of credit risk.

Standard & Poor's Credit Market Service Europe Limited was registered on 31 October 2011 in accordance with the CRA Regulation."

As of 23 May 2017 (last rating action) Fitch Ratings has assigned the following Ratings:

- Short Term IDR: F1

A short term issuer default rating (**IDR**) issued by Fitch reflects a financial institution's vulnerability to default in the short term. For financial institutions and most other issuers, the "short term" typically means up to 13 months.

- Long Term IDR: A+, stable outlook

A long term IDR issued by Fitch in respect of a financial institution expresses Fitch's opinion on that institution's relative vulnerability to default on its financial obligations. In accordance with Fitch's rating definitions, the default risk addressed by the IDR is generally that of the financial obligations whose non-payment would "best reflect the uncured failure of that entity". Fitch considers that the obligations of financial institutions whose non-payment would best reflect uncured failure are usually senior obligations to third-party, non-government creditors. IDRs of financial institutions therefore typically opine on the probability of default on such obligations.

The Fitch Ratings group of companies established in the EU, which includes Fitch Ratings Limited, was registered on 31 October 2011 in accordance with the CRA Regulation.

As of 19 July 2016 (last rating action) Moody's Investors Service Ltd has assigned the following Ratings:

- Short Term Debt: Prime-1
- Long Term Debt: A1, stable outlook

Ratings assigned on Moody's global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by non-financial corporates, financial institutions, structured finance vehicles, project finance vehicles, and public sector entities. Long-term ratings are assigned to issuers or obligations with an original maturity of one year or more and reflect both on the likelihood of a default on contractually promised payments and the expected financial loss suffered in the event of default. Short-term ratings are assigned to obligations with an original maturity of thirteen months or less and reflect the likelihood of a default on contractually promised payments.

Moody's Investors Service Ltd was registered on 31 October 2011 in accordance with the CRA Regulation.

As of 2 December 2015 (last rating action) Standard & Poor's Rating Services, a division of Standard & Poor's Credit Market Service Europe Limited has assigned the following Ratings:

- Short Term Debt: A-1
- Long Term Debt: A, stable outlook

Standard & Poor's credit ratings express Standard & Poor's opinion about the ability and willingness of an issuer to meet its financial obligations in full - and on time. Beyond that, credit ratings can also speak to the credit quality of an individual debt issue and the relative likelihood that the issue may default. Ratings are expressed as letter grades that range from 'AAA' to 'D' (in the case of long term ratings) or 'A-1' to 'D' (in the case of short term ratings) to communicate Standard & Poor's opinion of relative level of credit risk.

Standard & Poor's Credit Market Service Europe Limited was registered on 31 October 2011 in accordance with the CRA Regulation.

Crédit Agricole CIB is dependent on the performance of its subsidiaries and affiliates.

## 2) Update of the Fitch's rating (pages 998 to 999 of the Base Prospectus).

The following paragraph in the section headed "Description of Crédit Agricole Corporate and Investment Bank" (pages 998 to 999 of the Base Prospectus) is amended as follows (for ease of reference changes have been indicated in bold and underlined):

As of 23 May 2017 (last rating action) Fitch Ratings has assigned the following Ratings:

- Short Term IDR: F1

A short term issuer default rating (**IDR**) issued by Fitch reflects a financial institution's vulnerability to default in the short term. For financial institutions and most other issuers, the "short term" typically means up to 13 months.

- Long Term IDR: **A+, stable outlook**

A long term IDR issued by Fitch in respect of a financial institution expresses Fitch's opinion on that institution's relative vulnerability to default on its financial obligations. In accordance with Fitch's rating definitions, the default risk addressed by the IDR is generally that of the financial obligations whose non-payment would "best reflect the uncured failure of that entity". Fitch considers that the obligations of financial institutions whose non-payment would best reflect uncured failure are usually senior obligations to third-party, non-government creditors. IDRs of financial institutions therefore typically opine on the probability of default on such obligations.

The Fitch Ratings group of companies established in the EU, which includes Fitch Ratings Limited, was registered on 31 October 2011 in accordance with the CRA Regulation.

Application has been made to the *Commission de Surveillance du Secteur Financier* (the **CSSF**) as competent authority under the Prospectus Directive and the Luxembourg Act dated 10 July 2005 on prospectuses for securities (*loi relative aux prospectus pour valeurs mobilières*) (the **Prospectus Act**) for approval of this Base Prospectus where it constitutes (i) a base prospectus in compliance with Part II of the Prospectus Act and (ii) a simplified prospectus in compliance with Chapter 1 of Part III of the Prospectus Act in connection with offers of securities to the public which are money markets instruments having a maturity of less than twelve months.

The CSSF assumes no responsibility for the economic and financial soundness of the securities transactions contemplated by this Base Prospectus or the quality or solvency of the Issuers (as defined below) in accordance with Article 7(7) of the Prospectus Act.

This Base Prospectus is valid for one year and may be supplemented from time to time to reflect any significant new factor, material mistake or inaccuracy relating to the information included in it.

**Defined terms**

Capitalised terms used in this Base Prospectus are defined in the Definitions Condition or in the particular section where the capitalised terms are first used herein. Definitions are designated by the capitalised term being in bold text.

**Issuers and the Guarantor**

Securities (as defined below) issued under the Programme may be issued by any of Crédit Agricole Corporate and Investment Bank (**Crédit Agricole CIB**), Crédit Agricole CIB Finance (Guernsey) Limited (**Crédit Agricole CIB FG**), Crédit Agricole CIB Financial Solutions (**Crédit Agricole CIB FS**) (each, an **Issuer** and together, the **Issuers**). The payment of all amounts due in respect of Securities issued by an Issuer other than Crédit Agricole CIB will be unconditionally and irrevocably guaranteed by Crédit Agricole CIB (in such capacity, the **Guarantor**).

This Base Prospectus contains information describing (i) the business activities of, (ii) certain financial information relating to and (iii) material risks faced by the Issuers and the Guarantor.

## The Securities

This Base Prospectus relates to the issuance of various types of notes (**Notes**) or certificates (**Certificates** and, together with Notes, referred to generally as **Securities**) including Securities that bear interest at a fixed rate, floating rate or rate linked to an underlying asset class or bear no interest. Securities may be redeemed at a fixed amount, including at par value, or at an amount linked to an underlying asset class, which may in some cases be zero. Securities may be redeemed on the scheduled redemption date, in instalments over the term of the Securities or on an early redemption date. The underlying asset classes (each an **Underlying Asset Class**) to which interest and/or redemption amounts of Securities may be linked are:

- commodities;
- benchmark rates;
- FX rates;
- exchange traded funds;
- shares;
- indices;
- proprietary indices;
- inflation indices; or
- a formula or formulae (which may, in turn, be determined by reference to other types of assets, benchmarks or factors),

or a basket and/or combination of the above.

Specific provisions apply to Italian Securities and Italian Listed Securities (both as defined below), when specified in this Base Prospectus.

Securities may be denominated in any currency.

The amount payable (if any) as interest and/or on redemption in respect of a Series of Securities may be dependent upon whether certain events in respect of one or more reference entities or one or more reference obligations in respect of any such reference entities, as the case may be, occur (a **Credit Linked Security**).

The amount payable (if any) as interest and/or on redemption in respect of a Series of Securities may be dependent upon whether certain events in respect of one or more issuers of bonds, or one or more bonds issued by such entities occur (a **Bond Linked Security**).

Securities may also be secured by the relevant Issuer, or one of its affiliates, in favour of holders of the Securities by a segregated pool of collateral assets, which will be identified in the applicable Final Terms (**Secured Securities**).

Subject to restrictions arising as a matter of law, there is no restriction on the category of potential investors to which Securities may be offered under this Programme. Depending on the terms of a particular Series of Securities, Securities may be offered to retail and/or institutional investors.

## Listing and admission to trading

An application has been made to the Luxembourg Stock Exchange for Securities issued under the Programme to be eligible for admission to trading on the Luxembourg Stock Exchange's regulated market and to be eligible for listing on the Official List of the Luxembourg Stock Exchange. The Luxembourg Stock Exchange's regulated market is a regulated market for the purposes of Directive 2004/39/EC (the **Markets in Financial Instruments Directive**).

An application has also been made to the Luxembourg Stock Exchange as competent authority under article 47 of the Prospectus Act for approval of a simplified prospectus prepared in connection with the admission to trading on the

Luxembourg Stock Exchange's regulated market of money market instruments which have a maturity of less than twelve months.

The Issuers may make an application for certain notes or certificates issued under the Programme to be listed on Borsa Italiana S.p.A. and to be admitted to trading on either the Electronic Securitised Derivatives Market of Borsa Italiana S.p.A. (the **SeDeX Market**), in respect of certificates (**Italian Listed Certificates**), or the Electronic Bond and Government Securities Market (the **MOT Market**), in respect of notes (**Italian Listed Notes**) (and, together with Italian Listed Certificates, **Italian Listed Securities**). Both the SeDeX Market and the MOT Market are regulated markets for the purposes of the Markets in Financial Instruments Directive. The Issuers may also not make any application for certain Italian Securities to be listed or traded. In each case, the applicable Final Terms will specify whether or not Italian Securities are to be listed and admitted to trading on the SeDeX Market or the MOT Market. If specified in the Final Terms, the Issuers may also issue Italian Securities which are being offered pursuant to an exemption from the Prospectus Directive or which will be issued outside the European Economic Area.

References to "**Italian Securities**" shall be to either Italian Certificates or Italian Notes, as applicable in the context of the relevant Series.

### **Reading this Base Prospectus**

This Base Prospectus, including the documents listed in the section of this Base Prospectus entitled "*Documents incorporated by reference*" (which are documents that are deemed to be incorporated by reference into this Base Prospectus but which are separately available upon request), is intended to provide prospective investors with information necessary to enable them to make an informed investment decision before purchasing any Securities. Copies of documents incorporated by reference in this Base Prospectus can be obtained from the registered office of Crédit Agricole CIB and the specified office of the Principal Paying Agent for the time being. This Base Prospectus and the documents incorporated by reference will also be published on the Luxembourg Stock Exchange website ([www.bourse.lu](http://www.bourse.lu)).

This Base Prospectus includes the terms and conditions that may apply to the Securities, which will be completed for each Series of Securities by a set of Final Terms (the **Terms and Conditions**). Further detail on Final Terms is set out below. As not all of the terms and conditions contained in this Base Prospectus may be relevant to a particular Series of Securities, this Base Prospectus contains a User's Guide at page 140 which is intended to help investors to navigate the terms and conditions which apply to a particular Series of Securities.

In addition to the Terms and Conditions of the Securities, this Base Prospectus includes other information such as information related to the Issuers, information about the material risks related to any investment in the Securities and information on selling and transfer restrictions. Investors should read this information in full before making any decision to invest in Securities.

### **What information is included in the Final Terms?**

While the Base Prospectus includes general information about all Securities, the **Final Terms** is the document that sets out the specific applicable commercial details of each particular Series of Securities.

In relation to a Series of Securities, the Final Terms will set out, for example and among other things:

- the issue date;
- the scheduled redemption date;
- the interest payment date(s) (if any);
- the basis on which interest (if any) and the amount payable on redemption will be determined and/or calculated;
- whether or not the Securities may be redeemed early at the option of the Issuer or the investor;
- information relating to any relevant Underlying Asset Class; and
- any other information needed to complete the terms and conditions of the Securities of this Base Prospectus (identified by the words "as specified in the applicable Final Terms" or other equivalent wording).

Wherever the Terms and Conditions contain optional provisions, the Final Terms will specify which of those provisions apply to a specific Series of Securities.

**Taxes**

The Securities will not have the benefit of a gross up provision in respect of withholding tax unless "Gross Up" is specifically provided as applicable in the applicable Final Terms. Where a gross up does not apply, investors will take the risk of any applicable withholding tax.

Save in the circumstances described above, none of the Issuers, nor the Guarantor nor any other person will be liable for, or otherwise obliged to pay, any tax, duty or other payment which may arise as a result of the ownership, transfer, exercise, redemption or enforcement of any Securities by any person.

### **CIRCULAR 230 DISCLOSURE**

THIS DESCRIPTION IS LIMITED TO THE U.S. FEDERAL TAX ISSUES DESCRIBED HEREIN OR IN ANY SUPPLEMENT TO THIS BASE PROSPECTUS. IT IS POSSIBLE THAT ADDITIONAL ISSUES MAY EXIST THAT COULD AFFECT THE U.S. FEDERAL TAX TREATMENT OF AN INVESTMENT IN THE SECURITIES, OR THE MATTER THAT IS THE SUBJECT OF THE DESCRIPTION NOTED HEREIN OR IN ANY SUPPLEMENT TO THIS BASE PROSPECTUS, AND THIS DESCRIPTION DOES NOT CONSIDER OR PROVIDE ANY CONCLUSIONS WITH RESPECT TO ANY SUCH ADDITIONAL ISSUES. TAXPAYERS SHOULD SEEK ADVICE BASED ON THE TAXPAYER'S PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR.

NOTWITHSTANDING ANYTHING IN THIS BASE PROSPECTUS OR IN ANY SUPPLEMENT TO THIS BASE PROSPECTUS TO THE CONTRARY, EACH PROSPECTIVE INVESTOR (AND EACH EMPLOYEE, REPRESENTATIVE OR OTHER AGENT OF EACH PROSPECTIVE INVESTOR) MAY DISCLOSE TO ANY AND ALL PERSONS, WITHOUT LIMITATION OF ANY KIND, THE TAX TREATMENT AND TAX STRUCTURE OF AN INVESTMENT IN THE SECURITIES AND ALL MATERIALS OF ANY KIND (INCLUDING OPINIONS OR OTHER TAX ANALYSES) THAT ARE PROVIDED TO THE PROSPECTIVE INVESTOR RELATING TO SUCH TAX TREATMENT AND TAX STRUCTURE, EXCEPT TO THE EXTENT THAT SUCH DISCLOSURE IS SUBJECT TO RESTRICTIONS REASONABLY NECESSARY TO COMPLY WITH SECURITIES LAWS. FOR THESE PURPOSES, THE TAX TREATMENT OF AN INVESTMENT IN THE SECURITIES MEANS THE PURPORTED OR CLAIMED U.S. FEDERAL, STATE AND LOCAL INCOME TAX TREATMENT OF AN INVESTMENT IN THE SECURITIES. ## SERVICE OF PROCESS AND ENFORCEMENT OF CIVIL LIABILITIES

**Crédit Agricole CIB and Crédit Agricole CIB FS are corporations organised under the laws of France. Crédit Agricole CIB FG is a corporation organised under the laws of Guernsey. All of the officers and directors named herein reside outside the United States and all or a substantial portion of the assets of the Issuers and the Guarantor and of such officers and directors are located outside the United States. As a result, it may not be possible for investors to effect service of process outside France or Guernsey, as the case may be, upon the Issuers, the Guarantor or such persons, or to enforce judgments against them obtained in courts outside France or Guernsey, as the case may be, predicated upon civil liabilities of the Issuers, the Guarantor or such directors and officers under laws other than the laws of France or Guernsey, as the case may be, including any judgment predicated upon United States federal securities laws.**

In an original action brought in France predicated solely upon the U.S. federal securities laws, French courts may not have the requisite jurisdiction to adjudicate such action. Actions for enforcement of judgments of U.S. courts rendered against the French persons referred to in the preceding paragraph would require such French persons to waive their right under Article 15 of the French *Code Civil* to be sued in France only. Crédit Agricole CIB believes that no such French persons have waived such right with respect to actions predicated solely upon U.S. federal securities laws.

## STABILISATION

In connection with the issue of any Tranche of Securities, the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the applicable Final Terms may over-allot Securities or effect transactions with a view to supporting the market price of the Securities at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Securities is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Securities and 60 days after the date of the allotment of the relevant Tranche of Securities. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws and rules.

## SUMMARY

*This section provides a form of summary, which will be used for issues of Securities.*

Summaries are made up of disclosure requirements known as "Elements". These Elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for these types of securities and issuers. Some Elements are not required to be addressed and accordingly there may be gaps in the numbering sequence of the elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and issuers, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "Not Applicable".

<p><b>B.13</b></p>	<p><b>Recent events materially relevant to evaluation of Issuer's solvency</b></p>	<p><b>1/ Sale of Crédit Agricole Securities Taiwan</b></p> <p>On 31 July 2013, Crédit Agricole CIB Group withdrew from the brokerage business, with notably the disposal of the CLSA BV Group to Citics International by CASA BV. Since Taiwanese law prohibits ownership of more than 30% of a Taiwanese company by Chinese (PRC) interests, CLSA's operations in Taiwan were hived off and sold to Crédit Agricole Securities Asia B.V.. In the CLSA BV sale contract, Crédit Agricole Securities Asia B.V. had agreed to maintain brokerage operations in Taiwan for two years. During the second quarter of 2015, a contract was signed selling the shares to a new third counterparty. The sale, approved by the local regulator and later finalised on 31 May 2016, led to a non-material capital gain.</p> <p><b>2/ Single Resolution Fund</b></p> <p>The Single Resolution Fund (<b>SRF</b>) was established by Regulation (EU) No 806/2014 as a single funding mechanism for all Member States participating in the Single Supervisory Mechanism (<b>SSM</b>) established by Council Regulation (EU) No 1024/2013 and in the Single Resolution Mechanism (<b>SRM</b>). The SRF is financed by the banking sector. The target level of the Fund is 1% of the amount of deposits covered by the Deposit Guarantee Fund and must be reached by 31 December 2023.</p> <p>85% of the contribution to the resolution fund is payable in cash, in the form of an annual contribution. The remaining 15% is the subject of an irrevocable payment commitment, collateralised through a cash security deposit held by the Fund. The deposit will be held for the duration of the commitment. It is repayable at maturity.</p> <p>Thus, for the 2016 financial year, Crédit Agricole CIB Group paid €140 million in respect of the annual contribution, as opposed to €77 million for year ended 31 December 2015, recognised in the income statement in taxes other than on income or payroll related.</p> <p><b>3/ Tax consolidation convention</b></p> <p>97.33% owned by Crédit Agricole S.A. (<b>CASA</b>), whether directly or indirectly, Crédit Agricole CIB (<b>CACIB</b>) is part of the tax consolidation group constituted by CASA and is head of the CACIB tax sub-group constituted with the member subsidiaries of the tax consolidation group. Under the terms of the tax consolidation convention, the losses of the CACIB sub-group were, until 31 December 2015, compensated by CASA up to the limit of CACIB's integrated individual losses. A revision of the tax consolidation convention in 2016 stipulates the compensation by CASA of the losses generated as of</p>

This payment must be made within three months of notification of the decision, namely on 8 March 2017 at the latest. The Commission does not specify how it should be allocated between Crédit Agricole S.A. and Crédit Agricole CIB and leaves it up to them to contractually agree the portion of the fine allocated to each, in line with European Court of Justice case law.</p> <p>Crédit Agricole S.A. and Crédit Agricole CIB, which are challenging this decision, have decided to petition the European Court of Justice to overturn it. Various procedural and substantive arguments will be put forward to support the appeal. Therefore, even though the fine is immediately payable it may be overturned.</p> <p>Pending the decision of the European Court (see Note 6.18 “Reserves” to the consolidated financial statements), Crédit Agricole S.A. decided to provisionally pay the full amount of the fine.</p> <p>It should be recalled that Crédit Agricole S.A. is, as central body, responsible for the liquidity and solvency of all its affiliates including Crédit Agricole CIB.</p> <p>[Not Applicable. [The Securities are subject to **Collateral Monitoring**, which means that following a **Collateral Test Date** (being [*specify relevant Collateral Test Dates*]), the [Issuer][Third Party Chargor] may be required to deliver, or procure delivery of, additional or replacement Collateral Assets to or from the Collateral Account such that after adjustment of the Collateral Assets, the **Collateral Test** will be satisfied. The Collateral Test requires that (i) the Collateral Rules are satisfied and (ii) the value of the Collateral

The **Collateral Rules** are *[specify the applicable Collateral Rules]*. Crédit Agricole CIB, in its capacity as the **Collateral Manager** is entitled to request from time to time and on behalf of the *[Issuer]**[Third Party Chargor]* that Collateral Assets *[in the Collateral Account are substituted with alternative Collateral Assets and that Collateral Assets]* are withdrawn from the Collateral Account, provided *[in either case]* that following such withdrawal *[or substitution, as the case may be,]* the Collateral Test will be satisfied.]

*[The Securities are not subject to **Collateral Monitoring**, which means that *[the]* *[neither the ]**[Issuer]* *[nor the ]**[Third Party Chargor]* is *[not]* obliged to deliver, or procure delivery of, additional or replacement Collateral Assets to or from the Collateral Account following any change to the value of the Collateral Assets.]*

The security over the Collateral Assets may only be enforced in accordance with the terms and conditions applicable to the Secured Securities (the **Secured Securities Conditions**), following a Secured Securities Event of Default (as defined below) and following service by a Securityholder of a notice specifying that the Securities *[are immediately due and repayable at their Early Redemption Amount]**[that such Securities will be subject to physical settlement in accordance with the Secured Securities Conditions]* (a **Secured Securities Acceleration Event**). A **Secured Securities Event of Default** will occur if:

1. there occurs an Event of Default; *[or]*
2. *[a notice is served following a failure to comply with the provisions of the Secured Securities Conditions relating to Collateral Monitoring; or]*
3. there is a failure by the Issuer *[or Third Party Chargor]* to comply with the security trust deed entered into by the Security Trustee and the Issuer in respect of the Secured Securities (the **Security Trust Deed**) or the *[pledge agreement]**[specify other security document]* between the *[Issuer]**[Third Party Chargor]*, the Custodian and the Security Trust Deed in respect of the Securities (the **Pledge Agreement**) (subject to any applicable grace period), the Security Trust Deed or Pledge Agreement terminates or any security granted by the Issuer *[or the Third Party Chargor]* ceases to be in full force and effect, or certain similar circumstances occur.

On enforcement of the security over the Collateral Assets, the Securities shall be immediately due and payable at the Fair Market Value Redemption Amount and Securityholders shall be entitled to *[receive an amount equal to]**[delivery of Collateral Assets in lieu of]* the Fair Market Value Redemption Amount*[, provided that if:*

- (a) the Early Redemption Event is as a result of a default of the Issuer or the Guarantor; and
- (b) the Hedge Amount (as defined below) is a positive amount,

then in the determination of the Fair Market Value Redemption Amount the Hedge Amount shall be modified by multiplying it by a fraction equal to  $HA/(HA+PAR)$  where HA is the Hedge Amount before the adjustment and PAR is the aggregate outstanding nominal amount of the Securities*[Only for Secured Securities in respect of which Pro Rata Priority is specified as applicable].]*

**[[Fair Market Value Redemption Amount:**

The Fair Market Value Redemption Amount in respect of a Security will be an amount equal to the nominal amount of such Security outstanding as at the date of calculation, multiplied by *[●]* per cent.]

summary, equal to the fair market value of the Securities as at (or about) the date of early redemption, taking into account, without limitation, the deduction of the Hedge Amount *[[in the case of Italian Listed Certificates) except for an early redemption following the occurrence of an Additional Disruption Event]]* and the value of the relevant Bond *(in the case of the Bond Linked Securities)* but disregarding any collateral which has been, or is required to be, delivered in connection with the Securities and (only in case of a payment event of default under the Securities or an insolvency of the relevant Issuer [and/or the Guarantor]) the financial condition of the relevant Issuer [and/or the Guarantor].

If a Fair Market Value Redemption Amount has been determined for any reason other than the occurrence of a payment event of default under the Securities or an insolvency of the relevant Issuer [and/or the Guarantor] (the **Pre-Default FMVRA**) and is unpaid on the date on which a payment event of default under the Securities or an insolvency occurs with respect to the relevant Issuer [and/or the Guarantor] (the **Post-Default FMVRA Determination Date**), then the Pre-Default FMVRA will be deemed to be equal to the Fair Market Value Redemption Amount determined as of the Post-Default FMVRA Determination Date (the **Post-Default FMVRA**) and the Post-Default FMVRA shall disregard the financial condition of the relevant Issuer [and/or the Guarantor].

**Hedge Amounts** represent the losses or costs (expressed as a positive number) to the relevant Issuer or any affiliate thereof that are incurred or gains (expressed as a negative number) of the relevant Issuer or any affiliate thereof that are realised in unwinding any hedging arrangements entered into in respect of the relevant Securities (whether by the Issuer[, the Guarantor] or indirectly through an affiliate), provided that the determination of the Hedge Amount shall (only in case of a payment event of default with respect of the Securities or insolvency of the relevant Issuer [and/or the Guarantor]) disregard the financial condition of the relevant Issuer [and/or the Guarantor].

*[[In the case of the Bond Linked Securities which are Secured Securities and where the Collateral Assets consist in whole or in part of the relevant Bond)* The value of the relevant Bond shall be determined by reference to the value at which the Security Trustee, or a disposal agent on its behalf, is able to liquidate or realise the Bond in accordance with the terms of the Securities (after deducting any costs associated with the relevant enforcement and liquidation and any related fees or taxes). *[[In the case of Secured Securities)* In the event of a default by the Custodian, [the value of the Bond][the Fair Market Value Redemption Amount] shall be subject to a maximum of the value of the amounts actually recovered from the Custodian (or any agent, sub-custodian or delegate thereof).] The Fair Market Value Redemption Amount shall not be a negative number.]

**[Events of Default:**

Following the occurrence of one or more of the following events (each, an **Event of Default**):

1. default in the payment of any nominal [or interest] due on the Securities or the due date and such default continues for a specified time after written notice is received by the Issuer;
2. non-performance or non-observance by the Issuer [or Guarantor] of any of their other respective obligations and such default continues for a specified time after written notice (except where such failure is incapable of remedy when no notice will be required) is received by the Issuer [or Guarantor (as the case may be)]; [or]

**Withholding tax:**

[All payments of nominal [and interest] by or on behalf of the Issuer [or the Guarantor] in respect of the Securities will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of France [or Guernsey] unless such withholding or deduction is required by law or other laws to which the Issuer[, the Guarantor] or its agents agree to be subject and [neither] the Issuer [nor the Guarantor] will [not] be liable for any taxes or duties of whatever nature imposed or levied by such laws, regulations, directives or agreements.]

[The Issuer [or, as the case may be, the Guarantor] will, to the fullest extent permitted by French law [and (in the case of Securities issued by Crédit Agricole CIB FG) Guernsey law], pay such additional amounts as shall be necessary in order that the net amounts received by the Securityholders after withholding or deduction shall equal the respective amounts of nominal [and interest] which would otherwise have been receivable, in the absence of such withholding or deduction, subject to certain conditions.]

**Meetings:**

The terms of the Securities contain provisions for calling meetings of holders of the Securities to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the relevant majority.

**Governing Law:**

The Securities are governed by English law.

**Limitation of rights:**

***Prescription***

The Securities will become void unless claims in respect of nominal and/or interest are made within a period of 10 years (in the case of nominal) and five (5) years (in the case of interest) after the date on which the relevant payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the principal paying agent or the registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Securityholders in accordance with General Condition 9 (*Prescription*)

***[Redemption for tax reasons:***

The Issuer may have the right to terminate the Securities if the Issuer [or Guarantor (if it were required to make a payment under the Guarantee)] has or will become obliged to pay additional amounts pursuant to a “Gross Up” as a result of any change in, or amendment to, the laws or regulations of French law [and (in the case of Securities issued by Crédit Agricole CIB FG), Guernsey law] or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first tranche of the Securities and such obligation cannot be avoided by the Issuer [or the Guarantor] taking reasonable measures available to it. ## RISK FACTORS

*This section sets out the principal risks inherent in investing in Securities issued under the Programme.*

*Any investment in the Securities is subject to a number of risks. Prior to investing in the Securities, prospective investors should consider carefully the factors and risks associated with any investment in the Securities, the Issuers, and the Guarantor's business and the industry in which it operates, together with all other information contained in this Base Prospectus including, in particular, the risk factors described below. Prospective investors should note that the risks relating to the Issuers and the Guarantor, their industry and the Securities summarised in the section of this document headed "Summary" are the risks that the Issuers and the Guarantor consider the most essential to an assessment by a prospective investor of whether to consider an investment in the Securities. However, as the risks which the Issuers and the Guarantor face relate to events and depend on circumstances that may or may not occur in the future, prospective investors should consider not only the information on the key risks summarised in the section of this document headed "Summary" but also, amongst other things, the risks and uncertainties described below.*

*Each of the Issuers and the Guarantor believes that the following factors may affect its ability to fulfil its obligations under Securities issued under the Programme. Many of these factors are contingencies, which may or may not occur and none of the Issuers nor the Guarantor are in a position to express a view on the likelihood of any such contingency occurring. The risks described below for the purpose of assessing the market risks associated with Securities issued under the Programme are not exhaustive. Additional risks and uncertainties relating to the Issuers and the Guarantor that are not currently known to the Issuers and the Guarantor, or that it currently deems immaterial, may individually or cumulatively also have a material adverse effect on the Issuers and the Guarantor's business, prospects, results of operations and financial position and, if any such risk should occur, the price of the Securities may decline and investors could lose all or part of their investment.*

*Each of the Issuers and the Guarantor believes that the factors described below represent the principal risks inherent in investing in Securities issued under the Programme, but the inability of the relevant Issuer or the Guarantor to pay interest, nominal or other amounts on or in connection with any Securities may occur for other reasons (i) which may not be considered significant risks by the Issuers and the Guarantor based on information currently available to them or (ii) which they may not currently be able to anticipate. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision. Prospective investors should consider carefully whether an investment in the Securities is suitable for them in the light of the information in this Base Prospectus and their personal circumstances.*

*Capitalised terms not defined in this section have the meanings given to them in the Terms and Conditions of the Securities.*

**1 FACTORS THAT MAY AFFECT CRÉDIT AGRICOLE CIB'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER SECURITIES ISSUED UNDER THE PROGRAMME OR TO FULFIL ITS OBLIGATIONS UNDER THE GUARANTEE**

Such factors are set out at pages 136 to 161, 226 to 233 and 306 of the 2015 Registration Document as well as pages 10 to 20 of the Update to the 2015 Registration Document incorporated herein by reference (see "*Documents Incorporated by Reference*").

**2 FACTORS THAT MAY AFFECT CRÉDIT AGRICOLE CIB FG'S OR CRÉDIT AGRICOLE CIB FS'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER SECURITIES ISSUED UNDER THE PROGRAMME**

The financial instruments, other than derivatives, of Crédit Agricole CIB FG and Crédit Agricole CIB FS comprise money market assets (loans to the parent company) and debt securities issued.

Crédit Agricole CIB FG and Crédit Agricole CIB FS also enter into derivatives transactions (principally swaps and options).

**(a) Creditworthiness of each Issuer and, as the case may be, the Guarantor**

The Securities constitute general and (except for the Secured Securities) unsecured contractual obligations of each Issuer and of no other person and the Guarantee constitutes general and unsecured contractual obligations of the Guarantor and of no other person, which will rank equally with all other unsecured contractual obligations of the relevant Issuer (except for the Secured Securities) and the Guarantor, respectively, and behind preferred liabilities, including those mandatorily preferred by law. The Issuers issue a large number of financial instruments, including the Securities, on a global basis and, at any given time, the financial instruments outstanding may be substantial. Securityholders rely upon the creditworthiness of the relevant Issuer and, as the case may be, the Guarantor and no other person and where the Securities relate to securities, Securityholders have no rights against the company that has issued such securities, and where the Securities relate to an index, Securityholders have no rights against the sponsor of such index and where the Securities relate to a fund, Securityholders have no rights against the manager of such fund. Further, an investment in the Securities is not an investment in the underlying asset(s) and Securityholders will have no rights in relation to voting rights or other entitlements (including any dividend or other distributions). The Securities are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of any underlying assets and such entities have no obligation to take into account the consequences of their actions on any Securityholders.

**(b) Risk management**

Crédit Agricole CIB FG and Crédit Agricole CIB FS management regard the monitoring and controlling of risk as a fundamental part of the management process and accordingly involves its most senior staff in developing risk policy and in monitoring its application. The evaluation of the risks inherent in Crédit Agricole CIB FG and Crédit Agricole CIB FS activities and the development of policies and procedures to control them is carried out by the Boards of Directors or senior management.

**(c) Credit risk**

Credit risk is the risk that a customer or counterparty will be unable or unwilling to meet a commitment that it has entered into with Crédit Agricole CIB FG or Crédit Agricole CIB FS (as the case may be). Crédit Agricole CIB FG and Crédit Agricole CIB FS manage their credit risk through transacting only with their parent company or other group companies.

**(d) Liquidity risk**

Liquidity risk is the risk that Crédit Agricole CIB FG or Crédit Agricole CIB FS (as the case may be) will encounter difficulty in realising assets or otherwise raising funds to meet commitments. Crédit Agricole CIB FG and Crédit Agricole CIB FS perfectly hedge the issue of debt securities through the loans to their parent company, which match in all relevant respects the issued debt.

**(e) Interest rate risk**

Exposure to interest rate risk is the risk that arises when there is an imbalance between rate and non-rate sensitive assets, liabilities and off balance sheet items. Crédit Agricole CIB FG and Crédit Agricole CIB FS policy is to maintain the interest rate at a nil level.

**(f) Foreign currency risk**

Foreign currency risk is the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. Crédit Agricole CIB FG and Crédit Agricole CIB FS foreign exchange exposure arises from issuing debt in currencies other than Euro. Crédit Agricole CIB FG and Crédit Agricole CIB FS policy is to hedge against foreign exchange risks by engaging in exchange rate swaps with their parent company.

Consideration of the above risk factors should also allow for the fact that (i) Crédit Agricole CIB FG and Crédit Agricole CIB FS systematically hedge themselves with appropriate hedging instruments or contracts, all contracted with Crédit Agricole CIB acting as hedge counterparty, and (ii) Crédit Agricole CIB, in accordance with the terms of the Guarantee, has agreed to irrevocably and unconditionally guarantee the payment and delivery obligations of Crédit Agricole CIB FG and/or Crédit Agricole CIB FS, as the case may be, under or in respect of the Securities.

### **3 FACTORS WHICH ARE MATERIAL FOR THE PURPOSE OF ASSESSING THE MARKET RISKS ASSOCIATED WITH SECURITIES ISSUED UNDER THE PROGRAMME**

**(a) The Securities may not be a suitable investment for all investors**

The purchase of the Securities may involve substantial risks and is suitable only for sophisticated investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and the merits of an investment in the Securities. Each potential investor in the Securities must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Securities, the merits and risks of investing in the Securities and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Securities and the impact the Securities will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Securities, including Securities with nominal or interest payable in one or more currencies, or where the currency for nominal or interest payments is different from the potential investor's currency;

- (iv) understand thoroughly the terms of the Securities and be familiar with the behaviour of any relevant Underlying(s) and any other relevant indices, asset prices and rates, and with credit risk and the financial markets generally; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Securities are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Securities which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Securities will perform under changing conditions, the resulting effects on the value of the Securities and the impact this investment will have on the potential investor's overall investment portfolio.

**(b) Risks related to the structure of a particular issue of Securities**

A wide range of Securities may be issued under the Programme. A number of these Securities may have features, which contain particular risks for potential investors. Set out below is a description of the most common such features:

*(i) Securities subject to redemption following a scheduled payment currency cessation event*

With the exception of Italian Listed Notes, to which this does not apply, if the Specified Currency (or, in the case of Securities to which the Dual Currency (Interest) Payoff Feature or the Dual Currency (Redemption) Payoff Feature applies, the Interest Currency or the Redemption Currency, as the case may be) ceases to exist at any time as a lawful currency for any reason whatsoever, the relevant Issuer, in its sole and absolute discretion, may redeem all, but not some only, of the Securities early on a date to be specified by the Issuer, each Security being redeemed at its Fair Market Value Redemption Amount denominated in any currency selected by the Calculation Agent or the currency then adopted in France.

*(ii) Securities subject to optional redemption by the relevant Issuer*

An optional redemption feature of Securities is likely to limit their market value. During any period when the relevant Issuer may elect to redeem Securities, the market value of those Securities generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The relevant Issuer may be expected to redeem Securities when its cost of borrowing is lower than the interest rate on the Securities. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

*(iii) Securities subject to automatic redemption*

Securities may be subject to automatic early redemption if certain conditions (as specified in the Terms and Conditions of the Securities) are met. Such features may negatively affect the value of the Securities and may lead to redemption at an amount or time less favourable for Securityholders.

(iv) *Securities subject to interest and/or redemption switch provisions*

Securities may have features, which provide for a change of the interest rate and/or redemption formula upon certain events. Such features may negatively affect the value of the Securities or result in a less favourable interest rate and/or amount payable on redemption, as the case may be.

(v) *Variable rate Securities in respect of which interest and/or redemption payments are subject to a multiplier, dual currency provisions or other leverage or other similar factor*

If Securities are structured such that the amount payable in respect of interest (if any) or nominal is subject to the application of multipliers, dual currency provisions or other leverage or other similar factors, or a combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

In respect of any such Securities, small changes in the value of the Underlying(s) or the payment currency may have disproportionate consequences on the Interest Amounts and/or the Redemption Payoffs paid in respect of the Securities and investors may not receive any Interest Amounts and/or Redemption Payoffs reflecting any positive performance of the Underlying or the payment currency and any negative performance of the Underlying(s) or the currency relevant to the amount of such payment may be magnified.

(vi) *Securities in respect of which interest and/or redemption payments are subject to a cap and/or a floor*

If Securities are structured such that the amount payable in respect of interest (if any) or nominal is subject to the application of a cap or a floor, or a combination of those factors or similar related features, their market values may be even more volatile than those for securities that do not include those features. In particular, but without limiting the generality of the foregoing, the effect of a cap or floor, or a combination thereof, may mean that the investor will not fully participate in any positive performance of the Underlying(s) and any payments in respect of the Securities will be lower than they would have been without a cap, floor or combination thereof, as the case may be.

(vii) *Securities linked to the performance of an Underlying*

The Interest Amounts (if any) and/or Redemption Payoffs payable in respect of any Series of Securities may be linked to the level or price of an Underlying on a certain date or dates and/or the change in the level of an Underlying over a specified period of time. Where Securities are linked to the change in the level or price of an Underlying over a specified period of time, investors should appreciate that they are taking a view on the change in the level or price of the Underlying during the relevant period and/or on the relevant date(s), as the case may be.

(viii) *Securities linked to a Basket of Underlyings*

Where Securities are linked to the level or price of multiple Underlyings forming groups of asset-baskets (each, a Basket), investors will be exposed to the value of the Baskets and will bear risk in relation to the level or price of each of the Underlyings in the Baskets.

Investors should be aware that, even in the case of a positive performance of one or more of the Underlyings in the Basket, the value of the Basket as a whole may be negative if the performance of any or all of the other Underlyings in the Basket is negative to a greater extent.

Investors should also be aware that the value of a Basket that includes fewer Underlyings will generally be affected to a greater extent by changes in the level or price of any particular Underlying included in the Basket than a Basket that includes a greater number of Underlyings.

Where the Underlyings in a Basket are subject to weighting, the performance of an Underlying with a greater weighting in the Basket will generally have a greater effect on the performance of the Basket than an Underlying with a lesser weighting in the Basket.

(ix) *Securities in respect of which the applicable interest rate may be subject to periodic change*

Investors are subject to the risk that any periodic increases in the interest rate applicable to the Securities do not keep pace with any increase in market interest rates, with the consequence that the real return on the Securities (and the value of the Securities) falls. Even if market interest rates decrease, investors are also subject to the risk that any periodic decreases in the interest rate applicable to the Securities may be greater than the decrease in market interest rates, with the consequence that the real return on the Securities (and the value of the Securities) falls.

(x) *Securities subject to inverse exposure*

Securities may have a Linked Interest Rate and/or Redemption Payoff equal to a fixed rate minus the value of an Underlying. The market value of those Securities typically are more volatile than market values of other conventional debt securities based on the same Underlying (and with otherwise comparable terms). Those types of Securities are more volatile because an increase in the value of the Underlying not only decreases the Linked Interest Rate and/or Redemption Payoff of the Securities, as the case may be, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of such Securities.

(xi) *Securities potentially subject to a loss on redemption*

The amount repayable on redemption of a Security may be determinable by reference to a formula, which may, when calculated and in particular circumstances, yield a negative number. Depending on the particular terms and conditions of the Securities, this may result in the Securities being redeemable at an amount that is less than their face value with the consequence that Securityholders would suffer a loss of some of or all the nominal amount of the Securities.

(xii) *Fixed/Floating Rate Securities*

Fixed/Floating Rate Securities may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the relevant Issuer has the right to effect such a conversion, this rate will affect the secondary market and the market value of the Securities since the relevant Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the relevant Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Securities may be less favourable than then prevailing spreads on comparable Floating Rate Securities tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Securities. If the relevant Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on its Securities.

(xiii) *The yield associated with Fixed Rate Securities or Zero Coupon Securities will differ according to the price at which the Securities are purchased*

The indication of yield or accrual yield stated within any Final Terms of Securities applies only to investments made on the Issue Date and at (as opposed to above or below) the issue price of such Securities. If an investor invests in Securities at another price and/or on a different date,

the yield or accrual yield on that particular investor's investment in the Securities will be different from the indication of yield or accrual yield on the Securities as set out in the Final Terms.

(xiv) *Zero Coupon Securities*

The prices at which Zero Coupon Securities trade in the secondary market tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

(xv) *Structured Securities*

An investment in Securities, the premium and/or the interest on or nominal of which is determined by reference to one or more values of currencies, commodities, interest rates, exchange traded funds, shares or other indices or formulae, either directly or inversely, may entail significant risks not associated with similar investments in a conventional debt security, including the risks that the resulting interest rate will be less than that payable on a conventional debt security at the same time and/or that an investor may lose the value of its entire investment or part of it, as the case may be. Neither the current nor the historical value of the relevant currencies, commodities, interest rates, exchange traded funds, shares or other indices or formulae should be taken as an indication of future performance of such currencies, commodities, interest rates, exchange traded funds, shares or other indices or formulae during the term of any Securities.

(xvi) *Benchmark regulation*

On 18 September 2013, the European Commission issued a draft proposed regulation (2013/0314) with respect to indices and reference indices ("benchmarks") used in connection with financial instruments and financial contracts. The European Parliament and Council reached a political agreement in November 2015 and the proposed benchmark regulation was adopted by the European Parliament on 28 April 2016 (the **Benchmark Regulation**). The Benchmark Regulation entered into force on 30 June 2016.

The Benchmark Regulation seeks to (i) improve the governance and controls involved in the process of establishing indices by regulating the activity of reference index providers ("administrators") and (ii) to improve the quality of underlying information and the methods used by administrators by ensuring the systematic use of adequate sources, and proven calculation methods.

The Benchmark Regulation creates three categories of benchmarks, subject to different supervisory regimes depending on how much influence they have over the stability of financial markets:

- "critical" benchmarks influence financial instruments and contracts with an average value of at least €500 billion; a benchmark may also be deemed critical if it has no or very few appropriate substitutes and if it were to cease to be provided, there would be a significant and adverse impact on market stability;
- "significant" benchmarks influence financial instruments or financial contracts having a total average value of at least €50 billion;

- “non-significant” benchmarks are those that do not fulfill the conditions set for the “significant” category.

Benchmarks could be moved from one category to another when necessary.

Under the Benchmark Regulation, all benchmark administrators will have to be authorised by a competent authority or registered, even if they provide only non-significant benchmarks. They will have to publish a “benchmark statement” defining precisely what their benchmark measures, describing the methodology and procedures for calculating the benchmark and advising user about the impact a change or cessation of the benchmark may have on financial contracts.

Data used to set a benchmark will be subject to quality standards designed to ensure that it accurately reflects the reality that it is meant to measure. Where the benchmark is based on underlying information provided by entities contributing to the establishment of references indices (“contributors”), the data must come from reliable contributors who are bound by a code of conduct for each benchmark.

Critical benchmark administrators will have to have a clear organisational structure to prevent conflicts of interest, and be subject to effective control procedures.

Administrators of non-significant benchmarks will be exempted from fulfilling certain conditions but will have to immediately notify the competent authority if the benchmark exceeds the €50 billion threshold.

Finally, investor protection will be increased to the extent that supervised entities (e.g. banks) using such benchmarks will be obliged to carry out an evaluation with respect to whether the reference index is appropriate to the specific requirements of the investor, particularly in the case of retail investors.

(xvii) *Credit Linked Securities*

Credit Linked Securities differ from ordinary debt securities in that the amount of nominal amount outstanding and/or interest payable by the relevant Issuer is dependent on whether any Credit Event(s) have occurred and that payments upon redemption (whether at maturity or earlier) may be linked to the value of the Reference Obligation(s) including, if applicable, the value of any related underlying hedging arrangements (which may include interest rate or cross-currency swaps) and that this may be less than the full amount of investors' initial investment and result in investors not receiving repayment of all or any of their initial investment in Credit Linked Securities.

The likelihood of a Credit Event occurring with respect to a Reference Entity will generally fluctuate with, amongst other things, the financial condition of the Reference Entity, general economic conditions, the condition of certain financial markets, political events, developments or trends in any particular industry and changes in prevailing interest or foreign exchange rates. The historical experience of obligors and assets comparable to a Reference Entity is not necessarily indicative of the risk of Credit Events occurring with respect to that Reference Entity.

Corporate actions of any Reference Entities (for example, merger or demerger) or the repayment or transfer of indebtedness of the Reference Entities may adversely affect the value of the Securities. Factual situations may arise in which the views of market participants and/or legal counsel may differ as to how the contractual terms of market standard credit default

swaps, and corresponding provisions of the Securities, should be interpreted, or in which such contractual terms and such provisions may operate in a manner contrary to the expectations of market participants and/or adversely to the interests of holders of the Securities.

The Calculation Agent will have discretion in determining when and whether to trigger redemption of the Securities on the basis of a Credit Event. It will exercise such discretion as it deems appropriate, and not in the interests of investors. Information relating to Credit Events may be derived from private and public sources, which may or may not be accessible to all Securityholders.

The Calculation Agent will have discretion in selecting the Deliverable Obligations or Valuation Obligations, as the case may be, following the occurrence of a Credit Event, subject to, amongst other things, compliance with the applicable Deliverable Obligation Category and Deliverable Obligation Characteristics and following consultation with the relevant Issuer. In exercising such discretion, it may select for such purpose eligible obligations having the lowest possible market value, resulting in an increased loss for holders of the Securities.

In certain circumstances – for example where a potential Credit Event occurs and has not been cured as at the scheduled redemption of the Securities, the redemption date of the Securities will be extended without compensation to the investors. The period of such deferral may be significant.

When buying Nth-to-Default CLSs or Linear Basket CLSs, the more diversified the portfolio of Reference Entities, the more likely that a Credit Event will occur to one of the Reference Entities, increasing the risk to the investor (i.e. the more Reference Entities there are, and the less they are correlated, the more the risk profile of the portfolio increases).

None of the Issuers, the Calculation Agent, any Third Party Chargor, the Guarantor, the Arranger or any of their respective affiliates makes any representation in respect of Credit Linked Securities as to the credit quality of any Reference Entity. Any of such persons may have acquired, or during the term of the Securities may acquire, non-public information with respect to a Reference Entity, its respective affiliates or any guarantors, that is or may be material in the context of Credit Linked Securities. The issue of Credit Linked Securities will not create any obligation on the part of any such persons to disclose to the Securityholders or any other party such information (whether or not confidential).

See also the risk factor entitled "*Risks related to Credit Linked Securities*" below.

Each of the Issuers, the Calculation Agent, any Third Party Chargor, the Guarantor, the Arranger or their respective affiliates may deal with and engage generally in any kind of commercial or investment banking or other business with any Reference Entity, its respective affiliates or any guarantor or any other person or entity having obligations relating to any Reference Entity or its respective affiliates or any guarantor in the same manner as if any Credit Linked Securities issued under the Programme did not exist, regardless of whether any such action might have an adverse effect on a Reference Entity, any of its respective affiliates or any guarantor.

(xviii) *Bond Linked Securities*

Bond Linked Securities differ from ordinary debt securities in that the amount of nominal amount outstanding and/or interest payable by the relevant Issuer is dependent on whether any Bond Event(s) have occurred and that payments upon redemption (whether at maturity or earlier) may be linked to the value of the relevant Bond including, if applicable, the value of

any related underlying hedging arrangements (which may include interest rate or cross-currency swaps) and that this may be less than the full amount of investors' initial investment and result in investors not receiving repayment of all or any of their initial investment in Bond Linked Securities.

The likelihood of a Bond Event occurring will generally fluctuate with, amongst other things, the financial condition of the Bond Issuer, general economic conditions, the condition of certain financial markets, political events, developments or trends in any particular industry and changes in prevailing interest or foreign exchange rates. The historical experience of other bonds comparable to a Bond is not necessarily indicative of the risk of a Bond Event occurring with respect to that Bond.

Corporate actions of any Bond Issuer may adversely affect the value of the Securities. Factual situations may arise in which the views of market participants and/or legal counsel may differ as to whether a Bond Event has occurred and whether such contractual terms and such provisions may operate in a manner contrary to the expectations of market participants and/or adversely to the interests of holders of the Securities.

The Calculation Agent will have discretion in determining when and whether to trigger redemption of the Securities on the basis of a Bond Event. It will exercise such discretion as it deems appropriate and not in the interests of investors. Information relating to Bond Events may be derived from private and public sources, which may or may not be accessible to all Securityholders.

In certain circumstances where a potential Bond Event occurs and has not been cured as at the scheduled redemption of the Securities, the maturity of the Securities will be extended without compensation to the investors. The period of such deferral may be significant.

When buying Basket BLSs, the more diversified the portfolio of Bonds, the more likely that a Bond Event will occur to one of the Bonds, increasing the risk to the investor (i.e. the more Bonds there are, and the less they are correlated, the more the risk profile of the portfolio increases).

None of the Issuers, the Calculation Agent, any Third Party Chargor, the Guarantor, the Arranger or any of their respective affiliates makes any representation in respect of Bond Linked Securities as to the credit quality of any Bond or Bond Issuer. Any of such persons may have acquired, or during the term of the Securities may acquire, non-public information with respect to the Bond Issuer, its respective affiliates or any guarantors, that is or may be material in the context of Bond Linked Securities. The issue of Bond Linked Securities will not create any obligation on the part of any such persons to disclose to the Securityholders or any other party such information (whether or not confidential).

See also the risk factor entitled "*Risks related to Bond Linked Securities*" below.

Each of the Issuers, the Calculation Agent, any Third Party Chargor, the Guarantor, the Arranger or their respective affiliates may deal with and engage generally in any kind of commercial or investment banking or other business with the Bond or any Bond Issuer, its respective affiliates or any guarantor or any other person or entity having obligations relating to the Bond Issuer or its respective affiliates or any guarantor in the same manner as if any Bond Linked Securities issued under the Programme did not exist, regardless of whether any such action might have an adverse effect on the Bond or the Bond Issuer, any of its respective affiliates or any guarantor.

(c) **Risks related to Securities generally**

Set out below is a brief description of certain risks relating to the Securities generally:

(i) *General*

The Securities involve a high degree of risk, which may include, among other things, risks relating to the funding rate of the relevant Issuer, the spot and forward levels of any Underlying, the imposed volatility of any Underlying, interest rates, foreign exchange rates, time value and political risks. Prospective purchasers of Securities should recognise that their Securities, other than any Securities having a minimum redemption value, may mature worthless. Purchasers should be prepared to sustain a total loss of the purchase price of their Securities, except, if so indicated in the applicable Final Terms, to the extent of any minimum redemption value attributable to such Securities. Prospective purchasers of Securities should be experienced with respect to options and option transactions, should understand the risks of transactions involving the relevant Securities and should reach an investment decision only after careful consideration, with their advisers, of the suitability of such Securities in light of their particular financial circumstances, the information set forth herein and the information regarding the relevant Securities and the particular reference equity index (or basket of equity indices), FX rate (or basket of FX rates), commodity (or basket of commodities), benchmark rate (or basket of benchmark rates), inflation index (or basket of inflation indices), proprietary index (or basket of proprietary indices), exchange traded fund (or basket of exchange traded funds) or share (or basket of shares) or combination of any of them, as may be specified in the applicable Final Terms.

(ii) *Modification*

The conditions of the Securities contain provisions for calling meetings of Securityholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Securityholders including Securityholders who did not attend and vote at the relevant meeting and Securityholders who voted in a manner contrary to the relevant majority.

The Issuer may also modify the Terms and Conditions of the Securities without the consent of the Securityholders in any manner which the relevant Issuer and/or the Calculation Agent may deem necessary or desirable provided that such modification (i) is not materially prejudicial to the interests of the Securityholders; and/or (ii) is of a formal, minor or technical nature or is made to correct a manifest or proven error or omission, to cure, correct or supplement any defective provision contained in the Terms and Conditions of the Securities, or to comply with mandatory provisions of law or regulation or to comply with any requirement of any stock exchange on which the Securities may be listed.

(iii) *Unsecured obligations*

Save in respect of Secured Securities (in respect of which, please see "*Risks related to Secured Securities*" below), the Securities and the Guarantee each constitute general, unsecured, contractual obligations of the Issuers and, as the case may be, the Guarantor and of no other person. Any person who purchases such Securities is relying upon the creditworthiness of the Issuers and the Guarantor and has no rights under the Terms and Conditions against any other person. Neither the Securities nor the Guarantee will (with the exception of Secured Securities) be secured by any property of the Issuers or the Guarantor and all Securities rank equally among themselves and, together with the Guarantee, with all other unsecured and unsubordinated obligations of the Issuers and, as the case may be, the Guarantor.

(iv) *French insolvency law*

Under French insolvency law holders of debt securities are automatically grouped into a single assembly of holders (the **Assembly**) in order to defend their common interests if a preservation (*procédure de sauvegarde*), an accelerated preservation procedure (*procédure de sauvegarde accélérée*) (procedure applicable from 1 July 2014), an accelerated financial preservation procedure (*procédure de sauvegarde financière accélérée*) or a judicial reorganisation procedure (*procédure de redressement judiciaire*) is opened in France with respect to the relevant Issuer.

The Assembly comprises holders of all debt securities issued by the relevant Issuer (including the Securities), whether or not under a debt issuance programme (such as a security programme) and regardless of their governing law.

The Assembly deliberates on the proposed safeguard plan (*projet de plan de sauvegarde*), draft accelerated safeguard plan (*projet de plan de sauvegarde accélérée*) (procedure applicable from 1 July 2014), draft accelerated financial safeguard plan (*projet de plan de sauvegarde financière accélérée*) or judicial reorganisation plan (*projet de plan de redressement*) applicable to the relevant Issuer and may further agree to:

- (a) increase the liabilities (charges) of holders of debt securities (including the Securityholders) by rescheduling due payments and/or partially or totally writing-off receivables in the form of debt securities;
- (b) establish an unequal treatment between holders of debt securities (including the Securityholders) as appropriate under the circumstances; and/or
- (c) decide to convert debt securities (including the Securities) into securities that give or may give rights to share capital.

Decisions of the Assembly will be taken by a two-thirds majority (calculated as a proportion of the debt securities held by the holders attending such Assembly or represented thereat). No quorum is required to convene the Assembly.

For the avoidance of doubt, the provisions relating to the meetings of the Securityholders described in the Terms and Conditions of the Securities set out in this Base Prospectus and the Agency Agreement will not be applicable to the extent they are not in compliance with mandatory insolvency law provisions that apply in these circumstances.

(v) *Taxation*

Potential purchasers and sellers of the Securities should be aware that they may be required to pay taxes or other documentary charges or duties (including potential taxes or other documentary charges or duties imposed in connection with a transfer of the Securities or a settlement thereof by way of physical delivery of certain securities) in accordance with the laws and practices of the country where the Securities are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available in respect of financial instruments such as the Securities. Potential investors cannot rely upon the tax summary contained in this Base Prospectus and should seek their own tax advice with respect to the acquisition, holding, sale and redemption of the Securities. Potential investors are also advised to ask for their own tax adviser's advice on their individual taxation when payments of interest and other income with respect to the Securities are made by a paying agent (within the meaning of Council Directive 2003/48/EC) established in Austria. Where

withholding or deduction is required to be made pursuant to Council Directives 2003/48/EC and 2015/2060/UE, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Security.

(vi) *Gross up*

The Securities will not have the benefit of a gross up provision in respect of withholding tax unless "Gross Up" is specifically provided as applicable in the applicable Final Terms. Where a gross up does not apply, investors will take the risk of any applicable withholding tax.

(vii) *French law and European legislation regarding the resolution of financial institutions*

Directive 2014/59/EU of the European Parliament and of the Council of the European Union dated May 15, 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (the **BRRD**) entered into force on July 2, 2014.

The stated aim of the BRRD and Regulation (EU) No. 806/2014 of the European Parliament and of the Council of the European Union of July 15, 2014 (the **SRM Regulation**) is to provide for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms. The regime provided for by the BRRD is, among other things, stated to be needed to provide the authority designated by each EU Member State (the **Resolution Authority**) with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions while minimizing the impact of an institution's failure on the economy and financial system (including taxpayers' exposure to losses). Under the SRM Regulation a centralized power of resolution is established and entrusted to the Single Resolution Board (the **SRB**) and to the national resolution authorities.

The powers provided to the Resolution Authority in the BRRD and the SRM Regulation include write-down/conversion powers to ensure that capital instruments (including subordinated debt instruments) and eligible liabilities (including senior debt instruments such as the Securities if junior instruments prove insufficient to absorb all losses) absorb losses of the issuing institution under resolution in accordance with a set order of priority (the **Bail-in Tool**). The conditions for resolution under the French Code monétaire et financier implementing the BRRD are deemed to be met when: (i) the Resolution Authority or the relevant supervisory authority determines that the institution is failing or is likely to fail, (ii) there is no reasonable prospect that any measure other than a resolution measure would prevent the failure within a reasonable timeframe, and (iii) a resolution measure is necessary for the achievement of the resolution objectives and winding up of the institution under normal insolvency proceedings would not meet those resolution objectives to the same extent.

The Resolution Authority could also, independently of a resolution measure or in combination with a resolution measure where the conditions for resolution are met, write-down or convert capital instruments (including subordinated debt instruments) into equity when it determines that the institution or its group will no longer be viable unless such write down or conversion power is exercised or when the institution requires extraordinary public financial support (except when extraordinary public financial support is provided in the form defined in Article L. 613-48 III, 3° of the French Code monétaire et financier).

The Bail-in Tool could result in the full (i.e., to zero) or partial write-down or conversion into ordinary shares or other instruments of ownership of the Securities or the Guarantee, or the variation of the terms of the Securities or the Guarantee (for example, the maturity and/or

interest payable may be altered and/or a temporary suspension of payments may be ordered). Extraordinary public financial support should only be used as a last resort after having assessed and applied, to the maximum extent practicable, the resolutions measures, including the Bail-in Tool. In addition, if the Issuer's financial condition deteriorates, the existence of the Bail-in Tool could cause the market price or value of the Securities to decline more rapidly than would be the case in the absence of such power.

In addition to the Bail-in Tool, the BRRD provides the Resolution Authority with broader powers to implement other resolution measures with respect to institutions that meet the conditions for resolution, which may include (without limitation) the sale of the institution's business, the creation of a bridge institution, the separation of assets, the replacement or substitution of the institution as obligor in respect of debt instruments, modifications to the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments), removing management, appointing an interim administrator, and discontinuing the listing and admission to trading of financial instruments.

As a Directive, the BRRD is not directly applicable in France and had to be transposed into national legislation. The French ordonnance No. 2015-1024 of August 20, 2015 transposed the BRRD into French law and amended the Code monétaire et financier for this purpose.

Before taking a resolution measure or exercising the power to write down or convert relevant capital instruments, the Resolution Authority must ensure that a fair, prudent and realistic valuation of the assets and liabilities of the institution is carried out by a person independent from any public authority.

Since January 1, 2016, French credit institutions, investment firms and financial institutions have to meet, at all times, a minimum requirement for own funds and eligible liabilities (**MREL**) pursuant to Article L. 613-44 of the French Code monétaire et financier. The MREL, which is expressed as a percentage of the total liabilities and own funds of the institution, aims at avoiding institutions to structure their liabilities in a manner that impedes the effectiveness of the Bail-in Tool.

In accordance with the provisions of the SRM Regulation, when applicable, the SRB, has replaced the national resolution authorities designated under the BRRD with respect to all aspects relating to the decision-making process and the national resolution authorities designated under the BRRD continue to carry out activities relating to the implementation of resolution schemes adopted by the SRB. The provisions relating to the cooperation between the SRB and the national resolution authorities for the preparation of the banks' resolution plans have applied since January 1, 2015 and the SRM has been fully operational since January 1, 2016.

The application of any resolution measure under the French BRRD implementing provisions or any suggestion of such application with respect to the Issuer or the Group could materially adversely affect the rights of Securityholders, the price or value of an investment in the Securities and/or the ability of the Issuer to satisfy its obligations under the Securities.

(viii) *European Market Infrastructure Regulation and Markets in Financial Instruments Directive*

Regulation (EU) No 648/2012, known as the European Market Infrastructure Regulation (**EMIR**) entered into force on 16 August 2012 and took direct effect in the member states of the European Union. Under EMIR certain over-the-counter (OTC) derivatives that are traded in the

European Union by financial counterparties (**FCs**), such as investment firms, credit institutions and insurance companies, and certain non-financial counterparties (**NFCs**) have to be cleared (the clearing obligation) via an authorised central clearing counterparty (a **CCP**). In addition, EMIR requires the reporting of OTC derivative contracts to a trade repository (the reporting obligation) and introduces certain risk mitigation requirements in relation to OTC derivative contracts that are not cleared by a CCP.

Under EMIR, a CCP will be used to meet the clearing obligation by interposing itself between the counterparties to the eligible derivative contracts. CCPs will connect with derivative counterparties through their clearing members. Each derivative counterparty which is required to clear OTC derivatives contracts will be required to post both initial and variation margin to the clearing member, which will in turn be required to post margin to the CCP. EMIR requires CCPs to only accept highly liquid collateral with minimal credit and market risk. Where an NFC enters into an OTC derivative contract, which is not "eligible" for clearing, it will have to ensure that appropriate procedures and arrangements are in place to monitor and minimise operational and credit risk.

Furthermore, parties subject to EMIR have to apply certain risk mitigation techniques in relation to timely confirmation, portfolio reconciliation and compression, and dispute resolution that are applicable to OTC derivatives contracts that are not cleared by a CCP. In addition, such parties are required to deliver certain information about any OTC derivatives contract to a registered or recognised trade repository. EMIR also imposes a record-keeping requirement pursuant to which counterparties must keep records of any derivative contract they have concluded and any modification for at least five years following the termination of the contract.

The EU regulatory framework relating to derivatives is set not only by EMIR but also by Directive 2014/65/EU (**MiFID II**) on markets in financial instruments, which repeals the existing Markets in Financial Instruments Directive, and Regulation (EU) No 600/2014 on markets in financial instruments (**MiFIR**). In particular, MiFID II require transactions in certain classes of OTC derivatives to be executed on a trading venue. In this respect, it is difficult to predict the full impact of these regulatory requirements on the Issuers.

Investors in the Securities should be aware that the regulatory changes arising from EMIR, MiFID II and MiFIR may in due course significantly raise the costs of entering into OTC derivative contracts and may adversely affect the Issuers' ability to engage in transactions in OTC derivative contracts. As a result of such increased costs or increased regulatory requirements, investors may receive less interest or return, as the case may be. Investors should be aware that such risks are material and that the Issuers could be materially and adversely affected thereby. The full impact of EMIR, MiFID II and MiFIR remains to be clarified. As such, investors should consult their own independent advisers and make their own assessment about the potential risks posed by EMIR, MiFID II and MiFIR and technical implementation in making any investment decision in respect of the Securities.

(ix) *Proposed Financial Transaction Tax*

On 14 February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **Participating Member States**). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Securities (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States and the scope of any such tax is uncertain. Additional EU Member States may decide to participate.

Prospective holders of Securities are advised to seek their own professional advice in relation to the FTT.

(x) *Potential U.S. Foreign Account Tax Compliance Act Withholding*

The foreign account tax compliance provisions of the Hiring Incentives to Restore Employment Act of 2010 (**FATCA**) impose a withholding tax of 30% (**FATCA Withholding**) on certain U.S.-source payments and proceeds from the sale of assets that give rise to U.S.-source interest or dividends (including Dividend Equivalent Payments, as defined in (viii) *Legislation Affecting Dividend Equivalent Payments* below), as well as certain payments by non-U.S. entities to persons that fail to meet certain certification or reporting requirements. Under current law, withholding is currently imposed in respect of certain U.S.-source payments (including interest and dividends) and will be imposed starting (x) 1 January 2019 in respect of proceeds from the sale of assets that give rise to U.S.-source interest or dividends and (y) 1 January 2019, at the earliest, in respect of "foreign passthru payments" (which term is not yet defined under existing FATCA guidance). The Issuer and other financial institutions through which payments on the Securities are made may be required to withhold on account of FATCA if (a) an investor does not provide information sufficient for the Issuer or the relevant financial institution to determine whether the investor is subject to FATCA Withholding or (b) a "foreign financial institution" (as defined under FATCA) to or through which payment on the Securities are made (including a foreign financial institution that is a beneficial owner of the Securities) does not become a "participating foreign financial institution" by entering into an agreement with the U.S. Internal Revenue Service to provide certain information on its account holders.

The application of FATCA to interest, nominal or other amounts paid with respect to the Securities is not clear. In particular, Guernsey and France have entered into intergovernmental agreements with the United States to help implement FATCA for certain entities in those jurisdictions. The full impact of such agreement on the Issuer and its reporting and withholding responsibilities under FATCA is unclear. As a result of Guernsey and France entering into intergovernmental agreements with the United States, the Issuer may be required to report certain information on its U.S. account holders to the governments of Guernsey and France (as applicable) in order (i) to obtain an exemption from FATCA Withholding on payments the Issuer receives and/or (ii) to comply with any applicable domestic laws. It is not yet certain how the United States, Guernsey and France will address withholding on "foreign passthru payments" (which may include payments on the Securities) or if such withholding will be required at all.

If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, nominal or other payments on the Securities, neither the relevant Issuer nor any Agent nor any

other person would, pursuant to the conditions of the Securities, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may receive less interest or nominal than expected. The Securityholders should consult their own tax advisers on how these rules may apply to payments they receive under the Securities.

FATCA is particularly complex and its application with respect to "foreign passthru payments" is uncertain at this time. Each prospective investor should consult its own tax advisor to obtain a more detailed explanation of FATCA and to learn how this legislation might affect the investor in its particular circumstance. The application of FATCA to Securities that may be affected by FATCA may be addressed in any applicable drawdown prospectus or a Supplement to the Base Prospectus, as applicable. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, nominal or other payments on the Securities, and if General Condition 6.5 (*Redemption for FATCA Withholding*) is specified in the applicable Final Terms as being applicable to the Securities, the Securities may be, or in certain circumstances will be, redeemed early at their fair market value. If General Condition 6.5 (*Redemption for FATCA Withholding*) is specified in the applicable Final Terms as being not applicable to the Securities, the occurrence of a FATCA Withholding with respect to the Securities will not result in them being subject to early redemption. As mentioned above, in these circumstances neither the relevant Issuer nor any Agent nor any other person will be required to pay additional amounts as a result of the FATCA Withholding and investors may therefore receive less interest or nominal than expected.

(xi) *The Dodd-Frank Wall Street Reform and Consumer Protection Act and other regulatory changes affecting derivatives markets*

The Dodd-Frank Wall Street Reform and Consumer Protection Act (**Dodd-Frank**), which provides for substantial changes to the regulation of the futures and over-the-counter (**OTC**) derivative markets, was enacted in July 2010. Dodd-Frank requires regulators, including the Commodity Futures Trading Commission, the Securities and Exchange Commission (the **SEC**), the Department of the Treasury, the Financial Stability Oversight Council, the Office of the Comptroller of the Currency, and the Federal Deposit Insurance Corporation to adopt regulations to implement many of the requirements of the legislation.

Most of the regulations under Dodd-Frank have been adopted and these legislative and regulatory changes have increased the level of regulation of markets and market participants, and therefore the costs of participating in the commodities, futures and OTC derivative markets. Without limitation, these changes will require many OTC derivative transactions to be executed on regulated exchanges or trading platforms, cleared through regulated clearing houses, and subject to collection and posting of initial and variation margin. Swap dealers are required to be registered, to comply with business conduct standards and to clear certain classes of interest rate and credit default swaps through registered derivatives clearing organisations (unless an exception to clearing applies). The various legislative and regulatory changes, and the resulting increased costs and regulatory oversight requirements, could result in market participants being required to, or deciding to, limit their trading activities, which could cause reductions in market liquidity and increases in market volatility. These consequences could adversely affect the return on and value of the Securities.

Crédit Agricole CIB and its affiliates may face additional regulatory and economic burdens on its activities due to the implementation of Section 619 of Dodd-Frank, commonly referred to as the "Volcker Rule", which prohibits proprietary trading, other than for certain risk-mitigation activities, and limits the sponsorship of, and investment in, hedge funds and private equity

funds (referred to as “covered funds”) by banking entities if such activities have any nexus to the U.S. The final rules implementing the Volcker Rule have been adopted and became effective on 21 July 2015.

Pursuant to the Volcker Rule, if an Issuer were determined to be a covered fund, then covered banking entities and other entities subject to the Volcker Rule would be restricted from acquiring and retaining certain ownership interests in that Issuer and Crédit Agricole CIB could be prohibited from owning the other Issuers or guaranteeing payments on the Securities (including previously issued Securities and outstanding Securities). The Volcker Rule and interpretations thereunder are still uncertain, may restrict or discourage the acquisition of Securities by such entities, and may adversely affect the liquidity of the Securities.

The full spectrum of risks posed to institutions like Crédit Agricole CIB and its affiliates as a result of Dodd-Frank and the rules promulgated, and to be promulgated, thereunder is not yet known. Investors should be aware, however, that Crédit Agricole CIB and the other Issuers could be materially and adversely affected by such risks. As such, investors should consult their own independent advisers and make their own assessment about the potential risks posed by the Dodd-Frank Act and the rules to be promulgated thereunder in making any investment decision in respect of the Securities. Each investor in the Securities must make its own determination as to whether it is subject to the Volcker Rule, whether its investment in the Securities would or could in the future be restricted or prohibited under the Volcker Rule and the potential impact of the Volcker Rule on its investment, any liquidity in connection therewith and on its portfolio generally.

(xii) *U.S. selling restrictions*

The Securities may be subject to certain selling restrictions. In particular, any Securities offered and sold or intended to be transferred in the United States or to, or for the account or benefit of, U.S. persons, can only be sold or otherwise transferred to certain transferees as described under the section “*Offer and Sale*” in this Base Prospectus. Such restrictions on transfer may limit the liquidity of such Securities. Consequently, a purchaser must be prepared to hold such Securities for an indefinite period of time and potentially until their redemption.

(xiii) *Legislation affecting Dividend Equivalent Payments*

Payments on any Security that are, in whole or in part, directly or indirectly contingent upon, or determined by reference to, the payment of a dividend from a U.S. entity (a **Dividend Equivalent Payment**) may become subject to a 30 per cent. U.S. withholding tax when made to non-U.S. persons. The imposition of this U.S. withholding tax will reduce the amounts received by non-U.S. persons. Neither the Issuer, the Guarantor, nor the agent nor any other person shall pay any additional amounts to the non-U.S. persons in respect of such U.S. withholding. If a non-U.S. person becomes subject to this withholding tax, the non-U.S. person may be able to claim benefits under an applicable double tax treaty with the United States.

(xiv) *Change of law*

The conditions of the Securities are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Base Prospectus.

(xv) *Illegality and force majeure*

If the Issuers or the Guarantor determine that the performance of their obligations under any Securities or the Guarantee has become illegal or impracticable in whole or in part for any reason, the Issuers may cancel such Securities and, to the extent permitted by applicable law, pay an amount to each Securityholder, as the case may be, in respect of each Security an amount equal to the fair market value of such Security, notwithstanding such illegality or impracticability, less the cost to the Issuers and/or its affiliates of unwinding any underlying related hedging arrangements (if any), all as determined by the Calculation Agent in its sole and absolute discretion or, in respect of Italian Listed Certificates, in good faith and in a reasonable manner.

(xvi) *UK's exit from the European Union*

*Potential uncertainty* – On 23 June 2016, the United Kingdom's referendum to decide on the exit of the United Kingdom from the European Union resulted in a positive vote. The extent the terms of the UK's relationship with the European Union will be renegotiated, the legal impact of such renegotiation on the general economic conditions in the UK and the UK market is also uncertain. As such, no assurance can be given as to the economic impact of such result or any renegotiation of the terms of the UK's new status and its relationship with the European Union and in particular, no assurance can be given that such matters would not adversely affect the market value of the Securities and/or the ability of the Issuers to satisfy their obligations under the Securities to perform their respective obligations.

*Political uncertainty – Structured finance* – This result and the subsequent renegotiation of the United Kingdom's relationship with the EU may affect the Issuers' risk profile through introducing potentially significant new uncertainties and instability in financial markets following the date of the referendum. These uncertainties could have a material adverse effect on the Issuer's business, financial condition, results of operations and prospects.

*UK's exit from the European Union* – No assurance can be given as to the impact of the referendum result to leave the United Kingdom and, in particular, no assurance can be given that such matters would not adversely affect the Issuers, the Principal Paying Agent and the other Agents. Further, no assurance can be given that such matters would not adversely affect the rights of the Noteholders, the market value of the Securities and/or the ability of the Issuer to satisfy its obligations under the Securities.

(xvii) *Securities where denominations involve integral multiples: Definitive Securities*

In relation to any issue of Securities, which have denominations consisting of a minimum Specified Denomination, plus one or more higher integral multiples of another smaller amount, it is possible that such Securities may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a Definitive Security in respect of such holding (should Definitive Securities be printed) and would need to purchase a nominal amount of Securities such that its holding amounts to a Specified Denomination.

If Definitive Securities are issued, holders should be aware that Definitive Securities, which have a denomination, that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

(xviii) *Minimum Trading Size*

Where the applicable Final Terms specifies that a Minimum Trading Size is applicable in respect of the Securities, Securityholders shall only be permitted to acquire, transfer or trade Securities with an aggregate nominal amount equal to the minimum amount specified in the applicable Final Terms.

(xix) *Conflicts of interest – Calculation Agent*

Where the relevant Issuer or Guarantor acts as Calculation Agent or the Calculation Agent is an Affiliate of the relevant Issuer or Guarantor, potential conflicts of interest may exist between the Calculation Agent and Securityholders, including with respect to certain determinations and judgements that the Calculation Agent may make pursuant to the Conditions that may influence the amount receivable upon settlement of the Securities.

(xx) *Potential conflicts of interest*

In the ordinary course of its business, including, without limitation, in connection with its market making activities, the relevant Issuer and/or any of its Affiliates may effect transactions for its own account or for the account of its customers and hold long or short positions in any Underlying(s) or related derivatives. In addition, in connection with the offering of any Securities, the relevant Issuer and/or any of its Affiliates may enter into one or more hedging transactions with respect to any Underlying(s) or related derivatives. In connection with such hedging or market-making activities or with respect to proprietary or other trading activities by the relevant Issuer and/or any of its Affiliates, the relevant Issuer and/or any of its Affiliates may enter into transactions in any Underlying(s) or related derivatives which may affect the market price, liquidity or value of the relevant Securities and which could be deemed to be adverse to the interests of the relevant Securityholders.

The relevant Issuer and/or any Dealer and/or any of their Affiliates may at the date hereof or at any time hereafter be in possession of information in relation to one or more Underlying(s) that is or may be material in the context of an issue of Securities and may or may not be publicly available to Securityholders. None of the Issuers, any Dealer or any of their Affiliates will disclose to Securityholders any such information, except as required under applicable law.

The relevant Issuer and/or any of its Affiliates may have existing or future business relationships with any Underlying(s), any constituent thereof (in relation to Underlying(s) which are indices) or, if applicable, any of their subsidiaries or Affiliates or any other person or entity having obligations relating to any Underlying(s) (including, but not limited to, dealing, lending, depositary, risk management, advisory and banking relationships), and will pursue actions and take steps that they or it deems necessary or appropriate to protect their and/or its interests arising therefrom without regard to the consequences for a Securityholder, regardless of whether any such action might have an adverse effect (including, without limitation, any action which might constitute or give rise to any breach, event of default, credit event or termination event) on any Underlying or any investor in Securities.

(xxi) *Potential conflicts of interest relating to distributors*

Potential conflicts of interest may arise where the manager(s) and any distributors act pursuant to a mandate granted by the Issuers, the Guarantor (if applicable) and/or the manager(s) and will receive commissions and/or fees on the basis of the services performed and the outcome of the placement of the Securities.

(xxii) *Certain considerations relating to public offers of the Securities*

If Securities are distributed by means of a public offer, whether or not in a Member State of the European Economic Area, under certain circumstances indicated in the applicable Final Terms, the relevant Issuer and/or the other entities indicated in the Final Terms, will have the right to withdraw or revoke the offer, and the offer will be deemed to be null and void according to the terms indicated in the applicable Final Terms. In such case, any amounts segregated by a distributor as intended payment of the offer price by an investor will be released to the relevant investor by the distributor but may or may not accrue interest depending on the agreements between the investor and the relevant distributor or depending on the policies applied by the distributor in this regard. In these circumstances, there may also be a time lag in the release of any such amounts and, unless otherwise agreed with the relevant distributor no amount will be payable as compensation and the applicant may be subject to reinvestment risk.

Unless otherwise provided in the applicable Final Terms, the relevant Issuer and/or the other entities specified in the applicable Final Terms may terminate the offer early by immediate suspension of the acceptance of further subscription requests and by giving notice to the public in accordance with the applicable Final Terms. Any such termination may occur, even where the maximum amount for subscription in relation to that offer (as specified in the applicable Final Terms), has not been reached and, in such circumstances, the early closing of the offer may have an impact on the aggregate number of the Securities issued and, therefore, may have an adverse effect on the liquidity of the Securities.

Furthermore, under certain circumstances, the relevant Issuer and/or the other entities indicated in the applicable Final Terms will have the right to postpone the originally-designated issue date. For the avoidance of doubt, this right applies also in the event that the relevant Issuer publishes a supplement to the Base Prospectus in accordance with the provisions of the Prospectus Directive. In the event that the issue date is so delayed, no compensation or amount in respect of interest shall be payable or otherwise accrue in relation to such Securities unless otherwise agreed between the investor and the relevant distributor as payable by the distributor or the policies of the distributor otherwise provide for the distributor to make any such payments.

Distributors may acquire Securities at a price that is lower than the issue price and/or receive a placement fee in relation to a transaction in the Securities. Investors should be aware that the payment of the fee may create a potential conflict of interest for the distributor. For any reduced price or fee received in connection with any transaction in the Securities, the distributor is solely responsible for making adequate disclosure to investors as required by applicable law, regulation, rule or best market practice.

(xxiii) *Risks may be compounded*

Various risks relating to the Securities may be correlated or compounded and such correlation and/or compounding may result in increased volatility in the value of the Securities and/or in increased losses for holders of the Securities.

**(d) Risks related to the market generally**

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

**(i) *The secondary market generally***

Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Securities easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Securities that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Securities generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Securities.

Investors may not be able to sell Securities readily or at prices that will enable investors to realise their anticipated yield. No investor should purchase Securities unless the investor understands and is able to bear the risk that certain Securities will not be readily sellable, that the value of Securities will fluctuate over time and that such fluctuations will be significant.

**(ii) *Illiquid market***

It is not possible to predict the price at which Securities will trade in the secondary market or whether such market will be liquid or illiquid. Each of the Issuers may, but is not obliged to, list Securities on a stock exchange. If the Securities are not listed or traded on any exchange market or trading venue (whether regulated or not), pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities may be adversely affected. If any Issuer does list an issue of Securities on any stock or other exchange, then that Issuer shall use all reasonable endeavours to maintain such listing. There may also be less liquidity in the secondary market for Securities exclusively offered to retail investors without any offer to institutional investors. Also, to the extent Securities of a particular issue are exercised or redeemed, the number of Securities of such issue outstanding will decrease, resulting in a diminished liquidity for the remaining Securities of such issue. A decrease in the liquidity of an issue of Securities may cause, in turn, an increase in the volatility associated with the price of such issue of Securities.

Each of the Issuers, the Guarantor and any Dealer may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private treaty. Any Securities so purchased may be held or resold or surrendered for cancellation. A Dealer may, but is not obliged to, be a market-maker for an issue of Securities. Even if a Dealer (or another entity) is a market-maker or liquidity provider for an issue of Securities, it is not clear whether and/or to what extent this may have an impact on the price of the Securities or the secondary market and the secondary market for such Securities may still be limited. To the extent that an issue of Securities becomes illiquid, an investor may have to exercise such Securities to realise value.

For information purposes, where Italian Listed Securities are listed on either the SeDeX Market or the MOT Market, the relevant Issuer (or an entity on behalf of the relevant Issuer) will, for so long as the rules of the SeDeX Market or the MOT Market, as applicable, so require, display continuous "bid" and/or "offer" prices for such Italian Listed Securities, in accordance with the rules of the SeDeX Market or the MOT Market, as applicable.

The Securities may also be traded on trading venues governed by applicable laws and regulations in force from time to time, such as multilateral trading systems, bilateral systems, or equivalent trading systems. Where trading in the Securities takes place outside such trading systems, the manner in which the price of such Securities is determined may be less transparent and the liquidity of such Securities may be adversely affected.

(iii) *Exchange rate risks and exchange controls*

The relevant Issuer will pay nominal and interest (if applicable) on the Securities and the Guarantor will make any payments under the Guarantee in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Securities, (2) the Investor's Currency-equivalent value of amounts payable in respect of the Securities and (3) the Investor's Currency-equivalent market value of the Securities.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest (if applicable) or nominal than expected, or no interest (if applicable) or nominal.

(iv) *Interest rate risks*

Investment in Fixed Rate Securities involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Securities.

Interest income on Floating Rate Securities and Linked Interest Rate Securities cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield on the Floating Rate Securities and the Linked Interest Rate Securities at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods.

(v) *Credit ratings may not reflect all risks*

One or more independent credit rating agencies may assign credit ratings to the Securities. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Securities. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under Regulation (EC) No. 1060/2009 (as amended) (the **CRA Regulation**) from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been

withdrawn or suspended). The list of registered and certified rating agencies published by the European Securities and Markets Authority (**ESMA**) on its website ([www.esma.europa.eu](http://www.esma.europa.eu)) in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out in the 2015 Registration Document incorporated by reference into this Base Prospectus and will be disclosed (if applicable) in the Final Terms.

(vi) *Effect of a credit rating reduction*

The value of the Securities is expected to be affected, in part, by investors' general appraisal of the Issuers' and Guarantor's creditworthiness. Such perceptions are generally influenced by the ratings accorded to the Issuers' and Guarantor's outstanding Securities by standard statistical rating services, such as Moody's Investors Service Limited, Standard & Poor's Ratings Services, a division of Standard & Poor's Credit Market Service Europe Limited, and Fitch Ratings Ltd. A reduction in the rating, if any, accorded to outstanding debt securities of the Issuers or the Guarantor by one of these rating agencies could result in a reduction in the trading value of the Securities.

(vii) *Market value of the Securities*

The market value of the Securities will be affected by the creditworthiness of the relevant Issuer and a number of additional factors, including the value of the relevant Underlying(s) (which in turn will depend on, but not be limited to, the volatility of the relevant Underlying(s), or the dividend on the securities comprised in any Index or Proprietary Index that is an Underlying, market interest and yield rates and the time remaining to the redemption date) and, as the case may be, the financial condition and creditworthiness of any applicable Reference Entity or Bond Issuer.

The value of the Securities and the relevant Underlying(s) or, as the case may be, the likelihood of a Credit Event or Bond Event occurring, depends on a number of interrelated factors, including economic, financial and political events in France, Guernsey or elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Securities, the Underlying(s) or the securities comprised in any Index or Proprietary Index that is an Underlying are traded. The price at which a Securityholder will be able to sell the Securities prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser. The historical prices or levels of the relevant Underlying(s) should not be taken as an indication of the relevant Underlying(s)'s future performance during the term of any Security.

Investors should note that the issue price and/or offer price of the Securities may include subscription fees and/or placement fees and/or direction fees and/or structuring fees and/or other additional costs or inducements. Any such fees may not be taken into account for the purposes of determining the price of such Securities on the secondary market and could result in a difference between the theoretical value of the Securities and the actual bid/offer price quoted by any intermediary in the secondary market.

Any such difference may have an adverse effect on the value of the Securities, particularly immediately following their offer and the issue date relating to such Securities, where any such fees and/or costs may be deducted from the price at which such Securities can be sold by the initial investor in the secondary market.

The trading price of Securities may fall in value as rapidly as it may rise and holders of Securities may sustain a total loss of their investment. Prospective purchasers should therefore ensure that they understand the nature of Securities and should form their own view of the merits of Securities and not rely on information contained in the applicable Final Terms or this Base Prospectus.

The risk of the loss of some or all of the purchase price of a Security upon maturity means that, in order to recover and realise a return upon his or her investment, a purchaser of a Security must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the relevant reference equity index (or basket of equity indices), FX rate (or basket of FX rates), commodity (or basket of commodities), benchmark rate (or basket of benchmark rates), inflation index (or basket of inflation indices), proprietary index (or basket of proprietary indices), exchange traded fund (or basket of exchange traded funds) or share (or basket of shares) or combination of any of them as may be specified in the applicable Final Terms. Assuming all other factors are held constant, the more a Security is "out-of-the-money" and the shorter its remaining term to maturity, the greater the risk that purchasers of such Securities will lose all or part of their investment.

In the case of Secured Securities, the market value of the Securities will also be affected by, amongst other things, the Collateral Assets which secure the relevant Series of Securities and whether or not Collateral Monitoring applies.

(e) **Legal investment considerations may restrict certain investments**

(i) *Independent review and advice*

Each prospective purchaser of Securities must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Securities (i) is fully consistent with its (or if it is acquiring the Securities in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Securities as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or if it is acquiring the Securities in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Securities. Potential investors should consult with their own tax, legal, accounting and/or financial advisors before considering investing in the Securities.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Securities are legal investments for it, (2) Securities can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Securities. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Securities under any applicable risk-based capital or similar rules.

(ii) *No reliance*

A prospective purchaser may not rely on the Issuers, the Guarantor, the Arranger or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Securities or as to the other matters referred to above. None of the Issuers, the Guarantor, the Arranger or any of their respective affiliates has or assumes responsibility for the lawfulness

of the acquisition of the Securities by any investor under the laws of any jurisdiction or for compliance by that investor with any law, regulation or regulatory policy applicable to it.

An investor should be aware that any communication (written or oral) received from any member of the Group should not be taken as an assurance or guarantee as to the expected results or performance of the Securities. Any term sheet with respect to the Securities received on or prior to the issue date is superseded in its entirety by the Base Prospectus, together with the Final Terms, which solely constitute the legally binding terms and conditions of the Securities.

(iii) *Restrictions on transfer*

Notwithstanding the lawfulness of any acquisition of the Securities, sales or transfers of Securities that would cause Crédit Agricole CIB FG or Crédit Agricole CIB FS to be required to register as an "investment company" under the Investment Company Act will be prohibited and treated by the relevant Issuer or, as the case may be, the Registrar as void *ab initio* and will not be honoured by the relevant Issuer and the relevant Issuer will have the right at any time, at the expense and risk of the holder of the Securities held by or on behalf of a U.S. person who is not a qualified purchaser at the time it purchases such Securities, (i) to redeem such Securities, in whole or in part, to permit such Issuer to avoid registration under the Investment Company Act or (ii) to require such holder to sell such Securities to a QIB that is a QP in accordance with Rule 144A or to a non-U.S. person outside the United States in accordance with Regulation S. See "*Subscription and Sale*".

(f) **Risks related to Commodity Linked Securities, FX Linked Securities, Index Linked Securities, Inflation Linked Securities, Rate Linked Securities, ETF Linked Securities, Share Linked Securities and Multi-Asset Basket Linked Securities**

The relevant Issuer may issue Securities with nominal and/or interest (if applicable) determined by reference to one or more:

- (i) Commodities;
- (ii) Indices;
- (iii) Proprietary Indices;
- (iv) Inflation Indices;
- (v) FX Rates;
- (vi) Benchmark Rates;
- (vii) ETFs;
- (viii) Shares;
- (ix) Multi-Asset Baskets; or
- (x) formulae; and
- (xi) Dual Currency Securities;

(each, a **Relevant Factor**).

Potential investors should be aware that:

- (i) the market price of such Securities may be volatile;
- (ii) movements in the Relevant Factor may adversely affect the amount of nominal and/or interest (if applicable) to be paid to the Securityholder and may also affect the market value of the Securities;
- (iii) they may receive no interest;
- (iv) payment of nominal and interest (if applicable) may occur at a different time or in a different currency than expected;
- (v) the amount of nominal to be repaid may be less than the stated nominal amount of the Securities or may even be zero;
- (vi) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (vii) if a Relevant Factor is applied to Securities in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on nominal and/or interest (if applicable) payable likely will be magnified; and
- (viii) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

The historical experience of a Relevant Factor should not be viewed as an indication of the future performance of such Relevant Factor during the term of any Commodity Linked Securities, FX Linked Securities, Index Linked Securities, Inflation Linked Securities, Rate Linked Securities, ETF Linked Securities, Share Linked Securities or Multi-Asset Basket Linked Securities. Accordingly, each potential investor should consult its own financial and legal advisers about the risk entailed by an investment in any Commodity Linked Securities, FX Linked Securities, Index Linked Securities, Inflation Linked Securities, Rate Linked Securities, ETF Linked Securities, Share Linked Securities or Multi-Asset Basket Linked Securities and the suitability of such Securities in the light of its particular circumstances.

**(g) Risks related to Index Linked Securities and Inflation Linked Securities**

Index Linked Securities and Inflation Linked Securities are not in any way sponsored, endorsed, sold or promoted by the sponsor of the relevant Index(ices), Proprietary Index(ices) or Inflation Index(ices) (as the case may be) (the **Sponsor**) and the Sponsor(s) make(s) no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the Index(ices) and/or the figure at which the Index(ices), Proprietary Index(ices) or Inflation Index(ices) (as the case may be) stands at any particular time on any particular day or otherwise. An investor's decision to invest in the Securities should be made without reliance on the Sponsor(s). The Sponsor(s) shall not be liable (whether in negligence or otherwise) for any loss, damages, costs, charges, expenses or other liabilities including, without limitation, liability for any special, punitive, indirect or consequential damages, even if notified of the possibility of such damages to any person for any error in the Index(ices) and the Sponsor(s) shall not be under any obligation to advise any person of an error therein.

The risk factors set out in this paragraph and below (relating to Proprietary Indices) are not intended to be and should not be relied upon as a substitute for reading the relevant index rules. The investor should carefully read the index rules in their entirety to understand the terms of the Index, Proprietary Index or Inflation Index (as the case may be).

**(h) Risks related to FX Linked Securities**

The Issuers may issue Securities where the amount of nominal and/or interest payable are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Securities are denominated. Accordingly an investment in FX Linked Securities may bear similar market risks to a direct foreign exchange investment and potential investors should take advice accordingly.

Potential investors in any such Securities should be aware that, depending on the terms of the FX Linked Securities (i) they may receive no or a limited amount of interest, (ii) payment of nominal and/or interest (if applicable) may occur at a different time or in a different currency than expected and (iii) they may lose a substantial portion of their investment. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in currency exchange rates, the greater the effect on yield.

Exchange rates between currencies are determined by factors of supply and demand in the international currency markets, which are influenced, by macro-economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Movements in currency exchange rates may be dependent upon economic, financial and political events in one or more jurisdictions, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, fiscal and monetary policy, government debt, currency convertibility and safety of making financial investments in the currency concerned, speculation and intervening measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates as well as the availability of a specified currency. Any such measures could have a negative impact on the value of the Securities.

Currency exchange risks can be expected to heighten in periods of financial turmoil. In periods of financial turmoil, capital can move quickly out of regions that are perceived to be more vulnerable to the effects of the crisis with sudden and severely adverse consequences to the currencies of those regions as a result. In addition, governments around the world have recently made, and may be expected to continue to make, very significant interventions in their economies, and sometimes directly in their currencies. It is not possible to predict the effect of any future legal or regulatory action relating to a currency. Further interventions, other government actions or suspensions of actions, as well as other changes in government economic policy or other financial or economic events affecting the currency markets - including the replacement of entire currencies with new currencies - may cause FX rates to fluctuate sharply in the future, which could have a negative impact on the value of the Security.

If the amount of nominal and/or interest (if applicable) payable for the Securities are dependent upon movements in currency exchange rates and are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the currency exchange rates on nominal or interest payable will be magnified.

In recent years, rates of exchange between some currencies have been volatile. This volatility may be expected in the future. Fluctuations that have occurred in any particular exchange rate in the past are

not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Security. Fluctuations in exchange rates will affect the value of FX Linked Securities. The market price of such Securities may be volatile and, if the amount of nominal and/or interest (if applicable) payable is dependent upon movements in currency exchange rates, may depend upon the time remaining to the redemption date and the volatility of currency exchange rates.

(i) **Risks related to the Proprietary Indices**

(i) *The Proprietary Indices are rules-based indices*

The Proprietary Indices follow notional rules-based proprietary trading strategies that operate on the basis of predefined rules. Accordingly, potential investors in investment products linked to the performance of one or more Proprietary Indices should determine whether the applicable rules-based proprietary trading strategies are appropriate in light of their individual circumstances and investment objectives.

No assurance can be given that any synthetic investment strategy on which a Proprietary Index is based will be successful or that any Proprietary Index will outperform any alternative strategy that might be employed in respect of the Underlying Constituent(s) of the Proprietary Index.

(ii) *The Proprietary Indices are constructed on "notional" Underlying Constituents*

The Proprietary Indices are constructed on "notional" Underlying Constituent(s). There is no actual portfolio of underlying constituents or assets to which any person is entitled or in which any person has any ownership interest or which serve as collateral for the return on any investment product, which is linked, to the performance of one or more Proprietary Indices. Each Proprietary Index merely identifies certain Underlying Constituent(s) and a notional rules based proprietary trading strategy, the performance of which are used as a reference point for the purposes of calculating the level of the Proprietary Index. Consequently, investors in investment products, which are linked to the performance of one or more Proprietary Indices, will not have any claim against any of the Underlying Constituents, which are comprised in the relevant Proprietary Indices.

(iii) *Historical levels of the Proprietary Indices should not be taken as an indication of the future performance of any Proprietary Index*

The Proprietary Indices are only recently established and therefore have only a limited history to evaluate their likely performance. Any back-testing or similar analysis performed by any person in respect of a Proprietary Index must be considered illustrative only and may be based on estimates or assumptions not used by the Proprietary Index Calculation Agent when determining the Proprietary Index Level.

It is impossible to predict whether a Proprietary Index will rise or fall. The actual performance of a Proprietary Index during any future period may bear little relation to the historical level of such Proprietary Index and should not be considered indicative of future performance.

(iv) *The Proprietary Indices are "price return" indices*

The Proprietary Indices are "price return" indices which measure the returns accrued from notionally investing in underlying futures contracts (based on the prices of such futures contracts), which reference government bonds. The Proprietary Indices do not take account of the interest or redemption payments that holders of the underlying government bonds would receive and so do not reflect the return an investor might receive by investing in the underlying government bonds themselves.

- (v) *The Proprietary Index Level can be volatile and move dramatically over short periods of time*

The levels of the Underlying Constituents and rules-based proprietary trading strategies can be volatile and move dramatically over short periods of time. There can be no assurance that the relevant synthetic exposures will not be subject to substantial negative returns. Positive returns on the Proprietary Indices may therefore be reduced or eliminated entirely due to movements in any of these market parameters.

Each Proprietary Index is comprised of futures contracts, which reference government bonds. Price movements in the relevant futures can be very volatile; they can change frequently and by large amounts. Prices are influenced by a number of factors including, without limitation, government policies and programmes, political and economic events, changes in applicable interest rates and inflation rates and the emotions of market participants. The price of the relevant futures contract may also be correlated to extent with the price of another futures commodity contract, and so price movements in one futures contract may also affect the price of another.

- (vi) *The performance of a Proprietary Index is dependent on the performance of the Underlying Constituents of that Proprietary Index*

The performance of a Proprietary Index is dependent on the performance of the Underlying Constituents of the Proprietary Index and the relevant notional rules-based proprietary trading strategy. As a consequence, investors in investment products linked to one or more Proprietary Indices should appreciate that their investment is exposed to the performance of the Underlying Constituents and such rules-based strategies.

- (vii) *The construction of the Proprietary Indices is complex and is dependent on a number of external factors*

The publication of the Proprietary Index Level depends on maintenance of requisite index licences, the continued exchange trading of the applicable futures contracts or other assets that are notionally comprised in certain Underlying Constituents and publication of the levels of the Underlying Constituents. Any disturbance or discontinuation of any of these actions may adversely affect the ability of the Proprietary Index Calculation Agent to continue with the calculation and publication of the Proprietary Index Level.

- (viii) *The Proprietary Index Calculation Agent has discretion in making determinations and calculations*

The rules relating to each Proprietary Index confer discretion on the Proprietary Index Calculation Agent in making certain determinations and calculations from time to time. The exercise of such discretion in the making of calculations and determinations may adversely affect the performance of the Proprietary Indices. Without limitation to the generality of the foregoing, the Proprietary Index Calculation Agent has a discretion in relation to the calculation of the Proprietary Index Level in the event of (amongst other events) a Proprietary Index Market Disruption Event in respect of an Underlying Constituent and certain other extraordinary events (which include, amongst other events, Force Majeure Events, Hedging Disruption Events, Increased Cost of Hedging Events, the elimination, conversion, redenomination or exchange of a currency, cancellation of relevant licences and change of law).

The Proprietary Index Calculation Agent is responsible for all calculations and determinations related to the Proprietary Indices. The Proprietary Index Calculation Agent may exercise a certain amount of discretion in making these calculations and determinations. The exercise of

this discretion may have an adverse impact on the level of the Proprietary Indices and therefore on the return on any investment product which is linked to the performance of one or more Proprietary Index.

The Proprietary Index Calculation Agent is also responsible for calculating and publishing the level of the Proprietary Indices. The level of each Proprietary Index will reflect the prices of the commodity futures included in such Proprietary Index. In the event that the price published by any exchange for a particular futures contract is subsequently corrected, the Proprietary Index Calculation Agent may, if it determines in its discretion that it is practicable and the correction is material, correct the level of the relevant Proprietary Index in respect of the relevant days to reflect the price correction. A correction will only be made if the Proprietary Index Calculation Agent determines, in its discretion, that the price correction is material and it is practicable to make the correction to the level of the relevant Proprietary Index. The exercise of this discretion will therefore affect the level of the relevant Proprietary Index.

The foregoing is not intended to be an exhaustive list of the discretion that the Proprietary Index Calculation Agent may exercise in relation to the Proprietary Indices. It is only intended to illustrate some of the areas in which the Proprietary Index Calculation Agent may exercise discretion and provide an indication of how the exercise of such discretion may impact the level of the Proprietary Indices and therefore the return on any investment products, which is linked to the performance of the Proprietary Indices. Investors should refer to the Index Description to ensure they understand when and how the Proprietary Index Calculation Agent may exercise discretion in relation to the Proprietary Indices.

(ix) *Potential conflicts of interest may exist in the structure and operation of a Proprietary Index*

Potential conflicts of interest may exist in the structure and operation of a Proprietary Index and the course of the normal business activities of the Proprietary Index Calculation Agent and any affiliate or subsidiary of the Proprietary Index Calculation Agent or their respective directors, officers, employees, representatives, delegates or agents (each a **Relevant Person**).

During the course of their normal business, the Proprietary Index Calculation Agent and each Relevant Person may enter into or promote, offer or sell transactions or investments (structured or otherwise) linked to the Proprietary Indices. In addition, the Proprietary Index Calculation Agent and any Relevant Person may have, or may have had, interests or positions, or may buy, sell or otherwise trade positions in or relating to the Proprietary Indices, or may invest or engage in transactions with other persons, or on behalf of such persons relating to any of these items. Such activity may or may not have an impact on the Proprietary Index Level of a Proprietary Index but anyone contemplating an exposure to the Proprietary Indices should be aware that a conflict of interest could arise where any party is acting in more than one capacity, and such conflict may have an impact, positive or negative on the Proprietary Index Level.

Neither the Proprietary Index Calculation Agent nor any Relevant Person has any duty to consider the circumstances of any person when participating in such transactions or to conduct themselves in a manner that is favourable to anyone with exposure to the Proprietary Indices.

(x) *The Proprietary Indices are not actively managed*

Each Proprietary Index is operated in accordance with a set methodology. There will be no active management of the Proprietary Indices so as to enhance returns beyond those that may result from the application of such methodology. As a result, hypothetical investors in a

Proprietary Index may be exposed to more or less risk than investors investing in the Underlying Constituents themselves or investing in managed products.

(xi) *The Proprietary Indices could be changed or become unavailable*

The Proprietary Index Calculation Agent reserves the right to alter the methodology used to calculate any Proprietary Index or the formulae underlying such Proprietary Index or to discontinue calculation and dissemination of such Proprietary Index and an alteration may result in a decrease in the value of the Proprietary Index. As such, many aspects of the Proprietary Indices may change in the future, including, without limitation, the formulae, methodology and third party data sources.

(xii) *The Proprietary Index Calculation Agent relies upon third party data sources which may be inaccessible and/or inaccurate*

The Proprietary Index Calculation Agent relies upon third party external sources to obtain certain inputs necessary to compute the Proprietary Indices. The inability of the Proprietary Index Calculation Agent to source necessary data to carry out a Proprietary Index formula may affect the value of the Proprietary Index. In addition, the Proprietary Index Calculation Agent makes no warranty as to the correctness or completeness of that information and takes no responsibility for the accuracy of such data or the impact of any inaccuracy of such data on the value of the Proprietary Index.

(xiii) *The Momentum Strategy Proprietary Indices may not achieve their stated aim*

The Momentum Strategy Proprietary Indices are constructed using a momentum investment strategy. Momentum investing generally seeks to capitalise on positive and negative trends in the price of the assets. No assurance can be given that the investment strategy used to construct the Momentum Strategy Proprietary Indices will be successful or that the Momentum Strategy Proprietary Indices will outperform any alternative strategy that might be constructed from the Underlying Constituent of the relevant Momentum Strategy Proprietary Index.

(j) **Risks related to ETF Linked Securities**

(i) *Where the Underlying is an exchange traded fund, there is a risk that such exchange traded fund will not accurately track its underlying share or index*

Where the Securities are linked to an ETF and the investment objective of such ETF is to track the performance of a share or an index, the investors of such Securities are exposed to the performance of such ETF rather than the underlying share or index such ETF tracks. For certain reasons, including to comply with certain tax and regulatory constraints, an ETF may not be able to track or replicate the constituent securities of the underlying share or index, which could give rise to a difference between the performance of the underlying share or index and such ETF. Accordingly, investors who purchase Securities that are linked to an ETF may receive a lower return than if such investors had invested in the share or the index underlying such ETF directly.

(ii) *Action or non-performance by the management company, fund administrator or sponsor of an exchange traded fund may adversely affect the Securities*

The management company, fund administrator or sponsor of an ETF will have no involvement in the offer and sale of the Securities and will have no obligation to any purchaser of such Securities. The management company, fund administrator or sponsor of an ETF may take any actions in respect of such ETF without regard to the interests of the purchasers of the Securities,

and any of these actions could adversely affect the market value of the Securities. In its day-to-day operations and its investment strategy, an ETF will rely on the fund advisor, the investment advisor, the management company and/or on third parties providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments used by such ETF to employ its investment strategy. The insolvency or non-performance of services of any such persons or institutions may expose an ETF to financial loss. Failure of procedures or systems, as well as human error or external events associated with an ETF's management and/or administration may cause losses to an ETF and affect the market value of the Securities.

(iii) *Exchange traded funds are not actively managed*

An ETF is not actively managed and may be affected by general movements in market segments related to the index or other asset it is tracking. An ETF invests in instruments included in, or that are representative of, the index or other asset it is tracking regardless of their investment merits.

(iv) *Exchange traded funds may engage in securities lending*

Securities lending involves the risk that the ETF may lose money because the borrower of the ETF's loaned securities fails to return the securities in a timely manner or at all.

(v) *Exchange traded funds are subject to market trading risks*

An ETF faces numerous market trading risks, including but not limited to the potential lack of an active market for its shares, losses from trading in secondary markets, periods of high volatility, limited liquidity and disruption in the creation or redemption process of such ETF. If any of these risks materialises, this may lead to the ETF shares trading at a premium or discount to the net asset value.

(vi) *Investors should investigate the underlying exchange traded fund(s) as if investing directly*

To the extent the underlying(s) of a series of Securities include(s) an ETF or a basket of ETFs, investors should conduct their own diligence of the underlying exchange traded fund(s) as they would if they were directly investing in the underlying exchange traded fund(s). The offering of the Securities does not constitute a recommendation by Crédit Agricole CIB or any of its affiliates with respect to an investment linked to an underlying exchange traded fund (including in respect of funds that are managed by managers affiliated with Crédit Agricole CIB. Investors should not conclude that the sale by the Issuers of the Securities is any form of investment recommendation by the Issuers or any of their affiliates to invest in the underlying exchange traded fund(s).

(vii) *No ownership rights in any underlying exchange traded fund(s)*

An investment in the Securities does not entitle Securityholders to any ownership interest or rights in any underlying exchange traded fund(s), such as voting rights or rights to any payments made to owners of the underlying exchange traded fund(s). Instead, a Security represents a notional investment in the underlying exchange traded fund(s). The term "notional" is used because although the value of the underlying exchange traded fund(s) will be used to calculate payments under the Securities, an investment in the Securities may not be used to purchase interests in the underlying exchange traded fund(s) on behalf of an investor. The relevant Issuer, or an affiliate of such Issuer, may purchase interests in the underlying exchange traded fund(s) in order to hedge its obligations under the Securities but it is under no obligation to do so.

- (viii) *Determinations made by the Calculation Agent in respect of Potential Adjustment Events and Extraordinary Events may have an adverse effect on the value of the Securities*

Upon determining that a Potential Adjustment Event or an Extraordinary Event has occurred in relation to an underlying exchange traded fund or in relation to a share or unit of an underlying exchange traded fund, the Calculation Agent has discretionary authority under the terms and conditions of the Securities to make certain determinations to account for such event including to (i) make adjustments to the terms of the Securities and/or (ii) cause early redemption of the Securities, any of which determinations may have an adverse effect on the value of the Securities.

- (ix) *Risks relating to physical settlement*

Where the Securities provide for physical delivery, the relevant Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the relevant Issuer and/or any affiliate has not received under the terms of any transaction entered into by the relevant Issuer and/or such affiliate to hedge the relevant Issuer's obligations in respect of the Securities. Any such determination may delay settlement in respect of the Securities and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Securities and as a result, the amount of nominal payable on redemption. Prospective investors should review the Conditions of the Securities and the applicable Final Terms to ascertain whether and how such provisions should apply to the Securities.

- (x) *Non-delivery of ETF Units will not constitute an Event of Default*

Where physical settlement applies to the Securities, if the relevant Issuer and/or any of its affiliates have not received the ETF Units and/or cash for whatever reason, including as a result of a failure to deliver by a third party under the terms of any hedging transaction, such event will not constitute an Event of Default for the purpose of the Securities. In such circumstances settlement of the Securities, may be substantially delayed and/or may be in cash (in whole or in part).

- (k) **Risks related to Share Linked Securities**

- (i) *No beneficial interest in the underlying shares*

A holder of the Securities will not be a beneficial owner of the underlying shares and therefore will not be entitled to receive any dividends or similar amounts paid on the underlying shares, nor will a Securityholder be entitled to purchase the underlying shares by virtue of its ownership of the Securities. Moreover, holders of the Securities will not be entitled to any voting rights or other control rights that holders of the underlying shares may have with respect to the issuer of such underlying shares. The redemption amounts payable in respect of the Securities will not reflect the payment of any dividends on the underlying shares. Accordingly, the return on the Securities will not reflect the return, which could be realised with the reception of dividends if any, paid on those securities being the owner of the underlying shares. Therefore, the yield to maturity based on the methodology for calculating the redemption

amounts payable in respect of the Securities will not be the same yield as would be produced if the underlying shares were purchased directly and held for a similar period.

(ii) *Limited antidilution protection*

The Calculation Agent may make adjustments to elements of the Securities as described in the Share Linked Asset Conditions. The Calculation Agent is not required to make an adjustment for every corporate event that may affect the underlying shares or depositary receipts. Those events or other actions by the issuer of underlying shares or depositary receipts or a third party may nevertheless adversely affect the market price of the underlying shares or depositary receipts and, therefore, adversely affect the value of the Securities. The issuer of underlying shares or depositary receipts or a third party could make an offering or exchange offer or the issuer of underlying shares or depositary receipts could take another action that adversely affects the value of the underlying shares or depositary receipts and the Securities but does not result in an adjustment.

(iii) *Risks arising from conduct of issuers of shares*

The issuers of underlying shares are not involved in the offer of the Securities in any way and have no obligation to consider the interests of the Securityholders in taking any corporate actions that might affect the value of the Securities. The issuers of underlying shares may take actions that will adversely affect the value of the Securities.

(iv) *Risks relating to physical settlement*

Where the Securities provide for physical delivery, the relevant Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the relevant Issuer and/or any affiliate has not received under the terms of any transaction entered into by the relevant Issuer and/or such affiliate to hedge the relevant Issuer's obligations in respect of the Securities. Any such determination may delay settlement in respect of the Securities and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Securities and as a result, the amount of nominal payable on redemption. Prospective investors should review the Conditions of the Securities and the applicable Final Terms to ascertain whether and how such provisions should apply to the Securities.

(v) *Non-delivery of Shares will not constitute an Event of Default*

Where physical settlement applies to the Securities, if the relevant Issuer and/or any of its affiliates have not received the Shares and/or cash for whatever reason, including as a result of a failure to deliver by a third party under the terms of any hedging transaction, such event will not constitute an Event of Default for the purpose of the Securities. In such circumstances settlement of the Securities, may be substantially delayed and/or may be in cash (in whole or in part).

(l) **Certain considerations regarding hedging**

Prospective purchasers intending to purchase Securities to hedge against the market risk associated with investing in any Relevant Factor (or a combination of any of them), should recognise the

complexities of utilising Securities in this manner. For example, the value of the Securities may not exactly correlate with the value of the Relevant Factor (or a combination of any of them). Due to fluctuating supply and demand for the Securities, there is no assurance that their value will correlate with movements of the Relevant Factor (or a combination of any of them). For these reasons, among others, it may not be possible to purchase or liquidate securities in a portfolio at the prices used to calculate the value of any relevant index or basket. In addition, in certain cases, the ability of Securityholders, as the case may be, to use Securities for hedging may be restricted by the provisions of the Securities Act.

In the ordinary course of their business, including without limitation in connection with their market-making activities, the Issuers, the Guarantor and/or any of their affiliates may effect transactions for their own account or for the account of their customers and hold long or short positions in the Relevant Factor(s). In addition, in connection with the offering of any Securities, the Issuers, the Guarantor and/or any of their affiliates may enter into one or more hedging transactions with respect to, among others, the Relevant Factor(s). The entry into of such hedging transactions or the conduct of such market-making, proprietary or other trading activities by the Issuers, the Guarantor and/or any of their affiliates, may affect the market price, liquidity or value of the Securities in a manner adverse to the interests of the holders thereof.

(m) **Risks related to Credit Linked Securities**

(i) *General*

The Issuers may issue Securities where the amount of nominal and/or interest (if applicable) payable are dependent upon whether certain default events (**Credit Events**) have occurred in respect of one or more Reference Entities and, if so, on the value of certain specified assets of such Reference Entity/Entities or where, if such events have occurred, on redemption the relevant Issuer's obligation is to deliver certain specified assets.

Prospective investors in any such Securities should be aware that depending on the terms of the Credit Linked Securities (**CLSs**) (i) they may receive no or a limited amount of interest (if applicable), (ii) payment of nominal or interest (if applicable) or delivery of any specified assets may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

The market price of such Securities may be volatile and will be affected by, amongst other things, the time remaining to the redemption date and the creditworthiness of the Reference Entity(ies) which in turn may be affected by the economic, financial and political events in one or more jurisdictions.

Where the Securities provide for physical delivery, the relevant Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the relevant Issuer and/or any affiliate has not received under the terms of any transaction entered into by the relevant Issuer and/or such affiliate to hedge the relevant Issuer's obligations in respect of the Securities. Any such determination may delay settlement in respect of the Securities and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Securities and as a result, the amount of nominal payable on redemption. Prospective investors

should review the Conditions of the Securities and the applicable Final Terms to ascertain whether and how such provisions should apply to the Securities.

The relevant Issuer's obligations in respect of CLSs are irrespective of the existence or amount of the relevant Issuer's and/or any affiliates' credit exposure to a Reference Entity, and the relevant Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

(ii) *Securityholders are exposed to credit risk on Reference Entities*

The holders of CLSs will be exposed to the credit of one or more Reference Entities, which exposure shall be, unless otherwise stated in the applicable Final Terms, to the full extent of their investment in such Securities. Upon the occurrence of any specified Credit Event with respect to any Reference Entity, the Securityholders may suffer significant losses at a time when losses may be suffered by a direct investor in obligations of such Reference Entity. However, the holding of a Security is unlikely to lead to outcomes, which exactly reflect the impact of investing in an obligation of a Reference Entity, and losses could be considerably greater than would be suffered by a direct investor in the obligations of a Reference Entity and/or could arise for reasons unrelated to such Reference Entity. Securityholders should also note that a Credit Event may occur even if the obligations of a Reference Entity are unenforceable or their performance is prohibited by any applicable law or exchange controls.

Where cash settlement or auction settlement applies, the occurrence of a Credit Event in relation to any Reference Entity from time to time may result in a redemption of the Securities in a reduced nominal amount or at zero (0) and, (if applicable) in a reduction of the amount on which interest is calculated. Where physical settlement applies, the occurrence of a Credit Event may result in the redemption of the Securities based on the valuation (or by delivery) of certain direct or indirect obligations of the affected Reference Entity, which obligations are likely to have a market value which is substantially less than their per amount.

Investors in the Securities are accordingly exposed, as to both nominal amount and (if applicable) interest, to the credit risk of the Reference Entity(ies). The maximum loss to an investor in the Securities is 100 per cent. of their initial investment, together with (if applicable) any interest amounts.

(iii) *A Credit Event may occur prior to the Trade Date*

Securityholders may suffer a loss of some or all of the nominal amount of the Securities in respect of one or more Credit Events that may be determined to have occurred prior to the Trade Date or the Issue Date. Neither the Calculation Agent or the relevant Issuer nor any of their respective affiliates has any responsibility to inform any Securityholder, or avoid or mitigate the effects of a Credit Event that has taken place prior to the Trade Date or the Issue Date.

(iv) *Increased credit risk is associated with "Nth-to-default" CLSs*

Where the Securities are Nth-to-Default CLSs, the Securities will be subject to redemption in full as described above upon the occurrence of a Credit Event in relation to the Nth Reference Entity.

- (v) *Credit risk may be increased where Reference Entities are concentrated in a particular sector or region*

Where the Securities are Nth-to-Default CLSs or Linear Basket CLSs, the credit risk to investors in the Securities may be increased, amongst other things, as a result of the concentration of Reference Entities in a particular industry sector or geographic area, or the exposure of the Reference Entities to similar financial or other risks as other Reference Entities.

- (vi) *Redemption amount may be subject to a fixed recovery percentage*

Where the Securities are Fixed Recovery CLSs, the occurrence of a Credit Event may result in an amount payable on the redemption of the Securities that will be calculated by reference to a fixed recovery percentage. Such percentage could be materially lower than the price of the relevant obligations of the relevant Reference Entity.

- (vii) *Redemption amount may be subject to a specific principal protection amount*

Where the Securities are Partially Principal Protected CLSs, the occurrence of a Credit Event may result in an amount payable on the redemption of the Securities that will be calculated by reference to a specified amount which will be different from the nominal amount outstanding of the Securities and the Securityholders may suffer a loss of some of the nominal amount of the Securities.

Where the Securities are Fully Principal Protected CLSs, the occurrence of a Credit Event may result in an interest amount payable on the Securities that will be calculated by reference to a specified amount which will be different from the nominal amount outstanding of the Securities and the Securityholders may suffer a loss of some of the interest amount on the Securities.

- (viii) *Leveraged CLSs may be redeemed early upon the occurrence of certain triggers*

The Issuer may early redeem Leveraged CLSs in whole, but not in part, at the Fair Market Value Redemption Amount if (a) 'Fair Market Value Trigger' is specified as being applicable in the applicable Final Terms, and the Fair Market Value Redemption Amount of a CLS of the relevant Series would be, assuming that such Series of CLSs would be redeemed in full on such date at the applicable Fair Market Value Redemption Amount, less than the Fair Market Value Trigger specified in the applicable Final Terms, (b) 'Reference Entity Spread Trigger' is specified as being applicable in the applicable Final Terms, the Reference Entity Spread (in the case of a Single Reference Entity CLS) or weighted average Reference Entity Spread in respect of all the relevant Reference Entities (in the case of an Nth-to-Default CLS or a Linear Basket CLS) exceeds the Reference Entity Spread Trigger specified in the applicable Final Terms or (c) 'Reference Entity Trigger' is specified as being applicable in the applicable Final Terms, the number of Reference Entities in respect of which a Credit Event has occurred exceeds the Reference Entity Trigger specified in the applicable Final Terms.

- (ix) *Calculation Agent not acting in the interests of Securityholders*

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent shall (in the absence of manifest error) be final and binding on the Securityholders. In performing its duties pursuant to the Securities and making any determinations expressed to be made by it, for example, as to substitute Reference Obligations or Successors, the right to designate a Credit Event and the right to select obligations of the affected Reference Entity for

valuation or delivery, the Calculation Agent shall act in its sole and absolute discretion and is under no obligation to act in the interests of the Securityholders, nor will the Issuer or the Calculation Agent be liable to account for any profit or other benefit which may accrue to it as a result of such determinations.

The exercise of such rights in such manner, for example by the selection of the eligible obligations of the Reference Entity having the lowest possible market value for valuation or delivery, as applicable, may result in an increased credit loss for holders of the Securities. Unless otherwise stated, the Calculation Agent is not bound to follow, or act in accordance with, any determination of the relevant Credit Derivatives Determinations Committee.

- (x) *The Hedge Amount will be determined by the Calculation Agent and may result in significant losses for Securityholders*

The Hedge Amount may comprise costs, expenses (including loss of funding), tax, and duties incurred by the relevant Issuer in connection with the redemption of the CLSs and/or the termination, settlement or re-establishment of any Hedge Transaction, and may be substantial. In particular, the Hedge Amount may reflect any increased cost of funding of the relevant Issuer or its Affiliates – such costs may result in a material reduction in amounts payable to investors, in particular where the credit risk of the relevant Issuer is correlated to the credit risk of the Reference Entity or Reference Entities.

- (xi) *Actions and performance of Reference Entities may affect the value of the Securities*

The actions and performance of Reference Entities (for example, merger or demerger or the repayment or transfer of indebtedness) may adversely affect the value of the Securities. The Securityholders should be aware that the Reference Entities to which the value of the Securities is exposed, and the terms of such exposure, may change over the term of the Securities.

- (xii) *Payments on the Securities may be deferred or suspended*

In certain circumstances, for example where (i) a Credit Event has occurred and the related credit loss has not been determined as at the relevant date for payment, (ii) where a potential Credit Event exists as at the scheduled redemption of the Securities, or (iii) pending a resolution of a Credit Derivatives Determinations Committee, payment of the redemption amount of the Securities and/or interest (if applicable) on the Securities may be deferred for a material period in whole or part without compensation to the holders of the Securities.

- (xiii) *Cessation of interest*

Interest (if applicable) will cease to accrue on the earlier of (a) the period from (but excluding) the Scheduled Redemption Date, and (b) following satisfaction of the Conditions to Settlement, (x) the Interest Payment Date immediately preceding the Event Determination Date, (y) the related Event Determination Date or (z) the Scheduled Redemption Date, as may be specified in the Final Terms. In no event shall interest accrue on any period commencing after the Scheduled Redemption Date.

- (xiv) *Suspension of obligations will suspend payment of nominal and interest*

If the Calculation Agent determines that, under the terms of the Securities, the obligations of the parties would be suspended pending a resolution of a Credit Derivatives Determination Committee all of the obligations of the relevant Issuer under each CLS (including any obligation to deliver any notices, pay any interest, nominal or settlement amount or to make any delivery) shall, be and remain suspended until ISDA or, as the case may be, the DC Secretary

publicly announces that the relevant Credit Derivatives Determination Committee has resolved the matter in question or not to determine such matters. The Calculation Agent will provide notice of such suspension as soon as reasonably practicable; however, any failure or delay by the Calculation Agent in providing such notice will not affect the validity or effect of such suspension. No interest shall accrue on any payments, which are suspended in accordance with the above.

(xv) *Use of Auction Settlement may adversely affect returns to Securityholders*

Where the Securities are redeemed following the occurrence of a Credit Event by reference to an auction sponsored by ISDA, the relevant Issuer or its affiliates may act as a participating bidder in any such auction and, in such capacity, may take certain actions which may influence the Auction Final Price including (without limitation) submitting bids, offers and physical settlement requests with respect to the obligations of the Reference Entity. If the relevant Issuer or its affiliates participate in an Auction, then they will do so without regard to the interests of Securityholders, and such participation may have a material adverse effect on the outcome of the relevant Auction and/or on the CLSs. Securityholders will not, solely by virtue of holding Securities, have any right to submit bids and/or offers in relation to any CLS for the purposes of any Auction.

The Auction Final Price determined pursuant to an auction may be less than the market value that would otherwise have been determined in respect of the specified Reference Entity or its obligations. In particular, the Auction process may be affected by technical factors or operational errors, which would not otherwise apply or may be the subject of actual or attempted manipulation. Auctions may be conducted by ISDA or by a relevant third party. Neither the Calculation Agent, the relevant Issuer nor any of their respective affiliates has any responsibility for verifying that any auction price is reflective of current market values, for establishing any auction methodology or for verifying that any auction has been conducted in accordance with its rules. The relevant Issuer will have no responsibility to dispute any determination of an Auction Final Price or to verify that any Auction has been conducted in accordance with its rules.

Following a "Restructuring" Credit Event in relation to which ISDA sponsors multiple concurrent auctions, but where there is no auction relating to credit derivative transactions with a maturity of the Securities, if the Calculation Agent exercises the right of the buyer of credit risk protection under the Securities to elect that the Auction Final Price is determined by reference to an alternative Auction, the Auction Final Price so determined may be lower than the amount which would have been determined based on quotations sought from third party dealers

(xvi) *Use of Cash Settlement may adversely affect returns to Securityholders*

If the Securities are cash settled, then, following the occurrence of a Credit Event, the Calculation Agent will be required to seek quotations in respect of selected obligations of the affected Reference Entity. Quotations obtained will be "bid-side" — that is, they will be reduced to take account of a bid-offer spread charged by the relevant dealer. Such quotations may not be available, or the level of such quotations may be substantially reduced as a result of illiquidity in the relevant markets or as a result of factors other than the credit risk of the affected Reference Entity (for example, liquidity constraints affecting market dealers). Accordingly, any quotations so obtained may be significantly lower than the value of the relevant obligation which would be determined by reference to (for example) the present value

of related cash flows. Quotations will be deemed to be zero (0) in the event that no such quotations are available.

(xvii) *"Cheapest-to-Deliver Risk"*

The Calculation Agent has discretion to choose the portfolio of obligations to be valued or delivered following a Credit Event in respect of a Reference Entity where Cash Settlement or Physical Settlement applies. In such circumstances, the Calculation Agent is not required to consider the interests of the Securityholders and will consult with the Issuer regarding such selection. As such, it is likely that the portfolio of obligations selected will be obligations of the Reference Entity with the lowest anticipated market value that are permitted to be selected pursuant to the Securities. This could result in a lower recovery value and hence greater losses for investors in the Securities.

(xviii) *The Issuer, Guarantor and/or Calculation Agent may conduct business with, and are not obliged to disclose information on, Reference Entities*

Any member of the Group may (i) deal in any Relevant Obligation; (ii) accept deposits from, make loans or otherwise extend credit to, and generally engage in any kind of commercial or investment banking or other business with, any Relevant Entity, or its affiliates or any other person or entity having obligations relating to any Relevant Entity or any Relevant Obligation; and (iii) act with respect to such business freely and without accountability to the Securityholder in the same manner as if the Securities did not exist, regardless of whether any such action might have an adverse effect on any Relevant Obligation, any Relevant Entity or the Securities or on such Securityholder or otherwise (including, without limitation, any action that might give rise to a Credit Event).

Any member of the Group may be, whether by virtue of the types of relationships described above or otherwise, at any time, in possession of information in relation to any Relevant Obligation or any Relevant Entity which is or may be material in the context of the Securities and which is or may not be known to the general public or the Securityholder. The Securities do not create any obligation on the part of any member of the Group to disclose to the Securityholder any such relationship or information (whether or not confidential) and no member of the Group shall be liable to the Securityholder by reason of such non-disclosure.

(xix) *The relevant Issuer is not obliged to suffer any loss as a result of a Credit Event*

Where the Securities are Single Reference Entity CLSs, Nth-to-Default CLSs or Linear Basket CLSs, credit losses will be calculated for the purposes of the Securities irrespective of whether the relevant Issuer or its affiliates has suffered an actual loss in relation to the Reference Entity or any obligations thereof. The relevant Issuer is not obliged to account for any recovery, which it may subsequently make in relation to such Reference Entity or its obligations.

(xx) *The Securities do not represent an interest in obligations of Reference Entities*

The Securities do not represent or convey any interest in the Reference Obligation or in any other Relevant Obligations or any direct or indirect obligation of any Relevant Entity to the Securityholder. The relevant Issuer is not an agent of the Securityholder for any purpose, and the Securityholders will not have any voting or other rights in relation to such obligation by virtue of holding Securities. The relevant Issuer does not grant any security interest over any such obligation (other than where the Securities are also Secured Securities and the relevant obligations are Collateral Assets).

(xxi) *The value of the Securities may be adversely affected by illiquidity or cessation of indices*

In determining the value of the Securities, dealers may take into account the level of a related credit index in addition to or as an alternative to other sources of pricing data. If any relevant index ceases to be liquid, or ceases to be published in its entirety, then the value of the Securities may be adversely affected.

(xxii) *Historical performance may not predict future performance*

Individual Reference Entities may not perform as indicated by the historical performance of similar entities and no assurance can be given with respect to the future performance of any Reference Entities. Historical default statistics may not capture events that would constitute Credit Events for the purposes of the Securities.

(xxiii) *Limited provision of information about the Reference Entities*

Investors should conduct their own investigation and analysis with respect to the creditworthiness of Reference Entities and the likelihood of the occurrence of a Succession Event or Credit Event.

Reference Entities may not be subject to regular reporting requirements under United Kingdom or other securities laws. The Reference Entities may report information in accordance with different disclosure and accounting standards. Consequently, the information available for such Reference Entities may be different from, and in some cases less than, the information available for entities that are subject to the reporting requirements under the securities laws which investors are familiar with. None of the relevant Issuer, the Guarantor or the Calculation Agent or any of their respective affiliates make any representation as to the accuracy or completeness of any information available with respect to the Reference Entities.

None of the relevant Issuer, the Guarantor or the Calculation Agent or any of their respective affiliates will have any obligation to keep investors informed as to any matters with respect to the Reference Entities or any of their obligations, including whether or not circumstances exist that give rise to the possibility of the occurrence of a Credit Event or a Succession Event with respect to the Reference Entities.

(xxiv) *Cash settlement (whether by reference to an auction or a dealer poll) may be less advantageous than physical delivery of assets*

Payments on the CLSs following the occurrence of an Event Determination Date may be in cash and will reflect the value of relevant obligations of the affected Reference Entity at a given date. Such payments may be less than the recovery which would ultimately be realised by a holder of debt obligations of the affected Reference Entity, whether by means of enforcement of rights following a default or receipt of distributions following an insolvency or otherwise.

(xxv) *Conflicts of interest – Credit Derivatives Determinations Committees*

The relevant Issuer or any of its affiliates may act as a member of a Credit Derivatives Determinations Committee. In such case, the interests of the relevant Issuer or its affiliates may be opposed to the interests of Securityholders and they will be entitled to and will act without regard to the interests of Securityholders.

*(xxvi) Rights associated with Credit Derivatives Determinations Committees*

The institutions, which are members of each Credit Derivatives Determinations Committee, owe no duty to the Securityholders and have the ability to make determinations that may materially affect the Securityholders, such as the occurrence of a Credit Event or a Succession Event. A Credit Derivatives Determinations Committee may make determinations without action or knowledge of the Securityholders.

Securityholders may have no role in the composition of any Credit Derivatives Determinations Committee. Separate criteria apply with respect to the selection of dealer and non-dealer institutions to serve on a Credit Derivatives Determinations Committee and the Securityholders may have no role in establishing such criteria. In addition, the composition of a Credit Derivatives Determinations Committee will change from time to time in accordance with the Credit Derivatives Determinations Committee's Rules (the **DC Rules**) as published by ISDA on its website at [www.isda.org](http://www.isda.org) (or any successor website thereto) from time to time and as amended from time to time in accordance with the terms thereof, as the term of an institution may expire or an institution may be required to be replaced. The Securityholders may have no control over the process for selecting institutions to participate on a Credit Derivatives Determinations Committee and, to the extent provided for in the Securities, will be subject to the determinations made by such selected institutions in accordance with the DC Rules.

Securityholders may have no recourse against either the institutions serving on a Credit Derivatives Determinations Committee or the external reviewers. Institutions serving on a Credit Derivatives Determinations Committee and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the DC Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the institutions on the Credit Derivatives Determinations Committee do not owe any duty to the Securityholders and the Securityholders will be prevented from pursuing claims with respect to actions taken by such institutions under the DC Rules.

Securityholders should also be aware that institutions serving on a Credit Derivatives Determinations Committee have no duty to research or verify the veracity of information on which a specific determination is based. In addition, a Credit Derivatives Determinations Committee is not obligated to follow previous determinations and, therefore, could reach a conflicting determination on a similar set of facts. If the relevant Issuer or the Calculation Agent or any of their respective affiliates serve as a member of a Credit Derivatives Determinations Committee at any time, then they will act without regard to the interests of the Securityholders.

Securityholders are responsible for obtaining information relating to deliberations of a Credit Derivatives Determinations Committee. Notices of questions referred to the Credit Derivatives Determinations Committee, meetings held to deliberate such questions and the results of binding votes will be published on the ISDA website and neither the relevant Issuer, the Guarantor, the Calculation Agent nor any of their respective affiliates shall be obliged to inform the Securityholders of such information (other than as expressly provided in respect of the Securities). Failure by the Securityholders to be aware of information relating to deliberations of a Credit Derivatives Determinations Committee will have no effect under the Securities and Securityholders are solely responsible for obtaining any such information.

Investors should read the DC Rules and reach their own views prior to making any investment decisions. Investors should however note that the DC Rules may be amended from time to time

without the consent or input of the Securityholders and the powers of the Credit Derivatives Determinations Committee may be expanded or modified as a result.

(xxvii) *"M(M)R Restructuring" – the Calculation Agent may elect settlement terms*

In respect of a Reference Entity for which Restructuring is applicable and M(M)R Restructuring is specified as applicable in the Final Terms, upon the occurrence of such M(M)R Restructuring Credit Event, as the case may be, and prior to 65 Business Days following the Final List Publication Date, the Calculation Agent will determine whether the Transaction Auction Settlement Terms or any Parallel Auction Settlement are applicable to the Securities. In the event that one or more of the Transaction Auction Settlement Terms and Parallel Auction Settlement Terms is applicable to the Securities, the Calculation Agent may elect such settlement terms as applicable by giving an Auction Settlement Amount Notice to the Issuer. In making such determination and such selection, the relevant Issuer will act in its own discretion, and not in the interests of the investors.

The Auction Final Price or Weighted Average Final Price may be based on one or more obligations of the Reference Entity having a final redemption date different from that of the Restructured Bond or Loan or any specified Reference Obligation – which may affect the Auction Settlement Amount determined in respect of the Securities.

(xxviii) *Non-delivery of Deliverable Obligations and Hedge Disruption Event will not constitute an Event of Default*

Where Physical Settlement is the applicable Settlement Method, if as a result of a Hedge Disruption Event, the relevant Issuer and/or any of its affiliates have not received the Deliverable Obligations and/or cash under the terms of a Hedge Transaction, such event will not constitute an Event of Default for the purposes of the Securities. In such circumstances settlement of the Securities may be substantially delayed and/or may be in cash (in whole or in part).

(xxix) *Calculation Agent may modify terms of the Securities*

The Calculation Agent may, following its determination that there has been a change in the prevailing market standard terms or market trading conventions (including, but not limited to changes that affect any CDS hedging transaction), modify the terms of the Securities. If the Calculation Agent modifies the terms of the Securities, it will do so without regard to the interests of the holders of the Securities and any such modification may be prejudicial to the interests of the holder of the Securities.

(n) **Risks related to Bond Linked Securities**

(i) *General*

The Issuers may issue Securities where the amount of nominal and/or interest (if applicable) payable are dependent upon whether certain events (**Bond Events**) have occurred in respect of one or more Bonds and, if so, on the value of the relevant Bond or where, if such events have occurred, on redemption the relevant Issuer's obligation is to deliver the Bond.

Prospective investors in any such Securities should be aware that depending on the terms of the Bond Linked Securities (**BLSs**) (i) they may receive no or a limited amount of interest (if applicable), (ii) payment of nominal or interest (if applicable) or delivery of any specified assets may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

The market price of such Securities may be volatile and will be affected by, amongst other things, the time remaining to the redemption date and the creditworthiness of the issuer of the Bond (the **Bond Issuer**) which in turn may be affected by the economic, financial and political events in one or more jurisdictions.

Where the Securities provide for physical delivery of the affected Bond, the relevant Issuer may determine that the Bonds to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the relevant Issuer and/or any affiliate has not received under the terms of any transaction entered into by the relevant Issuer and/or such affiliate to hedge the relevant Issuer's obligations in respect of the Securities. Any such determination may delay settlement in respect of the Securities and/or cause the obligation to deliver the Bond to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Securities and as a result, the amount of nominal payable on redemption. Prospective investors should review the Terms and Conditions of the Securities and the applicable Final Terms to ascertain whether and how such provisions should apply to the Securities.

The relevant Issuer's obligations in respect of BLSs are irrespective of the existence or amount of the relevant Issuer's and/or any affiliates' credit exposure to a Bond or the Bond Issuer, and the relevant Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Bond Event.

(ii) *Securityholders are exposed to credit risk on the Bonds*

The holders of BLSs will be exposed to the credit of one or more Bonds, which exposure shall be, unless otherwise stated in the applicable Final Terms, to the full extent of their investment in such Securities. Upon the occurrence of any specified Bond Event with respect to a Bond, the Securityholders may suffer significant losses at a time when losses may be suffered by a direct investor in the Bond. However, the holding of a Security is unlikely to lead to outcomes, which exactly reflect the impact of investing in the Bond, and losses could be considerably greater than would be suffered by a direct investor in the Bond and/or could arise for reasons unrelated to such Bond. Securityholders should also be aware that a Bond Event may occur even if the obligations of the Bond Issuer are unenforceable or their performance is prohibited by any applicable law or exchange controls.

(iii) *Securityholders are exposed to the loss of their entire investment in the Securities*

Where cash settlement applies, the occurrence of a Bond Event in relation to the relevant Bond from time to time may result in a redemption of the Securities in a reduced nominal amount or at zero (0) and, (if applicable) in a reduction of the amount on which interest is calculated. Where physical settlement applies, the occurrence of a Bond Event may result in the redemption of the Securities based on the valuation (or by delivery) of the Bond, which obligations may have a market value which is substantially less than their per amount.

Investors in the Securities are accordingly exposed, as to both nominal and (if applicable) interest, to the credit risk of the Bond and/or to any security created over the Bond. The maximum loss to an investor in the Securities is 100 per cent. of their initial principal investment, together with (if applicable) any interest amounts.

- (iv) *Credit risk may be increased where Bonds are issued by Bond Issuers concentrated in a particular sector or region*

Where the Securities are Basket BLSs, the risk to investors in the Securities may be increased, amongst other things, as a result of the concentration of the Bond Issuers in a particular industry sector or geographic area, or the exposure of the Bond Issuers to similar financial or other risks as other Bond Issuers.

- (v) *BLSs may be redeemed early upon the occurrence of certain triggers*

The Issuer may early redeem BLSs in whole, but not in part, at the Fair Market Value Redemption Amount if 'Fair Market Value Trigger' is specified as being applicable in the applicable Final Terms, and the Fair Market Value Redemption Amount of a BLS of the relevant Series would be, assuming that such Series of BLSs would be redeemed in full on such date at the applicable Fair Market Value Redemption Amount, less than the Fair Market Value Trigger specified in the applicable Final Terms.

- (vi) *Issuer and Calculation Agent will act in their own interests*

The relevant Issuer will exercise its rights under the terms of the Securities, in its own interests and those of its affiliates, and not in the interests of investors in the Securities. The exercise of such rights or the taking of such actions in such manner may result in an increased loss for holders of the Securities.

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent (including, without limitation, the right to designate a Bond Event) shall (in the absence of manifest error) be final and binding on the Securityholders. In performing its duties pursuant to the Securities and making any determinations expressed to be made by it, the Calculation Agent shall act in its sole and absolute discretion and is under no obligation to act in the interests of the Securityholders, nor will it be liable to account for any profit or other benefit which may accrue to it as a result of such determinations.

- (vii) *The Hedge Amount will be determined by the Calculation Agent and may result in significant losses for Securityholders*

The Hedge Amount may comprise costs, expenses (including loss of funding), tax, and duties incurred by the relevant Issuer in connection with the redemption of the Bond Linked Securities and/or the termination, settlement or re-establishment of any Hedge Transaction, and may be substantial. In particular, the Hedge Amount may reflect any increased cost of funding of the relevant Issuer or its Affiliates – such costs may result in a material reduction in amounts payable to investors, in particular where the credit risk of the relevant Issuer is correlated to the credit risk of the Bond.

- (viii) *Actions and performance of Bond Issuers may affect the value of the Securities*

The actions and performance of Bond Issuers may adversely affect the value of the Securities and such value may change over the life of the Securities.

- (ix) *Payments on the Securities may be deferred or suspended*

In certain circumstances, for example where (i) a Bond Event has occurred and the related Realisable Amount or Hedge Amount has not been determined as at the relevant date for

payment or (ii) where a potential failure to pay exists as at the scheduled redemption of the Securities, payment of the redemption amount of the Securities and/or interest on the Securities may be deferred for a material period in whole or part without compensation to the holders of the Securities and interest (if applicable) will cease to accrue on the Interest Payment Date immediately preceding the Event Determination Date. In no event shall interest accrue on any period commencing after the Scheduled Redemption Date.

(x) *Use of Cash Settlement may adversely affect returns to Securityholders*

If the Securities are cash settled, then, following the occurrence of a Bond Event, the Calculation Agent will be required to seek quotations in respect of the Bonds (unless the Bond has been redeemed or an Exchange Event has occurred). Quotations obtained will be "bid-side" — that is, they will be reduced to take account of a bid-offer spread charged by the relevant dealer. Such quotations may not be available, or the level of such quotations may be substantially reduced as a result of illiquidity in the relevant markets or as a result of factors other than the credit risk of the affected Bond Issuer (for example, liquidity constraints affecting market dealers). Accordingly, any quotations so obtained may be significantly lower than the value of the relevant obligation which would be determined by reference to (for example) the present value of related cash flows. Quotations will be deemed to be zero (0) in the event that no such quotations are available.

(xi) *The relevant Issuer, Guarantor and/or Calculation Agent may conduct business with, and are not obliged to disclose information on, Bonds or Bond Issuers*

Any member of the Group may (i) deal in any Bond; (ii) accept deposits from, make loans or otherwise extend credit to, and generally engage in any kind of commercial or investment banking or other business with, any Bond Issuer, or its affiliates or any other person or entity having obligations relating to any Bond Issuer or any Bond; and (iii) act with respect to such business freely and without accountability to the Securityholder in the same manner as if the Securities did not exist, regardless of whether any such action might have an adverse effect on the Bond, Bond Issuer or the Securities or on such Securityholder or otherwise (including, without limitation, any action that might give rise to a Bond Event).

Any member of the Group may be, whether by virtue of the types of relationships described above or otherwise, at any time, in possession of information in relation to any Bond or the related Bond Issuer which is or may be material in the context of the Securities and which is or may not be known to the general public or the Securityholder. The Securities do not create any obligation on the part of any member of the Group to disclose to the Securityholder any such relationship or information (whether or not confidential) and no member of the Group shall be liable to the Securityholder by reason of such non-disclosure.

(xii) *The relevant Issuer is not obliged to suffer any loss as a result of a Bond Event*

Where the Securities are Single Bond BLSs or Basket BLSs, the realisable amount will be calculated for the purposes of the Securities irrespective of whether the relevant Issuer or its affiliates has suffered an actual loss in relation to the Bond. The relevant Issuer is not obliged to account for any recovery, which it may subsequently make in relation to such Bond.

(xiii) *The Securities do not represent an interest in obligations of Bonds*

Save for Bond Linked Securities, which are also, Secured Securities and where the Bond is the Collateral Asset, the Securities do not represent or convey any interest in the Bonds to the

Securityholder. The relevant Issuer is not an agent of the Securityholder for any purpose, and the Securityholders will not have any voting or other rights in relation to the Bond.

(xiv) *The value of the Securities may be adversely affected by illiquidity or cessation of indices*

In determining the value of the Securities, dealers may take into account the level of a related credit index in addition to or as an alternative to other sources of pricing data. If any relevant index ceases to be liquid, or ceases to be published in its entirety, then the value of the Securities may be adversely affected.

(xv) *Historical performance may not predict future performance*

Individual Bonds may not perform as indicated by the historical performance of similar bonds and no assurance can be given with respect to the future performance of any Bonds. Historical default statistics may not capture events that would constitute Bond Events for the purposes of the Securities.

(xvi) *Limited provision of information about the Bonds*

Investors should conduct their own investigation and analysis with respect to the creditworthiness of Bonds and the likelihood of the occurrence of a Bond Event.

Bond Issuers may not be subject to regular reporting requirements under United Kingdom or similar securities laws. Bond Issuers may report information in accordance with different disclosure and accounting standards. Consequently, the information available for such Bonds may be different from, and in some cases less than, the information available for entities that are subject to the reporting requirements under securities laws which investors are familiar with. None of the relevant Issuer, the Guarantor or the Calculation Agent or any of their respective affiliates make any representation as to the accuracy or completeness of any information available with respect to the Bonds or the Bond Issuers.

None of the relevant Issuer, the Guarantor or the Calculation Agent or any of their respective affiliates will have any obligation to keep investors informed as to any matters with respect to the Bonds or the Bond Issuers, including whether or not circumstances exist that give rise to the possibility of the occurrence of a Bond Event.

(xvii) *Cash settlement may be less advantageous than physical delivery of assets*

Payments on the BLSs following the occurrence of an Event Determination Date may be in cash and will reflect the value of the Bond at a given date. Such payments may be less than the recovery which would ultimately be realised by a holder of the Bond, whether by means of enforcement of rights following a default or receipt of distributions following an insolvency or otherwise.

(xviii) *Non-delivery of Bonds will not constitute an Event of Default*

Where Physical Settlement is the applicable Settlement Method, if the relevant Issuer and/or any of its affiliates have not received the Bonds and/or cash under the terms of a Hedge Transaction, such event will not constitute an Event of Default for the purpose of the Securities. In such circumstances settlement of the Securities, may be substantially delayed and/or may be in cash (in whole or in part).

**(o) Risks related to Disruption Events**

Linked Interest Securities, Linked Redemption Securities, Bond Linked Securities and Credit Linked Securities may be subject to risks related to additional disruption events, market disruption events, disrupted days and other events that have a material effect on the Securities, if applicable (each as defined in the relevant Asset Conditions, the **Disruption Events**).

The occurrence of any Disruption Event may result in the postponement of the relevant observation date relating to any Underlying or affected component Underlying of a Basket, the postponement of the relevant payment date for interest or redemption or the redemption of the Securities by the Issuer. The amount to be paid following any postponement of the payment date will not be adjusted to take into account any interest or other sum in respect of the postponement of the payment.

Investors should be aware that the Calculation Agent has a large amount of discretion upon the occurrence of any Disruption Event. The Calculation Agent may make adjustments to the Conditions as it considers appropriate and may determine the fair market value of the relevant Underlying or good faith estimate of the level of the Index, as applicable, in accordance with the relevant Asset Conditions.

Any postponement of the observation date or payment date or any amendment to the Conditions may have an adverse effect on the value of the Securities. The occurrences of any such event may also adversely affect the investors' investment schedule, timetable or plans in relation to which the payment dates of the Securities are connected.

Furthermore, following the occurrence of such a Disruption Event, the Issuer may (i) elect to notify the Securityholders of an early redemption of the Securities or (ii) in respect of Linked Interest Securities or Linked Redemption Securities, make such adjustments to the terms and conditions of the Securities as it considers appropriate to reflect the consequences of the Disruption Event.

An investor in the Securities should ensure he fully understands the nature of the Disruption Events and the possible consequences and fallbacks that could impact the Securities or any relevant Underlying.

**(p) Risks related to Alternative Currency Securities****(i) Risks relating to Alternative Currency Securities**

If the Securities are Alternative Currency Securities, the occurrence of an Alternative Currency Event may lead to postponement of payments under the Securities, payment in an alternative currency or early redemption of the Securities.

**(ii) Risks relating to CNY Securities****(I) *CNY is not freely convertible and there are significant restrictions on the remittance of Renminbi into and outside the PRC which may adversely affect the liquidity of the Securities denominated in Renminbi***

CNY is not freely convertible at present. The PRC government continues to regulate conversion between CNY and foreign currencies, including the Hong Kong Dollar, despite the significant reduction over the years by the PRC government of its control over trade transactions involving import and export of goods and services as well as other frequent routine foreign exchange transactions known as current account items. Whilst the People's Bank of China (**PBOC**) has established Renminbi clearing and settlement mechanisms for participating banks in Hong Kong, Macau, Singapore, Taiwan, London, Frankfurt, Seoul, Toronto, Sydney, Doha, Paris, Luxembourg, Kuala

Lumpur, Bangkok, Johannesburg, Buenos Aires, Lusaka, Budapest and Santiago (each, a **Renminbi Settlement Centre**) through settlement agreements on the clearing of Renminbi business (the **Settlement Arrangements**) with banks designated by the PBOC for each Renminbi Settlement Centre (each, a **Renminbi Clearing Bank**), the current size of Renminbi denominated financial assets outside the PRC is limited.

There are restrictions imposed by the PBOC on Renminbi Clearing Banks in respect of cross-border Renminbi settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi Clearing Banks do not have direct Renminbi liquidity support from the PBOC. The Renminbi Clearing Banks only have access to onshore liquidity support from the PBOC for the purpose of squaring open positions of participating banks for limited types of transactions and are not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services. In such cases, the Renminbi Clearing Banks will need to source Renminbi from outside the PRC to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. New PRC regulations may be promulgated or the Settlement Arrangements may be terminated or amended in the future which may have the effect of restricting availability of Renminbi outside the PRC. The limited availability of Renminbi outside the PRC may affect the liquidity of Securities denominated in CNY. To the extent the Issuer is required to source Renminbi outside the PRC to service Securities denominated in Renminbi, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all.

(II) *CNY currency risk*

All payments of CNY under the Securities to the Securityholders will be made solely by transfer to a CNY bank account maintained in Hong Kong or a financial centre in which a Renminbi Clearing Bank clears and settles Renminbi in accordance with the prevailing rules and regulations and in accordance with the terms and conditions of the Securities. The relevant Issuer cannot be required to make payment by any other means (including in any other currency or by transfer to a bank account in the PRC). CNY is not freely convertible at present, and the conversion of CNY into other currencies through banks in Hong Kong is subject to certain restrictions.

In addition, there can be no assurance that the access to CNY for the purposes of making payments under the Securities or generally may remain or will not become restricted. If it becomes impossible to convert CNY from/to another freely convertible currency, or transfer CNY between accounts in Hong Kong (or a financial centre in which a Renminbi Clearing Bank clears and settles Renminbi), or the general CNY exchange market becomes illiquid, any payment of CNY under the Securities may be delayed or the relevant Issuer may make such payments in another currency selected by the relevant Issuer using an exchange rate determined by the Calculation Agent, or the relevant Issuer may redeem the Securities by making payment in another currency.

(III) *CNY exchange rate risk*

The value of CNY against Hong Kong Dollar and other foreign currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. The relevant Issuer will make all payments of CNY under the

Securities in CNY (subject to the second paragraph under the heading "*CNY currency risk*" above). As a result, the value of such payments of CNY (in Hong Kong Dollar or other applicable foreign currencies) may vary with the prevailing exchange rates in the marketplace. If the value of CNY depreciates against Hong Kong Dollar or other foreign currencies, the value of an investor's investment in Hong Kong Dollar or other applicable foreign currencies will decline.

(IV) *CNY interest rate risk*

Where applicable, the value of payments of CNY under the Securities may be susceptible to interest rate fluctuations, including Chinese CNY Repo Rates and/or the Shanghai Interbank Offered Rate (**SHIBOR**). Furthermore, due to the foreign exchange control imposed by the applicable PRC laws and regulations and the prevailing market conditions, the CNY interest rate in the markets outside the PRC may significantly deviate from the CNY interest rate in the PRC.

(V) *Payments with respect to Securities denominated in Renminbi may be made only in the manner designated in such Securities*

Securityholders may be required to provide certification and other information (including Renminbi account information) in order to be allowed to receive payments in Renminbi in accordance with the Renminbi clearing and settlement system for participating banks in Hong Kong. All payments to investors in respect of Securities denominated in Renminbi will be made solely (i) for so long as Securities denominated in Renminbi are represented by global securities or global registered securities held with the common depositary or common safekeeper, as the case may be, for Clearstream Banking société anonyme and Euroclear Bank SA/NV or any alternative clearing system, by transfer to a Renminbi bank account maintained in Hong Kong or (ii) for so long as Securities denominated in Renminbi are in definitive form, by transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing rules and regulations. Other than described in the terms and conditions of the Securities, the Issuer cannot be required to make payment by any other means (including in any other currency or in bank notes, by cheque or draft or by transfer to a bank account in the PRC).

(VI) *Gains on the transfer of Securities denominated in Renminbi may become subject to income taxes under PRC tax laws*

Under the PRC Enterprise Income Tax Law, the PRC Individual Income Tax Law and the relevant implementing rules as amended from time to time, any gain realised on the sale, transfer, redemption or other disposal of Securities denominated in Renminbi by Securityholders who are deemed to be non-PRC resident enterprise or individual Securityholders may be subject to PRC enterprise income tax ("**EIT**") or PRC individual income tax ("**IIT**") if such gain is regarded as income derived from sources within the PRC.

However, there is uncertainty as to whether gains realised from the sale, transfer, redemption or other disposal of Securities denominated in Renminbi by a non-PRC resident enterprise or individual Securityholders would be treated as income derived from sources within the PRC and subject to the EIT or the IIT. This will depend on how the PRC tax authorities interpret, apply or enforce the PRC Enterprise Income Tax Law, the PRC Individual Income Tax law and the relevant implementing rules.

Securityholders should obtain their own professional advice on matters relating to taxation.

(VII) *Remittance of proceeds into or outside of the PRC in Renminbi*

In the event that the Issuer decides to remit some or all of the proceeds into the PRC in Renminbi, its ability to do so will be subject to obtaining all necessary approvals from, and registration with, the relevant PRC government authorities. However, there is no assurance that the necessary approvals from, and registration with, the relevant PRC government authorities will be obtained at all or, if obtained, they will not be revoked or amended in the future.

There is no assurance that the PRC government will continue to liberalise control over cross-border Renminbi remittances in the future, that any pilot schemes for Renminbi cross-border liberalisation will not be discontinued or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that the Issuer does remit some or all of the proceeds into the PRC in Renminbi and the Issuer subsequently is not able to repatriate funds outside the PRC in Renminbi, it will need to source Renminbi outside the PRC to finance its obligations under Securities denominated in Renminbi, and its ability to do so will be subject to the overall availability of Renminbi outside the PRC.

(q) **Risks related to Payoff Features**

(i) *General*

The Securities may be subject to the application of a Payoff Feature. The application of a Payoff Feature may mean that Securities are, in turn, subject to the application of Linked Interest and/or Linked Redemption, as specified in the applicable Final Terms. In these circumstances, the risks referred to above under the heading "*Risks related to the structure of a particular issue of Securities*" may be relevant to Securities, which are subject to a Payoff Feature.

The Linked Interest Rate and/or Redemption Payoff determined under the Linked Interest or Linked Redemption may be linked to the value of the Underlying(s) that have been selected under the relevant Standard Interest Payoffs, Combination Interest Payoffs, Standard Redemption Payoffs and/or Combination Redemption Payoffs. Negative performance of the Underlying(s) will consequently affect the value of the Linked Interest Rate and/or Redemption Payoff determined under the Linked Interest or Linked Redemption.

(ii) *Additive Payoff Feature*

Where Additive Payoff Feature is applicable, investors should ensure they carefully understand the risks associated with each applicable payoff feature and the inter-relation of any such Payoff Features.

(iii) *Global Cap Payoff Feature*

The amount payable on final redemption will be reduced by the Global Cap Amount. The amount payable on each instalment redemption will be decreased by, on the first Instalment Date, the Global Cap Amount and on each subsequent Instalment Date, the Global Cap Amount minus the aggregate amount deducted on any previous Instalment Date, subject to a minimum of zero (0).

(iv) *Currency Performance Payoff Feature*

The relevant Linked Interest Rate and/or Redemption Payoff, or part thereof, will be adjusted by multiplying the relevant percentage by an amount equal to 1 (one) minus the performance of the Reference Currency with respect to a Strike Level. There is no guarantee that any resultant adjustment in the Linked Interest Rate or Redemption Payoff, as the case may be, will be beneficial for Securityholders.

(v) *Bond Switch Option Payoff Feature*

Securityholders holding 100% of the aggregate nominal amount of the Securities outstanding may request to substitute a Bond by delivering a notice on or before a Bond Switch Option Expiry Date. Following receipt of such request, the Issuer shall provide the relevant Bond Switch Option Pricing, reflecting the cost or gain of effecting the switch of Bonds requested by the Securityholders, the difference between the market value of the replaced Bond and the replacing Bond and the resulting adjusted Linked Interest Rate applicable to the Securities. The Securityholders have the ability to request to fix the Bond Switch Option Pricing at a particular level; the Issuer has sole discretion to decline such request meaning the Securityholders holding 100% of the aggregate nominal amount of the Securities outstanding would not be able to fix the relevant Bond Switch Option Pricing. The Issuer may continually decline to fix the relevant Bond Switch Option Pricing at the level requested by Securityholders.

If the investor elects, and the Issuer agrees, to fix the Bond Switch Option Pricing at a particular level, it is irrevocable upon the giving of the Bond Switch Option Exercise Notice and there is no guarantee that the Bond Switch Option Pricing will be more beneficial compared to a Bond Switch Option Pricing that may be achievable subsequently.

(vi) *Investor Interest Switch Payoff Feature and Investor Redemption Switch Payoff Feature*

Securityholders holding 100% of the aggregate nominal amount of the Securities outstanding may request or elect (as the case may be in accordance with the relevant applicable terms and conditions) to change:

- (a) the basis on which interest is calculated from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub> and/or
- (b) the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub>.

Such request (in respect of a change from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub>) or election is irrevocable upon the giving of an Investor Interest Switch Notice or Investor Redemption Switch Notice, as applicable. If the investor requests and the Issuer agrees (in respect of a change from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub>), or the investor elects, to switch, there is no guarantee that Linked Interest<sub>2</sub> or Linked Redemption<sub>2</sub>, as applicable, will remain the most beneficial way of calculating the interest or the redemption for subsequent periods, as applicable.

The change of the redemption basis may have adverse tax consequences for Securityholders and Securityholders are advised to consult tax advisers before making an election.

(vii) *Issuer Interest Switch Payoff Feature and Issuer Redemption Switch Payoff Feature*

The relevant Issuer may elect to change:

- (a) the basis on which interest is calculated from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub> and/or
- (b) the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub>.

Investors will have no control over whether or not this option is exercised by the relevant Issuer. If the relevant Issuer elects to exercise such option this may negatively affect the Linked Interest Rate and/or the Redemption Payoff, as applicable, and therefore the value of the Securities.

The change of the redemption basis may have adverse tax consequences for Securityholders and Securityholders are advised to consult tax advisers before investing in the Securities.

(viii) *Knock-out Interest Switch Payoff Feature and Knock-out Redemption Switch Payoff Feature*

In the event of a Knock-out Interest Switch Payoff Feature or Knock-out Redemption Switch Payoff Feature being applicable, upon the occurrence of a Knock-out Interest Switch Event or a Knock-out Redemption Switch Event:

- (a) if the Knock-out Interest Switch Payoff Feature is applicable, the method of calculating the Linked Interest Rate will automatically switch from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub>, and/or
- (b) if the Knock-out Redemption Switch Payoff Feature is applicable, the method of calculating the Redemption Payoff with respect to the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, will automatically switch from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub>.

Investors will have no control over whether or not a switch will occur which is dependent on the value of the relevant Underlying(s). The switch may or may not be beneficial for investors and this feature may negatively impact the value of the Securities.

The change of the redemption basis may have adverse tax consequences for Securityholders and Securityholders are advised to consult tax advisers before investing in the Securities.

(ix) *Knock-out Basket Interest Switch Payoff Feature*

In the event of a Knock-out Basket Interest Switch Payoff Feature being applicable, upon the occurrence of a Knock-out Basket Interest Switch Event, the method of calculating the Linked Interest Rate will automatically switch from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub>.

Investors will have no control over whether or not a switch will occur, which is dependent on the value of the relevant Underlying(s). The switch may or may not be beneficial for investors and this feature may negatively impact the value of the Securities.

The change of the redemption basis may have adverse tax consequences for Securityholders and Securityholders are advised to consult tax advisers before investing in the Securities.

(x) *Target Interest Switch Payoff Feature*

The basis on which interest is calculated will switch automatically from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub> if a Target Interest Switch Event occurs. Investors will have no control over whether or not a switch will occur which depends on the amount of interest previously paid on the Securities. Linked Interest<sub>2</sub> may be a less beneficial way of calculating the Linked Interest Rate in subsequent Interest Accrual Periods and this may also negatively affect the value of the Securities.

(xi) *Shout Option Performance Lock-in Redemption Payoff Feature*

Securityholders holding 100% of the aggregate nominal amount of the Securities outstanding may request to fix the Underlying Value of each relevant Underlying used to determine the Final Redemption Amount or the relevant Instalment Redemption Amount, if the Shout Option Performance Lock-in Redemption Payoff Feature applies to the redemption amount.

The Issuer has sole discretion to decline to give the relevant level meaning the Securityholders holding 100% of the aggregate nominal amount of the Securities outstanding would not be able to fix the relevant Underlying on the date they request. The Issuer may continually decline to fix the relevant Underlying Value and so the Investor may never be able to exercise its option.

If the investor elects to fix the Underlying Value of each relevant Underlying it is irrevocable upon the giving of the Shout Option Exercise Notice and there is no guarantee that the value will be more beneficial compared to the values that may be achievable subsequently.

(xii) *Memory Interest Payoff Feature*

In the event that the Linked Interest Rate in any Interest Accrual Period is zero (0), where the Linked Interest Rate in any subsequent Interest Accrual Period is greater than zero (0), such Linked Interest Rate will be increased by a factor reflecting the number of previous consecutive Interest Payment Dates to which no interest was paid. There is no guarantee that the relevant Linked Interest Rate will reflect a market rate and the value of the Securities may substantially decrease. Furthermore there is no guarantee that the Linked Interest Rate will be greater than zero (0) in which case the Interest Amounts payable under the Securities may be zero (0).

(xiii) *Dual Currency (Interest) Payoff Feature and Dual Currency (Redemption) Payoff Feature*

If the Dual Currency (Interest) Payoff Feature or Dual Currency (Redemption) Payoff Feature applies, the interest amounts payable under the Securities and/or the amounts payable on redemption may be paid in a currency that is different to the currency in which the Securities are denominated. If more than one Interest Currency is specified in the applicable Final Terms the relevant Issuer may, at its discretion, choose from any one of the currencies specified and the investor will not know what currency interest amounts payable under the Securities will be paid in prior to the relevant payment date. If more than one Redemption Currency is specified in the applicable Final Terms in respect of a Redemption Date, Early Redemption Date or Instalment Date, the relevant Issuer may, at its discretion, choose from any one of the currencies specified and the investor will not know what currency the amount payable on such date will be paid in prior to the relevant payment date. The relevant Dual Currency (Interest) Exchange Rate or Dual Currency (Redemption) Exchange Rate, as the case may be, may be volatile and investors may receive a lower interest amount or Redemption Payoff payable on redemption than expected. Investors should also refer to the risks set out under "*Exchange rate risks and exchange controls*" for a general discussion as to risks involved in conversion.

(xiv) *Reset Option Interest Payoff Feature*

If Reset Option Interest Payoff Feature applies, the Securityholders holding 100% of the aggregate nominal amount of the Securities outstanding may request to change the basis on which interest is calculated. Following receipt of such request, the Issuer will notify the Securityholders holding 100% of the aggregate nominal amount of the Securities outstanding of the manner in which it would propose to change the basis on which interest is calculated and the Securityholders holding 100% of the aggregate nominal amount of the Securities outstanding may agree with the Issuer in implementing such changes, or not. There is no guarantee that any change in the basis on which interest is calculated will be beneficial for Securityholders.

(xv) *Reset Option Redemption Payoff Feature*

If Reset Option Redemption Payoff Feature applies, the Securityholders holding 100% of the aggregate nominal amount of the Securities outstanding may request to change the Final Redemption Amount or the Instalment Redemption Amount, as the case may be. Following receipt of such request, the Issuer will notify the Securityholders holding 100% of the aggregate nominal amount of the Securities outstanding of the manner in which it would propose to change the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, and the Securityholders holding 100% of the aggregate nominal amount of the Securities outstanding may agree with the Issuer in implementing such changes, or not. There is no guarantee that any change in the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, will be beneficial for Securityholders.

(xvi) *Single Interest Payment Date Payoff Feature*

The amount payable as interest may accrue throughout the life of the Securities based on observations and determinations throughout the life of the Securities but will be paid as a single amount on the Single Interest Payment Date. Where Securities are redeemed prior to the Single Interest Payment Date, there is no guarantee that the amount payable on such redemption date will take into account (i) any accrued but unpaid interest, or (ii) the amount that would have been payable as interest if the Securities had not been redeemed early.

(f) **Risks related to Early Redemption Triggers**(i) *Issuer Call Early Redemption Trigger*

The Issuer Call Early Redemption Trigger may limit the market value of Securities. On and prior to any Early Redemption Date, the market value of those Securities will generally not rise substantially above the price at which they can be redeemed.

The relevant Issuer may be expected to redeem Securities when its cost of borrowing is lower than the interest rate on the Securities. [The yields received upon redemption may be lower than expected, and the redeemed face amount of the Securities may be lower than the purchase price for the Securities paid for the Securities by the investor. As a consequence, part of the capital invested by the investor may be lost, so that the investor in such case would not receive the total amount of capital invested.] [Additionally,]/[At those times,] an investor would generally not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

(ii) *Knock-out Early Redemption Trigger*

The Knock-out Early Redemption Trigger, which provides that the relevant Securities will automatically be redeemed upon the occurrence of a Knock-out Trigger, may limit the market value of the Securities depending on the likelihood of the occurrence of a Knock-out Trigger.

At the Early Redemption Date, an investor may not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

(iii) *Callable Knock-out Early Redemption Trigger*

The Callable Knock-out Early Redemption Trigger, which provides that the relevant Issuer may elect to redeem the relevant Securities upon the occurrence of a Callable Knock-out Trigger, the relevant Issuer may limit the market value of the Securities depending on the likelihood of the occurrence of a Callable Knock-out Trigger.

The relevant Issuer may be expected to redeem Securities when its cost of borrowing is lower than the interest rate on the Securities. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

(iv) *Target Early Redemption Trigger*

The Target Early Redemption Trigger may limit the market value of Securities. On and prior to the Target Level being reached, the market value of those Securities generally will not rise substantially above the price at which they can be redeemed.

At the Early Redemption Date, an investor may not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

(v) *Knock-out Multi Underlying Early Redemption Trigger*

The Knock-out Early Multi Underlying Redemption Trigger, which provides that the relevant Securities will automatically be redeemed upon the occurrence of a Knock-out Multi Underlying Trigger, may limit the market value of the Securities depending on the likelihood of the occurrence of a Knock-out Multi Underlying Trigger.

At the Early Redemption Date, an investor may not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

(s) **Risks related to Redemption Methods**(i) *Standard Redemption, Performance Redemption and Growth Redemption*

Investors should be aware that the Early Redemption Amount, Instalment Redemption Amount or Final Redemption Amount may be less than the nominal amount of the Securities.

The Redemption Method applicable to the Final Redemption Amount or the Instalment Redemption Amount, as applicable, may be different to the Redemption Method applicable to the Early Redemption Amount. Where Performance Redemption or Growth Redemption applies, the Early Redemption Amount, Instalment Redemption Amount or Final Redemption Amount, as applicable, will be calculated by reference to a Redemption Payoff. Investors should have regard to the relevant risk factors, which apply to the Redemption Payoff specified in the applicable Final Terms to be applicable for determining the Early Redemption Amount, the Final Redemption Amount or the Instalment Redemption Amount, as the case may be. The calculation of such Redemption Payoff may be linked to the value of one or more Underlying(s) that have been selected under the relevant Redemption Payoff. The performance of the Underlying(s) will consequently affect the Early Redemption Amount, Instalment Redemption Amount or Final Redemption Amount an investor will receive.

(ii) *Fair Market Value Redemption Amount*

Where a Security is subject to early redemption, it may (where specified in the applicable Final Terms) be redeemed at its Fair Market Value Redemption Amount, which may be different from the amount due on the scheduled redemption date. Save in respect of Securities where the Fair Value Redemption Amount is determined by reference to a fixed percentage, the Fair Market Value Redemption Amount in respect of a Security will be an amount equal to the fair market value of the Security (subject to a minimum of zero) as at (or about) the date of early redemption, taking into account, without limitation, (i) the deduction of the Hedge Amount (except for an early redemption following the occurrence of an Additional Disruption Event and in respect of Italian Listed Certificates) and (ii) in the case of the Bond Linked Securities, the value of the relevant Bond but disregarding (1) (in the case of Secured Securities) any collateral which has been, or is required to be, delivered in connection with such Security and (2) (only in case of a payment event of default under the Securities or an insolvency of the relevant Issuer and/or the Guarantor) the financial condition of the relevant Issuer and/or the Guarantor. For Securities where the Fair Market Value Redemption Amount is calculated by a fixed percentage (as specified in the Final Terms) the Fair Market Value Redemption Amount Percentage will be an amount equal to the nominal amount of such Security outstanding as at the date of calculation, multiplied by the relevant percentage specified in the applicable Final Terms.

In the case of Bond Linked Securities which are Secured Securities and where the Collateral Assets consist in whole or in part of the Bond, and where the Fair Market Value Redemption Amount is being determined following enforcement of the security created in relation to the Securities, the value of the Bond shall be determined by reference to the value at which the Security Trustee, or the Disposal Agent on its behalf, is able to liquidate or realise the Bond (after deducting any costs associated with the relevant enforcement and liquidation and any related fees or taxes). In respect of Secured Securities and following a Custodian Default, the value of the Bond (where Collateral Monitoring is not applicable) or the Fair Market Value Redemption Amount (where Collateral Monitoring is applicable) shall be subject to a maximum of the value of the amounts actually recovered from the Custodian (or any agent, sub-custodian or delegate thereof).

Hedge Amounts represent the losses or costs (expressed as a positive number) to the relevant Issuer or any affiliate thereof that are incurred or gains (expressed as a negative number) of the relevant Issuer or any affiliate thereof that are realised in unwinding any hedging arrangements entered into in respect of the relevant Securities. The determination of the Hedge Amounts shall disregard the financial condition of the relevant Issuer and/or the Guarantor only in case of a payment event of default under the Securities or an insolvency of the relevant Issuer and/or the Guarantor.

Following the early redemption of the Securities, a Security holder may not be able to reinvest the redemption proceeds at an equivalent rate of return to the Securities being redeemed and may only be

able to do so at a significantly lower rate or in worse investment conditions. Potential investors should consider reinvestment risk in light of other investments available at that time.

(iii) *Redemption Unwind Costs*

Redemption Unwind Costs or Payoff Feature Unwind Costs, if applicable, reflect an amount, equal to such Security's *pro rata* portion of the value (determined in the currency in which the Securities are denominated) of any losses, expenses and costs to the relevant Issuer and/or any of its Affiliates who may have hedged the price risk of the Securities and any loss of tax relief or other tax consequences of unwinding or adjusting any underlying or related swap agreement or other hedging arrangements, all as calculated by the Calculation Agent in its sole discretion. The investor has no way of knowing if the Securities have been hedged, the terms of any such hedge and the consequences of when such hedge is unwound or adjusted and so have no way of knowing what this amount will be and the effect on the amount paid on redemption of the Securities.

#### 4 RISKS RELATED TO SECURED SECURITIES

(a) **Nature of security**

The security granted by the Issuer or, where Third Party Security is applicable, by the relevant Third Party Chargor, under a Pledge Agreement is a security interest over the Collateral Account in which the Collateral Assets are held (although investors should note the remaining provisions of this section relating to Collateral Assets which are held through a clearing system) and, prior to the occurrence of a Collateral Enforcement event, does not extend to any interest or distributions paid on such Collateral Assets (to the extent such amounts are not held in the relevant Collateral Account). The security granted by the Issuer under a Security Trust Deed is a security interest over the Issuer's rights under the Charged Documents, to the extent those rights relate to the relevant Series of Secured Securities.

Unless otherwise specified in the applicable Final Terms, no security interest will be granted by the Issuer or, where Third Party Security is applicable, by the relevant Third Party Chargor, over any of its rights under any agreement under which it acquires any Collateral Assets (including, without limitation, any hedging agreements) or its rights against the Custodian or any other Collateral Arrangement Party. This means that the Security Trustee will not have the ability to compel the Issuer or, if applicable, any Third Party Chargor, to enforce its rights (or to enforce such rights on behalf of the Issuer or Third Party Chargor) under any agreement against a counterparty to such agreement.

(b) **Custody arrangements and structure of the Collateral Accounts**

The Custodian may, to the extent permitted in the Custodian Agreement, hold certain cash and/or securities sub-accounts with other custodial entities (**sub-custodians**). Collateral Assets, which, pursuant to the terms of the Secured Security Conditions and the Custodian Agreement, are to be held with the Custodian in a Collateral Account, may therefore in practice be held by the Custodian in sub-accounts with sub-custodians. Where the Collateral Assets are held by a sub-custodian on behalf of the Custodian, they will be held pursuant to separate agreements which may vary in relation to any particular sub-custodian and which may not be governed by Luxembourg law. Security interests in respect of the Collateral Assets also may be created pursuant to separate agreements, which may not be governed by Luxembourg law.

The Custodian shall act in good faith and use reasonable care in the selection and continued appointment of sub-custodians, but shall otherwise have no responsibility with respect to the performance by such persons of their duties or in the event of their insolvency or dissolution. Accordingly, Securityholders will be exposed to, amongst other things, the risk of any potential operational disruption or any other adverse impact related to the Custodian and any sub-custodian (including disruption caused by any insolvency proceedings, which may be commenced in respect of the Custodian, and/or any such sub-custodians).

Investors should note that, pursuant to the Custodian Agreement and in respect of a Series of Secured Securities, the Custodian is entitled to withhold cash standing to the credit of any cash Collateral Account relating to that Series for the purposes of paying certain taxes which may be chargeable on payments from the Custodian to the Issuers in relation to that Series. In the event that the relevant Issuer failed to meet any such tax liability and the Custodian were to make a deduction from the Issuer's cash Collateral Account, the value of the Collateral Assets available for distribution would be reduced.

(c) **Type of collateralisation**

The security provided for a Series of Secured Securities is limited to the Collateral Assets constituting the Collateral Pool applicable to such Series. The amount of Collateral Assets constituting such Collateral Pool will depend, amongst other things, on whether Collateral Monitoring is specified as being applicable in the applicable Final Terms (and, if it is, also on the Type of Collateralisation specified as being applicable in the applicable Final Terms, on the Collateralisation Percentage specified in the applicable Final Terms, on whether or not Collateral Valuation at Nominal Value is applicable or on whether or not a Haircut is specified in the applicable Final Terms). There is no guarantee that the Collateral Assets will be sufficient to ensure that, following enforcement of a Pledge Agreement, the amounts available for distribution or the value of the Collateral Assets available to be delivered by the Security Trustee will be sufficient to pay all amounts due to Securityholders in respect of the relevant Series of Secured Securities (see "*Shortfall on Realisation of Collateral Assets and Limited Recourse of Securityholders*"). In addition the claim of Securityholders may differ from the value of the Collateral Assets (see Conditions 6.5 and 6.8 of the Secured Security Conditions).

(d) **Change of law – Implementation of the Collateral Directive under Luxembourg Law**

The provisions relating to Secured Securities in the General Conditions of the Securities (including the Secured Security Conditions), the Pledge Agreement and the other programme documentation are based on relevant law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact on Securityholders of any possible judicial decision or change to such laws, or the official application or interpretation of such laws or administrative practices after the date of this Base Prospectus. In particular, significant changes to the Luxembourg act dated 5 August 2005 on financial collateral arrangements, as amended (the Collateral Act 2005) implementing Directive 2002/47/EC on financial collateral arrangements (the **Collateral Directive**) in Luxembourg may have an adverse impact on the rights of the Securityholders. Neither the Issuers, the Guarantor nor any other party makes any representation as to the interpretation of, or any amendments to, any of the provisions of the Collateral Directive or its implementation in Luxembourg.

(e) **Potential lack of diversification of the Collateral Assets**

Investors should note that, depending on the relevant Eligibility Criteria and Collateral Rules, the Collateral Assets in a Collateral Pool on which a Series of Secured Securities are secured may be, unless otherwise specified in the relevant Eligibility Criteria and Collateral Rules, limited to one or a few assets or types of assets.

Low diversification of Collateral Assets in a Collateral Pool may increase the risk that the value of Collateral Assets deliverable on final redemption (if physical settlement is applicable) and that the proceeds of realisation of the Collateral Assets may be less than the sums due to the relevant Securityholders under the relevant Secured Securities. If the Collateral Pool is comprised of a limited number of different types of assets, any depreciation in the value of such assets and the realisation or delivery, as the case may be, of the Collateral Assets in the corresponding Collateral Pool will have a proportionally larger impact on any shortfall as the amount recovered in respect of the Collateral Assets on their sale will be dependent on the then current market value of a smaller range of Collateral Assets.

None of the Issuer, any Third Party Chargor, the Guarantor, the Security Trustee, the Collateral Manager, the Collateral Monitoring Agent or the Custodian is under any obligation to ensure that the relevant Eligibility Criteria or Collateral Rules provide for the diversification of Collateral Assets in a Collateral Pool.

(f) **Illiquid Collateral Assets**

Depending on the relevant Eligibility Criteria and Collateral Rules, certain of the Collateral Assets may not be admitted to trading on any public market and may be illiquid and not easily realisable in certain market circumstances. Where there is limited liquidity in the secondary market relating to Collateral Assets, on enforcement the Security Trustee or the Disposal Agent on its behalf may not be able to readily sell such Collateral Assets to a third party or may only be able to sell such Collateral Assets at a discounted value. Where the Security Trustee or the Disposal Agent on its behalf is unable to sell such Collateral Assets, the Security Trustee will be entitled to deliver such Collateral Assets as if Physical Delivery of Collateral Assets on Enforcement were applicable in relation thereto.

(g) **Correlation between the value of the Collateral Assets and the creditworthiness of certain entities**

Depending on the Eligibility Criteria and the Collateral Rules applicable for a Series of Secured Securities, the Collateral Assets relating to such Series could comprise of (in whole or in part) assets whose value may be positively or negatively correlated with the creditworthiness of the Issuer, any Third Party Chargor and the Guarantor. In the event that there is a positive correlation between the value of any Collateral Assets and the creditworthiness of the Issuer, any Third Party Chargor and the Guarantor, the value of these Collateral Assets will vary in the same way as the creditworthiness of the Issuer, Third Party Chargor and the Guarantor.

Where the value of any Collateral Assets is positively correlated with the creditworthiness of the Issuer, Third Party Chargor and the Guarantor, for example where the Collateral Assets consist of securities (such as debt or equities) issued by other financial institutions, a default by the Issuer and the Guarantor in relation to their obligations under the Secured Securities may be associated with a fall in the value of the relevant Collateral Assets.

(h) **Difference between the calculation of Secured Security Market Value and calculation of a Secured Security's value for other purposes**

The Secured Security Market Value of a Secured Security is the market value of the relevant Secured Security determined by the Security Valuation Agent on the basis of such valuation method as the Security Valuation Agent may, acting in good faith and in a commercially reasonable manner determine in its discretion and will take into account the Issuer's and Guarantor's creditworthiness. There may be a difference between the Secured Security Market Value of a Secured Security and the value of the Secured Security as determined for other purposes, including, without limitation, any determination as to its Fair Market Value Redemption Amount.

(i) **Haircut applied to Collateral Assets**

When determining the Collateral Value in respect of Collateral Assets in a Collateral Pool, the Collateral Manager will, if so specified in the applicable Final Terms, apply the Haircut (being the percentage amount by which the value of each type or class of Collateral Assets in a Collateral Pool is reduced) specified in the applicable Final Terms. Although the level(s) of Haircut specified in the applicable Final Terms is intended to reflect the risk of a depreciation in the value of Collateral Assets (in the period to which such Collateral Assets may be realised) investors should note that the value of a Collateral Asset may change over time and the Haircut applied to the Collateral Assets may become outdated and may not provide suitable protection against a potential depreciation in value of the relevant Collateral Asset. No duty of care towards investors is implied or accepted by the Issuer, any Third Party Chargor, the Guarantor, the Collateral Manager or the Collateral Monitoring Agent in relation to the level(s) of Haircut to be applied to the Collateral Assets in a particular Collateral Pool.

**(j) Collateral Monitoring**

Where Secured Securities are subject to Collateral Monitoring, on each Collateral Test Date, the Collateral Monitoring Agent shall verify whether (i) the Collateral Rules relating to such Collateral Pool are satisfied and (ii) the Collateral Value is greater than or equal to the Required Collateral Value for such Collateral Pool, taking into account any Haircut to be applied to the Collateral Assets.

Where it is not possible to provide such verification, the Issuer or the Third Party Chargor (or the Collateral Manager on their behalf) may be required to deliver, or procure the delivery of, additional or replacement Collateral Assets to the Collateral Account such that after such adjustment of Collateral Assets the test referred to above will be satisfied. Investors, nevertheless, will be exposed to a decline in the Collateral Value prior to any such adjustment. Prior to such adjustment there is also a risk that the Collateral Assets may not meet the Eligibility Criteria and/or that the Collateral Rules will not be satisfied.

Where Secured Securities are not subject to Collateral Monitoring, there will be no on-going monitoring of the composition of the Collateral Pool and its compliance with the Collateral Rules (save where Collateral Assets in the Collateral Pool are substituted in accordance with the Secured Security Conditions) and Securityholders are therefore exposed to a decline in the value of the Collateral Assets, possibly to zero.

**(k) Frequency of Collateral Test Dates where Collateral Monitoring is applicable**

In order to ensure that a Series of Secured Securities to which Collateral Monitoring applies is collateralised in accordance with its terms, the Collateral Value and the Required Collateral Value will be determined on the Issue Date, on each periodic Collateral Test Date thereafter as specified in the applicable Final Terms and on any additional date which is deemed to be a Collateral Test Date pursuant to the terms of the Secured Security Conditions. The lower the frequency of the periodic Collateral Test Dates specified in the applicable Final Terms and hence the greater the period of time in between each such periodic Collateral Test Date the more likely it is that upon enforcement of the relevant Pledge Agreement, the proceeds of enforcement that a Securityholder will receive or, where Physical Delivery of Collateral Assets on Enforcement is applicable, the value of the Collateral Assets delivered, will be less than the amounts due to Securityholders in respect of the relevant Series of Secured Securities.

In respect of Secured Securities in respect of which Collateral Monitoring is not applicable or where the Final Terms may specify that there will be no periodic Collateral Test Dates, there will be no periodic adjustments to the Collateral Assets in the Collateral Pool during the life of the relevant Secured Securities other than on any date which is deemed to be a Collateral Test Date pursuant to the terms of the Secured Security Conditions. In this case, if the security created under the relevant Pledge Agreement is enforced, the of Collateral Assets available for distribution or delivery to Securityholders on enforcement, may be less than the amounts due to Securityholders in respect of the relevant Series of Secured Securities.

**(l) Substitution of Collateral Assets**

If Collateral Substitution is specified as applicable in the applicable Final Terms, the Issuer or Third Party Chargor (or the Collateral Manager on their behalf) may withdraw and/or replace Collateral Assets from any Collateral Account provided that following such adjustment the applicable Collateral Test continues to be satisfied. The Issuer or Third Party Chargor (or the Collateral Manager on their behalf) may give instructions for the substitution of Collateral Assets any number of times over the term of the Secured Securities and is not required to obtain the consent of the Collateral Monitoring Agent (where applicable in relation to a Series of Secured Securities) or any other party prior to effecting the proposed substitution of Collateral Assets. Until any further adjustments to the Collateral Assets have occurred, the value of Collateral Assets held in a Collateral Account securing a Series of Secured Securities may be less than it would have been were it not for the substitution of Collateral Assets.

(m) **Early redemption or cancellation at the option of the Issuer upon a Collateral Disruption Event**

Secured Securities will be subject to Collateral Disruption Events (as defined in the Secured Security Conditions) which may increase the possibility (in comparison with Securities, which are not secured) of the Secured Securities being redeemed or cancelled early. Upon the occurrence of a Collateral Disruption Event, the Issuer may, in its sole and absolute discretion, redeem or cancel, as applicable, all of the relevant Secured Securities at their Early Redemption Amount following the occurrence of a Collateral Disruption Event. Following the early redemption of the Secured Securities, a Securityholder may not be able to reinvest the redemption proceeds at an equivalent rate of return to the Secured Securities being redeemed and may only be able to do so at a significantly lower rate or in worse investment conditions. Potential investors should consider reinvestment risk in light of other investments available at that time.

(n) **Secured Security Acceleration Event and enforcement of the security**

Any holder of a Secured Security in respect of which a Secured Security Event of Default has occurred and is continuing may, by giving written notice to the Issuer (and certain others), declare that the Securities of such Series which that holder holds are immediately due and repayable at their Early Redemption Amount. Following the giving of such notice, all the Secured Securities of the relevant Series will also become immediately due and repayable at their applicable Early Redemption Amount, without the need for any further action by or on behalf of any other holder. Following the occurrence of a Secured Security Acceleration Event and enforcement of the related security in accordance with the Secured Security Conditions, Securityholders will be entitled to claim for any outstanding amounts due to them in accordance with the Secured Security Conditions under the terms of, and subject to, the Guarantee.

The Security Trustee is only obliged to enforce a Pledge Agreement after having received a Collateral Enforcement Notice from a Securityholder. A Securityholder is only entitled to send a Collateral Enforcement Notice to the Security Trustee if neither the Issuer nor the Guarantor (pursuant to the terms of the Guarantee) has paid all amounts due to such Securityholder within a period of 14 Business Days (or such other period as may be specified in the Final Terms) following the occurrence of the relevant Secured Security Acceleration Event.

The existence of such period means that there will be a delay between the occurrence of a Secured Security Acceleration Event and the enforcement of the corresponding Pledge Agreement during which period there may be a depreciation in the value of the relevant Collateral Assets, thus reducing the amount available to satisfy the claims of Securityholders upon realisation of the Collateral Assets or the value of Collateral Assets available to be delivered to the Securityholders.

Where the Collateral Assets consist of debt securities, shares or other tradable securities, liquidation of all the Collateral Assets simultaneously may increase the risk that the proceeds of realisation of the Collateral Assets may be less than the sums due to the relevant Securityholders under the relevant Secured Securities because liquidation of all the Collateral Assets in the Collateral Pool at the same time could, in particular market circumstances, lead to a reduction in the market value of some or all of the Collateral Assets.

In addition, following the realisation of the Collateral Assets, an investor may not be able to reinvest any Collateral Enforcement Proceeds Share or, where applicable, any Collateral Assets that it receives at an equivalent rate of return to the Secured Securities that have become immediately due and payable following the occurrence of a Secured Security Acceleration Event and may only be able to do so at a significantly lower rate or in worse investment conditions. Potential investors should consider reinvestment risk in light of other investments available at that time.

(o) **Entitlement of Securityholders on enforcement and subordination to payment of expenses and other payments**

Following the enforcement of a Pledge Agreement, the rights of Securityholders to be paid amounts from the proceeds of such enforcement and the realisation of the related Collateral Assets or, where Physical Delivery of Collateral Assets on Enforcement is applicable, to be delivered Collateral Assets, will be limited to the applicable Early Redemption Amount.

The Early Redemption Amount in respect of a Secured Security will be equal to its Fair Market Value Redemption Amount, which is likely to be different from the amount due on the scheduled redemption date. The Fair Market Value Redemption Amount in respect of a Security will be for these purposes an amount equal to the fair market value of the Security (subject to a minimum of zero) as at (or about) the date of early redemption, taking into account, without limitation, (i) the deduction of the Hedge Amount (except for an early redemption following the occurrence of an Additional Disruption Event and in respect of Italian Listed Certificates) and (ii) in the case of the Bond Linked Securities, the value of the relevant Bond but disregarding (1) the financial condition of the relevant Issuer and/or the Guarantor and (2) any collateral which has been, or is required to be, delivered in connection with such Security.

In the case of Bond Linked Securities which are Secured Securities and where the Collateral Assets consist in whole or in part of the Bond, and where the Fair Market Value Redemption Amount is being determined following enforcement of the security created in relation to the Securities, the value of the Bond shall be determined by reference to the value at which the Security Trustee, or the Disposal Agent on its behalf, is able to liquidate or realise the Bond (after deducting any costs associated with the relevant enforcement and liquidation and any related fees or taxes). Following a Custodian Default, the value of the Bond (where Collateral Monitoring is not applicable) or the Fair Market Value Redemption Amount (where Collateral Monitoring is applicable) shall be subject to a maximum of the value of the amounts actually recovered from the Custodian (or any agent, sub-custodian or delegate thereof).

Hedge Amounts represent the losses or costs (expressed as a positive number) to the relevant Issuer or any affiliate thereof that are incurred or gains (expressed as a negative number) of the relevant Issuer or any affiliate thereof that are realised in unwinding any hedging arrangements entered into in respect of the relevant Securities.

Following the early redemption of the Secured Securities, a Securityholder may not be able to reinvest the redemption proceeds at an equivalent rate of return to the Secured Securities being redeemed and may only be able to do so at a significantly lower rate or in worse investment conditions. Potential investors should consider reinvestment risk in light of other investments available at that time.

A Securityholder's entitlement to the Early Redemption Amount in respect of any Secured Security in respect of which a Secured Security Acceleration Event has occurred will be subordinated to and therefore rank behind claims relating to any amounts payable to Secured Parties ranking prior to the Securityholders in accordance with the Order of Priority specified in the applicable Final Terms and any rights of preference existing by operation of law.

(p) **Shortfall on Realisation of Collateral Assets and limited recourse of Securityholders**

The security provided for a Series of Secured Securities is limited to the Collateral Assets constituting the Collateral Pool applicable to such Series together with the Issuer's right, benefit, interest and title, present and future, in, under and to the Charged Documents (to the extent they relate to such Series). The value realised for the Collateral Assets in the relevant Collateral Pool or, where Physical Delivery of Collateral Assets on Enforcement is applicable, the value of the Collateral Assets delivered, upon enforcement of the relevant Pledge Agreement may be less than the amounts due to Securityholders in respect of the relevant Series of

Secured Securities and as a result, investors may lose a substantial portion of their investment. The level of risk will particularly depend on whether Collateral Monitoring is applicable (and if it is, also on the Haircut value(s) and the Collateral Rules, the Eligibility Criteria and on the collateralisation method (either MV Collateralisation, NV Collateralisation, Max (MV, NV) Collateralisation or Min (MV, NV) Collateralisation) as specified in the applicable Final Terms) and the relevant Collateral Rules and Eligibility Criteria.

Investors should also note that the Collateral Assets may suffer a fall in value between the time at which the relevant Pledge Agreement becomes enforceable and the time at which the Collateral Assets are realised in full or, where Physical Delivery of Collateral Assets on Enforcement is applicable, delivered. In extraordinary circumstances, the Collateral Assets forming part of the Collateral Pool available at the time at which a Pledge Agreement becomes enforceable could lose all or a substantial proportion of their value by the time of realisation and distribution or delivery, as applicable.

If there is any shortfall in amounts due to a Securityholder in accordance with the Secured Security Conditions then such Securityholder shall have no further claim against the Issuer (where such Issuer is Crédit Agricole CIB FG or Crédit Agricole CIB FS), any Third Party Chargor or the Security Trustee in respect of such amounts which remain unpaid following enforcement of the relevant Pledge Agreement (including, for the avoidance of doubt, payments of nominal and/or interest in respect of the Securities). In such a scenario, Securityholders will be able to claim under the terms of the Guarantee against the Guarantor for any unpaid amounts and any such shortfall will therefore constitute an unsecured claim by such Securityholder against the Guarantor. Investors should therefore be aware that if the value realised for the Collateral Assets or the value of any Collateral Assets delivered is less than the amounts due to them under their Securities, they will be exposed to the creditworthiness of Crédit Agricole CIB for the remaining amount due to them.

(q) **Physical Delivery of Collateral Assets on Enforcement**

If Physical Delivery of Collateral Assets on Enforcement is specified in respect of a Series of Secured Securities, upon enforcement of a Pledge Agreement, the Security Trustee will not sell, or cause to be sold, the Collateral Assets (unless there is a Physical Delivery of Collateral Assets Disruption Event and other than in order to pay any amounts payable to Secured Parties ranking prior to the holders of Securityholders in accordance with the Order of Priority specified in the applicable Final Terms) but will procure delivery of the Collateral Assets Entitlement to each Securityholder in the manner set out in the Secured Security Conditions.

If a Physical Delivery of Collateral Assets Disruption Event occurs or exists on the relevant Collateral Delivery Date, settlement will be postponed until the next Collateral Business Day on which there is no Physical Delivery of Collateral Assets Disruption Event. If such Physical Delivery of Collateral Assets Disruption Event continues for a continuous period of 20 Collateral Business Days (or such other period as specified in the Final Terms) after the original Collateral Delivery Date, the Security Trustee or the Disposal Agent on its behalf will procure the sale of such Collateral Assets in lieu of delivery of the relevant Collateral Assets Entitlement. The amount received by a Securityholder following such sale of Collateral Assets may be lower than the amount, which a Securityholder would have received if the relevant Collateral Assets had been delivered to it and the Securityholder held the relevant Collateral Assets to the redemption date of such assets or sold such assets at a different point in time.

(r) **Risk of a delay in the realisation of the Collateral Assets in the event of the insolvency of any relevant party**

The insolvency of the Issuer will constitute a Secured Security Event of Default, which may trigger early redemption of any Secured Securities issued by the Issuer. In these circumstances, or in the event of the insolvency of any Third Party Chargor, the Guarantor or any Collateral Arrangement Party (for these purposes, each a **relevant party**), the realisation of the Collateral Assets may be delayed either by the appointment of an insolvency administrator or other insolvency official in relation to the relevant party or by measures ordered by

a competent court. Such delay could adversely affect the position of the Securityholders in the event of a depreciation in the value of the Collateral Assets during such period.

In addition, in the case of an insolvency of a member of the Group, it is possible that the Issuer, the Guarantor and the Collateral Arrangement Parties that are members of the Group may each be insolvent. Such circumstances may lead to a delay in the administrative processes involved in the realisation of the Collateral Assets. However, as the entities responsible for the enforcement of the Pledge Agreement and the realisation of the Collateral Assets, namely the Custodian, the Disposal Agent and the Security Trustee are not part of the Group, the impact of any insolvency of a member of the Group on such enforcement and realisation should be less material than it would have been if the Custodian, the Disposal Agent and/or the Security Trustee were part of the Group.

The Custodian, the Disposal Agent and the Security Trustee are (unless otherwise specified in the applicable Final Terms) part of the same group and in the event of the insolvency of one such entity it is possible that another of those entities may also be insolvent. Such circumstances may lead to a delay in the realisation of the Collateral Assets. The Custodian Agreement, Collateral Monitoring Agency Agreement, the Disposal Agency Agreement and each Security Trust Deed will contain provisions permitting the replacement of the Custodian, Collateral Monitoring Agent, Disposal Agent and Security Trustee, as applicable, in certain circumstances, including following insolvency, as further provided in such agreements and the Secured Security Conditions.

(s) **Potential conflicts of interest between Securityholders and the Collateral Manager and Security Valuation Agent**

As the Collateral Manager and Security Valuation Agent are affiliates of the Issuer or their relevant successor, potential conflicts of interest may arise between the Collateral Manager, the Security Valuation Agent and the holders of the Secured Securities, including with respect to the making of certain determinations and the exercise of certain discretions (including as to the calculation of the Secured Security Market Value of the Secured Securities, the Collateral Value and the Required Collateral Value). In addition, whilst the Collateral Manager and the Security Valuation Agent are obliged to carry out their duties and functions in good faith and using their reasonable judgment, neither the Collateral Manager nor the Security Valuation Agent acts or will act as a fiduciary or as an advisor to the Securityholders in respect of their duties as Collateral Manager and Security Valuation Agent, respectively.

The risk to holders of Secured Securities in respect of which Collateral Monitoring is applicable of any conflict of interest between Securityholders and the Collateral Manager is mitigated by the fact that any Collateral Test Notice is either reviewed, and the contents thereof verified by or otherwise agreed with, a Collateral Monitoring Agent not belonging to the Group or else is subject to a predetermined Collateral Test Dispute Resolution Procedure.

(t) **Security Trustee**

The Security Trustee will enforce the security under the relevant Pledge Agreement upon the delivery of a Collateral Enforcement Notice and either the Disposal Agent or the Security Trustee will (i) liquidate or realise the Collateral Assets in the Collateral Pool which secures a Series of Secured Securities and subsequently distribute the relevant Collateral Enforcement Proceeds Share (as defined in the Secured Security Conditions) to the relevant Securityholders or (ii) where Physical Delivery of Collateral Assets on Enforcement is specified as applicable in the applicable Final Terms, arrange for delivery of the relevant Collateral Assets Entitlement (as defined in the Secured Security Conditions) to the relevant Securityholders, in each case in accordance with the Order of Priority specified in the applicable Final Terms.

A failure by the Security Trustee or the Disposal Agent, as the case may be, to perform its obligations with respect to the Collateral Assets or to perform its obligations in an efficient manner may adversely affect the realisation of the Collateral Assets and the amount distributable or deliverable to Securityholders.

The Security Trustee may appoint an agent (the **Disposal Agent**) which, following receipt of instructions from the Security Trustee, will liquidate or realise the Collateral Assets in the relevant Collateral Pool. The initial Disposal Agent is Citibank N.A., London branch. A failure by the Disposal Agent to perform its obligations with respect to the Collateral Assets will adversely affect the realisation of the Collateral Assets and the amount distributable to Securityholders.

(u) **No fiduciary duties**

In performing their duties under the Programme, none of the Collateral Manager, the Collateral Monitoring Agent, the Security Valuation Agent, the Custodian or the Disposal Agent will act as a fiduciary or as an advisor to the Securityholders in respect of their respective duties and do not act as a trustee for the Securityholders.

## RETAIL CASCADES

Except in the circumstances described below, the Issuers have not authorised the making of any offer by any offeror and the Issuers have not consented to the use of this Base Prospectus by any other person in connection with any offer of the Securities in any jurisdiction. Any offer made without the consent of the Issuers is unauthorised and none of the Issuers nor, for the avoidance of doubt, the Guarantor or any of the Dealers accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.

If, in the context of a Non-exempt Offer (as such term is defined below), an investor is offered Securities by a person which is not an Authorised Offeror, the investor should check with such person whether anyone is responsible for this Base Prospectus for the purpose of the relevant Non-exempt Offer and, if so, who that person is. If an investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents, the Investor should take legal advice.

- (xiv) agrees and undertakes to indemnify each of the relevant Issuer, the Guarantor, as applicable, and the relevant Dealer (in each case on behalf of such entity and its respective directors, officers, employees, agents, affiliates and controlling persons) against any losses, liabilities, costs, claims, charges, expenses, actions or demands (including reasonable costs of investigation and any defence raised thereto and counsel's fees and disbursements associated with any such investigation or defence) which any of them may incur or which may be made against any of them arising out of or in relation to, or in connection with, any breach of any of the foregoing agreements, representations, warranties or undertakings by such financial intermediary, including (without limitation) any unauthorised action by such financial intermediary or failure by such financial intermediary to observe any of the above restrictions or requirements or the making by such financial intermediary of any unauthorised representation or the giving or use by it of any information which has not been authorised for such purposes by the relevant Issuer, the Guarantor, as applicable, or the relevant Dealer;
- (xv) agrees and accepts that:
  - (a) the contract between the relevant Issuer and the financial intermediary formed upon acceptance by the financial intermediary of the relevant Issuer's offer to use the Prospectus with its consent in connection with the relevant Non-exempt Offer (the **Authorised Offeror Contract**), and any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract, shall be governed by, and construed in accordance with, English law;
  - (b) the courts of England are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Authorised Offeror Contract (including a dispute relating to any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract) and accordingly submits to the exclusive jurisdiction of the English courts; and
  - (c) the relevant Issuer and each relevant Dealer will, pursuant to the Contracts (Rights of Third Parties) Act 1999, be entitled to enforce those provisions of the Authorised Offeror Contract

which are, or are expressed to be, for their benefit, including the agreements, representations, warranties, undertakings and indemnity given by the financial intermediary pursuant to the Authorised Offeror Terms;

(xvii) satisfy any further conditions specified in the applicable Final Terms,

in each case for so long as they are authorised to make such offers under MiFID (in each case any such financial intermediary being an **Authorised Offeror**).

For the avoidance of doubt, none of the Dealers, the Guarantor or the Issuers shall have any obligation to ensure that an Authorised Offeror complies with applicable laws and regulations and shall therefore have no liability in this respect.

The Issuers accept responsibility, in the Public Offer Jurisdiction(s) specified in the Final Terms, for the content of this Base Prospectus in relation to any person (an **Investor**) in such Public Offer Jurisdiction(s) to whom an offer of any Securities is made by any Authorised Offeror and where the offer is made in compliance with all the conditions attached to the giving of the consent, all as mentioned in this Base Prospectus and/or as specified in the applicable Final Terms. However, neither the Issuers, the Guarantor nor any Dealer has any responsibility for any of the actions of any Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

The consent referred to above relates to Offer Periods (if any) occurring within 12 months from the date of the approval of this Base Prospectus by the CSSF.

**In the event the applicable Final Terms designate Authorised Offeror(s) to whom the Issuers have given its consent to use this Base Prospectus during an Offer Period, the Issuers may also give consent to additional financial intermediary(ies) so long as they are authorised to make such offers under the Markets in Financial Instruments Directive (also an Authorised Offeror) after the date of the applicable Final Terms and, if it does so, it will publish any new information in relation to such Authorised Offerors who are unknown at the time of the approval of this Base Prospectus or the filing of the applicable Final Terms at <http://www.ca-cib.com/our-offers/rates-credit-and-cross-assets-derivatives.htm>.**

**If the Final Terms specify that any Authorised Offeror may use this Base Prospectus during the Offer Period, any such Authorised Offeror is required, for the duration of the Offer Period, to publish on its website that it is using this Base Prospectus for the relevant Non-exempt Offer with the consent of the Issuers and in accordance with the conditions attached thereto.**

Other than as set out above, neither the Issuers, the Guarantor nor any of the Dealers has authorised the making of any Non-exempt Offer by any person in any circumstances and such person is not permitted to use this Base Prospectus in connection with its offer of any Securities. Any such offers are not made on behalf of the Issuers, the Guarantor or by any of the Dealers or Authorised Offerors and none of the Issuers, the Guarantor or any of the Dealers or Authorised Offerors has any responsibility or liability for the actions of any person making such offers.

An Investor intending to acquire or acquiring any Securities from an Authorised Offeror will do so, and offers and sales of the Securities to an Investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price allocations and settlement arrangements (the **Terms and Conditions of the Non-exempt Offer**). The Issuers will not be a party to any such arrangements with Investors (other than Dealers) in connection with the offer or sale of the

Securities and, accordingly, this Base Prospectus and any Final Terms will not contain such information and an investor must obtain such information from the Authorised Offeror. **The Terms and Conditions of the Non-exempt Offer shall be provided to Investors by that Authorised Offeror at the time of the Non-exempt Offer.** Neither the Issuers, the Guarantor nor any of the Dealers or other Authorised Offerors have any responsibility or liability for such information.

## GENERAL DESCRIPTION OF THE PROGRAMME

*This section provides a general description of the Programme.*

*The following general description is qualified in its entirety by the remainder of this Base Prospectus and constitutes a general description of the Programme for the purposes of Article 22.5(3) of the Commission Regulation (EC) No. 809/2004, as amended.*

### **Securities that may be issued under the Programme**

The programme is a €50,000,000,000 Structured Debt Instruments Issuance Programme under which any Issuer may from time to time issue Notes or Certificates which may be Fixed Rate Securities, Floating Rate Securities, Credit Linked Securities, Bond Linked Securities, Commodity Linked Securities, Index Linked Securities, Inflation Linked Securities, FX Linked Securities, Rate Linked Securities, ETF Linked Securities, Share Linked Securities, Multi-Asset Basket Linked Securities, Alternative Currency Securities, CNY Securities, Dual Currency Securities, Zero Coupon Securities and Instalment Securities or any combination of the foregoing. Securities may be settled in cash or (if specified in the applicable Final Terms and in the case of Credit Linked Securities, Bond Linked Securities, Secured Securities, Share Linked Securities and ETF Linked Securities) by physical delivery. Securities may not be settled by delivery of the Issuers' own equity securities or of the equity securities of any entity in the Issuers' group and cannot be converted or exchanged into shares or other equity securities within the meaning of Article 17(2) of Commission Regulation (EC) No. 809/2004 of 29 April 2004. All Securities will be issued in accordance with and subject to all applicable laws and regulations and denominated in any currency, subject as set out herein.

In each case, the applicable terms of any Securities will be agreed between the relevant Issuer and the relevant Dealer prior to the issue of the Securities and will be set out in the Terms and Conditions of the Securities endorsed on, attached to, or incorporated by reference into, the Securities, as completed by the applicable Final Terms attached to, or endorsed on, such Securities, as more fully described under “*Form of the Securities*” below.

Securities may also be Secured Securities. Each Series of Secured Securities will be secured by the relevant Issuer or an affiliate thereof in favour of the relevant Securityholders in respect of a segregated pool of Collateral Assets. Where Collateral Monitoring is specified as being applicable in the applicable Final Terms, the value of the Collateral Assets relative to the value of the relevant Secured Securities will be monitored and, if required under the applicable Terms and Conditions, the Collateral Assets in the pool will be adjusted accordingly.

### **Non-exempt Offers of Securities**

Securities issued under this programme may be offered in circumstances that do not fall within an exemption from the requirement to publish a prospectus under the Prospectus Directive (a **Non-exempt Offer**). Private Placement Securities may also be issued under this programme, in circumstances, which involve an offer to the public outside the European Economic Area, or where Securities are of a type listed in Article 3.2 of the Prospectus Directive and are not admitted to trading on a regulated market under Article 3.3 of the Prospectus Directive.

## FORM OF THE SECURITIES

*This section provides information on the form of the Securities.*

Each Tranche of Securities will be in either bearer form, with or without interest coupons attached, or registered form, without interest coupons attached. Bearer Securities will be issued outside the United States in reliance on Regulation S under the Securities Act (**Regulation S**) and Registered Securities will be issued both outside the United States in reliance on the exemption from registration provided by Regulation S and within the United States in reliance on Rule 144A or Section 4(2) of the Securities Act.

### **Bearer Securities**

Each Tranche of Securities will be in bearer form (**Bearer Securities**) and will be initially issued in the form of a temporary global security (a **Temporary Bearer Global Security**) or, if so specified in the applicable Final Terms, a permanent global security (a **Permanent Bearer Global Security**, and together with the Temporary Bearer Global Security, the **Bearer Global Securities**) which, in either case, will:

- (i) if the Global Securities are intended to be issued in new global Note (**NGN**) form or new global Certificate (**NGC**) form (NGN and NGC together defined as new global Security (**NGS**)), as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper for Euroclear Bank SA/NV (**Euroclear**) and Clearstream Banking, *société anonyme* (**Clearstream, Luxembourg**); and
- (ii) if the Global Securities are not intended to be issued in NGS form, be delivered on or prior to the original issue date of the Tranche to a common depository for Euroclear and Clearstream, Luxembourg (in the case of Securities cleared through Euroclear and Clearstream, Luxembourg).

Whilst any Bearer Security is represented by a Temporary Bearer Global Security, payments of nominal, interest (if any) and any other amount payable in respect of the Securities due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Bearer Global Security if the Temporary Bearer Global Security is not intended to be issued in NGS form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Bearer Security are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent (in the case of Securities cleared through Euroclear and/or Clearstream, Luxembourg).

On and after the date (the **Exchange Date**) which is expected to be 40 days after a Temporary Bearer Global Security is issued, interests in such Temporary Bearer Global Security will be exchangeable (free of charge) upon a request as described therein either for (i) interests in a Permanent Bearer Global Security of the same Series or (ii) if so provided in the applicable Final Terms, for definitive Bearer Securities (**Definitive Bearer Securities**) of the same Series with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Final Terms) and subject, in the case of Definitive Bearer Securities, to such notice period as is specified in the applicable Final Terms), in each case against certification of beneficial ownership as described above unless such certification has already been given, provided that purchasers in the United States and certain U.S. persons will not be able to receive Definitive Bearer Securities. The holder of a Temporary Bearer Global Security will not be entitled to collect any payment of interest, nominal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Security for an interest in a Permanent Bearer Global Security or for Definitive Bearer Securities is improperly withheld or refused.

Payments of nominal, interest (if any) or any other amounts on a Permanent Bearer Global Security will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the

Permanent Bearer Global Security if the Permanent Bearer Global Security is not intended to be issued in NGS form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Bearer Global Security will be exchangeable (free of charge), in whole but not in part, for Definitive Bearer Securities with, where applicable, receipts, interest coupons and talons attached only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (i) an Event of Default (as defined in General Condition 10 (*Events of Default*)) has occurred and is continuing, (ii) the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg (in the case of Securities cleared through Euroclear and/or Clearstream, Luxembourg) have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available or (iii) the relevant Issuer has or will become subject to adverse tax consequences which are as a result of legislative changes in the domicile of the relevant Issuer and which would not be suffered were the Securities represented by Securities in definitive form. The relevant Issuer will promptly give notice to Securityholders in accordance with General Condition 14 (*Notices*) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Security) may give notice to the Principal Paying Agent (in the case of Securities cleared through Euroclear and/or Clearstream, Luxembourg) requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the relevant Issuer may also give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Bearer Securities, which have an original maturity of more than one year and on all receipts and interest coupons relating to such Bearer Securities:

“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE, AS AMENDED.”

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Securities, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of nominal in respect of such Securities, receipts or interest coupons.

Securities, which are represented by a Permanent Bearer Global Security, will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

### **Registered Securities**

Securities in registered form (**Registered Securities**) and sold in reliance on Regulation S, which will be sold to non-U.S. persons outside the United States, will initially be represented by a global security in registered form (a **Regulation S Global Security**). Beneficial interests in a Regulation S Global Security may not be offered or sold to, or for the account or benefit of, a U.S. person save as otherwise provided in General Condition 1.3 (*Transfer*) and may not be held otherwise than through Euroclear or Clearstream, Luxembourg and such Regulation S Global Security will bear a legend regarding such restrictions on transfer.

The Registered Securities of each Tranche issued by Crédit Agricole CIB may only be offered and sold in the United States or to, or for the account or benefit of, U.S. persons in private transactions to “qualified institutional buyers” within the meaning of Rule 144A under the Securities Act (**QIBs**) or institutional “accredited investors” as defined in Rule 501(a)(1), (2), (3) or (7) under the Securities Act (**IAIs**). The Registered Securities of each Tranche issued by Crédit Agricole CIB FG or Crédit Agricole CIB FS may only be offered and sold in the United States or

to, or for the account or benefit of, U.S. persons in private transactions to QIBs or IAIs who, in each case, are also “qualified purchasers” as defined in Section 2(a)(51) of the Investment Company Act and the rules thereunder (**QPs**). The Registered Securities of each Tranche sold to QIBs or QIBs who are also QPs, as applicable, will be represented by a global security in registered form (a **Rule 144A Global Security** and, together with a Regulation S Global Security, the **Registered Global Securities**).

The Registered Securities of each Tranche sold to IAIs will be represented by Registered Securities in definitive form, registered in the name of the holder thereof (**Definitive Registered Securities**) only. Unless otherwise set forth in the applicable Terms and Conditions or Final Terms, Definitive Registered Securities will be issued only in Specified Denominations of U.S.\$500,000 and integral multiples of U.S.\$1,000 in excess thereof (or the approximate equivalents in the applicable Specified Currency). Definitive Registered Securities will be subject to the restrictions on transfer set forth therein and will bear the restrictive legend described under “*Subscription and Sale*”. Transfers of Definitive Registered Securities will be subject to receipt by the Registrar of a duly executed Investment Letter from the transferee. Transferees acquiring the Securities in a transaction exempt from Securities Act registration pursuant to Regulation S may take delivery of such Securities as an interest in a Regulation S Global Security (if available).

Registered Global Securities will either (i) be deposited with a custodian (the **Custodian**) for, and registered in the name of a nominee of, the Depository Trust Company (**DTC**) and in the case of a Regulation S Global Security, for the accounts of Euroclear and Clearstream, Luxembourg (in the case of Securities cleared through Euroclear and/or Clearstream, Luxembourg) or (ii) be deposited with a common depository, or common safekeeper, as the case may be for Euroclear and Clearstream, Luxembourg, and registered in the name of a common nominee of, Euroclear and Clearstream, Luxembourg or in the name of a nominee of the common safekeeper, as specified in the applicable Final Terms. Persons holding beneficial interests in Registered Global Securities will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of Definitive Securities in fully registered form.

The Rule 144A Global Securities and the Definitive Registered Securities will be subject to certain restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

Payments of nominal, interest and any other amount in respect of the Registered Global Securities will be made to the person shown on the Register (as defined in General Condition 5.4 (*Payments in respect of Registered Securities*)) as the registered holder of the Registered Global Securities. None of the Issuers, the Guarantor, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of nominal, interest or any other amount in respect of the Registered Securities in definitive form, including, for the avoidance of doubt, Definitive Registered Securities, will be made to the persons shown on the Register on the relevant Record Date (as defined in General Condition 5.4 (*Payments in respect of Registered Securities*)) immediately preceding the due date for payment in the manner provided in that General Condition.

Interests in a Registered Global Security will be exchangeable (free of charge), in whole but not in part, for definitive Registered Securities without receipts, interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (a) an Event of Default (as defined in General Condition 10 (*Events of Default*)) has occurred and is continuing, (b) in the case of Securities registered in the name of a nominee for DTC, either DTC has notified the relevant Issuer that it is unwilling or unable to continue to act as depository for the Securities and no alternative clearing system is available or DTC has ceased to constitute a clearing agency registered under the Exchange Act, (c) in the case of Securities registered in the name of a nominee for a common depository for Euroclear and Clearstream, Luxembourg (in the case of Securities cleared through Euroclear and/or Clearstream, Luxembourg), the relevant Issuer has been notified that both Euroclear and

Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available or (d) the relevant Issuer has or will become subject to adverse tax consequences which would not be suffered were the Securities represented by the Registered Global Security in definitive form. The relevant Issuer will promptly give notice to Securityholders in accordance with General Condition 14 (*Notices*) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, DTC, Euroclear and/or Clearstream, Luxembourg may give notice to the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (d) above, the relevant Issuer may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

### **Transfer of Interests**

Interests in a Registered Global Security may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Registered Global Security or in the form of a Definitive Registered Security (if available) and Definitive Registered Securities may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such Securities in the form of an interest in a Registered Global Security (if available). No beneficial owner of an interest in a Registered Global Security will be able to transfer such interest, except in accordance with the applicable procedures of DTC, Euroclear and Clearstream, Luxembourg, in each case to the extent applicable. **Registered Securities are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions, see “Subscription and Sale”.**

### **Dematerialised Securities**

If so specified in the applicable Final Terms and for the purpose of allowing clearing of Securities in alternative clearing systems, any Series, other than series comprising Registered Securities to be sold to IAIs, may, in full but not in part, be issued in uncertificated and dematerialised book-entry form (**Dematerialised Securities**) in accordance with all applicable laws of the relevant jurisdiction of such alternative clearing system and the rules and regulations of such alternative clearing system.

Securities designated as “Swedish Securities” in the applicable Final Terms (**Swedish Securities**) will constitute Dematerialised Securities issued in uncertificated and dematerialised book-entry form in accordance with the Swedish Financial Instruments Accounts Act (in Swedish: *lag (1998:1479) om kontoföring av finansiella instrument*) and all other applicable Swedish laws, regulations and operating procedures applicable to and/or issued by the Swedish central securities depository (in Swedish: *central värdepappersförvarare*) from time to time (the **Swedish CSD Rules**) designated as the relevant clearing system for the Swedish Securities in the applicable Final Terms (which is expected to be Euroclear Sweden AB) (the **Swedish CSD**). No Physical Global or Definitive Securities or certificates will be issued in respect of Swedish Securities other than as provided below and the provisions relating to presentation, surrender or replacement of such physical bearer instruments shall not apply. Payments of nominal, interest (if any) or any other amounts on any Swedish Security will be made through the Swedish CSD in accordance with the Swedish CSD Rules.

Securities designated as “Norwegian Securities” in the applicable Final Terms (**Norwegian Securities**) will be issued in uncertificated and dematerialised book-entry form in accordance with the Norwegian Securities Register Act (in Norwegian: *lov om registrering av finansielle instrumenter av 5. juli 2002 nr. 64*). The Norwegian Securities shall be regarded as Securities represented by global securities for the purposes of the Terms and Conditions of the Securities save to the extent the otherwise is specified in the Terms and Conditions of the Securities or the relevant Terms and Conditions of the Securities are inconsistent with Norwegian laws, regulations

and operating procedures applicable to and/or issued by the relevant Norwegian central securities depository (in Norwegian: *verdipapirregister*) from time to time (the **Norwegian CSD Rules**) designated as relevant clearing system for the Norwegian Securities in the applicable Final Terms (which is expected to be Verdipapirsentralen ASA (VPS)) (the **Norwegian CSD**). No Physical Global or Definitive Securities or certificates will be issued in respect of Norwegian Securities and the provisions relating to presentation, surrender or replacement of such bearer instruments shall not apply.

Securities designated as “Finnish Securities” in the applicable Final Terms (**Finnish Securities**) will constitute Dematerialised Securities issued in uncertificated and dematerialised book-entry form in accordance with the Finnish Act on the Book-Entry System and Clearing Operations (in Finnish: *Laki arvo-osuusjärjestelmästä ja selvitystoiminnasta (749/2012)*), the Finnish Act on Book-Entry Accounts (in Finnish: *Laki arvo-osuustileistä 827/1991*, as amended) and all other applicable Finnish laws, regulations and operating procedures applicable to and/or issued by the Finnish central securities depository from time to time (the **Finnish CSD Rules**) designated as the relevant clearing system for the Finnish Securities in the applicable Final Terms (which is expected to be Euroclear Finland Oy) (the **Finnish CSD**). No Physical Global or Definitive Securities or certificates will be issued in respect of Finnish Securities. Payments or any other amounts on any Finnish Security will be made through the Finnish CSD in accordance with the Finnish CSD Rules. The Finnish CSD will not have qualified intermediary status.

When appropriate, the following legend will apply in respect of all Dematerialised Securities, which have an original maturity of more than one year and on all payments relating to such Dematerialised Securities:

“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE, AS AMENDED.”

## General

Pursuant to the Agency Agreement (as defined under “*Terms and Conditions of the Securities*”), the Principal Paying Agent shall arrange that, where a further Tranche of Securities is issued which is intended to form a single Series with an existing Tranche of Securities, the Securities of such further Tranche shall be assigned a Common Code and ISIN and, where applicable, a CUSIP and CINS number which are different from the Common Code and ISIN, CUSIP and CINS assigned to Securities of any other Tranche of the same Series until at least the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act) applicable to the Securities of such Tranche.

For so long as any of the Securities is represented by a Global Security held on behalf of Euroclear and/or Clearstream, Luxembourg each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Securities (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Securities standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error or proven error) shall be treated by the Issuers, the Guarantor and their agents as the holder of such nominal amount of such Securities for all purposes other than with respect to the payment of nominal or interest on such nominal amount of such Securities, for which purpose the bearer of the relevant Bearer Global Security or the registered holder of the relevant Registered Global Security shall be treated by the Issuers, the Guarantor and their agents as the holder of such nominal amount of such Securities in accordance with and subject to the terms of the relevant Global Security and the expressions **Securityholder** and **holder of Securities** and related expressions shall be construed accordingly.

So long as DTC or its nominee is the registered owner or holder of a Registered Global Security, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the Securities represented by such

Registered Global Security for all purposes under the Agency Agreement and such Securities except to the extent that in accordance with DTC's published rules and procedures any ownership rights may be exercised by its participants or beneficial owners through participants.

Any reference herein to DTC and/or Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any relevant clearing system specified in the applicable Final Terms.

Where General Condition 10 (*Events of Default*) applies to Securities, a Security may be accelerated by the holder thereof in certain circumstances described in General Condition 10 (*Events of Default*). In such circumstances, where any Security is still represented by a Global Security and the Global Security (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Securities and payment in full of the amount due has not been made in accordance with the provisions of the Global Security then the Global Security will become void at 8.00 p.m. (Paris time) on such day. At the same time, holders of interests in such Global Security credited to their accounts with DTC and/or Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the relevant Issuer on the basis of statements of account provided by DTC and/or Euroclear and/or Clearstream, Luxembourg on and subject to the terms of a deed of covenant (the **Deed of Covenant**) dated 10 May 2017, executed by each of the Issuers. In addition, holders of interests in such Global Security credited to their accounts with DTC may require DTC to deliver Definitive Securities in registered form in exchange for their interest in such Global Security in accordance with DTC's standard operating procedures.

- (b) save to the extent that an Exchange Notice has been given in accordance with General Condition 3.1(d), the amount of interest due in respect of the Securities will be calculated by reference to the aggregate nominal amount of Securities held (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest euro 0.01;
- (c) if Definitive Securities are required to be issued after the Redenomination Date, they shall be issued at the expense of the relevant Issuer in the denominations of euro 1,000, euro 10,000, euro 100,000 and (but only to the extent of any remaining amounts less than euro 1,000 or such smaller denominations as the Agent may approve) euro 0.01 and such other denominations as the Agent shall determine and notify to the Securityholders;
- (d) if issued prior to the Redenomination Date, all unmatured Coupons denominated in the Specified Currency (whether or not attached to the Securities) will become void with effect from the date on which the relevant Issuer gives notice (the **Exchange Notice**) that replacement euro-denominated Securities, Receipts and Coupons are available for exchange (provided that such securities are so available) and no payments will be made in respect of them. The payment obligations contained in any Securities and Receipts so issued will also become void on that date although those Securities and Receipts will continue to constitute valid exchange obligations of the relevant Issuer. New euro-denominated Securities, Receipts and Coupons will be issued in exchange for Securities, Receipts and Coupons denominated in the Specified Currency in such manner as the Agent may specify and as shall be notified to the Securityholders in the Exchange Notice. No Exchange Notice may be given less than 15 days prior to any date for payment of nominal or interest on the Securities;
- (e) after the Redenomination Date, all payments in respect of the Securities, the Receipts and the Coupons, other than payments of interest in respect of periods commencing before the Redenomination Date, will be made solely in euro as though references in the Securities to the Specified Currency were to euro. Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque; in each case multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Security in definitive form comprises more than one

Calculation Amount, the amount of interest payable in respect of such Fixed Rate Security shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding;

- (f) if the Securities are Fixed Rate Securities and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on an Interest Payment Date, it will be calculated:
  - (i) in the case of the Securities represented by a Global Security, by applying the Rate of Interest to the aggregate outstanding nominal amount of the Securities represented by such Global Security; and
  - (ii) in the case of Definitive Securities, by applying the Rate of Interest to the Calculation Amount, and in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market conventions. Where the Specified Denomination of a Fixed Rate Security in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding; and
- (g) such other changes shall be made to this General Condition 3 (*Redenomination*) as the relevant Issuer may decide after consultation with the Paying Agent(s) and, in the case of Registered Securities, the Registrar and as may be specified in the notice, to conform it to conventions applicable to instruments denominated in Euro.

### 3.2 Scheduled Payment Currency Cessation Event

If a Scheduled Payment Currency Cessation Event occurs:

- (a) The Calculation Agent may, at any time, convert all of the Issuer's payment obligations in respect of the Securities into any other currency as the Calculation Agent may select, in which case all such payment obligations shall be converted into such other currency (the "Replacement Payment Currency") at the rate of exchange determined by the Calculation Agent without the need for any further action or any consent. Any such conversion shall be effective from the time and date notified to Securityholders by the Issuer in accordance with General Condition 14 (*Notices*). Upon conversion (i) all of the Issuer's payment obligations in respect of the Securities shall be denominated and payable in the Replacement Payment Currency, (ii) the Conditions shall be construed accordingly and (iii) the Calculation Agent shall be entitled to make such other changes to the Conditions as it deems appropriate in order to give effect to the conversion.
- (b) Until such time as the Calculation Agent converts the Issuer's payment obligations under the Securities in accordance with paragraph (a) above, or in circumstances where the Calculation Agent determines not to do so, the Issuer's payment obligations in respect of the Securities shall be converted into the currency then adopted in France without the need for any further action or any consent at the rate of exchange specified by applicable law or as otherwise determined by the Calculation Agent and the Conditions shall be construed accordingly (including, without limitation, by giving effect to such other changes to the Conditions as the Calculation Agent deems appropriate in order to reflect the conversion).
- (c) By giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), the relevant Issuer, in its sole and absolute discretion, may redeem all, but not some only, of the Securities early on a

date to be specified by the Issuer, each Security being redeemed at its Fair Market Value Redemption Amount denominated in the Replacement Payment Currency (if applicable) or the currency then adopted in France, provided that this General Condition 3.2(c) shall apply only in respect of Securities which are not Italian Listed Notes.

Upon the occurrence of a Scheduled Payment Currency Cessation Event, the relevant Issuer shall give notice, as soon as practicable, to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Scheduled Payment Currency Cessation Event, giving brief details thereof and the action proposed to be taken in relation thereto.

In making any calculation or determination for the purposes of this General Condition 3.2, the Calculation Agent shall take into consideration all available information, which it deems relevant but shall otherwise act, in its sole and absolute discretion. Without limitation to the foregoing, the Calculation Agent shall not be obliged to convert the Issuer's payment obligations under any Series of Securities into a Replacement Payment Currency following a Scheduled Payment Currency Cessation Event. None of the Issuer, Guarantor or the Calculation Agent shall have any responsibility or liability to any Securityholder in respect of any loss incurred following the occurrence of a Scheduled Payment Currency Cessation Event.

Any payment made by the relevant Issuer in accordance with this General Condition 3.2 will constitute a valid payment and will not constitute a default in respect of the Securities.

#### 4 INTEREST

The applicable Final Terms will indicate whether the Securities (including Credit Linked Securities and Bond Linked Securities) are (i) Fixed Rate Securities, (ii) Floating Rate Securities, (iii) Zero Coupon Securities, or (v) Linked Interest Securities.

##### 4.1 Interest on Fixed Rate Securities

If:

- (i) "All Interest Accrual Periods" is specified in the applicable Final Terms, each Fixed Rate Security bears interest from (and including) the Interest Commencement Date to (but excluding) the Redemption Date at the rate(s) equal to the Rate(s) of Interest;
- (ii) certain Interest Accrual Periods (other than All Interest Accrual Periods) are specified in the applicable Final Terms, each Fixed Rate Security bears interest from (and including) the first day of the first Interest Accrual Period so specified in the applicable Final Terms to (and including) the last day of the last Interest Accrual Period so specified in the applicable Final Terms at the rate(s) equal to the Rate(s) of Interest. For the avoidance of doubt, any references in this General Condition 4.1 to Interest Accrual Period will be deemed to be references only to such specified Interest Accrual Periods.

In each case, interest will accrue on a daily basis on each day during each relevant Interest Accrual Period and will be payable in respect of the relevant Interest Accrual Period in arrears on the relevant Interest Payment Date.

If the Securities are in definitive form the amount of interest payable on each Interest Payment Date in respect of the Interest Accrual Period ending on (but excluding) the Interest Period Date immediately preceding, or falling on, such Interest Payment Date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount (the Fixed Coupon Amount and Broken Amount being together **Interest Amounts**).

Except in the case of Securities in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (i) in the case of Fixed Rate Securities which are represented by a Global Security, the aggregate outstanding nominal amount of the Fixed Rate Securities represented by such Global Security; or
- (ii) in the case of Fixed Rate Securities in definitive form, the Calculation Amount,

and in each case multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with General Condition 4.6 (*Rounding*) (an **Interest Amount**). Where the Specified Denomination of a Fixed Rate Security in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

#### 4.2 Interest on Floating Rate Securities

##### (a) Interest Payment Dates

If:

- (i) "All Interest Accrual Periods" is specified in the applicable Final Terms, each Floating Rate Security bears interest from (and including) the Interest Commencement Date to (but excluding) the Redemption Date at the applicable Rate of Interest; or
- (ii) certain Interest Accrual Periods (other than All Interest Accrual Periods) are specified in the applicable Final Terms, each Floating Rate Security bears interest from (and including) the first day of the first Interest Accrual Period so specified in the applicable Final Terms to (and including) the last day of the last Interest Accrual Period so specified in the applicable Final Terms at the applicable Rate of Interest. For the avoidance of doubt, any references in this General Condition 4.2 to Interest Accrual Period will be deemed to be references only to such specified Interest Accrual Periods.

In each case, interest will accrue on a daily basis on each day during each relevant Interest Accrual Period and such interest will be payable in respect of the relevant Interest Accrual Period in arrears on the relevant Interest Payment Date.

##### (b) Rate of Interest

Subject to General Condition 4.5 (*Margin, Minimum Rate of Interest and Maximum Rate of Interest*), the Rate of Interest payable from time to time in respect of Floating Rate Securities will be determined in accordance with the provisions below relating to either ISDA Determination for Floating Rate Securities or Screen Rate Determination for Floating Rate Securities, as specified in the applicable Final Terms.

##### (i) ISDA Determination for Floating Rate Securities

Where ISDA Determination is specified in the applicable Final Terms, the Rate of Interest for each Interest Accrual Period will be a rate equal to the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub-paragraph (i), **ISDA Rate** for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent on the applicable Interest Determination Date under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA

Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Securities (the **ISDA Definitions**) and under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) the Designated Maturity is a period specified in the applicable Final Terms; and
- (C) the relevant Reset Date is as specified in the applicable Final Terms, which may if the applicable Floating Rate Option is based on the London inter-bank offered rate (**LIBOR**) or on the Euro-zone inter-bank offered rate (**EURIBOR**), be the first day of that Interest Accrual Period.

For the purposes of this sub-paragraph (i), **Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity and Reset Date** have the meanings given to those terms in the ISDA Definitions.

(ii) Screen Rate Determination for Floating Rate Securities

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:

- (A) the offered quotation; or
- (B) the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the offered quotations,

(expressed as a percentage rate *per annum*) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at the Relevant Screen Page Time on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Calculation Agent. If five (5) or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided in General Condition 4.6 (*Rounding*)) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of General Condition 4.2(b)(ii)(A) (*Screen Rate Determination for Floating Rate Securities*), no offered quotation appears or, in the case of General Condition 4.2(b)(ii)(B) (*Screen Rate Determination for Floating Rate Securities*), fewer than three (3) offered quotations appear, in each case at the Relevant Screen Page Time, the Calculation Agent shall request each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Reference Rate at the Relevant Screen Page Time on the Interest Determination Date in question. If two (2) or more of the Reference Banks provide the Calculation Agent with offered quotations, the Rate of Interest for the Interest Accrual Period shall be the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Accrual Period shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*))

of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two (2) or more of them, at which such banks were offered at the Relevant Screen Page Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the Relevant Inter-Bank Market plus or minus (as appropriate) the Margin (if any) or, if fewer than two (2) of the Reference Banks provide the Calculation Agent with offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded in accordance with General Condition 4.6 (*Rounding*)) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at the Relevant Screen Page Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the relevant Issuer suitable for the purpose) informs the Calculation Agent it is quoting to leading banks in the Relevant Inter-Bank Market plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin relating to the relevant Interest Accrual Period in place of the Margin relating to that last preceding Interest Accrual Period).

(c) Determination of Rate of Interest and calculation of Interest Amounts

The Calculation Agent will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Accrual Period.

The Calculation Agent will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Securities for the relevant Interest Accrual Period by applying the Rate of Interest to:

- (i) in the case of Floating Rate Securities which are represented by a Global Security, the aggregate outstanding nominal amount of the Securities represented by such Global Security; or
- (ii) in the case of Floating Rate Securities in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with General Condition 4.6 (*Rounding*). Where the Specified Denomination of a Floating Rate Security in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

(d) Notification of Rate of Interest and Interest Amounts

The Calculation Agent shall notify the Principal Paying Agent of the Rate of Interest and Interest Amounts for the relevant Interest Accrual Period as soon as practicable after calculating the same.

The Principal Paying Agent will cause the Rate of Interest and each Interest Amount for each Interest Accrual Period and the relevant Interest Payment Date to be notified to the relevant Issuer and any stock exchange on which the relevant Floating Rate Securities are for the time being listed and notice thereof to be published in accordance with General Condition 14 (*Notices*) as soon as possible after their determination but in no event later than the first Luxembourg Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Accrual Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Securities are for the time being listed and to the

Securityholders in accordance with General Condition 14 (*Notices*). For the purposes of this General Condition 4.2(d), the expression **Luxembourg Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in Luxembourg.

(e) FRS Additional Disruption Events

The provisions of this General Condition 4.2(e) apply to Floating Rate Securities only.

(i) Consequences of the occurrence of a FRS Additional Disruption Event

If a FRS Additional Disruption Event occurs, the relevant Issuer in its sole and absolute discretion may take the action, if applicable, described in (A) or (B) below:

- (A) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to the Conditions to account for the FRS Additional Disruption Event and determine the effective date of such adjustment; or
- (B) upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the occurrence of a FRS Additional Disruption Event, the relevant Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the FRS Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

(ii) Definitions

**Change of Law** means, unless Change of Law is specified as not applicable in the applicable Final Terms, that, on or after the Trade Date, (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the relevant Issuer determines in its sole and absolute discretion that it has become illegal to hold, acquire or dispose of relevant hedge positions relating to the floating element of the Interest Rate.

**FRS Additional Disruption Event** means any of Change in Law, Hedging Disruption and/or (provided that the Securities are not Italian Listed Securities) Increased Cost of Hedging, in each case unless disappplied in the applicable Final Terms.

**Hedging Disruption** means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that:

- (A) In respect of Securities which are not Italian Listed Securities, the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable, after using commercially reasonable efforts, to (1) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the relevant Issuer or the Guarantor, (if applicable), in issuing and performing its

obligations with respect to the Securities, or (2) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

- (B) In respect of Securities which are Italian Listed Securities, Hedging Disruption means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable, after using commercially reasonable efforts and as a result of an event which is beyond the control of such Issuer, Guarantor (if applicable) and/or Affiliate(s) (including, without limitation, any force majeure, act of state, change in any applicable law or regulation (including, without limitation, any tax law), promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), to (1) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the relevant Issuer or the Guarantor, (if applicable), issuing and performing its obligations with respect to the Italian Listed Securities, or (2) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

**Increased Cost of Hedging** means, unless Increased Cost of Hedging is specified as not applicable in the applicable Final Terms, that the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, equity price risk, foreign exchange risk and interest rate risk) of the relevant Issuer or the Guarantor, (if applicable), in issuing and performing its obligations with respect to the Securities, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the relevant Issuer, the Guarantor, (if applicable) and/or any of their respective Affiliates shall not be deemed an Increased Cost of Hedging.

### 4.3 Interest on Linked Interest Securities

(a) Interest Payment Dates

If:

- (i) "All Interest Accrual Periods" is specified in the applicable Final Terms, each Linked Interest Security bears interest at the applicable Linked Interest Rate (as defined in General Condition 4.3(b) (*Linked Interest Rate*)) on its outstanding nominal amount from (and including) the Interest Commencement Date to (but excluding) the Redemption Date; or
- (ii) certain Interest Accrual Periods (other than All Interest Accrual Periods) are specified in the applicable Final Terms, each Linked Interest Security bears interest from (and including) the first day of the first Interest Accrual Period so specified in the applicable Final Terms to (and including) the last day of the last Interest Accrual Period so specified in the applicable Final Terms at the applicable Linked Interest Rate. For the avoidance of doubt, any references in this General Condition 4.3 to Interest Accrual Period will be deemed to be references only to such specified Interest Accrual Periods.

In each case, interest will accrue on a daily basis on each day during each relevant Interest Accrual Period and such interest will be payable in respect of the relevant Interest Accrual Period in arrears on the relevant Interest Payment Date.

(b) Linked Interest Rate

The rate payable from time to time in respect of the applicable Linked Interest Securities (each a **Linked Interest Rate**) will be determined in accordance with the relevant Terms and Conditions, as specified in the applicable Final Terms.

(c) Determination of Linked Interest Rate and calculation of Interest Amounts

The Calculation Agent will determine the Linked Interest Rate on the Interest Determination Date for the relevant Interest Accrual Period.

The Calculation Agent will calculate the amount of interest (the **Interest Amount**) payable on the Linked Interest Securities for the relevant Interest Accrual Period by applying the Linked Interest Rate to:

- (i) in the case of Linked Interest Securities which are represented by a Global Security (other than where General Condition 4.3(c)(iii) below applies), the aggregate outstanding nominal amount of the Securities represented by such Global Security;
- (ii) in the case of a Linked Interest Security in definitive form, the Calculation Amount (other than where General Condition 4.3(c)(iii) below applies); or
- (iii) in the case of a Linked Interest Security where the relevant Linked Interest Rate is determined in whole or in part by reference to the Share Linked Asset Conditions, the Index Linked Asset Conditions or the ETF Linked Asset Conditions, the Specified Denomination of the relevant Linked Interest Security,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with General Condition 4.6 (*Rounding*). In the case of General Condition 4.3(c)(ii) above, where the Specified Denomination of a Linked Interest Security in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach such Specified Denomination, without any further rounding.

(d) Notification of Linked Interest Rate and Interest Amounts

The Calculation Agent shall notify the Principal Paying Agent of the Linked Interest Rate and Interest Amounts for the relevant Interest Accrual Period as soon as practicable after calculating the same.

The Principal Paying Agent will cause the Linked Interest Rate and each Interest Amount for each Interest Accrual Period and the relevant Interest Payment Date to be notified to the relevant Issuer and any stock exchange on which the relevant Linked Interest Securities are for the time being listed and notice thereof to be published in accordance with General Condition 14 (*Notices*) as soon as possible after the day on which the notice was given to the Principal Paying Agent but in no event later than the fourth Luxembourg Business Day thereafter. For the purposes of this General Condition 4.3(d), the expression **Luxembourg Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in Luxembourg.

No amount of interest will accrue or become payable on Zero Coupon Securities except in accordance with General Condition 4.7 (*Accrual of interest*).

#### 4.5 Margin, Minimum Rate of Interest and Maximum Rate of Interest

- (a) With respect to Floating Rate Securities only, if any Margin is specified in the applicable Final Terms (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin;
- (b) With respect to Floating Rate Securities only, if the applicable Final Terms specify a Minimum Rate of Interest for any Interest Accrual Period, then, in the event that the Rate of Interest in respect of such Interest Accrual Period determined in accordance with General Condition 4.2 (*Interest on Floating Rate Securities*) is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Accrual Period shall be such Minimum Rate of Interest.
- (c) With respect to Floating Rate Securities only, if the applicable Final Terms specify a Maximum Rate of Interest for any Interest Accrual Period, then, in the event that the Rate of Interest in respect of such Interest Accrual Period determined in accordance with General Condition 4.2 (*Interest on Floating Rate Securities*) is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Accrual Period shall be such Maximum Rate of Interest.
- (d) With respect to all Securities, unless otherwise stated in the applicable Final Terms with respect to Floating Rate Securities, the Minimum Rate of Interest, shall be deemed to be zero.

#### 4.6 Rounding

For the purposes of any calculations required pursuant to these General Conditions (unless otherwise specified), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 of a percentage point being rounded up), (y) all figures shall be rounded to seven significant figures (provided that if the eighth significant figure is a 5 or greater, the seventh significant shall be rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with half a unit being rounded up). For these purposes "unit" means the lowest amount of such currency that is available as legal tender in the country of such currency.

#### 4.7 Accrual of interest

- (a) Except as otherwise provided in this General Condition 4 (*Interest*), each Security (or in the case of the redemption of part only of a Security, that part only of such Security) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of nominal is improperly withheld or refused. In such event, interest will continue to accrue, or in the case of a Zero Coupon Security shall accrue as from the date for its redemption, until whichever is the earlier of:
  - (i) the date on which all amounts due in respect of such Security have been paid; and
  - (ii) five (5) days after the date on which the full amount of the moneys payable in respect of such Security has been received by the Principal Paying Agent or the Registrar, as the case may be, and notice to that effect has been given to the Securityholders in accordance with General Condition 14 (*Notices*).
- (b) With respect to Zero Coupon Securities only, for the purposes of this General Condition 4.7, interest will accrue in accordance with General Condition 4.1 (*Interest on Fixed Rate Securities*), provided that: (i)

the Rate of Interest will be deemed to be "Accrual Yield" as specified in the applicable Final Terms; and (ii) a single Interest Accrual Period will be deemed to be specified as the relevant period in accordance with Condition 4.7(a) above.

#### **4.8 Interest calculations regarding Swedish Securities**

Pursuant to the Swedish CSD Rules, interest on any Swedish Security for any period of time is calculated from (but excluding) the first day of the relevant period to (but including) the last day of the relevant period and the provisions in this General Condition 4 shall be construed accordingly in respect of Swedish Securities.

#### **4.9 *[Intentionally left blank]***

#### **4.10 Payoff Features**

The interest payable in respect of each Security will be subject to each Payoff Feature (if any) specified as applicable in the applicable Final Terms. A Payoff Feature will apply to: (a) all Interest Accrual Periods if "All Interest Accrual Periods" is specified to apply in the applicable Final Terms; or (b) to certain Interest Accrual Periods as specified in the applicable Final Terms in respect of a Payoff Feature.

#### **4.11 Interpolation**

In respect of any Interest Accrual Period to which 'Linear Interpolation' is specified as being applicable in the applicable Final Terms, the Rate of Interest or Linked Interest Rate, as the case may be, for that Interest Accrual Period shall be determined by the Calculation Agent, in its sole and absolute discretion, through the use of straight-line interpolation by reference to two rates based on the relevant Rate of Interest or Linked Interest Rate, as the case may be, one of which shall be determined as if the designated maturity of that rate were the period of time for which rates are next shorter than the length of the Interest Accrual Period and the other of which shall be determined as if the designated maturity of that rate were the period of time for which rates are next longer than the length of the Interest Accrual Period.

#### **4.12 Negative Interest**

Where an amount or rate of interest is calculated as, in accordance with this General Condition 4 and any applicable Additional Conditions, a negative amount or rate, as the case may be, such amount or rate shall be deemed to be zero. Securityholders shall not, in such circumstances be required to make any payment to the relevant Issuer in respect of such negative amount or rate nor shall any other payments then or in the future due in respect of the Securities be adjusted in respect of such negative amount or rate.

#### **4.13 Interest in respect of Instalment Securities**

The Interest Amount in respect of any Instalment Security in definitive form shall be calculated by the Principal Paying Agent in accordance with the applicable provisions of this General Condition 4 by reference to the outstanding nominal amount of such Security on the date of determination (disregarding any payments in respect of nominal to be made on the date of determination).

### **5 PAYMENTS**

#### **5.1 Method of payment**

Subject as provided below:

- (a) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such

Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively and if the Specified Currency is CNY, shall be the CNY Settlement Centre(s)); and

- (b) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment or other laws to which the Issuer, the Guarantors or its Agents agree to be subject and neither the Issuer nor the Guarantors will be liable for any taxes or duties of whatever nature imposed or levied by such laws, regulations, directives or agreements, but without prejudice to the provisions of General Condition 8 (Taxation).

## 5.2 Presentation of Definitive Bearer Securities, Receipts and Coupons

Payments of nominal in respect of Definitive Bearer Securities will (subject as provided below) be made in the manner provided in General Condition 5.1 (*Method of payment*) only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Definitive Bearer Securities, and payments of interest in respect of Definitive Bearer Securities will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)).

Payments of instalments of nominal (if any) in respect of Definitive Bearer Securities, other than the final instalment, will (subject as provided below) be made in the manner provided in General Condition 5.1 (*Method of payment*) only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in General Condition 5.1 (*Method of payment*) only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Bearer Security in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the Definitive Bearer Security to which it appertains. Receipts presented without the Definitive Bearer Security to which they appertain do not constitute valid obligations of the relevant Issuer. Upon the date on which any Definitive Bearer Security becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Securities in definitive bearer form (other than Long Maturity Securities (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of nominal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in General Condition 8.2 (*Gross-Up*)) in respect of such nominal (whether or not such Coupon would otherwise have become void under General Condition 9 (*Prescription*)) or, if later, five (5) years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Security in definitive bearer form becoming due and repayable prior to its Redemption Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Security, Credit Linked Security, Linked Interest Security or Long Maturity Security in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A **Long Maturity Security** is a Fixed Rate Security (other than a Fixed Rate Security which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Security shall cease to be a Long Maturity Security on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Security.

If the due date for redemption of any Definitive Bearer Security is not an Interest Payment Date, interest (if any) accrued in respect of such Security from (and including) the preceding or Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Bearer Security.

### 5.3 Payments in respect of Bearer Global Securities

Payments of nominal and interest (if any) in respect of Securities represented by any Global Security in bearer form will (subject as provided below) be made in the manner specified above in relation to Bearer Securities or otherwise in the manner specified in the relevant Global Security against presentation or surrender, as the case may be, of such Global Security at the specified office of any Paying Agent outside the United States. A record of each payment, distinguishing between any payment of nominal and any payment of interest, will be made on such Global Security either by the Paying Agent to which it was presented or in the records of Euroclear and Clearstream, Luxembourg, as applicable.

### 5.4 Payments in respect of Registered Securities

Payments of nominal (other than instalments of nominal prior to the final instalment) in respect of each Registered Security (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Security at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Security appearing in the register of holders of the Registered Securities maintained by the Registrar (the **Register**) (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) before the relevant due date, and (ii) where in definitive form at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date (the **Record Date**). Notwithstanding the previous sentence, if (i) a holder does not have a Designated Account or (ii) the nominal amount of the Securities held by a holder is less than 250,000 euro (or its approximate equivalent in any other Specified Currency), payment will instead be made by a cheque in the Specified Currency drawn on a Designated Bank (as defined below). For these purposes, **Designated Account** means the account (which, in the case of a payment in Japanese Yen to a non-resident of Japan, shall be a non-resident account) maintained by a holder with a Designated Bank and identified as such in the Register and **Designated Bank** means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland respectively and if the Specified Currency is CNY, shall be the CNY Settlement Centre(s)) and (in the case of a payment in euro) any bank which processes payments in euro.

Payments of interest and payments of instalments of nominal (other than the final instalment) in respect of each Registered Security (whether or not in global form) will be made by a cheque in the Specified Currency drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint

holders) of the Registered Security appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) before the relevant due date, and (ii) where in definitive form at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the relevant due date (the **Record Date**) at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three (3) business days in the city where the specified office of the Registrar is located before the due date for any payment of interest in respect of a Registered Security, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) and instalments of nominal (other than the final instalment) in respect of the Registered Securities which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Security on redemption and the final instalment of nominal will be made in the same manner as payment of the nominal amount of such Registered Security.

Notwithstanding anything to the contrary in this General Condition 5.4, payments of interest and payments of instalments of nominal (other than the final instalment) in respect of each Registered Security denominated in CNY (whether or not in global form) will be made solely by transfer to the Designated Account of the holder (or the first named of joint holders) of the Registered Security appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear, Clearstream, Luxembourg and/or any other relevant clearing system are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the Record Date.

Securityholders holding Registered Securities will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Security as a result of a cheque posted in accordance with this General Condition 5.4 arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of nominal or interest in respect of the Registered Securities.

All amounts payable to DTC or its nominee as registered holder of a Registered Global Security in respect of Securities denominated in a Specified Currency other than U.S. dollars shall be paid by transfer by the Registrar to an account in the relevant Specified Currency of the Exchange Agent on behalf of DTC or its nominee for conversion into and payment in U.S. dollars in accordance with the provisions of the Agency Agreement.

None of the relevant Issuer, the Guarantor, or the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

## **5.5 General provisions applicable to payments**

The holder of a Global Security shall be the only person entitled to receive payments in respect of Securities represented by such Global Security and the relevant Issuer or, as the case may be, the Guarantor will be discharged by payment to, or to the order of, the holder of such Global Security in respect of each amount so paid. Each of the persons shown in the records of DTC, Euroclear or Clearstream, Luxembourg or any Relevant Clearing System as the beneficial holder of a particular nominal amount of Securities represented by such Global Security must look solely to DTC, Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the relevant Issuer or, as the case may be, the Guarantor to, or to the order of, the holder of such Global Security.

Notwithstanding the foregoing provisions of this General Condition 5, if any amount of nominal and/or interest in respect of Bearer Securities is payable in U.S. dollars, such U.S. dollar payments of nominal and/or interest in respect of such Securities will be made at the specified office of a Paying Agent in the United States if:

- (a) the relevant Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of nominal and interest on the Bearer Securities in the manner provided above when due;
- (b) payment of the full amount of such nominal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of nominal and interest in U.S. dollars; and
- (c) such payment is then permitted under United States law without involving, in the opinion of the relevant Issuer and the Guarantor, adverse tax consequences to the relevant Issuer or the Guarantor.

In the case of Securities issued by Crédit Agricole CIB, the relevant Issuer and each of its branches are a single legal entity and the obligation to make any payment under the Securities is an obligation of Crédit Agricole CIB as a whole. However, if the Final Terms specify a branch office of Crédit Agricole CIB as the branch of account for any payment under the Securities, then it may not be required to make any payment under the Securities at its head office or any of its other branches for so long as and to the extent that the specified branch of account is prevented from making any payment under the Securities due to (a) an act of war, insurrection or civil strife; or (b) an action by the government or any instrumentality of or in the jurisdiction of the specified branch of account (whether *de jure* or *de facto*).

Notwithstanding the foregoing, payments in respect of Securities denominated and payable in CNY will be made solely by transfer to a CNY bank account maintained in the CNY Settlement Centre(s) in accordance with prevailing rules and regulations.

## 5.6 Payment Business Day

If the date for payment of any amount in respect of any Security, Receipt or Coupon is not a Payment Business Day, the holder thereof shall instead be entitled to payment: (i) on the next following Payment Business Day in the relevant place, if "Following Payment Business Day" is specified in the applicable Final Terms; or (ii) on the next following Payment Business Day in the relevant place, unless the date for payment would thereby fall into the next calendar month, in which event such date for payment shall be brought forward to the immediately preceding Payment Business Day in the relevant place, if "Modified Following Payment Business Day" is specified in the applicable Final Terms or (iii) on the immediately preceding Payment Business Day in the relevant place, if "Preceding Payment Business Day" is specified in the applicable Final Terms; provided that if neither "Following Payment Business Day" nor "Modified Following Payment Business Day" nor "Preceding Payment Business Day" is specified in the applicable Final Terms, "Following Payment Business Day" shall be deemed to apply. In the event that (i) any adjustment is made to the date for payment in accordance with this General Condition 5 and (ii) "Interest Accrual Periods will be unadjusted" is specified in the applicable Final Terms, the relevant amount due in respect of any Security, Receipt or Coupon shall not be affected by any such adjustment. For these purposes, **Payment Business Day** means any day, which is:

- (a) subject to the provisions of the Agency Agreement, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
  - (i) (in respect of Definitive Securities) the relevant place of presentation or (in respect of Registered Securities) the place of registration; and

- (iii) each Additional Financial Centre specified in the applicable Final Terms; and
- (b) either (A) in relation to any sum payable in a Specified Currency other than euro and CNY, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation and any Additional Financial Centre and which if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney or Auckland respectively) or (B) in relation to any sum payable in euro, a day on which the TARGET2 System is open or (C) in relation to any sum payable in CNY, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the CNY Settlement Centre(s).

## 5.7 General

Any reference in these Terms and Conditions to interest in respect of the Securities shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under General Condition 8 (Taxation).

Any reference in these Terms and Conditions to "payment", "repayment" and "redemption" and other related expressions (including, without limitation, for the purposes of the definition of "Payment Business Day" in General Condition 5.6 (*Payment Business Day*)) shall, where the context admits, include the delivery of any securities or other assets pursuant to physical settlement as provided in Annex 1 (*Asset Conditions*) in respect of ETF Linked Securities or Share Linked Securities or pursuant to Physical Settlement as provided in Annex 2 (*Credit Linked Conditions*), Annex 3 (*Bond Linked Conditions*) and Annex 10 (*Secured Security Conditions*).

### **6 REDEMPTION AND PURCHASE**

#### **6.1 Redemption by Instalments and Final Redemption**

- (a) Unless previously redeemed or purchased and cancelled as provided in this General Condition 6 (other than General Condition 6.1(a)), on each Instalment Date, each Instalment Security shall be partially redeemed by the relevant Issuer at the relevant Instalment Redemption Amount and the outstanding nominal amount of each Instalment Security will be reduced by the relevant Instalment Amount.
- (b) Unless previously redeemed or purchased and cancelled as provided below in this General Condition 6, each Security will be finally redeemed by the relevant Issuer at its Final Redemption Amount specified in the applicable Final Terms and determined in accordance with the provisions set out in Annex 9 (*Redemption Method Conditions*) in the relevant Specified Currency on the Redemption Date or, in the case of an Instalment Security falling within paragraph (a) above, its final Instalment Redemption Amount on the final Instalment Date, in each case subject to any provision to the contrary in the Asset Conditions.

#### **6.2 Early Redemption Trigger Events**

The applicable Final Terms will specify whether any Early Redemption Trigger Event applies to the Securities. The provisions detailing such Early Redemption Trigger Events are set out in Annex 8 (*Early Redemption Trigger Conditions*).

The Early Redemption Amount payable in respect of Securities to which an Early Redemption Trigger Event applies shall be determined by the Calculation Agent in accordance with the provisions of Annex 9 (*Redemption Method Conditions*).

### 6.3 Redemption for tax reasons

Where General Condition 8.2 (*Gross Up*) is specified in the applicable Final Terms as applying to the Securities, such Securities may be redeemed at the option of the relevant Issuer in whole, but not in part, at any time, on giving not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms to the Principal Paying Agent or the Registrar, as the case may be, and, in accordance with General Condition 14 (*Notices*), the Securityholders (which notice shall be irrevocable), if:

- (a) on the occasion of the next payment due under the Securities, the relevant Issuer or (where Crédit Agricole CIB FG or Crédit Agricole CIB FS is the relevant Issuer) the Guarantor (if it were required to make a payment under the Guarantee) has or will become obliged to pay additional amounts as provided or referred to in General Condition 8 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in General Condition 8.2 (*Gross Up*)), or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Securities; and
- (b) such obligation cannot be avoided by the relevant Issuer or (where Crédit Agricole CIB FG or Crédit Agricole CIB FS is the relevant Issuer) the Guarantor taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the relevant Issuer or (where Crédit Agricole CIB FG or Crédit Agricole CIB FS is the relevant Issuer) the Guarantor would be obliged to pay such additional amounts.

Securities redeemed pursuant to this General Condition 6.3 will be redeemed at their Fair Market Value Redemption Amount.

### 6.4 Special Tax Redemption

Where General Condition 8.2 (*Gross Up*) is specified in the applicable Final Terms as applying to the Securities, if the relevant Issuer or the Guarantor would, on the occasion of the next payment of nominal or interest in respect of the Securities, be prevented by French law and (in the case of Securities issued by Crédit Agricole CIB FG) Guernsey law from making payment to the Securityholders of the full amount then due and payable, notwithstanding the undertaking to pay additional amounts contained in General Condition 8 (*Taxation*), then the relevant Issuer shall forthwith give notice of such fact to the Principal Paying Agent or the Registrar, as the case may be, and the relevant Issuer shall, upon giving not more than seven days' prior notice to the Securityholders, forthwith redeem all, but not some only, of the Securities at their Fair Market Value Redemption Amount, on the latest practicable Interest Payment Date on which the relevant Issuer could make payment of the full amount then due and payable in respect of the Securities, provided that if such notice would expire after such Interest Payment Date the date for redemption pursuant to such notice to Securityholders shall be the later of:

- (a) the latest practicable date on which the relevant Issuer could make payment of the full amount then due and payable in respect of the Securities; and
- (b) fourteen days after giving notice to the Principal Paying Agent or the Registrar, as the case may be, as aforesaid.

## 6.5 Redemption for FATCA Withholding

This General Condition 6.5 will apply to the Securities if so specified in the applicable Final Terms. The relevant Issuer (in relation to Securities other than Swedish Securities and Norwegian Securities) may or (in relation to Swedish Securities and Norwegian Securities) will redeem any FATCA Affected Securities, at any time, in accordance with the provisions of this General Condition 6.5.

Upon becoming aware that a Security is a FATCA Affected Security, the relevant Issuer shall use reasonable endeavours to deliver a FATCA Issuer Notice, which shall specify

- (a) the relevant series number and ISIN in relation to Securities that have become FATCA Affected Securities;
- (b) whether or not the Issuer will redeem any of the FATCA Affected Securities, provided that, for all FATCA Affected Securities that are Swedish Securities or Norwegian Securities, the Issuer will elect to redeem such Securities, and:
- (c) where the relevant Issuer elects to redeem any of the FATCA Affected Securities,
  - (i) the FATCA Affected Securities the relevant Issuer will redeem; and
  - (ii) the date on which such FATCA Affected Securities will be redeemed by the Issuer.

Where the FATCA Issuer Notice specifies that the relevant Issuer will not redeem a FATCA Affected Security, the holder of any such FATCA Affected Security, provided that such Security continues to be a FATCA Affected Security, may deliver a FATCA Investor Notice requesting the early redemption of the FATCA Affected Security and specifying a date for redemption that must be at least ten (10) Business Days after the effective date of such notice. Following receipt of the FATCA Investor Notice, the relevant Issuer will redeem such FATCA Affected Security on the date specified for redemption in the relevant FATCA Investor Notice.

Securities redeemed pursuant to this General Condition 6.5 will be redeemed at their Fair Market Value Redemption Amount.

A FATCA Issuer Notice in respect of Finnish Securities will not take effect against the relevant Issuer until the date on which the relevant Finnish Securities have been transferred to the account designated by the Finnish Issuing Agent and blocked for further transfer by said Agent.

For the purposes of this General Condition:

**Code** means the U.S. Internal Revenue Code of 1986, as amended.

**FATCA Affected Security** means any Security in respect of which (i) the relevant Issuer or (where Crédit Agricole CIB FG or Crédit Agricole CIB FS is the relevant Issuer) the Guarantor, in relation to any future payments due under the Securities, will be obliged (either directly or indirectly, including without limitation through an agent or clearing system) to make a FATCA Withholding and (ii) such FATCA Withholding cannot be avoided by the relevant Issuer or Guarantor taking reasonable measures available to it.

**FATCA Investor Notice** means a notice given by the holder of any FATCA Affected Security to the relevant Issuer in accordance with General Condition 14 (*Notices*). A copy of such FATCA Investor Notice shall be given to the Principal Paying Agent or, in the case of Registered Securities, the Registrar in accordance with General Condition 14 (*Notices*) (which notice shall be irrevocable and shall specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this General Condition 6.5).

**FATCA Issuer Notice** means a notice given by the relevant Issuer to the Principal Paying Agent or the Registrar, as the case may be, and in accordance with General Condition 14 (*Notices*), to the Securityholders.

**FATCA Withholding** means any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or any withholding or deduction otherwise imposed pursuant to Sections 1471 through 1474 of the Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code.

## 6.6 Regulatory Redemption or Compulsory Resales

This General Condition 6.6 will apply to the Securities if so specified in the applicable Final Terms.

The relevant Issuer shall have the right at any time, at the expense and risk of the holder of any Securities held by or on behalf of a U.S. person who is not a QP at the time it purchases such Securities, (i) to redeem such Securities, in whole or in part, to permit the relevant Issuer to avoid registration under the Investment Company Act or (ii) to require such holder to sell such Securities to a QIB (or an IAI, where transfers to IAIs are permitted pursuant to the applicable Terms and Conditions or Final Terms applying to such Securities) who is also a QP in accordance with Rule 144A or to a non-U.S. person outside the United States in accordance with Regulation S. The determination of which Securities shall be redeemed pursuant to (i) above or sold pursuant to (ii) above in any particular case shall be made at the sole and absolute discretion of the relevant Issuer. Any such redemption shall be made at the Fair Market Value Redemption Amount. The Registrar is not required to register any purported transfers of Securities which would, in the opinion of the relevant Issuer or the Registrar, cause the relevant Issuer to be in violation of the Securities Act or the Investment Company Act.

## 6.7 Clean-up Call Option

Where General Condition 6.7 (*Clean-up Call Option*) is specified in the applicable Final Terms as applying to the Securities, such Securities may be redeemed at the option of the Issuer in whole, but not in part, at any time, on giving not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms to the Principal Paying Agent or the Registrar, as the case may be, and, in accordance with General Condition 14 (*Notices*), to the Securityholders (which notice shall be irrevocable), if the aggregate nominal amount outstanding of the Securities is equal to 10 per cent. or less than the aggregate nominal amount of the Securities on the Issue Date, as determined by the Calculation Agent in its sole and absolute discretion.

Securities redeemed pursuant to this General Condition 6.7 will be redeemed at their Fair Market Value Redemption Amount.

## 6.8 Fair Market Value Redemption Amounts

Where the Securities are to be redeemed prior to the Redemption Date at their Fair Market Value Redemption Amount pursuant to the Conditions, including, without limitation, pursuant to General Condition 6.3 (*Redemption for tax reasons*), General Condition 6.4 (*Special Tax Redemption*), General Condition 6.5 (*Redemption for FATCA withholding*), General Condition 6.6 (*Regulatory Redemption or Compulsory Resales*), General Condition 6.7 (*Clean-up Call Option*), General Condition 10 (*Events of Default*) or General Condition 19 (*Illegality and Force Majeure*), each Security will be redeemed at the Fair Market Value Redemption Amount. Securities may also be redeemed at the Fair Market Value Redemption Amount in any other circumstances set out in the applicable Asset Conditions (including, but without limitation, pursuant to Credit Linked Condition 2.7 (*Early redemption of Leveraged CLSs*), Credit Linked Condition 2.8 (*Redemption following a Merger Event*), Credit Linked Condition 2.10 (*Redemption following an Additional Disruption Event*), Bond Linked Condition 2.4 (*Redemption following a Merger Event*) and Bond Linked Condition 2.5 (*Redemption following an Additional Disruption Event*)).

The **Fair Market Value Redemption Amount** shall be determined by the Calculation Agent in its sole and absolute discretion (or, in the case of an Italian Listed Securities, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner) as equal to the fair market value of the Security as at (or about) the date fixed for redemption, taking into account, without limitation and without double counting, (a) the deduction of the Hedge Amount and (b) in the case of Bond Linked Securities, the value of the Bond, provided that:

- (i) this determination shall disregard (1) the financial condition of the relevant Issuer and/or the Guarantor in case an Event of Default under Condition 10(a), Condition 10(c) or Condition 10(d), as applicable, has occurred and is continuing with respect to the relevant Issuer and/or the Guarantor and (2) in the case of Secured Securities, any collateral which has been, or is required to be, delivered in connection with such Secured Securities;
- (ii) if a Fair Market Value Redemption Amount has been determined for any reason other than the occurrence of an Event of Default under Condition 10(a), Condition 10(c) or Condition 10(d), as applicable (the **Pre-Default FMVRA**) and is unpaid on the date on which an Event of Default under Condition 10(a), Condition 10(c) or Condition 10(d), as applicable, occurs with respect to the relevant Issuer and/or the Guarantor (the **Post-Default FMVRA Determination Date**), then the Pre-Default FMVRA will be deemed to be equal to the Fair Market Value Redemption Amount determined as of the Post-Default FMVRA Determination Date (the **Post-Default FMVRA**) and the Post-Default FMVRA shall disregard the financial condition of the relevant Issuer and/or the Guarantor in accordance with paragraph (i) above;
- (iii) in the case of Bond Linked Securities:
  - (A) which are Secured Securities;
  - (B) where the Collateral Assets consist in whole or in part of the Bond; and
  - (C) where the Fair Market Value Redemption Amount is being determined following enforcement of the security created in relation to the Secured Securities,

then for the purposes of sub-paragraph (B) above, the value of the Bond shall be determined by reference to the value at which the Disposal Agent (or failing which, the Security Trustee or an agent on its behalf), is able to liquidate or realise the Bond in accordance with the terms of the Secured Securities (after deducting any costs associated with the relevant enforcement and liquidation and any related fees or taxes);

- (iv) the Fair Market Value Redemption Amount shall not be a negative amount; and
- (v) in respect of Secured Securities and following a Custodian Default, the value of the Bond (where Collateral Monitoring is not applicable) or the Fair Market Value Redemption Amount (where Collateral Monitoring is applicable) shall be subject to a maximum of the value of the amounts actually recovered from the Custodian (or any agent, sub-custodian or delegate thereof).

In determining the fair market value of the Security, the Calculation Agent shall (acting in good faith and in a commercially reasonable manner, in the case of an Italian Listed Security) take into consideration all information, which it deems relevant (including, without limitation, market conditions, and, in the case of early redemption pursuant General Condition 19 (*Illegality and Force Majeure*), the impracticality, illegality or impossibility giving rise to the early redemption).

The Fair Market Value Redemption Amount determined as specified above shall be deemed to include any amounts in respect of accrued interest.

In connection with any early redemption of the Securities, the "**Hedge Amount**" is the losses or costs (expressed as a positive number) to the relevant Issuer or any Affiliate thereof that are incurred under then prevailing circumstances or gains (expressed as a negative number) of the relevant Issuer or any Affiliate thereof that are realised under then prevailing circumstances in each case in unwinding any related underlying hedging arrangements entered into in respect of such Security (including, without limitation, any rate swap transaction, swap option, basis swap, forward rate transaction, commodity swap, commodity option, equity or equity index swap, interest rate option, currency transaction, asset swap transaction, credit derivative transaction or funding transaction such as but not limited to internal funding arrangement or a repurchase transaction, including any market bid/offer spread and any ancillary cost in relation to such unwinding), whether such hedging arrangement is held directly by the relevant Issuer or the Guarantor or indirectly through an Affiliate, provided that:

- (i) the determination of the Hedge Amount shall disregard the financial condition of the relevant Issuer and/or the Guarantor in case an Event of Default under Condition 10(a), Condition 10(c) or Condition 10(d), as applicable, has occurred and is continuing with respect to the relevant Issuer and/or the Guarantor; and
- (ii) in the case of Leveraged CLSs, the Hedge Amount in respect of credit default swap hedge transactions will be determined on a leveraged notional amount reflecting the aggregate of the Floating Rate Payer Calculation Amounts of Reference Entities which have not been affected by Credit Events.

Notwithstanding the above:

- (i) the Fair Market Value Redemption Amount for Italian Listed Securities and in respect of an early redemption following an Additional Disruption Event will be the ADE Market Value; or
- (ii) in respect of any Security in respect of which a Fair Market Value Redemption Amount Percentage is specified in the applicable Final Terms, the Fair Market Value Redemption Amount will be an amount equal to the Nominal Amount of such Security outstanding as at the date of calculation (as set out in Annex 9 of the Terms and Conditions as if the Early Redemption Amount was being calculated), multiplied by the Fair Market Value Redemption Amount Percentage specified in the applicable Final Terms.

The "**ADE Market Value**" means, in relation to the early redemption of an Italian Listed Security following an Additional Disruption Event, the fair market value of such Italian Listed Security as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, by reference to such factor(s) as it determines appropriate at the relevant time and which may include the following, without limitation:

- (a) any relevant quotations or other relevant market data in the relevant market(s) which may include the issuer funding rate and other relevant rates, currencies, prices, index levels, yields, yield curves, volatilities, spreads, correlations;
- (b) information of the type described in (a) above from internal sources of the Issuer, the Guarantor or any of its Affiliates if that information is of a type used by the Issuer in its regular course of business for the valuation of similar instruments as the Securities; and
- (c) any options or other derivative pricing models.

Payment of such Fair Market Value Redemption Amount will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

## 6.9 Purchases

The relevant Issuer, the Guarantor and any of their Subsidiaries may at any time purchase Securities (provided that, in the case of Definitive Bearer Securities, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. Securities purchased by or on behalf of the relevant Issuer may, at the option of the relevant Issuer, be so surrendered and cancelled or may be held or resold, in accordance with applicable law.

In the case of Securities issued by Crédit Agricole CIB and Crédit Agricole CIB FS, all Securities purchased by the relevant Issuer may be purchased and held in accordance with Article L. 213-1-A of the French *Code monétaire et financier* for the purpose of enhancing the liquidity of the Securities. Such Issuers may not hold Securities for a period of more than one year from the date of purchase in accordance with Article D. 213-1-A of the French *Code monétaire et financier*.

**Subsidiary** means, in relation to any person or entity at any time, any other person or entity (whether or not now existing) as defined in article L.233-1 of the French *Code de commerce* or any other person or entity controlled directly or indirectly by Crédit Agricole CIB within the meaning of article L.233-3 of the French *Code de commerce*.

As at the date of this Base Prospectus, article L.233-1 of the French *Code de commerce* states:

"Where a company owns more than half of the share capital of another company, the latter company is considered, for the purposes of this chapter, to be a subsidiary of the former."

As at the date of this Base Prospectus, article L.233-3 of the French *Code de commerce* states:

- "I. A company is considered, for the purposes of sections II and IV of this chapter, to be controlling another company if:
- 1° it holds, directly or indirectly, a part of its share capital giving it a majority of the voting rights in such company's shareholders' meetings;
  - 2° by virtue of a shareholders' or partners' agreement, which agreement is not against the interests of the company, it alone holds the majority of the voting rights in the company;
  - 3° by virtue of the voting rights it holds, it controls, *de facto*, the decisions made in the shareholders' meetings of the company; or
  - 4° when it is a shareholder of, or a partner in, such company and has the power to appoint or dismiss the majority of the members of that company's administrative, management or supervisory structures.
- II. Control is presumed to be exercised by a company if such company holds, directly or indirectly, over 40 per cent. of the voting rights and if no other shareholder or partner holds, directly or indirectly, more voting rights than such company.
- III. For the purposes of the same sections of this chapter, two (2) or more persons acting in concert are considered as jointly controlling another when they control, *de facto*, the decisions made in the shareholders' meeting."

## 6.10 Cancellation

All Securities, which are redeemed by the relevant Issuer, will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Securities so cancelled and any Securities purchased and cancelled pursuant to General Condition 6.9

(*Purchases*) (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent and cannot be reissued or resold.

#### 6.11 Late payment on Zero Coupon Securities

If the amount payable in respect of any Zero Coupon Security upon redemption of such Zero Coupon Security pursuant to General Condition 6.1 (*Redemption by Instalment and Final Redemption*), 6.3 (*Redemption for tax reasons*), 6.4 (*Special Tax Redemption*), General Condition 6.5 (*Redemption for FATCA withholding*), 6.6 (*Regulatory Redemption or Compulsory Resales*), 6.7 (*Clean-up Call Option*) or upon its becoming due and repayable as provided in General Condition 10 (*Events of Default*) or General Condition 19 (*Illegality and Force Majeure*) is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Security shall be the Fair Market Value Redemption Amount as though the references in General Condition 6.8 (*Fair Market Value Redemption Amounts*) to the date fixed for the redemption was replaced by references to the date which is the earlier of:

- (a) the date on which all amounts due in respect of such Zero Coupon Security have been paid; and
- (b) five (5) days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Securities has been received by the Principal Paying Agent or the Registrar and notice to that effect has been given to the Securityholders in accordance with General Condition 14 (*Notices*).

#### 6.12 Italian Listed Certificates

*Notwithstanding* anything to the contrary in the Conditions: (i) Italian Listed Certificates shall be deemed to be automatically redeemed at the renouncement notice cut-off time specified in the Final Terms (the "**Renouncement Notice Cut-off Time**"), (ii) for so long as the Italian Listed Certificates are listed on Borsa Italiana S.p.A., the Certificates shall be deemed to expire on the Expiry Date (*Data di Scadenza*) and trading in the Certificates on the Italian Stock Exchange shall cease on the third trading day prior to the Expiry Date (*Data di Scadenza*) and (iii) references in the General Conditions to "redemption" and "redeem" shall be construed as references to "termination" and "terminate".

For so long as the Italian Listed Certificates are admitted to listing on Borsa Italiana S.p.A. and to trading on the SeDeX Market, then at any time prior to the Renouncement Notice Cut-Off Time, any Certificateholder may renounce automatic redemption of such Italian Listed Certificate by the delivery or sending by fax of a duly completed renouncement notice (a **Renouncement Notice**) in the form set out in the applicable Final Terms, in accordance with the rules of Borsa Italiana S.p.A. applicable from time to time, by giving a duly completed Renouncement Notice to Euroclear or Clearstream, Luxembourg, with a copy to the relevant Issuer and the Principal Certificate Agent. Once delivered, a Renouncement Notice shall be irrevocable and the relevant Certificateholder may not transfer the Italian Certificates the subject of the Renouncement Notice. If a duly completed Renouncement Notice is validly delivered prior to the Renouncement Notice Cut-off Time, the relevant Certificateholder will not be entitled to receive any amounts payable by the Issuer in respect of relevant Certificates and the relevant Issuer shall have no further liability in respect of such amounts.

Any determination as to whether a Renouncement Notice is duly completed and in proper form shall be made by Euroclear or Clearstream, Luxembourg (in consultation with the Issuer and the Principal Certificate Agent) and shall be conclusive and binding on the relevant Issuer, the Guarantor, the Principal Certificate Agent, as the case may be, and the relevant Certificateholder.

Subject as follows, any Renouncement Notice so determined to be incomplete or not in proper form shall be null and void. If such Renouncement Notice is subsequently corrected to the satisfaction of Euroclear or Clearstream, Luxembourg, it shall be deemed to be a new Renouncement Notice submitted at the time such

correction was delivered to Euroclear or Clearstream, Luxembourg, with a copy to the relevant Issuer and the Principal Certificate Agent.

### 6.13 Payoff Features

With respect to each Security (other than a Credit Linked Security), the Early Redemption Amount, Instalment Redemption Amount or the Final Redemption Amount will be subject to the Payoff Features (if any) specified as applicable in the applicable Final Terms.

### 6.14 Negative Redemption Amount

Where an Instalment Redemption Amount, Early Redemption Amount, Fair Market Value Redemption Amount, Final Redemption Amount or other relevant redemption amount is calculated or determined as, in accordance with this General Condition 6 and any applicable Additional Conditions, a negative amount, then such amount will be deemed to be zero. Securityholders will not in such circumstances be required to make any payment to the relevant Issuer in respect of such negative amount or rate nor will any other payments then or in the future due in respect of the Securities be adjusted in respect of such negative amount.

## 8 TAXATION

### 8.1 Taxation

All payments of nominal and interest in respect of the Securities, Receipts and Coupons or under the Guarantee will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law (a **Gross Up Event**).

### 8.2 Gross Up

If a Gross Up Event occurs and only if "Gross Up" is specified in the applicable Final Terms, the relevant Issuer (if "Issuer Gross Up" is specified in the applicable Final Terms as applicable) or, as the case may be, the Guarantor (if "Guarantor Gross Up" is specified in the applicable Final Terms as applicable) will, to the fullest extent permitted by French law and (in the case of Securities issued by Crédit Agricole CIB FG) Guernsey law, pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Securities, Receipts or Coupons after such withholding or deduction shall equal the respective amounts of nominal and interest which would otherwise have been receivable in respect of the Securities, Receipts or Coupons, as the case may be, in the absence of such withholding or deduction, except that no such additional amounts shall be payable with respect to any Security, Receipt or Coupon:

- (a) presented for payment in France or (in the case of Securities issued by Crédit Agricole CIB FG) Guernsey; or
- (b) to, or to a third party on behalf of, a holder which is liable for such taxes or duties in respect of such Security, Receipt or Coupon by reason of his having some connection with a Tax Jurisdiction other than the mere holding of such Security, Receipt or Coupon; or
- (c) presented for payment by, or on behalf of, a holder who would be able to avoid such withholding or deduction by making a declaration or any other statement, including but not limited to, a declaration of residence or non-residence, but fails to do so; or
- (d) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Business Day (as defined in General Condition 5.6 (*Payment Business Day*)); or
- (e) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directives 2003/48/EC and 2015/2060/EU or any law (whether within or outside the European Union) implementing or complying with, or introduced in order to conform to, such Directives; or

- (f) presented for payment by or on behalf of a holder who would be able to avoid such withholding or deduction by presenting the relevant Security, Receipt or Coupon to another Paying Agent in a Member State of the European Union.

As used in these General Conditions:

- (i) **Tax Jurisdiction** means France or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by Crédit Agricole CIB and Crédit Agricole CIB FS) or Guernsey or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by Crédit Agricole CIB FG); and
- (ii) the **Relevant Date** means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Paying Agent or the Registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Securityholders in accordance with General Condition 14 (*Notices*).

For the avoidance of doubt, in the event that the "Gross Up" is specified as not applicable in the applicable Final Terms, the relevant Issuer or, as the case may be, the Guarantor will make payments of nominal and interest to the holders of the Securities, Receipts and Coupons net of withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any jurisdiction.

For the avoidance of doubt, no additional amounts will be paid by any relevant Issuer, the Guarantor or any Paying Agent on account of any deduction or withholding from a payment on, or in respect of, the Securities where such deduction or withholding is imposed pursuant to any agreement with the US Internal Revenue Service in connection with Sections 1471-1474 of the US Internal Revenue Code, as amended and the US Treasury regulations thereunder (**FATCA**), any intergovernmental agreement between the United States and France, Guernsey or any other jurisdiction with respect to FATCA, or any law, regulation or other official guidance enacted in any jurisdiction implementing, or relating to, FATCA or any intergovernmental agreement.

## 9 PRESCRIPTION

The Securities (whether in bearer or registered form), Receipts and Coupons will become void unless claims in respect of nominal and/or interest are made within a period of 10 years (in the case of nominal) and five (5) years (in the case of interest) after the Relevant Date (as defined in General Condition 8.2 (*Gross Up*)) therefor.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this General Condition 9 or General Condition 5.2 (*Presentation of Definitive Bearer Securities, Receipts and Coupons*) or any Talon which would be void pursuant to General Condition 5.2 (*Presentation of Definitive Bearer Securities, Receipts and Coupons*).

## 10 EVENTS OF DEFAULT

Unless this General Condition 10 is specified as being not applicable in the applicable Final Terms, if any one or more of the following events (each an **Event of Default**) shall occur:

- (a) if default is made in the payment of any nominal or interest due on the Securities or any of them on the due date and such default, in the case of any payment of interest or, in respect of Instalment Securities, nominal, continues for a period of 15 days or more after written notice thereof is received by the relevant Issuer from the Principal Paying Agent (and the Principal Paying Agent shall be bound to give such notice forthwith upon the request of any Securityholder) unless the relevant Issuer or the Guarantor shall have remedied such default before the expiry of such period and save that late delivery of any Physical Settlement Amount in the circumstances described in Annex 1 (*Asset Conditions*) in respect of ETF Linked Securities or Share Linked

Securities, Annex 2 (*Credit Linked Conditions*) or Annex 3 (*Bond Linked Conditions*) (as the case may be) respectively shall not constitute an Event of Default hereunder; or

- (b) if the relevant Issuer or the Guarantor fails to perform or observe any of its other obligations under the Terms and Conditions of the Securities or the Guarantee and (except where such failure is incapable of remedy when no notice will be required) and if such default is capable of being remedied by the relevant Issuer or Guarantor, such default has not been so remedied within 60 days after written notice is received by the relevant Issuer or the Guarantor (as the case may be) from the Principal Paying Agent (and the Principal Paying Agent shall be bound to give such notice forthwith upon the request of any Securityholder) specifying such default and requiring the same to be remedied; or
- (c) in the case of Securities issued by Crédit Agricole CIB or Crédit Agricole CIB FS, if the relevant Issuer ceases to pay its debts generally as and when they fall due or a judgment is issued for the judicial liquidation (*liquidation judiciaire*) of the relevant Issuer or for the transfer of the whole of its business (*cession totale de l'entreprise*), or the relevant Issuer is subject to similar bankruptcy or insolvency proceedings, or the relevant Issuer makes any proposals for a conveyance, assignment or other arrangement concerning the whole or a substantial part of its assets for the benefit of its creditors, or a resolution is passed by the relevant Issuer for its winding-up or dissolution, other than in connection with the consolidation or amalgamation of the relevant Issuer with, or its merger with or into, or the transfer of all or substantially all its assets to another entity and the creditworthiness of the resulting, surviving or transferee entity is not materially weaker than that of the relevant Issuer immediately prior to such action; or
- (d) in the case of Securities issued by Crédit Agricole CIB FG, if a liquidator, provisional liquidator, administrator, receiver and manager or inspector under the corporate law of the relevant Issuer or any of its material assets, undertaking or property is appointed or any encumbrancer takes possession of all or a substantial part of the assets or property of the relevant Issuer, or the relevant Issuer is declared "*en désastre*" in Guernsey or the relevant Issuer takes any step to obtain protection or is granted protection from its creditors under any applicable legislation or the relevant Issuer stops payment generally or ceases or threatens to cease to carry on its business, except in connection with a merger or other reorganisation in which all of the relevant Issuer's assets are transferred to, and all of the relevant Issuer's debts and liabilities (including the Securities) are assumed by another entity which continues the relevant Issuer's activities; or
- (e) the Guarantee ceases to be, or is claimed by the Guarantor not to be, in full force and effect,

then any holder of a Security may, by written notice to the relevant Issuer at the specified office of the Principal Paying Agent, effective upon the date of receipt thereof by the Principal Paying Agent (or, in the case of Swedish Securities or Finnish Securities, on such later date on which the relevant Securities have been transferred to the account designated by the Swedish Issuing Agent or the Finnish Issuing Agent and blocked for further transfer by said Agent), declare any Securities held by the holder to be forthwith due and payable whereupon the same shall become forthwith due and payable at the Fair Market Value Redemption Amount, without presentment, demand, protest or other notice of any kind.

## 11 REPLACEMENT OF SECURITIES, RECEIPTS, COUPONS AND TALONS

Should any Security, Receipt, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Paying Agent (in the case of Bearer Securities, Receipts and Coupons) or the Registrar (in the case of Registered Securities) upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the relevant Issuer may reasonably require. Mutilated or defaced Securities, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

## 12 AGENTS

### 12.1 General provisions

The names of the initial Paying Agents and their initial specified offices are set out below.

The relevant Issuer is entitled to vary or terminate the appointment of any Agent and/or appoint additional or other Agents and/or approve any change in the specified office through which any Agent acts, provided that:

- (a) there will at all times be a Principal Paying Agent, a Registrar, a Transfer Agent and an Exchange Agent;
- (b) so long as the Securities are listed on any stock exchange or admitted to listing by any other relevant authority, there will at all times be a Paying Agent (in the case of Bearer Securities) and a Transfer Agent (in the case of Registered Securities) with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange (or any other relevant authority);
- (c) where the Conditions so require, there will be a Delivery Agent;
- (d) it maintains a Paying Agent in a Member State of the European Union that will not be obliged to withhold or deduct tax pursuant to European Council Directives 2003/48/EC and 2015/2060/EU or any law implementing or complying with, or introduced in order to conform to, such Directives;
- (e) so long as any of the Registered Global Securities payable in a Specified Currency other than U.S. dollars are held through DTC or its nominee, there will at all times be an Exchange Agent with a specified office in New York City;
- (f) there will at all times be a Paying Agent in a jurisdiction within continental Europe, other than the jurisdiction in which the relevant Issuer or the Guarantor is incorporated;
- (g) so long as there are any Swedish Securities outstanding, there will at all times be a Swedish CSD, duly authorised as a central securities depository (in Swedish: *central värdepappersförvarare*) under the Swedish Financial Instruments Accounts Act, and an issuing agent (in Swedish: *emissionsinstitut*) duly authorised as such under the Swedish CSD Rules, appointed by the relevant Issuer for the relevant Securities;
- (h) as long as there are any Norwegian Securities outstanding, there will at all times be a Norwegian CSD, duly authorised as a central security depository (in Norwegian: *verdipapirregister*) as required by the Norwegian Securities Register Act (in Norwegian: *lov om registrering av finansielle instrumenter av 5. juli 2002 nr.64*) and a issuing agent (in Norwegian: *kontofører utsteder*) duly authorised under the Norwegian CSD Rules, appointed by the relevant Issuer for the relevant Norwegian Securities; and
- (i) as long as there are any Finnish Securities outstanding, there will at all times be a Finnish CSD, duly authorised as a central securities depository under the Finnish Act on the Book-Entry System and Clearing Operations and an issuing agent duly authorised as such under the Finnish CSD Rules appointed by the relevant Issuer for the relevant Securities.

In addition, the relevant Issuer shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in General Condition 5.5 (*General provisions applicable to payments*). Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 days' prior notice thereof shall have been given to the Securityholders in accordance with General Condition 14 (*Notices*).

In acting under the Agency Agreement, the Agents act solely as agents of the relevant Issuer and the Guarantor and do not assume any obligation to, or relationship of agency or trust with, any Securityholders, Receiptholders, Couponholders or Certificateholders. The Agency Agreement contains provisions permitting

any entity into which any Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor agent.

In addition, the Principal Paying Agent may (with the prior written consent of the relevant Issuer) delegate certain of its functions and duties to a Delivery Agent in relation to Credit Linked Securities, Bond Linked Securities, ETF Linked Securities subject to physical delivery or Share Linked Securities subject to physical delivery.

## 12.2 Calculation Agent

- (a) The relevant Issuer shall procure that there shall at all times be one or more Calculation Agents if provision is made for them in the applicable Final Terms and for so long as any Securities are outstanding. Where more than one Calculation Agent is appointed in respect of the Securities, references in the Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions.
- (b) If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails to perform any functions or duty imposed on it by the Conditions or the Calculation Agency Agreement, it shall forthwith notify the relevant Issuer and the relevant Agent and such Issuer shall appoint a leading bank or financial institution engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through any office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed.
- (c) For the avoidance of doubt, nothing in this General Condition 12.2 shall prevent the relevant Issuer from appointing its Affiliate to act as a Calculation Agent in relation to any Series of the Securities.
- (d) If the Calculation Agent does not at any time for any reason determine or calculate the Rate of Interest or the Linked Interest Rate for an Interest Accrual Period or any Interest Amount, the relevant Issuer shall do so (or shall appoint an agent on its behalf to do so) and such determination or calculation shall be deemed to have been made by the Calculation Agent. In doing so, the relevant Issuer shall apply the provisions of General Condition 4 (*Interest*) and General Condition 5 (*Payments*), with any necessary consequential amendments, to the extent that, in its opinion, it can do so, and, in all other respects, it shall do so in such manner as it shall deem fair and reasonable in all the circumstances.
- (e) The relevant Issuer reserves the right at any time to vary or terminate the appointment of the Calculation Agent in accordance with the relevant Calculation Agency Agreement, provided that there will at all times be a Calculation Agent, if so required by the Conditions. Notice of any termination of appointment of the Calculation Agent will be given to Securityholders in accordance with General Condition 14 (*Notices*).
- (f) In relation to each Series of Securities, the Calculation Agent (whether it be the relevant Issuer, its Affiliate or another entity) acts solely as agent of the relevant Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders, the Receiptholders or the Couponholders.
- (g) The Calculation Agent may, with the consent of the relevant Issuer, delegate any of its obligations and functions to a third party as it deems appropriate and any determination or calculation by any such delegate shall be deemed to be a determination or calculation by the Calculation Agent.

### 12.3 Determinations

- (a) Unless stated otherwise in the Conditions, all determinations and calculations under the Conditions will be made by the Calculation Agent.
- (b) Any determination, judgment or adjustment made by the relevant Issuer and/or the Calculation Agent pursuant to the Conditions shall (save in the case of manifest error) be final, conclusive and binding on the relevant Issuer, the Guarantor, the relevant Agents and the Securityholders, unless otherwise expressly provided in the Conditions.
- (c) In particular, all certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of General Condition 4 (*Interest*) and General Condition 6 (*Redemption and Purchase*), whether by the relevant Agent or, if applicable, the Calculation Agent or the relevant Issuer, shall (in the absence of manifest error) be binding on the relevant Issuer, the Guarantor, the Principal Paying Agent, the Calculation Agent (if applicable), the other Paying Agents and all Securityholders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability to the relevant Issuer, the Guarantor, the Securityholders, the Receiptholders or the Couponholders shall attach to the Principal Paying Agent or, if applicable, the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.
- (d) In making any determination, judgment or adjustment pursuant to the Conditions, the relevant Issuer and/or the Calculation Agent shall not have regard to any interests arising from circumstances particular to individual Securityholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such determination for individual Securityholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Calculation Agent shall not be entitled to require, nor shall any Securityholder be entitled to claim, from the relevant Issuer, the Calculation Agent or any other person any indemnification or payment in respect of any tax consequences of any such determination upon individual Securityholders.
- (e) Unless stated otherwise in the Conditions, the relevant Issuer or the Calculation Agent is entitled to act in its sole and absolute discretion, but it shall act in good faith.

## 13 EXCHANGE OF TALONS

## **15 MEETINGS OF SECURITYHOLDERS, MODIFICATION AND WAIVER**

The Agency Agreement contains provisions for convening meetings of the Securityholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Agency Agreement) of a modification of the Securities, the Receipts, the Coupons or any of the provisions of the Agency Agreement. Such a meeting may be convened by the relevant Issuer or Securityholders and shall be convened by the relevant Issuer if required in writing by Securityholders holding not less than ten (10) per cent. in nominal amount of the Securities for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50 per cent. in nominal amount of the Securities for the time being outstanding, or at any adjourned meeting one or more persons being or representing Securityholders whatever the nominal amount of the Securities so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Securities, the Receipts or the Coupons (including modifying the date of redemption of the Securities or any date for payment of interest thereon, reducing or cancelling the amount of nominal or the rate of interest payable in respect of the Securities or altering the currency of payment of the Securities, the Receipts or the Coupons), the quorum shall be one or more persons holding or representing not less than two-thirds in nominal amount of the Securities for the time being outstanding, or at any adjourned such meeting one or more persons holding or representing not less than one-third in nominal amount of the Securities for the time being outstanding. In respect of Italian Listed Securities, for the purposes of (i) ascertaining the right to attend and vote at any meeting of Certificateholders and (ii) the determination of how many Italian Listed Securities are outstanding for the purposes of this General Condition 15 and Schedule 5 (*Provisions for Meetings of Securityholders*), those Italian Listed Securities which are beneficially held by, or on behalf of, the relevant Issuer, the Guarantor or any of their respective subsidiaries and not cancelled shall (unless and until ceasing to be so held) be deemed not to be outstanding provided, for the avoidance of doubt, that this shall not prejudice any rights of the relevant Issuer or the

Guarantor (through their respective representatives) and their respective legal and financial advisers in such Schedule 11 to attend and speak at any such meeting.

The relevant Issuer may, without the consent of the Securityholders, Receiptholders, Couponholders or Certificateholders (and without considering the individual circumstances of any such Securityholders, Receiptholders, Couponholders, Certificateholders or the tax or other consequences of such adjustment in any particular jurisdiction) implement any modification to Terms and Conditions of the Securities, the Receipts, the Coupons, the Italian Securities or the Agency Agreement which is:

- (a) not materially prejudicial to the interests of the Securityholders; and/or
- (b) of a formal, minor or technical nature or is made to correct a manifest or proven error or omission, to cure, correct or supplement any defective provision contained herein and/or therein or to comply with (i) mandatory provisions of law or regulation, (ii) any rules or requirements of any regulatory authority supervising the Issuer or (iii) any requirement of any stock exchange on which the Securities may be listed.

Any such modification shall be binding on the Securityholders, the Receiptholders and the Couponholders and any such modification shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*) as soon as practicable thereafter.

## 16 FURTHER ISSUES

The relevant Issuer shall be at liberty from time to time without the consent of the Securityholders, the Receiptholders or the Couponholders to create and issue further securities having terms and conditions the same as the Securities or the same in all respects save for the amount and date of the first payment of interest thereon and so that the same shall be consolidated and form a single Series with the outstanding Securities.

## 17 SUBSTITUTION OR ADDITION OF AN ISSUER

### 17.1 Conditions Precedent to Substitution

The relevant Issuer (such term including, for the purposes of this General Condition 17 only, any company previously substituted pursuant to this General Condition 17.1) may, without the consent of the Securityholders, be replaced and substituted by another company designated by the relevant Issuer or (in the case of Securities issued by Crédit Agricole CIB FG or Crédit Agricole CIB FS) the Guarantor as principal debtor (the **Substituted Debtor**) in respect of the Securities provided that:

- (a) (A) a deed poll in or substantially in the form scheduled to the Agency Agreement shall be executed by the Substituted Debtor pursuant to which the Substituted Debtor shall undertake in favour of each Securityholder (such term including, for the purposes of this General Condition only, Couponholders and Receiptholders) to be bound by the Terms and Conditions of the Securities and the provisions of the Agency Agreement and the Deed of Covenant as fully as if the Substituted Debtor had been named in the Securities and the Agency Agreement and the Deed of Covenant as the principal debtor in respect of the Securities in place of the relevant Issuer, (B), save in circumstances where the Substituted Debtor is Crédit Agricole CIB, a deed of guarantee in or substantially in the form scheduled to the Agency Agreement shall be executed by the Issuer (in the case of Securities issued by Crédit Agricole CIB) or the Guarantor (in the case of Securities issued by Crédit Agricole CIB FG or Crédit Agricole CIB FS) pursuant to which the Issuer or the Guarantor (as the case may be) shall irrevocably and unconditionally guarantee in favour of each Securityholder the payment of all sums payable by the Substituted Debtor as such principal debtor and (C) such other documents (if any) (together with the deed poll and the deed of guarantee above, the **Documents**) shall be executed by the Substituted Debtor, the Issuer or the Guarantor (as the case may be) as may be necessary to give full effect to the substitution;

- (b) without prejudice to the generality of paragraph (a) above or paragraph (c) below, where the Substituted Debtor is incorporated, domiciled or resident for taxation purposes in a territory other than the relevant Issuer's jurisdiction of incorporation (originally France in the case of Securities issued respectively by Crédit Agricole CIB or Crédit Agricole CIB FS and Guernsey in the case of Securities issued by Crédit Agricole CIB FG), the Documents shall contain a covenant by the Substituted Debtor and/or such other provisions as may be necessary to ensure that each Securityholder has the benefit of a covenant in terms corresponding to the provisions of General Condition 8 (*Taxation*) with the substitution for the references to the relevant Issuer's jurisdiction of incorporation of references to the territory or territories in which the Substituted Debtor is incorporated, domiciled and/or resident for taxation purposes so that the Securityholders are placed in no weaker a position by reason of the substitution than they would have been had such substitution not taken place;
- (c) the Documents shall contain a warranty and representation by the Substituted Debtor and the Issuer or the Guarantor (as the case may be) (A) that the Substituted Debtor and the Issuer or the Guarantor (as the case may be) have obtained all necessary governmental and regulatory approvals and consents for such substitution and for the giving by the Issuer or the Guarantor (as the case may be) of a guarantee in respect of the obligations of the Substituted Debtor and the Issuer or the Guarantor (as the case may be) and for the performance by each of the Substituted Debtor and the Issuer or the Guarantor (as the case may be) of its obligations under the Documents and that all such approvals and consents are in full force and effect and (B) that the obligations assumed by each of the Substituted Debtor and the Issuer or the Guarantor (as the case may be) under the Documents are all legal, valid and binding in accordance with their respective terms;
- (d) each stock exchange or market on which the Securities are listed or admitted to trading shall have confirmed that following the proposed substitution of the Substituted Debtor the Securities will continue to be listed on such stock exchange;
- (e) the Substituted Debtor shall have delivered, or procured the delivery, to the Principal Paying Agent of a legal opinion from a leading firm of lawyers acting for the Substituted Debtor to the effect that the Documents will upon execution constitute legal, valid and binding obligations of the Substituted Debtor, such opinion to be dated not more than seven (7) days prior to the date of the substitution of the Substituted Debtor for the Issuer and to be available for inspection by Securityholders at the specified office of the Principal Paying Agent;
- (f) the Issuer or the Guarantor (as the case may be) shall have delivered, or procured the delivery, to the Principal Paying Agent of a legal opinion from a leading firm of lawyers acting for the Issuer or the Guarantor (as the case may be) to the effect that the Documents (including, if applicable, the guarantee given by the Issuer or the Guarantor (as the case may be) in respect of the Substituted Debtor) will upon execution constitute legal, valid and binding obligations of the Issuer or the Guarantor (as the case may be), such opinion to be dated not more than seven (7) days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Securityholders at the specified office of the Principal Paying Agent;
- (g) the Issuer or the Guarantor (as the case may be) shall have delivered, or procured the delivery, to the Principal Paying Agent of a legal opinion from a leading firm of English lawyers to the effect that the Documents (including, if applicable, the guarantee given by the Issuer or the Guarantor (as the case may be) in respect of the Substituted Debtor) will upon execution constitute legal, valid and binding obligations of the parties thereto under English law, such opinion to be dated not more than seven (7) days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Securityholders at the specified office of the Principal Paying Agent;

- (h) the Substituted Debtor shall have appointed the process agent appointed by the relevant Issuer in General Condition 23.3 (*Appointment of Process Agent*) or another person with an office in England as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Securities; and
- (i) in the case of Swedish Securities or Finnish Securities, the Swedish CSD or the Finnish CSD has given its consent to the substitution (which consent shall not be unreasonably withheld or delayed).

### **17.2 Assumption by Substituted Debtor**

Upon execution of the Documents as referred to in General Condition 17.1(a), and subject to the other requirements therein having been met, (i) the Substituted Debtor shall be deemed to be named in the Securities as the principal debtor in place of the relevant Issuer, (ii) the Securities, the Deed of Covenant and the Agency Agreement shall thereupon be deemed to be amended to give effect to the substitution including (where the context allows) substituting references to the relevant Issuer's jurisdiction of incorporation (originally France in the case of Securities issued respectively by Crédit Agricole CIB and Crédit Agricole CIB FS and Guernsey in the case of Securities issued by Crédit Agricole CIB FG) with references to the Substituted Debtor's jurisdiction of incorporation and (iii) the relevant Issuer shall be released as issuer from (A) in the case of Securities issued by Crédit Agricole CIB, all of its obligations as principal debtor in respect of the Securities or (B) in the case of Securities issued by Crédit Agricole CIB FG or Crédit Agricole CIB FS, all of its obligations in respect of the Securities.

### **17.3 Deposit of Documents**

The Documents shall be deposited with and held by the Principal Paying Agent for so long as any Security remains outstanding and for so long as any claim made against the Substituted Debtor, the relevant Issuer or (in the case of Securities issued by Crédit Agricole CIB FG or Crédit Agricole CIB FS) the Guarantor by any Securityholder in relation to the Securities or the Documents shall not have been finally adjudicated, settled or discharged. The Substituted Debtor and the relevant Issuer or the Guarantor (as the case may be) shall acknowledge in the Documents the right of every Securityholder to production of the Documents for the enforcement of any of the Securities or the Documents. In the case of Securities listed on a stock exchange, the appropriate documentation will be filed with the relevant stock exchange.

### **17.4 Notice of Substitution**

Not more than 15 days after execution of the Documents, the Substituted Debtor shall give notice thereof to the Securityholders in accordance with General Condition 14 (*Notices*). For the avoidance of doubt, non-delivery of such notice shall not invalidate the substitution.

### **17.5 Tax consequences**

In connection with such right of change or substitution an Issuer shall not be obliged to have regard to the consequences of the exercise of such right for individual Securityholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory, and no Securityholder shall be entitled to claim from the relevant Issuer any indemnification or payment in respect of any tax consequence of any such change or substitution upon such Securityholder.

### **17.6 Optional Substitution of the Guarantor**

If Securities issued by Crédit Agricole CIB FG or Crédit Agricole CIB FS pursuant to this Programme are guaranteed by Crédit Agricole CIB, Crédit Agricole S.A. may be substituted for Crédit Agricole CIB in its capacity as Guarantor for one or more categories of Securities and the related Receipts, Coupons and Talons, upon a joint decision by Crédit Agricole S.A. and Crédit Agricole CIB, without the consent of Securityholders, Receiptholders and Couponholders. As indicated in the 2015 Registration Document, paragraph 1.9

"Affiliation" of Chapter 8 "General Information" on page 318, Crédit Agricole S.A. is the parent company of Crédit Agricole CIB and the central body of the Crédit Agricole network with which Crédit Agricole CIB is affiliated. If Crédit Agricole S.A. and Crédit Agricole CIB decide to substitute Crédit Agricole S.A. for Crédit Agricole CIB in its capacity as guarantor for one or more categories of Securities (hereafter, in such capacity, the "**Substituted Guarantor**"), Crédit Agricole CIB must notify the holders of such Securities in accordance with the provisions of General Condition 14 (*Notices*) at least thirty (30) days and not more than sixty (60) days in advance and, immediately after the expiration of such notification, the Substituted Guarantor will become the Guarantor for the Securities, Receipts, Coupons and Talons in place of Crédit Agricole CIB, and the Securityholders, Receiptholders and Couponholders will immediately cease to hold any rights or claims on Crédit Agricole CIB. However, no such substitution will take place:

- (i) if, on the date of such substitution, it results in payments that should be made pursuant to the Securities being subject to a withholding tax or a deduction that should not have been imposed in the absence of such substitution;
- (ii) before Crédit Agricole S.A. grants an unconditional and irrevocable guarantee, substantially in the form of the Guarantee, with respect to Crédit Agricole CIB's obligations; and
- (iii) in any event, before Crédit Agricole S.A. concludes any amendments and/or other agreements that may be necessary in order for Crédit Agricole S.A. to be bound by valid and legally binding obligations identical to the valid and legally binding obligations that bound Crédit Agricole CIB pursuant to contractual documents relating to the Securities, Receipts, Coupons and Talons (other than the Guarantee).

In the event of a substitution taking place in accordance with this General Condition 17.6, a supplement to the Base Prospectus will be published by the Issuer relating to the conditions of the guarantee granted by Crédit Agricole S.A. and the description of Crédit Agricole S.A.

In the event of a substitution taking place under these conditions and at the effective date of the substitution:

- any reference to Crédit Agricole CIB as Guarantor, for the purposes of conditions applicable to Securities, Receipts, Coupons and Talons and related contractual documents, will be deemed to be a reference to Crédit Agricole S.A.; and
- any reference to the Guarantee, for the purposes of conditions applicable to Securities, Receipts, Coupons and Talons and related contractual documents, will be deemed to be a reference to the guarantee granted by Crédit Agricole S.A. for the Securities, Receipts, Coupons and Talons.

For the purposes of this General Condition 17.6, it is expressly agreed that by subscribing to, acquiring or purchasing the Securities by any means, Securityholders, Receiptholders and Couponholders are deemed to have expressly agreed to Crédit Agricole S.A.'s substitution for Crédit Agricole CIB and to Crédit Agricole CIB's release from any of its obligations with respect to the Securities and any related agreements, and are expressly deemed to have accepted such substitution and its consequences.

### 17.7 Addition of an Issuer

A new Issuer (a **New Issuer**) may, without the consent of existing Securityholders, issue a Securities in accordance with these Terms and Conditions pursuant to the Programme provided that:

- (a) (A) a deed poll in or substantially in the form scheduled to the Agency Agreement shall be executed by the New Issuer pursuant to which the New Issuer shall undertake in favour of each holder where it is the Issuer of Securities (such term including, for the purposes of this General Condition only, Couponholders and Receiptholders) to be bound by the Terms and Conditions of the Securities and the provisions of the Agency Agreement and the Deed of Covenant as fully as if the New Issuer had been named in the Securities and the Agency Agreement and the Deed of Covenant as the principal debtor in respect of the Securities in place of the relevant Issuer, (B) a deed of guarantee in or substantially in the

form scheduled to the Agency Agreement shall be executed by the Guarantor pursuant to which the Guarantor shall irrevocably and unconditionally guarantee in favour of each Securityholder the payment of all sums payable by the New Issuer as such principal debtor and (C) such other documents (if any) (together with the deed poll and the deed of guarantee above, the **Documents**) shall be executed by the New Issuer or the Guarantor (as the case may be) as may be necessary to give full effect to the addition; and

- (b) each stock exchange or market on which the issues under the Programme are to be listed or admitted to trading shall have confirmed that following the proposed addition of the New Issuer, Securities to be issued by the New Issuer under the Programme will continue to be eligible for admission to trading on the regulated market of such exchange and to be eligible for listing on such exchange or market.

## 18 REPRESENTATIONS AND ACKNOWLEDGEMENTS

EACH SECURITYHOLDER (BEING IN THE CASE OF SECURITIES HELD BY A NOMINEE OR HELD IN A CLEARING SYSTEM, THE BENEFICIAL OWNER OF THE SECURITIES), BY SUBSCRIBING FOR OR PURCHASING THE SECURITIES OR AN INTEREST IN THE SECURITIES, CONFIRMS THAT ALL OF THE FOLLOWING STATEMENTS WITH RESPECT TO THAT SECURITYHOLDER ARE TRUE AND CORRECT ON THE DATE OF THE SUBSCRIPTION OR PURCHASE OF THE SECURITIES:

### 18.1 In the case of Securities generally:

- (a) The Securityholder is solely responsible for making its own independent appraisal of an investigation into the relevant Issuer and any other member of the Crédit Agricole CIB group of companies (the **Group**). Except for the publication of the Base Prospectus and any supplements thereto, the Securityholder does not and will not rely on the relevant Issuer or any other member of the Group to provide it with any additional information relating to the relevant Issuer or any other member of the Group.
- (b) The Securityholder's purchase of the Securities (i) is fully consistent with its financial needs, objectives and condition, (ii) complies with all applicable investment policies, guidelines and restrictions, and (iii) is a fit, proper and suitable investment for it, notwithstanding the clear and potentially substantial risks inherent in investing in or holding the Securities. The Securityholder has taken sufficient independent professional advice, as appropriate, to make its own evaluation of the legality, merits and risks of investment in the Securities.
- (c) The Securityholder is not relying on any communication (written or oral) from the relevant Issuer or any member of the Group as investment advice or as a recommendation to purchase the Securities.
- (d) The Securityholder acknowledges that neither the relevant Issuer nor any other member of the Group is acting as a fiduciary or adviser or as an agent of the Securityholder in respect of the Securities.
- (e) The Securityholder's subscription or purchase of the Securities is lawful under the laws of the jurisdiction of its incorporation and the jurisdiction in which it operates (if different), and such subscription or purchase does not contravene any law or regulation applicable to it.
- (f) The Securityholder acknowledges that no communication (written or oral) received from any member of the Group shall be deemed to be an assurance or guarantee as to the expected results or performance of the Securities. The Securityholder acknowledges that the amount of nominal to be repaid on the Redemption Date may be less than the stated nominal amount of the Securities or may even be zero.
- (g) The Securityholder acknowledges and agrees that any term sheet with respect to the Securities that it received on or prior to the issue date is superseded in its entirety by the Base Prospectus together with

the applicable Final Terms, which solely constitute the legally binding terms and conditions of the Securities.

- (h) The Securityholder (except where the Securityholder is acting as dealer appointed under the Programme) is purchasing the Securities as principal for its own account and/or for subsequent transfer to the account of third parties.
- (i) Where a Securityholder is acting as a dealer appointed under the Programme or as a distributor of Securities and acquires Securities at a price that is lower than the issue price and/or receives a placement fee in relation to a transaction, the dealer or distributor is solely responsible for making adequate disclosure to investors as required by applicable law, regulation, rule or best market practice.
- (j) In connection with any subsequent transfer of the Securities by the Securityholder to any third party, the Securityholder agrees that it will: (i) be solely responsible for assessing the suitability and appropriateness of the Securities for that third party; (ii) comply with all relevant laws, regulations and rules affecting the transfer and have obtained any governmental or other consents or approvals required to sell to the third party (including, without limitation any laws, regulations and rules that pertain to "know your customer", anti-money laundering, anti-terrorism and bribery); (iii) not represent itself to be in a partnership, association, joint venture or acting as agent with or for any member of the Group in connection with the transfer; (iv) ensure that any transferee receives or is given access to sufficient documentation with respect to the Securities prior to any transfer; and (v) conduct any transfer in accordance with any sales restrictions specified in the Base Prospectus.

#### **18.2 In addition, in the case of Index Linked Securities and Inflation Linked Securities:**

The amounts payable in respect of nominal and/or interest (as the case may be) are determined by a formula linked to the level of an Index, Proprietary Index or Inflation Index. Movements in the level of the Index, Proprietary Index or Inflation Index may therefore adversely affect the amount of nominal and/or interest to be repaid to the Securityholder and may also adversely affect the market value of the Securities prior to maturity. The amount of nominal to be repaid on the Redemption Date may be less than the stated nominal amount of the Securities or may even be zero.

#### **18.3 In addition, in the case of Credit Linked Securities:**

- (a) The Securityholder is, and will at all times continue to be, responsible for making its own: (i) independent appraisal of an investigation into the business, financial condition, prospects, creditworthiness, status and affairs of any Reference Entity or Underlying Obligor (collectively referred to as Relevant Entities); and (ii) its own independent appraisal of any obligations of a Relevant Entity that come within the definition of "*Obligation*", "*Reference Obligation*", "*Deliverable Obligation*" and "*Underlying Obligation*" (collectively referred to as Relevant Obligations).
- (b) The Securityholder has not relied, and will not at any time rely, on the relevant Issuer or any other member of the Group (i) to provide it with any information relating to, or to keep under review on its behalf, the business, financial condition, prospects, creditworthiness, status or affairs of any Relevant Entity or conduct any investigation or due diligence with respect to the Relevant Entity or any Relevant Obligation or (ii) to determine whether or not a Credit Event or an event or circumstance which, with the giving of notice or the lapse of time or both, could constitute a Credit Event.
- (c) In issuing the Securities, the relevant Issuer is not making, and has not made, any representation whatsoever as to any Relevant Entity, any Relevant Obligation on which it is relying or is entitled to rely.

- (d) The Securityholder acknowledges that the Securities do not represent or convey any interest in the Reference Obligation or in any other Relevant Obligations or any direct or indirect obligation of any Relevant Entity to the Securityholder and that the relevant Issuer is not an agent of the Securityholder for any purpose.
- (e) Any member of the Group may (i) deal in any Relevant Obligation; (ii) accept deposits from, make loans or otherwise extend credit to, and generally engage in any kind of commercial or investment banking or other business with, any Relevant Entity, or its Affiliates or any other person or entity having obligations relating to any Relevant Entity or any Relevant Obligation; and (iii) act with respect to such business freely and without accountability to the Securityholder in the same manner as if the Securities did not exist, regardless of whether any such action might have an adverse effect on any Relevant Obligation, any Relevant Entity or the Securities or on such Securityholder or otherwise (including, without limitation, any action that might give rise to a Credit Event).
- (f) Any member of the Group may be, whether by virtue of the types of relationships described above or otherwise, at any time, in possession of information in relation to any Relevant Obligation or any Relevant Entity which is or may be material in the context of the Securities and which is or may not be known to the general public or the Securityholder. The Securities do not create any obligation on the part of any member of the Group to disclose to the Securityholder any such relationship or information (whether or not confidential) and no member of the Group shall be liable to the Securityholder by reason of such non-disclosure.
- (g) The Securityholder has decided to enter into an investment in the Securities notwithstanding that any member of the Group may hold and/or be contractually prohibited from disclosing to the Securityholder, by virtue of any agreement or otherwise, the information described in General Condition 18.3(f) above.
- (h) Neither the relevant Issuer nor any member of the Group shall have any liability to the Securityholder and the Securityholder waives and releases any claims that it might have against the relevant Issuer or any member of the Group, whether under applicable securities law or otherwise, with respect to the non-disclosure of any information described in General Condition 18.3(f) above in connection with the Securities; provided however that such information does not and shall not affect the truth or accuracy of any representation made by the relevant Issuer to the Securityholders in any agreement entered into between the relevant Issuer and Securityholder(s).
- (i) The Securityholder acknowledges that the terms and conditions of the Securities are binding upon it, irrespective of the existence or amount of the relevant Issuer's, the Securityholder's or any person's credit exposure to any Reference Entity, and the relevant Issuer need not suffer any loss or provide evidence of any loss as a result of the occurrence of a Credit Event.

#### **18.4 In addition, in the case of Commodity Linked Securities:**

The amounts payable in respect of nominal and/or interest (as the case may be) are determined by a formula linked to the value of a commodity. Movements in the value of the commodity may therefore adversely affect the amount of nominal and/or interest to be repaid to the Securityholder and may also adversely affect the market value of the Securities prior to maturity. The amount of nominal to be repaid on the Redemption Date may be less than the stated nominal amount of the Securities or may even be zero.

### **19 ILLEGALITY AND FORCE MAJEURE**

This General Condition 19 will apply to the Securities if so specified in the applicable Final Terms.

## 19.1 Notice of Termination

The relevant Issuer shall have the right to early redeem the Securities at any time, by giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), if it determines in good faith that:

- (a) its performance under the Securities or the Guarantor's performance under the Guarantee has become unlawful in whole or in part for any reason; or

### 3 EVENTS RELATING TO COMMODITY LINKED SECURITIES

#### 3.1 Market Disruption Events

**Market Disruption Event** means, with respect to a Commodity, any of the following events as may be specified in the applicable Final Terms:

- (a) Price Source Disruption;
- (b) Trading Disruption;
- (c) Disappearance of Commodity Reference Price;
- (d) Material Change in Formula;
- (e) Material Change in Content; or
- (f) Tax Disruption.

The occurrence of a Market Disruption Event shall be determined by the Calculation Agent in good faith.

#### 3.2 Consequences of the occurrence of Disrupted Days

- (a) If, in the case of Commodity Linked Securities relating to a single Commodity, an Observation Date is a Disrupted Day, then the Calculation Agent may:
  - (i) postpone the Observation Date, in which case the Observation Date shall be the next Commodity Business Day which is not a Disrupted Day (the **Commodity Determination Date**), unless each consecutive Commodity Business Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (1) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (2) the Calculation Agent shall determine, in good faith, the Relevant Price for such Observation Date; or
  - (ii) determine the Relevant Price (or a method for determining a Relevant Price) for such day, taking into consideration the latest available quotation for the relevant Commodity Reference Price and any other information that in good faith it deems relevant.
- (b) If, in the case of Commodity Linked Securities relating to a Basket of Commodities, an Observation Date is a Disrupted Day, then:
  - (i) if "Common Pricing" is specified in the applicable Final Terms to be applicable, no date will be an Observation Date unless such date is a day on which all referenced Commodity Reference Prices (for which such date would otherwise be an Observation Date) are published or announced; or

- (ii) if "Common Pricing" is specified in the applicable Final Terms to be not applicable, (1) for each Commodity not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and (2) for each Commodity affected by the occurrence of a Disrupted Day (each an **Affected Commodity**), the Calculation Agent may:
  - postpone the Observation Date, in which case the Observation Date shall be the Commodity Determination Date relating to such Affected Commodity, unless each consecutive Commodity Business Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected Commodity, in which case (x) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day relating to the relevant Affected Commodity and (y) the Calculation Agent shall determine for such day, in good faith, the fair market value of the relevant Affected Commodity; or
  - determine the Relevant Price (or a method for determining a Relevant Price) for the Relevant Affected Commodity, taking into consideration the latest available quotation for the relevant Commodity Reference Price and any other information that in good faith it deems relevant.
- (c) If the Calculation Agent is not able to or does not determine the Relevant Price in accordance with Commodity Linked Asset Condition 3.3(a) or Commodity Linked Asset Condition 3.3(b) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for the occurrence of the Disrupted Day:
  - (i) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Market Disruption Event and determine the date(s) on which any such adjustments will be effective; in making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to a commodity derivative transaction in the interbank market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or
  - (ii) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (i) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).
- (d) The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) of the occurrence of a Disrupted Day on any Observation Date. Such notice shall give the details of such Disrupted Day and the action proposed to be taken by the Calculation Agent in relation thereto.

### 3.3 Correction to Published Prices

- (a) For purposes of determining or calculating the Relevant Price for any day, if "Correction of Commodity Prices" is specified in the applicable Final Terms to be applicable and the price published or announced on a given day and used or to be used by the Calculation Agent to determine the Relevant Price in respect of that day is subsequently corrected and the correction (the **Corrected Relevant Price**) is published or announced by the person responsible for that publication or announcement prior to the relevant Correction Cut-Off Date specified in the applicable Final Terms, the Calculation Agent, in its

sole discretion, shall determine what, if any, adjustments to make to the Relevant Price for that day, using such corrected price. For the avoidance of doubt, any Corrected Relevant Price published on or after the relevant Correction Cut-Off Date shall be disregarded.

- (b) The Calculation Agent shall notify the relevant Issuer of any such correction, the revised Relevant Price and, if any amount (the **Actual Amount**) has been paid to Securityholders on the basis of the original Relevant Price, the amount that should have been paid or delivered to the Securityholders on the basis of the corrected Relevant Price (the **Adjusted Amount**). Upon being notified of the Adjusted Amount, the relevant Issuer may (but shall not be obligated to) take such action as it considers necessary or appropriate to either pay additional amounts (if the Adjusted Amount is greater than the Actual Amount) or recover amounts (if the Adjusted Amount is less than the Actual Amount) from the person to whom the Actual Amounts were paid (including, for the purposes of recoveries by the relevant Issuer, by deducting from each Interest Amount payable on the next following Interest Payment Date (if any) an amount equal to each Security's *pro rata* share of an amount equal to the Actual Amount minus the Adjustment Amount, provided that each Interest Amount shall be subject to a minimum of zero). Notwithstanding the foregoing, under no circumstances shall the relevant Issuer be obligated to recover any moneys from any relevant Clearing System. The Calculation Agent shall not be obliged to make any determination under this paragraph (b) and shall have no liability to any person for any determination made or not made under this paragraph (b).
- (c) Notwithstanding the foregoing, where the Calculation Agent, in its sole discretion, determines that the price published or announced on a given day and used or to be used by it to determine the Relevant Price in respect of that day is expected to be subsequently corrected, then the Calculation Agent may, in its sole discretion, delay the determination or calculation of the Relevant Price in respect of such day and instead notify the relevant Issuer of the expected correction. If the Calculation Agent notifies the relevant Issuer of an expected correction to a Relevant Price, the relevant Issuer shall not make any payments until the Calculation Agent determines or calculates the correct Relevant Price and the day on which such payments are due shall be delayed to the same extent as was the determination or calculation of the correct Relevant Price. No additional amounts shall be payable as a result of any such delay.

- (1) any Component Security on the Exchange in respect of such Component Security; or (2) futures or options contracts relating to the Index on the Related Exchange.

**Market Disruption Event** means, in respect of an Index:

- (i) in respect of an Index
- (1) if Multiple Exchange is specified as being not applicable in the relevant Final Terms, the occurrence or existence of (A) a Trading Disruption which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time (B) an Exchange Disruption which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time or (C) an Early Closure; for the purposes of determining whether a Market Disruption Event exists at any time, if a Market Disruption Event occurs in respect of a Component Security included in such Index at any time, then the relevant percentage contribution of that Component Security to the level of such Index shall be based on a comparison of (x) the portion of the level of such Index attributable to that Component Security and (y) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event; or
- (2) if Multiple Exchange is specified as being applicable in the relevant Final Terms, either:

- (b) Consequences of the occurrence of Disrupted Days
- (i) If an Observation Date is a Disrupted Day, then:
- (A) in the case of Index Linked Securities relating to a single Index or Proprietary Index (as the case may be), the Calculation Agent will postpone the Observation Date, in which case the Observation Date shall be the first immediately succeeding Index Scheduled Trading Day that is not a Disrupted Day (the **Index Determination Date**), unless each consecutive Index Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (x) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (y) the Calculation Agent shall determine the level of the Index or Proprietary Index (as the case may be), as of the Valuation Time on the Disruption Longstop Date in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disruption Day using the Exchange traded or quoted price as of the Valuation Time on the Disruption Longstop Date of each security comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the Disruption Longstop Date, its good faith estimate of the value of the relevant security as of the Valuation Time on that Disruption Longstop Date) or, in the case of a Proprietary Index, in accordance with the rules governing the Proprietary Index; and
- (B) in the case of Index Linked Securities relating to a Basket of Indices or Proprietary Indices (as the case may be):
- (1) for each Index and Proprietary Index (if any) not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and
  - (2) for each Index and Proprietary Index (if any) affected by the occurrence of a Disrupted Day (each an **Affected Index**), the Calculation Agent will postpone the Observation Date, in which case the Observation Date shall be the first succeeding Index Scheduled Trading Day that is not a Disrupted Day relating to such Affected Index, unless each consecutive Index Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected Index, in which case (x) the Disruption Longstop Date shall be deemed to be the Observation Date for the relevant Affected Index, notwithstanding the fact that such day is a Disrupted Day and (y) the Calculation Agent shall determine the level of the relevant Affected Index as of the Valuation Time on the Disruption Longstop Date in accordance with the formula for and method of calculating the Affected Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the Disruption Longstop Date of each security comprised in the Affected Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the Disruption

Longstop Date, its good faith estimate of the value of the relevant security as of the Valuation Time on that Disruption Longstop Date) or, in the case of a Proprietary Index, in accordance with the rules governing the Proprietary Index;

- (ii) If the Calculation Agent is not able to or does not determine the level of the Index or Proprietary Index in accordance with Index Linked Asset Condition 3.1(b)(i)(A) or Index Linked Asset Condition 3.1(b)(i)(B) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for the occurrence of the Disrupted Day:
  - (A) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Disrupted Day and determine the date(s) on which any such adjustments will be effective. In making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to an index derivative transaction in the market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or
  - (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition **14** (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition **14** (*Notices*).
- (iii) The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition **14** (*Notices*) of the occurrence of a Disrupted Day on an Observation Date. Such notice shall give the details of such Disrupted Day and the action proposed to be taken by the Calculation Agent in relation thereto.

### 3.2 Index Adjustments

(a) Successor Index / Sponsor

If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the **Successor Index**) will be deemed to be the Index.

(b) Modification and Cessation of Calculation of an Index

If (i) on or prior to an Observation Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events) (an **Index Modification**), or permanently cancels a relevant Index and no Successor Index exists (an **Index Cancellation**), or (ii) on any Observation Date, the Index Sponsor fails to calculate and announce a relevant Index (an **Index Disruption** and, together with an Index Modification and an Index Cancellation, each an **Index Adjustment Event**), then:

- (i) the Calculation Agent shall determine to substitute the Index with a Substitution Index. A **Substitution Index** means in relation to the Index affected by an Index Adjustment Event and at the discretion of the Calculation Agent, an index whose principal terms are equivalent to those of the affected Index. Principal terms of an index include its strategy, its currency, the periodicity of its calculation and of the publication of its level, the type of its underlying assets, its geographic and economic zone or its rules; or
- (ii) the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Securities and, if so, shall calculate the relevant level of the Index, using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Observation Date, as the case may be, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those Component Securities that comprised that Index immediately prior to that Index Adjustment Event; or
- (iii) the Calculation Agent shall calculate in a reasonable amount of time after the occurrence of an Index Adjustment Event, the Fair Market Value Redemption Amount of the Security in its sole and absolute discretion and, the relevant Issuer shall, upon giving notice to Securityholders in accordance with General Condition **14** (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition **14** (*Notices*).

The Calculation Agent shall, as soon as practicable, notify the relevant Agent of any determination made by it pursuant to paragraph (b) above and the action proposed to be taken in relation thereto and such Agent shall make available for inspection by Securityholders copies of any such determinations.

### 3.3 Correction of the level of the Index

With the exception of any corrections published after the day which is three (3) Exchange Business Days prior to the due date for any payment under the Securities calculated by reference to the level of an Index, in the event that any price or level published by the Index Sponsor and which is used for any calculation or determination made in respect of the Securities is subsequently corrected and the correction is published by the Index Sponsor within one Settlement Cycle after the original publication, the Calculation Agent will determine whether any relevant adjustments need to be made to the Securities to account for such correction and, to the extent necessary, will adjust the terms of the Securities to reflect such correction.

- (ii) Notwithstanding paragraph (i) above, in any case where an FX Rate is based on information published or announced by any Governmental Authority in a relevant country, such FX Rate will be subject to the corrections, if any, to that information subsequently published or announced by that source within five (5) calendar days of the date on which such information is published or announced, unless the Calculation Agent determines in its sole and absolute discretion that it is not practicable to take into account such correction, including, but not limited to, in relation to any calculations or determinations connected with the settlement of any Securities.

In the event that the Calculation Agent identifies any correction referred to in paragraph (i) or (ii) above (and in the case of a correction in respect of an FX Rate published or announced as set out in paragraph (ii) above, within five (5) calendar days of such correction), if applicable, the Calculation Agent shall notify the relevant Issuer of any such correction, the revised FX Rate and, if any amount (the **Actual Amount**) has been paid to Securityholders on the basis of the original FX Rate, the amount that should have been paid or delivered to the Securityholders on the basis of the corrected FX Rate (the **Adjusted Amount**). Upon being notified of the Adjusted Amount, the relevant Issuer may (but shall not be obliged to) take such action as it considers necessary or appropriate to either pay additional amounts (if the Adjusted Amount is greater than the Actual Amount) or recover amounts (if the Adjusted Amount is less than the Actual Amount) from the person to whom the Actual Amounts were paid (including, for the purposes of recoveries by the relevant Issuer, by deducting from each Interest Amount payable on the next following Interest Payment Date (if any) an amount equal to each Security's *pro rata* share of an amount equal to the Actual Amount minus the Adjusted Amount, provided that each Interest Amount shall be subject to a minimum of zero). Notwithstanding the foregoing, under no circumstances shall the Relevant Issuer be obliged to recover any moneys from any relevant Clearing System. The Calculation Agent shall not be obliged to make any determination under this FX Linked Asset Condition 7 and shall have no liability to any person for any determination made or not made under this FX Linked Asset Condition 7.

## 8 SUCCESSOR CURRENCY

Where the applicable Final Terms specify that "Successor Currency" is applicable in respect of an FX Rate, then:

- (i) the Reference Currency and Base Currency in respect of such FX Rate will be deemed to include any lawful successor currency to such Reference Currency or Base Currency, as the case may be (the **Successor Currency**);
- (ii) if the Calculation Agent determines that, on or after the Issue Date but on or before any relevant date on which an amount may be payable under the Securities, a country has lawfully eliminated,

converted, redenominated or exchanged its currency in effect on the Issue Date which is the Reference Currency or Base Currency of an FX Rate, as the case may be (the **Original Currency**) for a Successor Currency, then, for the purposes of calculating any amounts of the Original Currency or effecting settlement thereof, any Original Currency amounts will be converted to the Successor Currency by multiplying the amount of Original Currency by a ratio of Successor Currency to Original Currency, which ratio will be calculated on the basis of the exchange rate set forth by the relevant country of the Original Currency for converting the Original Currency into the Successor Currency on the date on which the elimination, conversion, redenomination or exchange took place, as determined by the Calculation Agent. If there is more than one such date, the date closest to such relevant date will be selected (or such other date as may be selected by the Calculation Agent in its sole and absolute discretion);

- (iii) notwithstanding paragraph (ii) above but subject to paragraph (iv) below, the Calculation Agent may (to the extent permitted by the applicable law), in its sole and absolute discretion, select such other exchange rate or other basis for the conversion of an amount of the Original Currency to the Successor Currency and will make such adjustment(s) that it determines to be appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms in respect of the Securities to account for such elimination, conversion, redenomination or exchange of the Reference Currency or Base Currency, as the case may be; and
- (iv) notwithstanding the foregoing provisions, with respect to any Reference Currency or Base Currency that is substituted or replaced by the Euro, the consequences of such substitution or replacement will be determined in accordance with applicable law.

## Chapter 4: Asset Conditions: Inflation Linked Asset Conditions

*This chapter sets out additional terms and conditions for Securities that are Inflation Linked Securities.*

*The following terms and conditions (the **Inflation Linked Asset Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Inflation Linked Interest Securities or Inflation Linked Redemption Securities is applicable. These Inflation Linked Asset Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Inflation Linked Asset Conditions or elsewhere in the Terms and Conditions will have the meanings given to them in the applicable Final Terms.*

*References in these Inflation Linked Asset Conditions to an Inflation Linked Asset Condition are to a section or clause of these Inflation Linked Asset Conditions.*

### 1 GENERAL DEFINITIONS RELATING TO INFLATION LINKED SECURITIES

**Basket** means a basket containing the Inflation Indices (if any) specified in the applicable Final Terms.

**Fair Market Value Redemption Amount** has the meaning set out in the Definitions Condition.

**Fallback Bond** means, in respect of an Inflation Index, a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation such Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to such Inflation Index, with a redemption date which falls on (a) the same day as the Redemption Date, (b) the next longest maturity after the Redemption Date if there is no such bond maturing on the Redemption Date, or (c) the next shortest maturity before the Redemption Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If such Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

**Inflation Indices or Inflation Index** means, subject to adjustment in accordance with these Inflation Linked Asset Conditions, the inflation indices or inflation index specified in the applicable Final Terms and related expressions shall be construed accordingly.

**Inflation Index Level** means, in respect of an Inflation Index, the level determined for the relevant Reference Month.

**Inflation Index Sponsor** means the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index, which as of the Issue Date of the Securities is the inflation index sponsor, specified for such Inflation Index in the applicable Final Terms.

**Payment Date** means any date on which a payment is due and payable pursuant to the terms of the Securities.

**Reference Month** means each month specified as such in the applicable Final Terms or, if none, the calendar month for which the level of the Inflation Index was reported, regardless of when this information is published or announced. If the period for which the Inflation Index level was reported is a period other than a month, the Reference Month is the period for which the Inflation Index level was reported. References

elsewhere in the Conditions to an "**Observation Date**" shall, for the purposes of these Inflation Linked Asset Conditions, be construed as references to the "Reference Month" in which such "Observation Date" falls.

**Related Bond** means, in respect of an Inflation Index, the bond specified as such in the applicable Final Terms or, if Related Bond is specified in the applicable Final Terms to be not applicable, the Fallback Bond shall be deemed to be the Related Bond. If a bond is specified to be the Related Bond in the applicable Final Terms and such bond redeems or matures during the term of the Securities, the Fallback Bond shall be deemed to be the Related Bond.

## 2 EVENTS RELATING TO INFLATION LINKED SECURITIES

### 2.1 Delay of Publication

If the level of the Inflation Index for a Reference Month which is relevant to the calculation of a payment under the Securities (a **Relevant Level**) is not published or announced by the day that is five Business Days prior to the next following Payment Date under the Securities, the Calculation Agent will in its discretion determine a **Substitute Inflation Index Level** (in place of such Relevant Level) by using one of the following methodologies:

- (a) if applicable, the Calculation Agent shall take the same action to determine the Substitute Inflation Index Level for such Payment Date as that taken by the relevant calculation agent pursuant to the terms and conditions of the Related Bond; and
- (b) if (a) above does not result in a Substitute Inflation Index Level for such Payment Date for any reason, then the Calculation Agent shall determine the Substitute Inflation Index Level as follows:

$$\text{Substitute Inflation Index Level} = \text{Base Level} \times (\text{Latest Level} / \text{Reference Level})$$

where:

**Base Level** means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Inflation Index Level is being determined;

**Latest Level** means the latest level of the Inflation Index (excluding any "flash" estimates) published or announced by the Inflation Index Sponsor prior to the month in respect of which the Substitute Inflation Index Level is being calculated; and

**Reference Level** means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Inflation Index Sponsor prior to the month that is 12 calendar months prior to the month referred to in "Latest Level" above; or

- (c) the Calculation Agent shall determine, acting in good faith, what it believes is a commercially reasonable level for the Substitute Inflation Index level for such Payment Date, by reference to any pricing sources or valuation methodologies as it considers appropriate.

If a Relevant Level is published or announced at any time after the day that is five Business Days prior to the next following Payment Date under the Securities, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level so determined pursuant to this Inflation Linked Asset Condition 2.1 will be the definitive level for that Reference Month.

## 2.2 Cessation of Publication

If a level for the Inflation Index has not been published or announced for two consecutive months or the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index, then the Calculation Agent will determine a **Successor Inflation Index** (in lieu of any previously applicable index) for the purposes of the Securities by using the following methodology:

- (a) if at any time, a successor index has been designated by the relevant calculation agent pursuant to the terms and conditions of the Related Bond, such successor index shall be designated a Successor Inflation Index for the purposes of all subsequent Payment Dates in relation to the Securities, notwithstanding that any other Successor Inflation Index may previously have been determined under paragraph (b), (c) or (d) below;
- (b) if a Successor Inflation Index has not been determined under paragraph (a) above, and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Inflation Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable index, such replacement index shall be the Inflation Index for purposes of the Securities from the date that such replacement index comes into effect;
- (c) if a Successor Inflation Index has not been determined under paragraph (a) or (b) above (and there has been no designation of a date for the early redemption of the Securities by the relevant Issuer pursuant to paragraph (e) below), the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If at least four responses are received, and of those responses, three or more leading independent dealers state the same index, such index will be deemed the "Successor Inflation Index". If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the "Successor Inflation Index". If fewer than three responses are received, the Calculation Agent will proceed to paragraph (d) hereof;
- (d) if no Successor Inflation Index has been determined under paragraphs (a), (b) and (c) above by the fifth Business Day prior to the next following Payment Date under the Securities, the relevant Issuer will determine an appropriate alternative index for such date, acting in good faith, and such index will be deemed the "Successor Inflation Index"; or
- (e) if the Calculation Agent determines that there is no appropriate alternative index, the relevant Issuer may, by giving notice to Securityholders in accordance with General Condition 14 (*Notices*) redeem the Securities in whole but not in part, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

## 2.3 Rebasing of the Inflation Index

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index so rebased (the **Rebased Inflation Index**) will be used for purposes of determining the level of the Inflation Index from the date of such rebasing, provided however that the Calculation Agent shall make such adjustments as are made by the relevant calculation agent pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Inflation Index so that the

Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Related Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Securities.

#### 2.4 Material Modification

If, on or prior to the day that is five Business Days prior to the next following Payment Date under the Securities, the Inflation Index Sponsor announces that it will make a material change to the Inflation Index, then the Calculation Agent shall make any such adjustments to the Securities necessary for the modified Inflation Index to continue as the Inflation Index.

#### 2.5 Manifest Error in Publication

If, within the earlier of (i) 30 days of publication, and (ii) the day that is five Business Days prior to the next following Payment Date under the Securities, the Calculation Agent determines that the Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent will notify the relevant Issuer and the Securityholders in accordance with General Condition 14 (*Notices*) of (i) that correction; (ii) any amount that may be payable as a result of that correction, and (iii) take such other action as it may deem necessary to give effect to such correction.

#### 2.6 Additional Disruption Event

(a) Definitions

**Additional Disruption Event** means any of Change in Law, Hedging Disruption and/or (provided that the Securities are not Italian Listed Securities) Increased Cost of Hedging, in each case unless disapplied in the applicable Final Terms.

**Change of Law** means, unless Change of Law is specified as not applicable in the applicable Final Terms, that, on or after the Trade Date, (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the relevant Issuer determines in its sole and absolute discretion that it has become illegal to hold, acquire or dispose of relevant hedge positions relating to an Inflation Index.

**Hedging Disruption** means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that:

- (a) In respect of Securities which are not Italian Listed Securities, the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable, after using commercially reasonable efforts, to (1) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the relevant Issuer or the Guarantor, (if applicable), in issuing and performing its obligations with respect to the Securities, or (2) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

- (b) In respect of Securities which are Italian Listed Securities, Hedging Disruption means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable, after using commercially reasonable efforts and as a result of an event which is beyond the control of such Issuer, Guarantor (if applicable) and/or Affiliate(s) (including, without limitation, any force majeure, act of state, change in any applicable law or regulation (including, without limitation, any tax law), promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), to (1) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the relevant Issuer or the Guarantor, (if applicable), issuing and performing its obligations with respect to the Italian Listed Securities, or (2) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

**Increased Cost of Hedging** means, unless Increased Cost of Hedging is specified as not applicable in the applicable Final Terms, that the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, equity price risk, foreign exchange risk and interest rate risk) of the relevant Issuer or the Guarantor, (if applicable), in issuing and performing its obligations with respect to the Securities, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the relevant Issuer, the Guarantor, (if applicable) and/or any of their respective Affiliates shall not be deemed an Increased Cost of Hedging.

- (b) Consequences of the occurrence of an Additional Disruption Event:

If an Additional Disruption Event occurs, the relevant Issuer in its sole and absolute discretion may take the action, if applicable, described in (i) or (ii) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to the Conditions to account for the Additional Disruption Event and determine the effective date of such adjustment; or
- (ii) upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the occurrence of an Additional Disruption Event, the relevant Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

## 2.7 Other Events

This Condition will apply to the Securities unless specified as being not applicable in the applicable Final Terms. Notwithstanding the foregoing provisions of these Inflation Linked Asset Conditions, if any other event occurs which the Calculation Agent determines, acting in good faith, has a material effect on the Securities, then:

- (a) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such event and determine the date(s) on which any such adjustments will be effective; or
- (b) the relevant Issuer may, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the Calculation Agent making a determination pursuant to this Inflation Linked Asset Condition 2.7, the relevant Issuer shall give notice as soon as practicable to Securityholders in accordance with General Condition 14 (*Notices*) giving details of such determination.

## Chapter 5: Asset Conditions: Rate Linked Asset Conditions

*This chapter sets out additional Terms and Conditions for Securities that are Rate Linked Securities.*

*The following terms and conditions (the **Rate Linked Asset Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Rate Linked Interest Securities or Rate Linked Redemption Securities is applicable. These Rate Linked Asset Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Rate Linked Asset Conditions or elsewhere in the Terms and Conditions will have the meanings given to them in the applicable Final Terms.*

*References in these Rate Linked Asset Conditions to a Rate Linked Asset Condition are to a section or clause of these Rate Linked Asset Conditions.*

### 1 EVENTS RELATING TO RATE LINKED SECURITIES

Each Benchmark Rate Level shall be determined in the manner specified in the applicable Final Terms and the provisions below in Rate Linked Asset Condition 1.1 (ISDA Determination) or Rate Linked Asset Condition 1.2 (Screen Rate Determination) shall apply, depending upon which is specified to apply the applicable Final Terms.

#### 1.1 ISDA Determination

Where "ISDA Determination" is specified in the applicable Final Terms as the manner in which the Benchmark Rate Level is to be determined in respect of a Benchmark Rate on any Observation Date, such Benchmark Rate shall be a rate determined by the Calculation Agent as a rate equal to the ISDA Rate. For the purposes of this Rate Linked Asset Condition 1.1, ISDA Rate means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the Floating Rate Option is as specified in the applicable Final Terms;
- (b) the Designated Maturity is a period specified in the applicable Final Terms; and
- (c) the relevant Reset Date is as specified in the applicable Final Terms, which may if the applicable Floating Rate Option is based on the London inter-bank offered rate (**LIBOR**) or on the Euro-zone inter-bank offered rate (**EURIBOR**), be the first day of that Interest Accrual Period.

For the purposes of this Rate Linked Asset Condition 1.1, **Floating Rate**, **Calculation Agent**, **Floating Rate Option**, **Designated Maturity** and **Reset Date** have the meanings given to those terms in the ISDA Definitions.

#### 1.2 Screen Rate Determination

Where "Screen Rate Determination" is specified in the applicable Final Terms as the manner in which the Benchmark Rate Level is to be determined in respect of a Benchmark Rate on any date of determination, such Benchmark Rate shall, subject as provided below, be either:

- (a) the offered quotation; or

(b) the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the offered quotations,

(expressed as a percentage rate *per annum*) for the Benchmark Rate which appears or appear, as the case may be, on the Relevant Screen Page as at the Relevant Screen Page Time on the relevant date in question as determined by the Calculation Agent. If five (5) or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided in General Condition 4.6 (*Rounding*)) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of Rate Linked Asset Condition 1.2(a) (*Screen Rate Determination*), no offered quotation appears or, in the case of Rate Linked Asset Conditions 1.2(b) (*Screen Rate Determination*), fewer than three (3) offered quotations appear, in each case at the Relevant Screen Page Time, the Calculation Agent shall request each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Benchmark Rate at the Relevant Screen Page Time on the relevant date in question. If two or more of the Reference Banks provide the Calculation Agent with offered quotations, the Benchmark Rate Level for the relevant date shall be the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the offered quotations, as determined by the Calculation Agent.

If on any Observation Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Benchmark Rate Level for the relevant date shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two (2) or more of them, at which such banks were offered, at the Relevant Screen Page Time on the relevant date of determination, deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark Rate by leading banks in the Relevant Inter-Bank Market or, if fewer than two (2) of the Reference Banks provide the Calculation Agent with offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark Rate, or the arithmetic mean (rounded in accordance with General Condition 4.6 (*Rounding*)) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark Rate, at which, at the Relevant Screen Page Time on the relevant date, any one or more banks (which bank or banks is or are in the opinion of the relevant Issuer suitable for the purpose) informs the Calculation Agent it is quoting to leading banks in the Relevant Inter-Bank Market, provided that, if the Benchmark Rate Level cannot be determined on the relevant Observation Date in accordance with the foregoing provisions of this Rate Linked Asset Condition 1, the Benchmark Rate Level shall be determined on the relevant Observation Date as at the last preceding date of determination.

In respect of any Interest Accrual Period to which "Linear Interpolation" is specified as being applicable in the applicable Final Terms, the Benchmark Rate for that Interest Accrual Period shall be determined by the Calculation Agent, in its sole discretion, through the use of straight-line interpolation by reference to two rates based on the relevant Benchmark Rate, one of which shall be determined as if the Designated Maturity of that rate were the period of time for which rates are available next shorter than the length of the Interest Accrual Period and the other of which shall be

determined as if the Designated Maturity of that rate were the period of time for which rates are available next longer than the length of the Interest Accrual Period.

## 2 ADDITIONAL DISRUPTION EVENT

### 2.1 Definitions

**Additional Disruption Event** means any of Change in Law, Hedging Disruption and/or (provided that the Securities are not Italian Listed Securities) Increased Cost of Hedging, in each case unless disapplied in the applicable Final Terms.

**Change of Law** means, unless Change of Law is specified as not applicable in the applicable Final Terms, that, on or after the Trade Date, (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the relevant Issuer determines in its sole and absolute discretion that it has become illegal to hold, acquire or dispose of relevant hedge positions relating to a Benchmark Rate.

**Hedging Disruption** means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that:

- (a) In respect of Securities which are not Italian Listed Securities, the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable, after using commercially reasonable efforts, to (1) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the relevant Issuer or the Guarantor, (if applicable), in issuing and performing its obligations with respect to the Securities, or (2) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).
- (b) In respect of Securities which are Italian Listed Securities, Hedging Disruption means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable, after using commercially reasonable efforts and as a result of an event which is beyond the control of such Issuer, Guarantor (if applicable) and/or Affiliate(s) (including, without limitation, any force majeure, act of state, change in any applicable law or regulation (including, without limitation, any tax law), promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), to (1) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the relevant Issuer or the Guarantor, (if applicable), issuing and performing its obligations with respect to the Italian Listed Securities, or (2) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

**Increased Cost of Hedging** means, unless Increased Cost of Hedging is specified as not applicable in the applicable Final Terms, that the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire,

establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, equity price risk, foreign exchange risk and interest rate risk) of the relevant Issuer or the Guarantor, (if applicable), in issuing and performing its obligations with respect to the Securities, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the relevant Issuer, the Guarantor, (if applicable) and/or any of their respective Affiliates shall not be deemed an Increased Cost of Hedging.

## **2.2 Consequences of the occurrence of an Additional Disruption Event**

If an Additional Disruption Event occurs, the relevant Issuer in its sole and absolute discretion may take the action, if applicable, described in (i) or (ii) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to the Conditions to account for the Additional Disruption Event and determine the effective date of such adjustment; or
- (ii) upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the occurrence of an Additional Disruption Event, the relevant Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

## **3 OTHER EVENTS**

This Condition will apply to the Securities unless specified as being not applicable in the applicable Final Terms. Notwithstanding the foregoing provisions of these Rate Linked Asset Conditions, if any other event occurs which the Calculation Agent determines, acting in good faith, has a material effect on the Securities, then:

- (a) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such event and determine the date(s) on which any such adjustments will be effective; or
- (b) the relevant Issuer may, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the Calculation Agent making a determination pursuant to this Rate Linked Asset Condition 3, the relevant Issuer shall give notice as soon as practicable to Securityholders in accordance with General Condition 14 (*Notices*) giving details of such determination.

(b) Consequences of the occurrence of Disrupted Days

If an Observation Date is a Disrupted Day, then:

- (i) in the case of Share Linked Securities relating to a single Share, the Calculation Agent may:
  - (A) postpone the Observation Date, in which case the Observation Date will be the first immediately succeeding Scheduled Trading Day that is not a Disrupted Day (the **Share Determination Date**), unless each consecutive Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (1) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (2) the Calculation Agent shall determine its good faith estimate of the value for the relevant Share as of the Valuation Time and the Disruption Longstop Date; or

with each such value so determined being used as the relevant Share Price;

- (ii) in the case of Share Linked Securities relating to a Basket of Shares:
  - (A) for each Share not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and
  - (B) for each Share affected (each an **Affected Share**) by the occurrence of a Disrupted Day, the Calculation Agent may:

with each such value so determined being used as the value for the relevant Affected Share;

- (iii) if the Calculation Agent is not able to or does not determine the Share Price in accordance with Share Linked Asset Condition 3.1(b)(i) or Share Linked Asset Condition 3.1(b)(ii) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for such Market Disruption Event:
  - (A) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Disrupted Day and determine the date(s) on which any such adjustments will be effective. In making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to an equity derivative transaction in the market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or
  - (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (iii)(A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. - (vii) any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the relevant Shares.

(b) Consequences of the occurrence of a Potential Adjustment Event

Following the declaration by the Basket Company or Share Company, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Shares and, if so:

- (i) the Calculation Agent may (1) make the corresponding adjustment, if any, to any relevant term(s) of the Securities, as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) and (2) determine the effective date of that adjustment; the Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange;
- (ii) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraphs (i) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount; payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

The Calculation Agent will make any conversion necessary for the purposes of any such adjustment as of the Valuation Time at an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the Valuation Time. No adjustments under this paragraph will affect the currency denomination of any payment obligation arising out of the Share Linked Security.

If an Extraordinary Event occurs in relation to a Share on or after the Trade Date, the Issuer in its sole and absolute discretion may take, if applicable, any of the actions described in (i), (ii), (iii) or (iv) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the Conditions of the Securities to account for the Merger Event, Tender Offer, De-Listing or Nationalisation, as the case may be, and determine the effective date of that adjustment; the relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Securities; the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the Merger Event, Tender Offer, De-Listing or Nationalisation made by any options exchange to options on the Shares traded on that options exchange; or
- (ii) by giving notice to Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount of a Security taking into account the relevant Extraordinary Event(s); or

- (iv) in the case of Share Linked Securities relating to a Basket of Shares, on or after the relevant Merger Date, Tender Offer Date, or the date of the Nationalisation, Insolvency or De-Listing (as the case may be), require the Calculation Agent to adjust the Basket of Shares by including shares selected by it in accordance with the criteria for share selection set out below (the **Substitute Shares**) in place of the Affected Share(s) and the Substitute Shares will be deemed to be Shares and the relevant issuer of such shares, a Share Company or a Basket Company for the purposes of the Securities, and the Calculation Agent will make such adjustment, if any, to the Conditions of the Securities as the Calculation Agent in its sole and absolute discretion determines appropriate; such substitution and the relevant adjustment to the Basket of Shares will be deemed to be effective as of the date selected by the Calculation Agent (the **Substitution Date**) in its sole and absolute discretion and specified in the notice referred to below which may, but need not, be the Merger Date or Tender Offer Date or the date of the Nationalisation, Insolvency or De-Listing, as applicable.

The Weighting of each Substitute Share (if any) will be equal to the Weighting of the relevant Affected Share.

In order to be selected as a Substitute Share, the relevant share must be a share which, in the sole and absolute discretion of the Calculation Agent:

- (b) upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed

by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

portion thereof determined in accordance with Share Linked Asset Condition 4.7 (*Basket Share Linked Securities*), respectively, by Delivering the Physical Settlement Amount in lieu of paying the Final Redemption Amount or Instalment Redemption Amount, as the case may be. #### **4.2 Partial Cash Settlement Due to Impossibility, Impracticality or Illegality**

If, due to an event beyond the control of the relevant Issuer, it is in the opinion of the Calculation Agent, impossible (including, without limitation, as a result of a Settlement Disruption Event), impractical (including, without limitation, due to the relevant Issuer receiving insufficient or incorrect account or transfer information or there is illiquidity in the market for the Shares) or illegal for the relevant Issuer to Deliver or, due to an event beyond the control of the relevant Issuer or any Securityholder, it is in the opinion of the Calculation Agent impossible, impractical or illegal for the relevant Issuer or the relevant Securityholder to accept Delivery of all the Shares on the related Physical Settlement Date, then on such date the relevant Issuer shall Deliver any of the Shares for which it is possible, practicable and legal to take Delivery and will continue to attempt to Deliver any Shares not so Delivered until the Latest Permissible Physical Settlement Date. If any Undeliverable Shares have not been Delivered on or prior to the Latest Permissible Physical Settlement Date, then partial cash settlement shall apply with respect to the Share(s) and, accordingly, the relevant Issuer shall pay the relevant Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned amongst the relevant Securityholders on the Partial Cash Settlement Date.

If, as at the relevant Latest Permissible Physical Settlement Date, the relevant Share has not been Delivered, then partial cash settlement shall apply with respect to such Share and the relevant Issuer shall pay to the Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Securityholders on the Partial Cash Settlement Date.

- (a) the Credit Linked Securities have been previously redeemed or purchased and cancelled in full (including pursuant to Credit Linked Condition 2.7 (*Early redemption for Leveraged CLSs*), 2.8 (*Redemption following a Merger Event*) or 2.10 (*Redemption following an Additional Disruption Event*)); or

- (b) the Conditions to Settlement have been satisfied, in which event the relevant Issuer shall redeem the Credit Linked Securities in accordance with Credit Linked Condition 2.2 (*Redemption following satisfaction of Conditions to Settlement*).

## 2.2 Redemption following satisfaction of Conditions to Settlement

Subject to Credit Linked Conditions 2.3 (*Nth-to-Default CLSs*), 2.4 (*Linear Basket CLSs*), 2.5 (*Principal Protected CLSs*) and 2.9 (*Suspension of Obligations*), upon satisfaction of the Conditions to Settlement in relation to any Reference Entity, each Credit Linked Security will be subject to redemption:

- (a) if the applicable Settlement Method is "Auction Settlement", by payment of, subject to a minimum of zero, (i) the aggregate outstanding nominal amount of the Credit Linked Security (in the case of Credit Linked Securities represented by a Global Security) or the product of the Calculation Amount and the Calculation Amount Factor (in the case of Credit Linked Securities in definitive form), as the case may be, minus (ii) such Credit Linked Security's *pro rata* share of the Auction Settlement Amount minus (iii) such Credit Linked Security's *pro rata* share of the Hedge Amount (if applicable) on the Auction Settlement Date, unless a Fallback Settlement Event occurs, in which event the relevant Issuer shall perform its respective payment and/or delivery obligations in accordance with the applicable Fallback Settlement Method. ## 2.3 Nth-to-Default CLSs

Where the Securities are Nth-to-Default CLSs, the Conditions to Settlement shall not be satisfied with respect to the Securities until the Conditions to Settlement are satisfied with respect to the Nth Reference Entity. Where the Securities are Nth-to-Default CLSs and the Conditions to Settlement are satisfied with respect to more than one Reference Entity on the same day, the Calculation Agent shall determine in its sole discretion the order in which such Conditions to Settlement were satisfied.

## 2.4 Linear Basket CLSs

- (a) If the Credit Linked Securities are Linear Basket CLSs, then the provisions of these Credit Linked Conditions relating to redemption of Credit Linked Securities following satisfaction of Conditions to Settlement, extension of maturity of Credit Linked Securities on delivery of an Extension Notice, cessation or suspension of accrual of interest or accrual and payment of interest following the Scheduled Redemption Date shall apply to each Credit Linked Security with respect to each Reference Entity separately and to such Credit Linked Security's *pro rata*

- (b) Notwithstanding Credit Linked Condition 2.4(a), where the Credit Linked Securities are Linear Basket CLSs that are also Leveraged CLSs, upon the occurrence of the satisfaction of the Conditions to Settlement with respect to any Reference Entity, the nominal amount of each Credit Linked Security will be reduced by the Floating Rate Payer Calculation Amount or the Exercise Amount, as applicable, of such Reference Entity (the **Affected Amount**) with effect from the Interest Payment Date falling immediately before the Event Determination Date. An amount equal to (a) the Auction Final Price or Final Price, as relevant, multiplied by (b) the Floating Rate Payer Calculation Amount (such amount the **Recovery**) will be reserved and the Hedge Amount will be determined in respect of the Affected Amount. The aggregate of all Recoveries minus all Hedge Amounts, which aggregate may be a negative amount, will be added to the aggregate outstanding nominal amount for the purposes of determining the Final Redemption Amount.
- (c) If there is only a partial redemption of a Credit Linked Security in accordance with Credit Linked Condition 2.4(a) or (b) above, the provisions of these Credit Linked Conditions will continue to apply in respect of any remaining Reference Entities and the remaining provisions of these Credit Linked Conditions shall be construed accordingly.

- (a) If "Fully Principal Protected CLS" is specified in the applicable Final Terms, then upon the satisfaction of the Conditions to Settlement in respect of a Reference Entity referenced by the Credit Linked Securities, Credit Linked Condition 2.2 (Redemption following satisfaction of Conditions to Settlement) will not apply and instead Credit Linked Condition 2.1(a) (Redemption absent satisfaction of Conditions to Settlement) will apply as though no Conditions to Settlement had been satisfied in respect of any Reference Entity referenced by the Credit Linked Securities.
- (b) If "Partially Principal Protected CLS" is specified in the applicable Final Terms, then upon the satisfaction of the Conditions to Settlement in respect of a Reference Entity referenced by the Credit Linked Securities, each Credit Linked Security will be redeemed in full in accordance with Credit Linked Condition 2.2 (Redemption following satisfaction of Conditions to Settlement). In the case of Partially Principal Protected CLSs, the Floating Rate Payer Calculation Amount will be different from the Aggregate Nominal Amount.

## 2.6 Fixed Recovery CLSs

Where "Cash Settlement" is the applicable Settlement Method, the Credit Linked Securities may be specified to be "Fixed Recovery CLS". The Cash Settlement Amount of a Fixed Recovery CLS shall be determined using the Final Price, as further set out in the definitions of Cash Settlement Amount and Final Price of these Credit Linked Conditions.

## 2.7 Early redemption for Leveraged CLSs

If "Leveraged CLS" is specified in the applicable Final Terms as being applicable in respect of the Securities, such Credit Linked Securities may be redeemed at the option of the Issuer in whole, but not in part, at any time, on giving not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms to the Principal Paying Agent or the Registrar, as the case may be, and, in accordance with General Condition 14 (*Notices*), the Securityholders (which notice shall be irrevocable), if on any day:

- (a) "Fair Market Value Trigger" is specified as being applicable in the relevant Final Terms, the Fair Market Value Redemption Amount expressed as a percentage of the aggregate nominal amount of a Credit Linked Security of the relevant Series would be, assuming that such Series of Credit Linked Securities would be redeemed in full on such day at the applicable Fair Market Value Redemption Amount, less than or equal to the "Fair Market Value Trigger" specified in the applicable Final Terms;
- (b) "Reference Entity Spread Trigger" is specified as being applicable in the relevant Final Terms, the Reference Entity Spread (in the case of a Single Reference Entity CLS) or the weighted average Reference Entity Spread in respect of all the relevant Reference Entities (in the case of an Nth-to-Default CLS or a Linear Basket CLS) exceeds the Reference Entity Spread Trigger specified in the applicable Final Terms; and/or
- (c) "Reference Entity Trigger" is specified as being applicable in the relevant Final Terms, the number of Reference Entities in respect of which a Credit Event has occurred exceeds the Reference Entity Trigger specified in the applicable Final Terms,

in each case as determined by the Calculation Agent in its sole and absolute discretion. The relevant event need not be continuing at the time any notice is delivered under this Credit Linked Condition 2.7.

Credit Linked Securities redeemed pursuant to this Credit Linked Condition 2.7 will be redeemed at their Fair Market Value Redemption Amount.

## **2.8 Redemption following a Merger Event**

If this Credit Linked Condition 2.8 is specified as applicable in the applicable Final Terms, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the relevant Issuer may give notice to the Securityholders in accordance with General Condition 14 (*Notices*) and redeem all but not some only of the Credit Linked Securities at the Fair Market Value Redemption Amount (determined in accordance with General Condition 6.8 (*Fair Market Value Redemption Amounts*)) on the Merger Event Redemption Date.

- (a) the matters described in the definition of "DC Credit Event Question" in Credit Linked Condition 10 (*Definitions*); or
- (b) not to determine such matters.

During such suspension period, the relevant Issuer shall not be obliged to, nor entitled to, take any action in connection with the settlement of the Credit Linked Securities, in each case insofar as they relate to the relevant Reference Entity. Once ISDA has publicly announced that the relevant Credit

Derivatives Determinations Committee has Resolved the matters set out in paragraphs (a) and (b) above, such suspension shall terminate and any obligations so suspended shall resume on the basis of such resolution on the CLS Business Day following such public announcement by ISDA, with the relevant Issuer having the benefit of the full day notwithstanding when the suspension began. Any amount of interest so suspended shall, subject always to Credit Linked Condition 3.1 (*Cessation of Interest Accrual*), become due on the date determined by the Calculation Agent, in its sole discretion but not later than fifteen Business Days following such public announcement by ISDA. If the Securities are so redeemed, the relevant Issuer will pay an amount to each Securityholder in respect of each Security as shall be determined to be the Fair Market Value Redemption Amount (determined in accordance with General Condition 6.8 (*Fair Market Value Redemption Amounts*)). Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

In determining the fair market value of the Credit Linked Securities, the Calculation Agent shall take into consideration all information, which it deems relevant (including, without limitation, market conditions).

This Credit Linked Condition 2.10 shall not apply if the Final Terms specify that none of the "Additional Disruption Events" shall apply.

#### **2.11 Miscellaneous provisions relating to Redemption**

If the Credit Linked Securities are partially redeemed (or the aggregate nominal amount of the Credit Linked Securities is otherwise reduced in accordance with the provisions of these Credit Linked Conditions) and the relevant Credit Linked Securities or, if the Credit Linked Securities are represented by a Global Security, such Global Security, shall be endorsed to reflect such partial redemption (or, as applicable, such reduction of the aggregate nominal amount). Accordingly, upon such partial redemption (or, as applicable, such reduction of the aggregate nominal amount), the outstanding nominal amount of each Security shall be reduced for all purposes (including accrual of interest thereon) accordingly but where the relevant redemption occurs pursuant to Credit Linked Condition 2.2 (*Redemption following satisfaction of Conditions to Settlement*), the amount of interest due shall be determined in accordance with Credit Linked Condition 3 (*Interest*) and, where applicable, subject to Credit Linked Condition 3.4 (*Guaranteed Interest*).

Redemption of any Credit Linked Security in accordance with Credit Linked Condition 2 (*Redemption*), together with payment of interest, if any, due thereon shall discharge all or the relevant portion of the obligations of the relevant Issuer in relation thereto.

Any amount payable under Credit Linked Condition 2 (*Redemption*) shall be rounded downwards to the nearest sub-unit of the relevant currency.

### 3 INTEREST

#### 3.1 Cessation of Interest Accrual

- (a) Upon the satisfaction of the Conditions to Settlement in respect of any Credit Linked Securities, interest on such Credit Linked Securities (or, in the case of Linear Basket CLSs, the relevant portion thereof determined in accordance with Credit Linked Condition 2.4 (*Linear Basket CLSs*)) shall cease to accrue with effect from and including either:
- (i) the Interest Period Date immediately preceding the related Event Determination Date (or, in the case of the first Interest Accrual Period, the Interest Commencement Date) (**CIA Type 1**);
  - (ii) the related Event Determination Date (in which case such Event Determination Date shall be deemed to be an Observation Date for the purposes of determining the interest accrued to (but excluding) such Event Determination Date)) (**CIA Type 2**); or
  - (iii) the Scheduled Redemption Date (**CIA Type 3**),
- as specified in the applicable Final Terms.
- (b) Upon the Calculation Agent determining that a Merger Event or Additional Disruption Event has occurred in respect of any Credit Linked Securities, interest on such Credit Linked Securities shall cease to accrue with effect from and including, the Interest Payment Date immediately preceding such determination.

#### 3.2 Interest following Scheduled Redemption

Notwithstanding Credit Linked Condition 3.1 (*Cessation of Interest Accrual*), each Credit Linked Security shall only accrue interest up to (but excluding) the Scheduled Redemption Date.

#### 3.3 Interest Payment Dates

If the Credit Linked Securities are redeemed pursuant to the General Conditions or these Credit Linked Conditions, the Scheduled Redemption Date, the Redemption Date (if not the Scheduled Redemption Date), the Auction Settlement Date, the Cash Settlement Date or the last Delivery Date, as the case may be, shall be an Interest Payment Date in respect of each Credit Linked Security (or, in the case of Linear Basket CLSs, the relevant portion thereof determined in accordance with Credit Linked Condition 2.4 (*Linear Basket CLSs*)) and the relevant Issuer shall pay any interest that has accrued in respect of each Credit Linked Security (or, as applicable, the relevant portion thereof determined in accordance with Credit Linked Condition 2.4 (*Linear Basket CLSs*)) on such Interest Payment Date, subject to Credit Linked Condition 3.1 (*Cessation of Interest Accrual*) above.

#### 3.4 Guaranteed interest

Where CIA Type 3 is specified as being applicable in the Final Terms, the last Interest Accrual Period will end on, but exclude, the Scheduled Redemption Date, notwithstanding the occurrence of a Credit Event, any subsequent satisfaction of the Conditions to Settlement and any redemption of the Securities in accordance with Credit Linked Condition 2.2 (*Redemption following satisfaction of Conditions to Settlement*) or Credit Linked Condition 4 (*Physical Settlement*). Notwithstanding General Condition 4 (*Interest*), interest will be calculated by reference to the Calculation Amount (whether or not the Securities are then represented by a Global Security) applicable to each Security for each relevant Interest Accrual Period regardless of the nominal amount then outstanding of such Security.

## 4 PHYSICAL SETTLEMENT

### 4.1 Delivery and payment

If Physical Settlement applies to any Credit Linked Security, then, upon the satisfaction of the related Conditions to Settlement, the relevant Issuer, or any third party appointed at its discretion, shall, on or prior to the related Physical Settlement Date and subject to Credit Linked Condition 4.2 (*Partial Cash Settlement Due to Impossibility, Impracticality or Illegality*), Credit Linked Condition 4.3 (*Non-Delivery of Deliverable Obligations*) and Credit Linked Condition 4.6 (*Asset Transfer Notice*), redeem such Credit Linked Security or, in the case of Linear Basket CLSs, the relevant portion thereof determined in accordance with Credit Linked Condition 2.4 (*Linear Basket CLSs*), respectively, by:

- (a) delivering a *pro rata* share of the Deliverable Obligations specified in the related Notice of Physical Settlement (the **Physical Settlement Amount**);
- (b) paying such Security's *pro rata* portion of the related Physical Settlement Adjustment Rounding Amount; and
- (c) if the Hedge Amount is expressed as a negative number, paying such Security's *pro rata* portion of an amount equal to the absolute value of such *pro rata* portion.

### 4.2 Partial Cash Settlement Due to Impossibility, Impracticality or Illegality

If, due to an event beyond the control of the relevant Issuer, it is in the opinion of the Calculation Agent, impossible, impractical (including, without limitation, due to the relevant Issuer receiving insufficient or incorrect account or transfer information) or illegal for the relevant Issuer to Deliver or, due to an event beyond the control of the relevant Issuer or any Securityholder, it is in the opinion of the Calculation Agent impossible, impractical or illegal for the relevant Issuer or the relevant Securityholder to accept Delivery of any of the Deliverable Obligations specified in a Notice of Physical Settlement on the related Physical Settlement Date, then on such date the relevant Issuer shall Deliver any of the Deliverable Obligations specified in the Notice of Physical Settlement for which it is possible, practicable and legal to take Delivery. If any Undeliverable Obligations have not been delivered on or prior to the Latest Permissible Physical Settlement Date, then Partial Cash Settlement shall apply with respect to such Undeliverable Obligations and, accordingly, the relevant Issuer shall pay the relevant Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the relevant Securityholders on the Partial Cash Settlement Date.

### 4.3 Non-Delivery of Deliverable Obligations

If the relevant Issuer does not Deliver any Deliverable Obligation specified in a Notice of Physical Settlement other than as a result of an event or circumstance contemplated in Credit Linked Condition 4.2 (*Partial Cash Settlement Due to Impossibility, Impracticality or Illegality*) (including following the occurrence of a Hedge Disruption Event), such failure shall not constitute an event of default for the purpose of the Securities and the relevant Issuer may continue to attempt to Deliver the Deliverable Obligations that are Bonds or Loans until the Extended Physical Settlement Date.

If, as at the relevant Extended Physical Settlement Date, any such Deliverable Obligations have not been Delivered, then Partial Cash Settlement shall apply with respect to such Deliverable Obligations and the relevant Issuer shall pay to the Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Securityholders on the Partial Cash Settlement Date.

### 4.4 Aggregation and Rounding

Where a Securityholder holds Credit Linked Securities in an aggregate nominal amount greater than the Specified Denomination, the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of the Credit Linked Securities shall be aggregated for the purposes of this Credit

Linked Condition 4. If the Outstanding Amount of the Deliverable Obligations to be Delivered in respect of each Credit Linked Security to be redeemed pursuant to this Credit Linked Condition 4.4 on any occasion is not equal to an authorised denomination (or integral multiple thereof) of such Deliverable Obligations then the Outstanding Amount of Deliverable Obligations to be Delivered will be rounded down to the nearest authorised denomination or multiple thereof, or, if none, to zero. In such circumstances, the Deliverable Obligations that were not capable of being Delivered shall, if and to the extent practicable, be sold by the relevant Issuer or such other agent as may be appointed by the relevant Issuer for such purpose and, if they are so sold, the relevant Issuer shall make payment in respect of each Credit Linked Security in an amount equal to its *pro rata* share of the related net sale proceeds as soon as reasonably practicable following receipt thereof which date shall not in any event fall earlier than the Partial Cash Settlement Date.

#### **4.5 Delivery and Fees**

The Delivery of any of the Deliverable Obligations pursuant to the provisions of this Credit Linked Condition 4 shall be made in such commercially reasonable manner as the relevant Issuer shall, in its sole discretion, determine to be appropriate for such Delivery. Subject as set out in the definition of "Deliver":

- (a) any recordation, processing or similar fee reasonably incurred by the relevant Issuer and/or any of its Affiliates and payable to the agent under a Loan in connection with an assignment (where Deliverable Obligations include Assignable Loans or Consent Required Loans) shall be payable by the relevant Securityholders, and if any stamp tax is payable in connection with the Delivery of any Deliverable Obligations, payment thereof shall be made by the relevant Securityholders; and
- (b) any other expenses arising from the Delivery and/or transfer of the Deliverable Obligations shall be for the account of the Securityholders, determined in accordance with then current market conventions.

Delivery and/or transfer of the Deliverable Obligations shall be delayed until all expenses relating to such Delivery or transfer payable by the Securityholders have been paid to the satisfaction of the relevant Issuer.

#### **4.6 Asset Transfer Notice**

A Securityholder will not be entitled to any of the amounts or assets specified as being due to it in this Credit Linked Condition 4 upon the satisfaction of the Conditions to Settlement unless it has complied with Credit Linked Condition 4.7 (*Physical Settlement Procedures*). For so long as the Credit Linked Securities are held in any clearing system, any communication from such clearing system on behalf of the Securityholder containing the information required in an Asset Transfer Notice will be treated as an Asset Transfer Notice. For as long as Bearer Securities are represented by a Global Security, surrender of Credit Linked Securities for such purpose will be effected by presentation of the Global Security and its endorsement to note the nominal amount of Credit Linked Securities to which the relevant Asset Transfer Notice relates.

#### **4.7 Physical Settlement Procedures**

- (a) Procedure by Securityholders

(c) Delay or Failure to Deliver Notice

If the Notice and, in the case of Credit Linked Securities in definitive form, the Definitive Security to which such Notice relates are delivered to the relevant Issuer later than close of business on the Notice Cut-Off Date, then the Physical Settlement Amount will be delivered as soon as practicable after the due date for redemption of the Credit Linked Securities, at the risk of such Securityholder.

For the avoidance of doubt, without prejudice to Credit Linked Condition 4.1(b) and 4.1(c), such Securityholder shall not be entitled to any payment or other assets, whether of interest or otherwise, in the event of the delivery of the Physical Settlement Amount falling after the due date for redemption of the Credit Linked Securities pursuant to the provisions of this Credit Linked Condition 4.7 or otherwise due to circumstances beyond the control of the relevant Issuer.

If the relevant Securityholder fails to validly deliver a Notice, or procure that a Notice is validly delivered on its behalf, in the manner set out in these Conditions or delivers a Notice, or procures that a Notice is delivered, on any day falling after the day that is 180 calendar days after the Notice Cut-Off Date or, in the case of Credit Linked Securities in definitive form, fails to deliver the Definitive Security related thereto, or procure that such Definitive Security is

delivered, or fails to pay the expenses referred to in Credit Linked Condition 4.5 (*Delivery and Fees*), the relevant Issuer shall be discharged from its obligation in respect of such Credit Linked Security and shall have no further obligation or liability whatsoever in respect thereof.

(d) Delivery at risk of Securityholder

Delivery of the Physical Settlement Amount by the relevant Issuer to the Securityholder shall be at the risk of the Securityholder and no additional payment or delivery will be due to a Securityholder where the Physical Settlement Amount is delivered after its due date in circumstances beyond the control of either the relevant Issuer or the Delivery Agent.

## 5 PROVISIONS RELATING TO TIMING AND FRUSTRATION

### 5.1 No frustration

In the absence of other reasons, performance of the Issuer's obligations under the Securities will not be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (a) a Reference Entity does not exist on, or ceases to exist on or following, the Issue Date; and/or
- (b) Obligations, Valuation Obligations, Deliverable Obligations, Specified Deliverable Obligations or Reference Obligations do not exist on, or cease to exist on or following, the Issue Date.

### 5.2 Timing

Subject to the paragraph below and the provisions relating to Notices set out herein, in order to determine the day on which an event occurs, the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Calculation Agent determines that the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

If a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight by reference to Greenwich Mean Time (or, if the Calculation

Agent determines that the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign, Tokyo time), irrespective of the time zone of its place of payment.

## 6 SUCCESSION EVENT

### 6.1 Single Reference Entity

Where the Securities are Single Reference Entity CLSs and a Succession Event has occurred and more than one Successor has been identified (each a **Successor Reference Entity**):

- (a) each Successor Reference Entity will be a Reference Entity for the purposes of each Credit Linked Security;
- (b) in respect of each Successor Reference Entity, the Floating Rate Payer Calculation Amount will be the Floating Rate Payer Calculation Amount applicable to the original Reference Entity divided by the number of Successor Reference Entities; and
- (c) all other terms and conditions of the original Credit Linked Securities will be replicated in each deemed new Credit Linked Security except to the extent that modification is required, as determined by the Calculation Agent in its sole discretion, to preserve the economic effects of the original Credit Linked Securities in the deemed new Credit Linked Securities (considered in the aggregate).

### 6.2 Nth-to-Default CLSs

Where the Securities are Nth-to-Default CLSs:

- (a) where a Succession Event has occurred in respect of a Reference Entity (other than a Reference Entity in respect of which a Credit Event has occurred) and more than one Successor has been identified, each Credit Linked Security will be deemed for all purposes to have been divided into a number of new Credit Linked Securities equal to the number of Successors. Each such new Credit Linked Security shall include a Successor and each and every one of the Reference Entities unaffected by such Succession Event and the provisions of Credit Linked Conditions 6.1(a) to 6.1(c) (inclusive) shall apply thereto;
- (b) if "Substitution" is specified as not being applicable in the Final Terms, where any Reference Entity (the **Surviving Reference Entity**) (other than a Reference Entity that is subject to the Succession Event) would be a Successor to any other Reference Entity (the **Legacy Reference Entity**) pursuant to a Succession Event, such Surviving Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity; and
- (c) if "Substitution" is specified as being applicable in the Final Terms, where the Surviving Reference Entity (other than a Reference Entity that is subject to the Succession Event) would be a Successor to a Legacy Reference Entity pursuant to a Succession Event:
  - (ix) such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity; and
  - (x) the Replacement Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity. For the avoidance of doubt, the deemed new Credit Linked Securities will continue to be represented by the original Credit Linked Securities.

### 6.3 Linear Basket CLSs

Where the Credit Linked Securities are Linear Basket CLSs, and one or more Successors have been identified in respect of a Reference Entity that has been the subject of a related Succession Event (the **Affected Entity**):

- (a) the Affected Entity will no longer be a Reference Entity (unless it is a Successor as described in paragraph (b) below);
- (b) each Successor will be deemed a Reference Entity (in addition to each Reference Entity which is not an Affected Entity);
- (c) the Floating Rate Payer Calculation Amount for each such Successor will equal the Floating Rate Payer Calculation Amount of the Affected Entity divided by the number of Successors; and
- (d) the Calculation Agent may, at its discretion, make any modifications to the terms of the Securities, which may be required to preserve the economic effects of the Securities prior to the Succession Event (considered in the aggregate).

#### **6.4 Substitute Reference Obligations**

Where:

- (a) a Reference Obligation is specified in the applicable Final Terms;
- (b) one or more Successors to the Reference Entity have been identified; and
- (c) any one or more such Successors have not assumed the Reference Obligation,

a Substitute Reference Obligation will be determined by the Calculation Agent in accordance with the definition of "Substitute Reference Obligation".

### **7 ADDITIONAL PROVISIONS**

#### **7.1 Provisions relating to LPN Reference Entities**

The following provisions shall apply if the applicable Final Terms provide that "LPN Reference Entity" is applicable:

- (f) the "Not Subordinated" Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity.

## 7.2 Additional provisions applicable if a Reference Entity in the applicable Final Terms is a "Monoline Insurer"

The following provisions will apply if the applicable Final Terms provide that "Monoline Insurer" is applicable:

### *Specific Definitions*

Qualifying Policies shall exclude any arrangement (i) structured as a surety bond, letter of credit or equivalent legal arrangement or (ii) pursuant to the express contractual terms of which the payment obligations of the Reference Entity can be discharged or reduced as a result of the occurrence or non-occurrence of an event or circumstance (other than the payment of Instrument Payments). Whether Cash Settlement or Physical Settlement is applicable in the applicable Final Terms, in particular for the purpose of the determination of Obligation and Deliverable Obligation, the benefit of a Qualifying Policy must be capable of being Delivered together with the Delivery of the Insured Instrument.

**Instrument Payments** means (A) in the case of any Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, (x) the specified periodic distributions in respect of interest or other return on the Certificate Balance on or prior to the ultimate distribution of the Certificate Balance and (y) the ultimate distribution of the Certificate Balance on or prior to a specified date and (B) in the case of any other Insured Instrument, the scheduled payments of principal and interest, in the case of both (A) and (B) (1) determined without regard to Limited Recourse Provisions and (2) excluding sums in respect of default interest, indemnities, tax gross-ups, make-whole amounts, early redemption premiums and other similar amounts (whether or not guaranteed or insured by the Qualifying Policy).

- (a) the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring Credit Event, each such notice setting forth the amount of the relevant Floating Rate Payer Calculation Amount to which such Restructuring Credit Event applies (the **Exercise Amount**) provided that if the Credit Event Notice does not specify an Exercise Amount, the then outstanding Floating Rate Payer Calculation Amount (and not a portion thereof) will be deemed to have been specified as the Exercise Amount;

- (b) the provisions of these Credit Linked Conditions shall be deemed to apply to an aggregate outstanding nominal amount equal to the Exercise Amount only and all the provisions shall be construed accordingly; and
- (c) the Exercise Amount in connection with a Credit Event Notice describing a Restructuring must be an amount that is at least 1,000,000 units of the Specified Currency (or, if Japanese Yen, 100,000,000 units) in which the Floating Rate Payer Calculation Amount is denominated or any integral multiple thereof or the entire relevant Floating Rate Payer Calculation Amount.

In the case of an Nth-to-Default CLS, once the Conditions to Settlement have been satisfied in respect of the Nth Reference Entity where the Credit Event is a Restructuring Credit Event, no further Credit Event Notices may be delivered in respect of any other Reference Entity (save to the extent that the Credit Linked Securities are deemed to have been divided into new Credit Linked Securities pursuant to Credit Linked Condition 6 (*Succession Event*)).

If any Credit Linked Security is subject to partial redemption in accordance with this Credit Linked Condition 8, the relevant Credit Linked Security or, if the Credit Linked Securities are represented by a Global Security, such Global Security shall be endorsed to reflect such partial redemption.

For the purposes of making a determination pursuant to the above, final redemption date shall be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the final redemption date shall be deemed to be the date on which such determination is made.

For the purposes of making a determination pursuant to the above, final redemption date shall, subject as set out above, be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the final redemption date shall be deemed to be the date on which such determination is made.

PROVIDED that if a No Auction Announcement Date has occurred pursuant to subparagraph (b) of the definition thereof with respect to a Notional Credit Derivatives Transaction, the condition set out in subparagraph (ii) above shall not be applicable.

In the event that the requisite consent in relation to a Deliverable Obligation which is a Conditionally Transferable Obligation is refused (whether or not a reason is given for such refusal and, where a reason is given for such refusal, regardless of that reason) or is not received by the Physical Settlement Date, the relevant Issuer shall, as soon as reasonably practicable, notify the relevant Securityholders of such refusal (or deemed refusal) and:

Credit Linked Condition 4.4 (*Aggregation and Rounding*) shall not apply to this sub-paragraph.

#### **8.4 Multiple Holder Obligations**

Unless "Multiple Holder Obligations" is specified as not applicable in the Final Terms, then notwithstanding anything to the contrary in the definition of "Restructuring" and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraphs (a)(i) to (v) (inclusive) thereof shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

If the event set forth in paragraph (b) of the definition of Substitution Event has occurred with respect to the Non-Standard Reference Obligation and no Substitute Reference Obligation is available, the Non-Standard Reference Obligation will continue to be the Reference Obligation until the Substitute Obligation is identified or, if earlier, until any of the events set forth under paragraphs (a) or (c) of the definition of Substitution Event occur with respect to such Non-Standard Reference Obligation.

**Substitution Date** means, with respect to a Substitute Reference Obligation, the date on which the Calculation Agent notifies the parties of the Substitute Reference Obligation

  - (vi) If one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity

The Calculation Agent will make all calculations and determinations required to be made under this definition on the basis of Eligible Information.

In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a)(i) to (vii) (inclusive) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions contemplated by such Steps Plan in aggregate as if forming part of a single succession.

of a Relevant Guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans, as applicable. For the purposes of this definition, succeeded and succession shall be construed accordingly.

- (e) In the case of an exchange offer, the determination required pursuant to paragraph (a) above shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.
- (f) If two or more entities (each, a Joint Potential Successor) jointly succeed to one or more Relevant Obligations (collectively, the Joint Relevant Obligations) either directly or as a provider of a Relevant Guarantee, then (1) if the Joint Relevant Obligation was a direct obligation of the relevant Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (2) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

- (b) where used in this definition of "Valuation Obligation", the term "Deliverable Obligation" is for convenience only and is not intended to amend the selected settlement method.

**Valuation Obligations Portfolio** means the Reference Obligation and/or one or more Valuation Obligations of a Reference Entity selected by the Calculation Agent in its discretion (in consultation with the relevant Issuer), each in an Outstanding Principal Balance selected by the Calculation Agent in its sole and absolute discretion provided that the aggregate of such Outstanding Principal Balances (or in each case the equivalent in the Specified Currency thereof (converted at the foreign exchange rate prevailing on any date from (and including) the Event Determination Date to (and including) the Valuation Date, as selected by the Calculation Agent in its sole and absolute discretion)), shall not exceed the relevant Floating Rate Payer Calculation Amount.

## ANNEX 3 – BOND LINKED CONDITIONS

*This annex sets out additional terms and conditions for Securities that are Bond Linked Securities. It is only applicable to Securities, which are specified to be Bond Linked Securities in the applicable Final Terms.*

*The terms and conditions applicable to Bond Linked Securities shall comprise the General Conditions and the Additional Conditions, in each case subject to completion in the applicable Final Terms.*

*In the event of any inconsistency between the General Conditions and the Additional Conditions, the Additional Conditions shall prevail.*

*The following terms and conditions (the **Bond Linked Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Bond Linked Securities is applicable. These Bond Linked Conditions are subject to completion in accordance with the applicable Final Terms.*

### 1 GENERAL

#### Bond Terms

The Final Terms shall specify:

- (a) the type of Bond Linked Securities, being Single Bond BLSs or Basket BLSs;
- (b) the Settlement Method;
- (c) the Bond(s) and Bond Issuer;
- (d) the Trade Date and the Scheduled Redemption Date;
- (e) the Bond Principal Amount in respect of each Bond; and
- (f) the principal amount outstanding as at the Trade Date in respect of each Bond.

### 2 REDEMPTION

#### 2.1 Redemption absent the occurrence of a Bond Event Determination Date

The relevant Issuer will redeem each Bond Linked Security on the related Redemption Date (as such date may be extended in accordance with the definition thereof) by payment of an amount equal to the Final Redemption Amount (together with interest, if any, payable thereon) unless:

- (a) the Bond Linked Securities have been previously redeemed or purchased and cancelled in full (including pursuant to Bond Linked Condition 2.4 (*Redemption following a Merger Event*) or 2.5 (*Redemption following an Additional Disruption Event*)); or
- (b) a Bond Event Determination Date has occurred, in which event the relevant Issuer shall redeem the Bond Linked Securities in accordance with Bond Linked Condition 2.2 (*Redemption following the occurrence of a Bond Event Determination Date*).

#### 2.2 Redemption following the occurrence of a Bond Event Determination Date

Subject to Bond Linked Condition 2.3 (Basket BLSs), upon the occurrence of a Bond Event Determination Date in relation to any Bond, each Bond Linked Security will be subject to redemption:

- (a) if the applicable Settlement Method is "Physical Settlement", in accordance with Bond Linked Condition 4 (*Physical Settlement*); and

- (b) if the applicable Settlement Method is "Cash Settlement", by payment on the Cash Settlement Date of an amount, subject to a minimum of zero, equal to (i) such Bond Linked Security's *pro rata* share of the Realisable Amount minus (ii) such Bond Linked Security's *pro rata* share of the Hedge Amount (if applicable).

### 2.3 Basket BLSs

If the Bond Linked Securities are Basket BLSs, then the provisions of these Bond Linked Conditions relating to redemption of Bond Linked Securities following the occurrence of a Bond Event Determination Date, extension of maturity of Bond Linked Securities on delivery of an Extension Notice, cessation or suspension of accrual of interest or accrual and payment of interest following the Scheduled Redemption Date shall apply to each Bond Linked Security with respect to each Bond separately and to such Bond Linked Security's *pro rata* share of the relevant Bond Principal Amount. As a result, the Bond Linked Securities will be redeemed in part in respect of each such Bond Event, such part to be determined by reference to the proportion that the Bond Principal Amount of the affected Bond has to the aggregate Bond Principal Amounts of such Bond and all the Bonds in respect of which a Bond Event has yet to occur. The remaining provisions of these Bond Linked Conditions shall be construed accordingly.

### 2.4 Early redemption following a Fair Market Value Trigger Event

If Fair Market Value Trigger is specified as being applicable in the relevant Final Terms, upon the occurrence of a Fair Market Value Trigger Event, the Bond Linked Securities may be redeemed at the Fair Market Value Redemption Amount (determined in accordance with General Condition 6.8 (*Fair Market Value Redemption Amounts*)) at the option of the Issuer in whole, but not in part, at any time, on giving not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms to the Principal Paying Agent or the Registrar, as the case may be, and, in accordance with General Condition 14 (*Notices*), the Securityholders (which notice shall be irrevocable). The Fair Market Value Trigger needs not be continuing at the time any notice is delivered under this Bond Linked Condition 2.4.

Bond Linked Securities redeemed pursuant to this Bond Linked Condition 2.4 will be redeemed at their Fair Market Value Redemption Amount.

For the purpose of this Bond Linked Condition 2.4, **Fair Market Value Trigger Event** means that on any day the Fair Market Value Redemption Amount expressed as a percentage of the aggregate nominal amount of a Bond Linked Security of the relevant Series would be, assuming that such Series of Bond Linked Securities would be redeemed in full on such day at the applicable Fair Market Value Redemption Amount, lower than or equal to the "Fair Market Value Trigger" specified in the applicable Final Terms, as determined by the Calculation Agent in its sole and absolute discretion.

### 2.5 Redemption following a Merger Event

If this Bond Linked Condition 2.5 is specified as applicable in the applicable Final Terms, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the relevant Issuer may give notice to the Securityholders in accordance with General Condition 14 (*Notices*) and redeem all but not some only of the Bond Linked Securities at the Fair Market Value Redemption Amount (determined in accordance with General Condition 6.8 (*Fair Market Value Redemption Amounts*)) on the Merger Event Redemption Date or, if the applicable Settlement Method is "Physical Settlement", the Securities will be redeemed in accordance with Bond Linked Condition 4 (*Physical Settlement*).

## **2.6 Redemption following an Additional Disruption Event**

If the Calculation Agent determines that an Additional Disruption Event has occurred, the relevant Issuer may redeem all, but not some of, the Securities by giving notice to Securityholders in accordance with General Condition 14 (*Notices*). If the Securities are so redeemed, the relevant Issuer will pay an amount to each Securityholder in respect of each Security as shall be determined to be the Fair Market Value Redemption Amount (determined in accordance with General Condition 6.8 (*Fair Market Value Redemption Amounts*)) or, if the applicable Settlement Method is "Physical Settlement", the Securities will be redeemed in accordance with Bond Linked Condition 4 (*Physical Settlement*).

## **2.7 Suspension of Obligations**

If a Potential Failure to Pay occurs with respect to a Bond, then (unless the relevant Issuer otherwise elects by notice to the Calculation Agent and the Securityholders), from the date of such Potential Failure to Pay any obligation of the relevant Issuer to redeem any Bond Linked Security (including pursuant to Bond Linked Condition 2.2 (*Redemption following the occurrence of a Bond Event Determination Date*)) or pay any amount of interest which would otherwise be due thereon shall, insofar as it relates to the relevant Bond, be and remain suspended until such time as the Calculation Agent determines either that a Failure to Pay has occurred with respect to such Bond or the relevant Potential Failure to Pay has been cured.

The Issuer will give notice to the Securityholders of any such suspension in accordance with General Condition 14 (*Notices*) within 14 days of becoming aware of the same.

If the Calculation Agent determines that the relevant Potential Failure to Pay has been cured, then all obligations of the relevant Issuer that have been suspended in accordance with this Bond Linked Condition 2.7 shall resume and shall be paid to the holders of the Bond Linked Securities no later than three Business Days following the Calculation Agent making such determination.

Where payment of interest or nominal is suspended in accordance with this Bond Linked Condition 2.7, no interest shall accrue on such interest or nominal.

## **2.8 Miscellaneous provisions relating to Redemption**

If the Bond Linked Securities are partially redeemed, the relevant Bond Linked Securities or, if the Bond Linked Securities are represented by a Global Security, such Global Security, shall be endorsed to reflect such partial redemption. Accordingly, upon such partial redemption, the outstanding nominal amount of each Security shall be reduced for all purposes (including accrual of interest thereon) accordingly.

Redemption of any Bond Linked Security in accordance with Bond Linked Condition 2 (*Redemption*), together with payment of interest, if any, due thereon shall discharge all or the relevant portion of the obligations of the relevant Issuer in relation thereto.

Any amount payable under Bond Linked Condition 2 (*Redemption*) shall be rounded downwards to the nearest sub-unit of the relevant currency.

# **3 INTEREST**

## **3.1 Cessation of Interest Accrual**

- (a) Upon the occurrence of a Bond Event Determination Date in respect of any Bond Linked Securities, interest on such Bond Linked Securities (or, in the case of Basket BLSs, the relevant portion thereof determined in accordance with Bond Linked Condition 2.3 (*Basket BLSs*)) shall cease to accrue with effect from and including, the Interest Period Date immediately preceding

such Bond Event Determination Date (or, in the case of the first Interest Accrual Period, the Interest Commencement Date).

- (b) Upon the Calculation Agent determining that a Merger Event or Additional Disruption Event has occurred in respect of any Bond Linked Securities, interest on such Bond Linked Securities shall cease to accrue with effect from and including, the Interest Payment Date immediately preceding such determination.

### **3.2 Interest following Scheduled Redemption**

Notwithstanding Bond Linked Condition 3.1 (*Cessation of Interest Accrual*), each Bond Linked Security shall only accrue interest up to (but excluding) the Scheduled Redemption Date.

### **3.3 Interest Payment Dates**

If the Bond Linked Securities are redeemed early pursuant to a Bond Event, Merger Event or Additional Disruption Event, the Scheduled Redemption Date, the Redemption Date (if not the Scheduled Redemption Date), the Cash Settlement Date or the Delivery Date(s), as the case may be, shall not be Interest Payment Dates in respect of each Bond Linked Security (or, in the case of Basket BLSs, the relevant portion thereof determined in accordance with Bond Linked Condition 2.3 (*Basket BLSs*)).

## **4 PHYSICAL SETTLEMENT**

### **4.1 Delivery and payment**

If Physical Settlement applies to any Bond Linked Security, then, upon the occurrence of a Bond Event Determination Date or the Calculation Agent determining that a Merger Event or Additional Disruption Event has occurred, the relevant Issuer, or any third party appointed at its discretion, shall, on or prior to the related Physical Settlement Date and subject to Bond Linked Condition 4.2 (*Partial Cash Settlement Due to Impossibility, Impracticality or Illegality*), Bond Linked Condition 4.3 (*Non-Delivery of Bonds*) and Bond Linked Condition 4.6 (*Asset Transfer Notice*), redeem such Bond Linked Security or, in the case of Basket BLSs, the relevant portion thereof determined in accordance with Bond Linked Condition 2.3 (*Basket BLSs*), respectively, by:

- (a) delivering a *pro rata* share of the Bond equal to the Physical Settlement Amount;
- (b) paying such Security's *pro rata* portion of the related Physical Settlement Adjustment Rounding Amount; and
- (c) if the Hedge Amount is expressed as a negative number, paying such Security's *pro rata* portion of an amount equal to the absolute value of such *pro rata* portion.

### **4.2 Partial Cash Settlement Due to Impossibility, Impracticality or Illegality**

If, due to an event beyond the control of the relevant Issuer, it is in the opinion of the Calculation Agent, impossible, impractical (including, without limitation, due to the relevant Issuer receiving insufficient or incorrect account or transfer information) or illegal for the relevant Issuer to Deliver or, due to an event beyond the control of the relevant Issuer or any Securityholder, it is in the opinion of the Calculation Agent impossible, impractical or illegal for the relevant Issuer or the relevant Securityholder to accept Delivery of all the Bonds on the related Physical Settlement Date, then on such date the relevant Issuer shall Deliver any of the Bonds for which it is possible, practicable and legal to take Delivery. If any Undeliverable Bonds have not been Delivered on or prior to the Latest Permissible Physical Settlement Date, then Partial Cash Settlement shall apply with respect to Bond and, accordingly, the relevant Issuer shall pay the relevant Securityholders an amount equal to the

Partial Cash Settlement Amount to be apportioned *pro rata* amongst the relevant Securityholders on the Partial Cash Settlement Date.

#### **4.3 Non-Delivery of Bonds**

If the relevant Issuer does not Deliver any Bond other than as a result of an event or circumstance contemplated in Bond Linked Condition 4.2 (*Partial Cash Settlement Due to Impossibility, Impracticality or Illegality*), such failure shall not constitute an event of default for the purpose of the Securities and the relevant Issuer may continue to attempt to Deliver the Bond until the Extended Physical Settlement Date.

If, as at the relevant Extended Physical Settlement Date, the relevant Bond has not been Delivered, then Partial Cash Settlement shall apply with respect to such Bond and the relevant Issuer shall pay to the Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Securityholders on the Partial Cash Settlement Date.

#### **4.4 Rounding**

If the principal amount outstanding of the Bond to be Delivered in respect of each Bond Linked Security to be redeemed pursuant to this Bond Linked Condition 4 (*Physical Settlement*) on any occasion is not equal to an authorised denomination (or integral multiple thereof) of such Bonds then the Bond Principal Amount of the Bond to be Delivered will be rounded down so that the principal amount outstanding of the Bond being Delivered is equal to the nearest authorised denomination or multiple thereof, or, if none, to zero. In such circumstances, the Bonds that were not capable of being Delivered shall, if and to the extent practicable, be sold by the relevant Issuer or such other agent as may be appointed by the relevant Issuer for such purpose and, if they are so sold, the relevant Issuer shall make payment in respect of each Bond Linked Security in an amount equal to its *pro rata* share of the related net sale proceeds as soon as reasonably practicable following receipt thereof.

#### **4.5 Delivery and Fees**

The Delivery of any of the Bond pursuant to the provisions of this Bond Linked Condition 4 shall be made in such commercially reasonable manner as the relevant Issuer shall, in its sole discretion, determine to be appropriate for such Delivery. Subject as set out in the definition of "Deliver", all expenses including, without limitation, any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax and/or other taxes or duties (together Delivery Expenses) arising from the Delivery and/or transfer of the Physical Settlement Amount shall be for the account of the relevant Securityholder and no Delivery and/or transfer of the Physical Settlement Amount shall be made until all Delivery Expenses have been paid to the satisfaction of the Delivery Agent by the relevant Securityholder.

Delivery and/or transfer of the Bonds shall be delayed until all expenses relating to such Delivery or transfer payable by the Securityholders have been paid to the satisfaction of the relevant Issuer.

#### **4.6 Asset Transfer Notice**

A Securityholder will not be entitled to any of the amounts or assets specified as being due to it in this Bond Linked Condition 4 upon the occurrence of a Bond Event Determination Date unless it has complied with Bond Linked Condition 4 (*Physical Settlement Procedures*). For so long as the Bond Linked Securities are held in any clearing system, any communication from such clearing system on behalf of the Securityholder containing the information required in an Asset Transfer Notice will be treated as an Asset Transfer Notice. For as long as Securities are represented by a Global Security, surrender of Bond Linked Securities for such purpose will be effected by presentation of the Global

Security and its endorsement to note the nominal amount of Bond Linked Securities to which the relevant Asset Transfer Notice relates.

Securityholders shall not be entitled to any return in respect of the difference between such principal amount outstanding and the Bond Principal Amount as a result thereof provided that where there has been an Exchange Event or the Bonds have been redeemed in whole or in part, in each case in the period from, and including, the Trade Date to, but excluding the Extension Date, the Realisable Amount or Physical Settlement Amount, as the case may be, will take into account such redemption or Exchange Event, in each case as determined by the Calculation Agent.

- (b) that the relevant Issuer's obligation to make a payment in Scheduled Payment Currency under the terms of the Securities be replaced by an obligation to pay such amount in the Alternative Currency (converted at the Alternative Settlement Rate determined by the Calculation Agent as of a time selected in good faith by the Calculation Agent); and

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Floating Interest is applicable as a relevant Standard Interest Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Floating Interest Payoff Condition 2.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Interest Payoff<sub>x</sub>.

### Standard Payoff Conditions: Part A: Chapter 3: Standard Floater Interest

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Floater Interest to be applicable.*

*All capitalised terms that are not defined in these Standard Floater Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 3 STANDARD FLOATER INTEREST

*The Linked Interest Rate is calculated as the product of  $Leverage_1$  by the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) Margin added to the result of  $Leverage_2$  multiplied by Underlying Value<sub>xy</sub>. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying, or if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub>, at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) will be used as a component in this calculation and may therefore affect the Linked Interest Rate, subject to  $Leverage_1$ ,  $Leverage_2$ , the Margin, the Cap and the Floor.*

#### 3.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Floater Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$Leverage_1 \times \text{Min} (\text{Cap}, \text{Max} (\text{Floor}, Leverage_2 \times \text{Underlying Value}_{xy} + \text{Margin}))$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Floater Interest is applicable as a relevant Standard Interest Payoff<sub>x</sub>, for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Floater Interest Payoff Condition 3.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Interest Payoff<sub>x</sub>.

#### 3.2 Relevant Observation

Where, in relation to these Standard Floater Interest Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of the Underlying Value, references in these Standard Floater Interest Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Floater Interest Payoff Condition 3.3 below) shall, for the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation.

#### 3.3 Definitions and interpretation

For the purposes of these Standard Floater Interest Payoff Conditions, the following terms shall have the following meanings:

**Interest Observation Date** means, in respect of an Interest Accrual Period, each date specified as such in the applicable Final Terms or, alternatively, each date falling such number of Business Days immediately preceding the first or last day of such Interest Accrual Period as specified in the applicable Final Terms, and each such date shall be deemed to be an 'Observation Date' for the purposes of the relevant Asset Conditions.

**Leverage<sub>1</sub>** or **Leverage<sub>2</sub>** means the percentage or number specified as such in the applicable Final Terms. For the avoidance of doubt, this may have a positive or a negative value or, in the case of a number, may be one (1).

**Underlying Value** means, with respect to an Interest Observation Date or a Relevant Timing, as the case may be:

- (a) in respect of an Underlying, which is a Commodity, the Commodity Reference Price;
- (b) in respect of an Underlying, which is a Benchmark Rate, the Benchmark Rate Level;
- (c) in respect of an Underlying which is an Index or a Proprietary Index, the Index Level;
- (d) in respect of an Underlying, which is an Inflation Index, the Inflation Index Level;
- (e) in respect of an Underlying, which is a FX Rate, the relevant rate of exchange;
- (f) in respect of an Underlying which is an ETF, the ETF Closing Price; or
- (g) in respect of an Underlying which is a Share, the Share Price.

For the avoidance of doubt, the Underlying Value may have a positive value, negative value or may be equal to zero (0) and will be expressed without regard to the currency of denomination of the Underlying Value (if any).

**Underlying Value<sub>xy</sub>** means:

- (a) the Underlying Value of the Underlying; or
- (b) if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the applicable Final Terms:
  - the sum of the Underlying Value of such Underlying<sub>x</sub> and the Underlying Value of such Underlying<sub>y</sub>, if "Addition" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or
  - the algebraical difference between the Underlying Value of such Underlying<sub>x</sub> and the Underlying Value of such Underlying<sub>y</sub>, if "Subtraction" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or

These Standard Inverse Floater Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Inverse Floater Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 4 STANDARD INVERSE FLOATER INTEREST

*The Linked Interest Rate is calculated as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) the result of Leverage multiplied by Underlying Value<sub>xy</sub>, subtracted from Fixed Rate. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) will be used as a component in this calculation and may therefore affect the Linked Interest Rate, subject to the Leverage, the Fixed Rate, the Cap and the Floor.*

#### 4.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Inverse Floater Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Min} \left( \text{Cap}, \text{Max} \left( \text{Floor}, \text{Fixed Rate} - \text{Leverage} \times \text{Underlying Value}_{xy} \right) \right)$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Inverse Floater Interest is applicable as a relevant Standard Interest Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Inverse Floater Interest Payoff Condition 4.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Interest Payoff<sub>x</sub>.

#### 4.2 Relevant Observation

Where, in relation to these Standard Inverse Floater Interest Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of the Underlying Value, references in these Standard Inverse Floater Interest Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Inverse Floater Interest Payoff Condition 4.3 below) shall, for the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation.

#### 4.3 Definitions and interpretation

For the purposes of these Standard Inverse Floater Interest Payoff Conditions, the following terms shall have the following meanings:

**Interest Observation Date** means, in respect of an Interest Accrual Period, each date specified as such in the applicable Final Terms or, alternatively, each date falling such number of Business Days immediately preceding the first or last day of such Interest Accrual Period as specified in the applicable Final Terms, and each such date shall be deemed to be an 'Observation Date' for the purposes of the relevant Asset Conditions.

**Underlying Value** means, with respect to an Interest Observation Date or a Relevant Timing, as the case may be:

- (a) in respect of an Underlying, which is a Commodity, the Commodity Reference Price;
- (b) in respect of an Underlying, which is a Benchmark Rate, the Benchmark Rate Level;
- (c) in respect of an Underlying which is an Index or a Proprietary Index, the Index Level;
- (d) in respect of an Underlying, which is an Inflation Index, the Inflation Index Level;
- (e) in respect of an Underlying, which is a FX Rate, the relevant rate of exchange;
- (f) in respect of an Underlying which is an ETF, the ETF Closing Price; or
- (g) in respect of an Underlying which is a Share, the Share Price.

**Underlying Value<sub>xy</sub>** means:

- (a) the Underlying Value of the Underlying; or
- (b) if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the applicable Final Terms:
  - the sum of the Underlying Value of such Underlying<sub>x</sub> and the Underlying Value of such Underlying<sub>y</sub>, if "Addition" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or
  - the algebraical difference between the Underlying Value of such Underlying<sub>x</sub> and the Underlying Value of such Underlying<sub>y</sub>, if "Subtraction" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or
  - the product of the Underlying Value of such Underlying<sub>x</sub> by the Underlying Value of such Underlying<sub>y</sub>, if "Multiplication" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or

*All capitalised terms that are not defined in these Standard Participation Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 5 STANDARD PARTICIPATION INTEREST

*The Linked Interest Rate is calculated as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) Leverage multiplied by the sum of Margin and the result of the Underlying<sub>Observation1</sub> for the relevant Interest Accrual Period divided by the Underlying<sub>Observation2</sub> for the relevant Interest Accrual Period. The Underlying<sub>Observation2</sub> reflects a specified value or the Underlying Value on the relevant Underlying Observation Date<sub>2</sub> and the Underlying<sub>Observation1</sub> reflects the Underlying Value on the Underlying Observation Date<sub>1</sub>. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) observed on each of the relevant days in the relevant Interest Accrual Period may therefore each be used as a component in this calculation and may therefore affect the Linked Interest Rate, subject to the Leverage, the Margin, the Cap and the Floor.*

#### 5.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Participation Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Min} \left( \text{Cap}, \text{Max} \left( \text{Floor}, \text{Leverage} \times \left( \frac{\text{Underlying}_{\text{Observation1}}}{\text{Underlying}_{\text{Observation2}}} + \text{Margin} \right) \right) \right)$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Participation Interest is applicable as a relevant Standard Interest Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Participation Interest Payoff Condition 5.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Interest Payoff<sub>x</sub>.

#### 5.2 Relevant Observation

Where, in relation to these Standard Participation Interest Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of the Underlying<sub>Observation1</sub> and/or the Underlying<sub>Observation2</sub>, references in these Standard Participation Interest Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Participation Interest Payoff Condition 5.1 above)

shall, for the purposes of determining the Underlying<sub>Observation1</sub> and/or the Underlying<sub>Observation2</sub>, as the case may be, be deemed to be references to the applicable Relevant Observation.

### 5.3 Definitions and interpretation

## Standard Payoff Conditions: Part A: Chapter 6: Standard Range Accrual Interest

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Range Accrual Interest to be applicable.*

*The following terms and conditions (the **Standard Range Accrual Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Range Accrual Interest (the **Standard Range Accrual Interest**) is applicable. These Standard Range Accrual Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Range Accrual Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 6 STANDARD RANGE ACCRUAL INTEREST

*The Linked Interest Rate is calculated as the Accrual Factor (if 'Accrual Factor OUT' applies) or 1 multiplied by an amount equal to the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) Margin<sub>2</sub> added to the result of the product of (A) Accrual Factor (if 'Accrual Factor IN' applies) or 1 and (B) the result of Leverage multiplied by Global Underlying Value on the relevant Interest Observation Date and added to Margin<sub>1</sub>. The Accrual Factor is a number determined by reference to, among other things, the Underlying Value. The Global Underlying Value is calculated by reference to the price, level or rate of the Global Underlying or, if a combination of a Global Underlying<sub>x</sub> and a Global Underlying<sub>y</sub> is specified in the Final Terms, the price, level or rate of the Global Underlying<sub>x</sub> and of the Global Underlying<sub>y</sub>, as applicable. The Underlying Value<sub>i</sub> is calculated by reference to the price, level or rate of the Underlying<sub>i</sub> or, if a combination of an Underlying<sub>ix</sub> and an Underlying<sub>iy</sub> is specified in the Final Terms, the price, level or rate of the Underlying<sub>ix</sub> and of the Underlying<sub>iy</sub> at the relevant time, as applicable. The value of the Underlying will therefore affect the Linked Interest Rate since (i) the value of the Underlying<sub>i</sub> (or, as applicable, the relevant Underlying<sub>ix</sub> and Underlying<sub>iy</sub>) affects the value of the Accrual Factor which is used as a component of the formula used to calculate the Linked Interest Rate and (ii) the value of the Global Underlying (or, as applicable, the Global Underlying<sub>x</sub> and the Global Underlying<sub>y</sub>) is used as a separate component in the formula used to calculate the Linked Interest Rate.*

#### 6.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Range Accrual Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Accrual Factor OUT} \times \text{Min}(\text{Cap}, \text{Max}(\text{Floor}, (\text{Leverage} \times \text{Global Underlying Value} + \text{Margin}_1) \times \text{Accrual Factor IN} + \text{Margin}_2))$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Range Accrual Interest is applicable as a relevant Standard Interest Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Range Accrual Interest Payoff Condition 6.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Interest Payoff<sub>x</sub> as applicable.

## 6.2 Relevant Observation

Where, in relation to these Standard Range Accrual Interest Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of the Global Underlying Value or Underlying Value<sub>i</sub>, references in these Standard Range Accrual Interest Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Range Accrual Interest Payoff Condition 6.1 above) shall, for the purposes of determining the Global Underlying Value or Underlying Value<sub>i</sub>, be deemed to be references to the applicable Relevant Observation.

## 6.3 Definitions and interpretation

For the purposes of these Standard Range Accrual Interest Payoff Conditions, the following terms shall have the following meanings:

**a** means the number specified as such in the applicable Final Terms. If a is specified as "not applicable", a shall be 1.

For the purposes hereof, (and where Range Accrual Days are expressed in the applicable Final Terms as falling on calendar days which may not be Business Days) the Underlying Value in respect of any Range Accrual Day which is not a Business Day shall be deemed to be the Underlying Value in respect of either the immediately preceding or the immediately following Business Day, as specified in the applicable Final Terms.

**N** means the total number of Range Accrual Days in the relevant Interest Observation Period, as determined by the Calculation Agent.

**Range** means in respect of each Underlying<sub>i</sub>, any one (only) of Range<sub>1</sub>, Range<sub>2</sub>, Range<sub>3</sub>, Range<sub>4</sub>, Range<sub>5</sub> or Range<sub>6</sub> as specified in the applicable Final Terms for such Underlying<sub>i</sub> (or, as applicable, the relevant Underlying<sub>ix</sub> and Underlying<sub>iy</sub>).

each calendar day or Business Day within a week, each calendar day or Business Day within a month, or any other day, falling within such Interest Observation Period. Each Range Accrual Day shall be deemed to be an 'Observation Date' for the purposes of the relevant Asset Conditions.

**Underlying<sub>i</sub>** means an Underlying corresponding to an *i*, as specified in the applicable Final Terms. For the avoidance of doubt, the Global Underlying (or, if applicable, Global Underlying<sub>x</sub> and Global Underlying<sub>y</sub>), all Underlying<sub>i</sub> and (as applicable) all Underlying<sub>ix</sub> and Underlying<sub>iy</sub> together constitute a Basket or a Multi-Asset Basket, as applicable (each as defined in the applicable Asset Conditions).

## Standard Payoff Conditions: Part A: Chapter 7: Standard Power Interest

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Power Interest to be applicable.*

*The following terms and conditions (the **Standard Power Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Power Interest (the **Standard Power Interest**) is applicable. These Standard Power Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Power Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 7 STANDARD POWER INTEREST

*The Linked Interest Rate is calculated as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) Margin added to the result, exponentiated to the power of  $x$ , of 1 plus Leverage multiplied by Underlying Value<sub>xy</sub>. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable. The value of the Underlying (or, as applicable, Underlying<sub>x</sub> and Underlying<sub>y</sub>) will be used as a component in this calculation and will therefore affect the Linked Interest Rate, subject to the Leverage, Margin, Cap, Floor and the exponential part of the formula.*

#### 7.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Power Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Min} \left( \text{Cap}, \text{Max} \left( \text{Floor}, (1 + \text{Leverage} \times \text{Underlying Value}_{xy})^x + \text{Margin} \right) \right)$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Power Interest is applicable as a relevant Standard Interest Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Power Interest Payoff Condition 7.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Interest Payoff<sub>x</sub>.

#### 7.2 Relevant Observation

Where, in relation to these Standard Power Interest Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of the Underlying Value, references in these Standard Power Interest Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Power Interest Payoff Condition 7.3 below) shall, for the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation.

### 7.3 Definitions and interpretation

For the purposes of these Standard Power Interest Payoff Conditions, the following terms shall have the following meanings:

**Interest Observation Date** means, in respect of an Interest Accrual Period, each date specified as such in the applicable Final Terms or, alternatively, the date falling such number of Business Days immediately preceding the first or last day of such Interest Accrual Period as specified in the applicable Final Terms, and each such date shall be deemed to be an 'Observation Date' for the purposes of the relevant Asset Conditions.

**Underlying Value** means, with respect to an Interest Observation Date or a Relevant Timing, as the case may be:

- (a) in respect of an Underlying, which is a Commodity, the Commodity Reference Price;
- (b) in respect of an Underlying, which is a Benchmark Rate, the Benchmark Rate Level;
- (c) in respect of an Underlying which is an Index or a Proprietary Index, the Index Level;
- (d) in respect of an Underlying, which is an Inflation Index, the Inflation Index Level;
- (e) in respect of an Underlying, which is a FX Rate, the relevant rate of exchange;
- (f) in respect of an Underlying which is an ETF, the ETF Closing Price; or
- (g) in respect of an Underlying which is a Share, the Share Price.

For the avoidance of doubt, the Underlying Value may have a positive value, negative value or may be equal to zero (0) and will be expressed without regard to the currency of denomination of the Underlying Value (if any).

**Underlying Value<sub>xy</sub>** means:

- (a) the Underlying Value of the Underlying; or
- (b) if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the applicable Final Terms:

  - the algebraical difference between the Underlying Value of such Underlying<sub>x</sub> and the Underlying Value of such Underlying<sub>y</sub>, if "Subtraction" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or
  - the product of the Underlying Value of such Underlying<sub>x</sub> by the Underlying Value of such Underlying<sub>y</sub>, if "Multiplication" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or
  - the quotient of the Underlying Value of such Underlying<sub>x</sub> by the Underlying Value of such Underlying<sub>y</sub>, if "Division" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>.

These Standard Dual Range Accrual Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Dual Range Accrual Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 8 STANDARD DUAL RANGE ACCRUAL INTEREST

*The Linked Interest Rate is calculated as the Accrual Factor (if 'Accrual Factor OUT' applies) or 1 multiplied by an amount equal to the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) the result of Global Leverage multiplied by Global Underlying Value added to Margin, multiplied by the Accrual Factor (if 'Accrual Factor IN' applies) or 1. The Accrual Factor is determined by reference to, among other things, each Underlying Value<sub>i</sub>. The Global Underlying Value is calculated by reference to the price, level or rate of the Global Underlying or, if a combination of a Global Underlying<sub>x</sub> and a Global Underlying<sub>y</sub> is specified in the Final Terms, the price, level or rate of the Global Underlying<sub>x</sub> and of the Global Underlying<sub>y</sub>, as applicable. The Underlying Value<sub>i</sub> is calculated by reference to the price, level or rate of the relevant Underlying<sub>i</sub> or, if a combination of an Underlying<sub>ix</sub> and an Underlying<sub>iy</sub> is specified in the Final Terms is calculated by reference to the price, level or rate of the relevant Underlying<sub>ix</sub> and of the relevant Underlying<sub>iy</sub> at the relevant time, as applicable. The value of each Underlying may therefore affect the Linked Interest Rate since (i) the value of each Underlying<sub>i</sub> or, as applicable, each Underlying<sub>ix</sub> and Underlying<sub>iy</sub>, affects the value of the Accrual Factor which is used as a component of the formula used to calculate the Linked Interest Rate and (ii) the value of the Global Underlying (or, as applicable, the Global Underlying<sub>x</sub> and the Global Underlying<sub>y</sub>) is also used as a component to calculate the Linked Interest Rate.*

#### 8.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Dual Range Accrual Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Accrual Factor OUT} \times \text{Min}(\text{Cap}, \text{Max}(\text{Floor}, (\text{Global Leverage} \\ \times \text{Global Underlying Value} + \text{Margin}) \times \text{Accrual Factor IN}))$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Dual Range Accrual Interest is applicable as a relevant Standard Interest Payoff<sub>x</sub>, for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Dual Range Accrual Interest Payoff Condition 8.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Interest Payoff<sub>x</sub>.

#### 8.2 Relevant Observation

Where, in relation to these Standard Dual Range Accrual Interest Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of the Global Underlying

Value and/or Underlying Value<sub>i</sub>, references in these Standard Dual Range Accrual Interest Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Dual Range Accrual Interest Payoff Condition 8.3 below) shall, for the purposes of determining the Global Underlying Value and/or Underlying Value<sub>i</sub>, be deemed to be references to the applicable Relevant Observation.

## Standard Payoff Conditions: Part A: Chapter 9: Standard Multi Fixed Digital Interest

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Multi Fixed Digital Interest to be applicable.*

*The following terms and conditions (the **Standard Multi Fixed Digital Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Multi Fixed Digital Interest (the **Standard Multi Fixed Digital Interest**) is applicable. These Standard Multi Fixed Digital Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Multi Fixed Digital Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 9 STANDARD MULTI FIXED DIGITAL INTEREST

*The Linked Interest Rate will be equal to a fixed rate which will differ depending on whether the Underlying Value<sub>xy</sub> is within one of the applicable ranges of Underlying Values<sub>xy</sub> specified in the applicable Final Terms or which of such ranges of Underlying Values<sub>xy</sub> specified in the applicable Final Terms, the Underlying Value<sub>xy</sub> falls within on each or any, as the case may be, relevant Interest Observation Dates falling during the relevant Interest Observation Period. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable. The value of the Underlying will therefore affect which fixed rate is used to calculate the Linked Interest Rate applicable to the Securities.*

#### 9.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Multi Fixed Digital Interest is applicable in respect of such Interest Accrual Period shall be calculated as:
  - (i) if the Underlying Value<sub>xy</sub> is within the Range<sub>A</sub> on, if Any Dates is specified in the applicable Final Terms, any Interest Observation Date falling within the Interest Observation Period or, if Specific Dates is specified in the applicable Final Terms, on each Interest Observation Date falling during the Interest Observation Period, equal to the Fixed Rate<sub>A</sub>; or
  - (ii) if the Underlying Value<sub>xy</sub> is within the Range<sub>B</sub> on, if Any Dates is specified in the applicable Final Terms, any Interest Observation Date falling within the Interest Observation Period or, if Specific Dates is specified in the applicable Final Terms, on each Interest Observation Date falling during the Interest Observation Period, equal to the Fixed Rate<sub>B</sub>; or
  - (iii) if the Underlying Value<sub>xy</sub> is within the Range<sub>C</sub> on, if Any Dates is specified in the applicable Final Terms, any Interest Observation Date falling within the Interest Observation Period or, if Specific Dates is specified in the applicable Final Terms, on each Interest Observation Date falling during the Interest Observation Period, equal to the Fixed Rate<sub>C</sub>; or
  - (iv) if the Underlying Value<sub>xy</sub> is within the Range<sub>D</sub> on, if Any Dates is specified in the applicable Final Terms, any Interest Observation Date falling within the Interest Observation Period or, if Specific Dates is specified in the applicable Final Terms, on

each Interest Observation Date falling during the Interest Observation Period, equal to the Fixed Rate<sub>D</sub>; or

- (v) if the Underlying Value<sub>xy</sub> is within the Range<sub>E</sub> on, if Any Dates is specified in the applicable Final Terms, any Interest Observation Date falling within the Interest Observation Period or, if Specific Dates is specified in the applicable Final Terms, on each Interest Observation Date falling during the Interest Observation Period, equal to the Fixed Rate<sub>E</sub>; and
  - (vi) otherwise, equal to the Fixed Rate<sub>F</sub>.
- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Multi Fixed Digital Interest is applicable as a relevant Standard Interest Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Multi Fixed Digital Interest Payoff Condition 9.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Interest Payoff<sub>x</sub>.

## 9.2 Relevant Observation Date

Where, in relation to these Standard Multi Fixed Digital Interest Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of the Underlying Value, references in these Standard Multi Fixed Digital Interest Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Multi Fixed Digital Interest Payoff Condition 9.3 below) shall, for the purposes of determining the Underlying Value, be deemed to be references to the applicable Relevant Observation.

## 9.3 Definitions and interpretation

For the purposes of these Standard Multi Fixed Digital Interest Payoff Conditions, the following terms shall have the following meanings:

**Fixed Rate<sub>A</sub>, Fixed Rate<sub>B</sub>, Fixed Rate<sub>C</sub>, Fixed Rate<sub>D</sub>, Fixed Rate<sub>E</sub> or Fixed Rate<sub>F</sub>** means the rate specified as such in the applicable Final Terms.

**Interest Observation Date** means, with respect to an Interest Observation Period, each date specified as such in the applicable Final Terms or, alternatively, each date falling such number of Business Days immediately preceding the first or last day of such Interest Observation Period as specified in the applicable Final Terms, and each such date shall be deemed to be an 'Observation Date' for the purposes of the relevant Asset Conditions.

**Range<sub>A</sub>, Range<sub>B</sub>, Range<sub>C</sub>, Range<sub>D</sub> and Range<sub>E</sub>** means any one (only) of Range<sub>1</sub>, Range<sub>2</sub>, Range<sub>3</sub>, Range<sub>4</sub>, Range<sub>5</sub> or Range<sub>6</sub> as specified in the applicable Final Terms.

**Range<sub>1</sub>** means that, on the relevant Interest Observation Date, the Underlying Value<sub>xy</sub> is greater than or equal to the Lower Limit and lower than or equal to the Upper Limit.

**Range<sub>2</sub>** means that, on the relevant Interest Observation Date, the Underlying Value<sub>xy</sub> is greater than the Lower Limit and lower than the Upper Limit.

**Range<sub>3</sub>** means that, on the relevant Interest Observation Date, the Underlying Value<sub>xy</sub> is greater than or equal to the Lower Limit and lower than the Upper Limit.

**Range<sub>5</sub>** means that, on the relevant Interest Observation Date, the Underlying Value<sub>xy</sub> is lower than the Lower Limit or greater than the Upper Limit.

**Range<sub>6</sub>** means that, on the relevant Interest Observation Date, the Underlying Value<sub>xy</sub> is lower than or equal to the Lower Limit or greater than or equal to the Upper Limit.

**Underlying Value** means, with respect to an Interest Observation Date or a Relevant Timing, as the case may be:

- (a) in respect of an Underlying, which is a Commodity, the Commodity Reference Price;
- (b) in respect of an Underlying, which is a Benchmark Rate, the Benchmark Rate Level;
- (c) in respect of an Underlying which is an Index or a Proprietary Index, the Index Level;
- (d) in respect of an Underlying, which is an Inflation Index, the Inflation Index Level;
- (e) in respect of an Underlying, which is a FX Rate, the relevant rate of exchange;
- (f) in respect of an Underlying which is an ETF, the ETF Closing Price; or
- (g) in respect of an Underlying which is a Share, the Share Price.

For the avoidance of doubt, the Underlying Value may have a positive value, negative value or may be equal to zero (0) and will be expressed without regard to the currency of denomination of the Underlying Value (if any).

**Underlying Value<sub>xy</sub>** means:

- (a) the Underlying Value of the Underlying; or
- (b) if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the applicable Final Terms:
  - the sum of the Underlying Value of such Underlying<sub>x</sub> and the Underlying Value of such Underlying<sub>y</sub>, if "Addition" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or
  - the algebraical difference between the Underlying Value of such Underlying<sub>x</sub> and the Underlying Value of such Underlying<sub>y</sub>, if "Subtraction" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or
  - the product of the Underlying Value of such Underlying<sub>x</sub> by the Underlying Value of such Underlying<sub>y</sub>, if "Multiplication" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or
  - the quotient of the Underlying Value of such Underlying<sub>x</sub> by the Underlying Value of such Underlying<sub>y</sub>, if "Division" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>.

## Standard Payoff Conditions: Part A: Chapter 10: Standard Digital to Participation Interest

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Digital to Participation Interest to be applicable.*

*The following terms and conditions (the **Standard Digital to Participation Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Digital to Participation Interest (the **Standard Digital to Participation Interest**) is applicable. These Standard Digital to Participation Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Digital to Participation Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 10 STANDARD DIGITAL TO PARTICIPATION INTEREST

*The Linked Interest Rate is calculated as either (a) if the Underlying Value<sub>xy</sub> is within the relevant Range on each Interest Observation Date falling within the Interest Observation Period, being the Fixed Rate or (b) otherwise, being the lesser of (i) Cap and (ii) the greater of (A) Floor and (B) Leverage multiplied by the sum of Margin and the result of Underlying<sub>Observation1</sub> divided by Underlying<sub>Observation2</sub>. Underlying<sub>Observation1</sub> reflects a specified value or the Underlying Value<sub>xy</sub> or the Underlying Value<sub>z</sub> on the Underlying Observation Date<sub>1</sub> for the relevant Interest Accrual Period and Underlying<sub>Observation2</sub> reflects a specified value or the Underlying Value<sub>xy</sub> or the Underlying Value<sub>z</sub> on the Underlying Observation Date<sub>2</sub> for the relevant Interest Accrual Period where (i) the Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying<sub>xy</sub> or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable and (ii) the Underlying Value<sub>z</sub> is calculated by reference to the price, level or rate of the Underlying<sub>z</sub> at the relevant time. The value of the Underlying<sub>xy</sub> (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) and, as applicable, the relevant Underlying<sub>z</sub> may therefore affect which rate is used to calculate the Linked Interest Rate applicable to the Securities and the value of the Underlying<sub>xy</sub> (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) and, as applicable, the relevant Underlying<sub>z</sub>, observed on each of the relevant days in the relevant Interest Accrual Period may each be used as a component in the calculation of one of the rates, if applicable, subject to the Leverage, the Margin, the Cap and the Floor.*

#### 10.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Digital to Participation Interest is applicable in respect of such Interest Accrual Period shall be calculated as:

  - (ii) if the Underlying Value<sub>xy</sub> is within Range<sub>B</sub> on each Interest Observation Date falling within the Interest Observation Period, equal to Fixed Rate<sub>2</sub>; or
  - (iii) if the Underlying Value<sub>xy</sub> is within Range<sub>C</sub> on each Interest Observation Date falling within the Interest Observation Period, equal to Fixed Rate<sub>3</sub>; or
  - (iv) if the Underlying Value<sub>xy</sub> is within Range<sub>D</sub> on each Interest Observation Date falling within the Interest Observation Period, equal to Fixed Rate<sub>4</sub>; or
  - (v) if the Underlying Value<sub>xy</sub> is within Range<sub>E</sub> on each Interest Observation Date falling within the Interest Observation Period, equal to Fixed Rate<sub>5</sub>; or

- (vi) if the Underlying Value<sub>xy</sub> is within Range<sub>F</sub> on each Interest Observation Date falling within the Interest Observation Period, equal to Fixed Rate<sub>6</sub>; or
- (vii) otherwise, equal to:

$$\text{Min} \left( \text{Cap}, \text{Max} \left( \text{Floor}, \text{Leverage} \times \left( \frac{\text{Underlying}_{\text{Observation 1}}}{\text{Underlying}_{\text{Observation 2}}} + \text{Margin} \right) \right) \right)$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Digital to Participation Interest is applicable as a relevant Standard Interest Payoff<sub>x</sub>, as applicable, for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Digital to Participation Interest Payoff Condition 10.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Interest Payoff<sub>x</sub>.

## 10.2 Relevant Observation

Where, in relation to these Standard Digital to Participation Interest Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of Underlying<sub>Observation1</sub> and/or Underlying<sub>Observation2</sub>, references in these Standard Digital to Participation Interest Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Digital to Participation Interest Payoff Condition 10.3 below) shall, for the purposes of determining Underlying<sub>Observation1</sub> and/or Underlying<sub>Observation2</sub> and/or Underlying Value<sub>xy</sub>, as the case may be, be deemed to be references to the applicable Relevant Observation.

### 11 STANDARD MULTI FIXED BASKET INTEREST

*The Linked Interest Rate is calculated as (a) if the Underlying Value of each Underlying<sub>i</sub> is within the Underlying Value<sub>i</sub> Range on the relevant Interest Observation Date, being Fixed Rate<sub>1</sub> or (b) if the Underlying Value of any Underlying<sub>j</sub> is within the Underlying Value<sub>j</sub> Range on the relevant Interest Observation Date, being Fixed Rate<sub>2</sub> or (c) otherwise, being Fixed Rate<sub>3</sub>. The Underlying Value is calculated by reference to the price, level or rate of the relevant Underlying at the relevant time. The value of the various Underlying<sub>i</sub> or Underlying<sub>j</sub> may each therefore affect which fixed rate is used to calculate the Linked Interest Rate applicable to the Securities.*

## Standard Payoff Conditions: Part A: Chapter 12: Standard Fixed Range Accrual Interest

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Fixed Range Accrual Interest to be applicable.*

*The following terms and conditions (the **Standard Fixed Range Accrual Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Fixed Range Accrual Interest (the **Standard Fixed Range Accrual Interest**) is applicable. These Standard Fixed Range Accrual Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Fixed Range Accrual Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 12 STANDARD FIXED RANGE ACCRUAL INTEREST

*The Linked Interest Rate is calculated as (A) in the case of Linear type of Range Accrual payoff, Fixed Rate multiplied by Accrual Factor and as (B) in the case of Non-linear type of Range Accrual payoff, the Fixed Rate (n) applicable to the n calculated for that Interest Observation Period. The Accrual Factor is a number calculated by reference to, among other things, each Underlying Value<sub>i</sub>. The Underlying Value<sub>i</sub> is calculated by reference to the price, level or rate of the relevant Underlying<sub>i</sub> or, if a combination of an Underlying<sub>ix</sub> and an Underlying<sub>iy</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the relevant Underlying<sub>ix</sub> and of the relevant Underlying<sub>iy</sub> at the relevant time, as applicable. The value of each Underlying<sub>i</sub> or, as applicable, each Underlying<sub>ix</sub> and Underlying<sub>iy</sub>, will therefore affect the value of the Accrual Factor which is used as a component of the formula used to calculate the Linked Interest Rate.*

#### 12.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Fixed Range Accrual Interest is applicable in respect of such Interest Accrual Period and
- (i) in respect to which *Linear* is specified as applicable in the Final Terms shall be calculated as follows:

Fixed Rate × Accrual Factor

and expressed as a percentage;

- (ii) in respect to which *Non-linear* is specified as applicable in the Final Terms shall be calculated as follows:

Fixed Rate (n) for the n applicable in respect of such Interest Accrual Period.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Fixed Range Accrual Interest is applicable as a relevant Standard Interest Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Fixed Range Accrual Interest Payoff Condition 12.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Interest Payoff<sub>x</sub>.

**n** means the number of Range Accrual Days in the relevant Interest Observation Period in respect of which each Underlying Value<sub>i</sub> is within the Underlying Value<sub>i</sub> Range, as determined by the Calculation Agent. For the purposes hereof, (and where Range Accrual Days are expressed in the applicable Final Terms as falling on calendar days which may not be Business Days) the Underlying Value in respect of any Range Accrual Day which is not a Business Day shall be deemed to be the Underlying Value in respect of either the immediately preceding or the immediately following Business Day, as specified in the applicable Final Terms.

**N** means the total number of Range Accrual Days in the relevant Interest Observation Period, as determined by the Calculation Agent.

**Range** means any one (only) of Range<sub>1</sub>, Range<sub>2</sub>, Range<sub>3</sub>, Range<sub>4</sub>, Range<sub>5</sub> or Range<sub>6</sub> as specified in the applicable Final Terms.

## Standard Payoff Conditions: Part A: Chapter 13: Standard ABF Interest

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard ABF Interest to be applicable.*

*The following terms and conditions (the Standard ABF Interest Payoff Conditions) shall apply to the Securities if the applicable Final Terms indicate that Standard ABF Interest (the **Standard ABF Interest**) is applicable. These Standard ABF Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard ABF Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 13 STANDARD ABF INTEREST

*The Linked Interest Rate is calculated as Global Leverage multiplied by (a) the FX Conversion Factor and (b) the sum of (i) the result of Accrual Factor<sub>1</sub> multiplied by Leverage<sub>1</sub> and (ii) the result of Accrual Factor<sub>2</sub> multiplied by Leverage<sub>2</sub>.*

*An Accrual Factor is calculated by reference to the relevant Underlying Value<sub>xy</sub>. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) may therefore affect the Linked Interest Rate since the value of the Underlying affects the value of the Accrual Factor, which is used as a component of the formula used to calculate the Linked Interest Rate.*

#### 13.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard ABF Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Global Leverage} \times \text{FX Conversion Factor} \\ \times ((\text{Leverage}_1 \times \text{Accrual Factor}_1) + (\text{Leverage}_2 \times \text{Accrual Factor}_2))$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard ABF Interest is applicable as a relevant Standard Interest Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard ABF Interest Payoff Condition 13.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Interest Payoff<sub>x</sub>.

#### 13.2 Relevant Observation

Where, in relation to these Standard ABF Interest Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of the Underlying Value, references in these Standard ABF Interest Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard ABF Interest Payoff Condition 13.3 below) shall, for the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation.

## Standard Payoff Conditions: Part A: Chapter 14: Standard Annualised Performance Interest

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Annualised Performance Interest to be applicable.*

*The following terms and conditions (the **Standard Annualised Performance Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Annualised Performance Interest (the **Standard Annualised Performance Interest**) is applicable. These Standard Annualised Performance Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Annualised Performance Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 14 STANDARD ANNUALISED PERFORMANCE INTEREST

*The Linked Interest Rate for each Interest Accrual Period is calculated as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) the result of Underlying Value<sub>1</sub> divided by Underlying Value<sub>2</sub>, exponentiated to the power of a number equal to 1 divided by x, plus Margin. Underlying Value<sub>2</sub> reflects a specified value or the Underlying Value<sub>xy</sub> on the Underlying Observation Date<sub>2</sub> and Underlying Value<sub>1</sub> reflects the Underlying Value<sub>xy</sub> on the Underlying Observation Date<sub>1</sub>. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) may therefore be used as a component in this calculation and may therefore affect the Linked Interest Rate, subject to the Cap, Floor and the exponential part of the formula.*

#### 14.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Annualised Performance Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Min} \left( \text{Cap}, \text{Max} \left( \text{Floor}, \left( \frac{\text{Underlying Value}_1}{\text{Underlying Value}_2} \right)^{\frac{1}{x}} + \text{Margin} \right) \right)$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Annualised Performance Interest is applicable as a relevant Standard Interest Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Annualised Performance Interest Payoff Condition 14.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Interest Payoff<sub>x</sub>.

#### 14.2 Relevant Observation

Where, in relation to these Standard Annualised Performance Interest Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of the Underlying Value<sub>1</sub> and/or the Underlying Value<sub>2</sub>, references in these Standard Annualised Performance Interest Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Annualised Performance Interest Payoff Condition 14.3 below) shall, for the purposes of determining the

- (g) in respect of an Underlying which is a Share, the Share Price.

For the avoidance of doubt, the Underlying Value may have a positive value, negative value or may be equal to zero (0) and will be expressed without regard to the currency of denomination of the Underlying Value (if any).

**Underlying Value<sub>xy</sub>** means:

- (a) the Underlying Value of the Underlying; or
- (b) if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the applicable Final Terms:

**Underlying Value<sub>2</sub>** means the level, percentage, number, price or amount specified in the applicable Final Terms or, if no such level, percentage, number, price or amount is so specified, the Underlying Value<sub>xy</sub> on the Underlying Observation Date<sub>2</sub> or, where Underlying Value<sub>2</sub> is specified in the applicable Final Terms as being determined by reference to a Relevant Observation, the Underlying Value<sub>xy</sub> determined in accordance with Standard Annualised Performance Interest Payoff Condition 14.2 below.

$\left(\frac{\text{Underlying Value}_1}{\text{Underlying Value}_2}\right)^{\frac{1}{x}}$  means the result, exponentiated to the power of a number equal to 1 divided by x, of the Underlying Value<sub>1</sub> divided by the Underlying Value<sub>2</sub>.

**x** means, with respect to an Interest Accrual Period, a number specified with respect to such Interest Accrual Period in the applicable Final Terms.

## Standard Payoff Conditions: Part A: Chapter 15: Standard Rainbow Performance Interest

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Annualised Performance Interest to be applicable.*

*The following terms and conditions (the **Standard Rainbow Performance Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Rainbow Performance Interest (the **Standard Rainbow Performance Interest**) is applicable. These Standard Rainbow Performance Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Rainbow Performance Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 15 STANDARD RAINBOW PERFORMANCE INTEREST

*The Linked Interest Rate for each Interest Accrual Period is calculated as (a) if the Rainbow Performance is within the applicable Range on each relevant Interest Observation Date, the greater of the Rainbow Performance and the Floor or (b) if the Rainbow Performance is not within the applicable Range on any relevant Interest Observation Date, the Fixed Percentage.*

*The Rainbow Performance is the sum of the performances of all Underlying<sub>i</sub>, with each performance weighed in accordance with its rank (from best to worst). The performance for each Underlying<sub>i</sub> or, as applicable, each Underlying<sub>ix</sub> and Underlying<sub>iy</sub>, is expressed as the Underlying Value<sub>i</sub> on the Underlying Observation Date<sub>1</sub> divided by the Underlying Value<sub>i</sub> on the Underlying Observation Date<sub>2</sub>, minus one.*

*Underlying Value<sub>2i</sub> reflects a specified value or the Underlying Value<sub>i</sub> on the Underlying Observation Date<sub>2</sub> and Underlying Value<sub>1i</sub> reflects the Underlying Value<sub>i</sub> on the Underlying Observation Date<sub>1</sub>. The Underlying Value<sub>i</sub> is calculated by reference to the price, level or rate of the relevant Underlying<sub>i</sub> or, if a combination of an Underlying<sub>ix</sub> and an Underlying<sub>iy</sub> is specified in the Final Terms is calculated by reference to the price, level or rate of the relevant Underlying<sub>ix</sub> and of the relevant Underlying<sub>iy</sub> at the relevant time, as applicable. The value of the Underlying<sub>i</sub> or, as applicable, each Underlying<sub>ix</sub> and Underlying<sub>iy</sub>, may therefore be used as a component in this calculation and may therefore affect the Linked Interest Rate.*

#### 15.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Rainbow Performance Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:
  - (i) If the Rainbow Performance is within the Range on each Interest Observation Date: Max [Floor; Rainbow Performance]
  - (ii) Otherwise: Fixed Percentage

*The following terms and conditions (the **Standard Fixed Range Accrual Basket Performance Interest Payoff Conditions**) will apply to the Securities if the applicable Final Terms indicate that Standard Fixed Range Accrual Basket Performance Interest (the **Standard Fixed Range Accrual Basket Performance Interest**) is applicable. These Standard Fixed Range Accrual Basket Performance Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms not defined in these Standard Fixed Range Accrual Basket Performance Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

## **16 STANDARD FIXED RANGE ACCRUAL BASKET PERFORMANCE INTEREST**

*The following terms and conditions (the **Standard Fixed Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Fixed Redemption (the **Standard Fixed Redemption**) is applicable. These Standard Fixed Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Fixed Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### **1 STANDARD FIXED REDEMPTION**

*The Redemption Payoff is calculated as equal to the Fixed Percentage and is not affected by the value of any underlying.*

#### **1.1 Redemption Payoff**

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Fixed Redemption is applicable shall be equal to the Fixed Percentage.
- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Fixed Redemption is applicable as a relevant Standard Redemption Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard Fixed Redemption Payoff Condition 1.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Redemption Payoff<sub>x</sub>.

## Standard Payoff Conditions: Part B: Chapter 2: Standard Floater Redemption

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Floater Redemption to be applicable.*

*The following terms and conditions (the **Standard Floater Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Floater Redemption (the **Standard Floater Redemption**) is applicable. ### 2 STANDARD FLOATER REDEMPTION

*The Redemption Payoff is calculated on the Redemption Determination Date as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) Margin added to the result of Leverage multiplied by Underlying Value<sub>xy</sub>. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) will be used as a component in this calculation and may therefore affect the Redemption Payoff, subject to the Leverage, the Margin, the Cap and the Floor.*

#### 2.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Floater Redemption is applicable shall be calculated on such Redemption Determination Date as follows:

$$\text{Leverage}_1 \times (\text{Min}(\text{Cap}, \text{Max}(\text{Floor}, \text{Leverage}_2 \times \text{Underlying Value}_{xy} + \text{Margin})))$$

and expressed as a percentage.

- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Floater Redemption is applicable as a relevant Standard Redemption Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard Floater Redemption Payoff Condition 2.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Redemption Payoff<sub>x</sub>.

For the purposes of these Standard Floater Redemption Payoff Conditions, the following terms shall have the following meanings:

**Leverage<sub>1</sub>** or **Leverage<sub>2</sub>** means the percentage or number specified as such in the applicable Final Terms. For the avoidance of doubt, this may have a positive or a negative value or, in the case of a number, may be one (1).

**Redemption Determination Date** has the meaning set out in Annex 9 (*Redemption Method Conditions*).

**Redemption Observation Date** means, with respect to a Redemption Determination Date, each date specified as such in the applicable Final Terms or, alternatively, each date falling such number of Business Days specified in the applicable Final Terms immediately preceding the Redemption Determination Date, and each such date shall be deemed to be an 'Observation Date' for the purposes of the relevant Asset Conditions.

**Underlying Value** means, with respect to a Redemption Observation Date or a Relevant Timing, as the case may be:

**Underlying Value<sub>xy</sub>** means:

- (a) the Underlying Value of the Underlying; or
- (b) if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the applicable Final Terms:
  - the sum of the Underlying Value of such Underlying<sub>x</sub> and the Underlying Value of such Underlying<sub>y</sub>, if "Addition" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or
  - the algebraical difference between the Underlying Value of such Underlying<sub>x</sub> and the Underlying Value of such Underlying<sub>y</sub>, if "Subtraction" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or

- the product of the Underlying Value of such Underlying<sub>x</sub> by the Underlying Value of such Underlying<sub>y</sub>, if "Multiplication" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>x</sub> and Underlying<sub>y</sub>; or

### Standard Payoff Conditions: Part B: Chapter 3: Standard Strangle Redemption

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Strangle Redemption to be applicable.*

*The following terms and conditions (the **Standard Strangle Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Strangle Redemption (the **Standard Strangle Redemption**) is applicable. These Standard Strangle Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Strangle Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

#### 3 STANDARD STRANGLE REDEMPTION

*The Redemption Payoff is calculated on the Redemption Determination Date as the lesser of (a) Cap and (b) the Absolute Value of the result of Margin added to the sum of the individual products of Leverage<sub>i</sub> and the Underlying Value of each Underlying<sub>i</sub>. The Underlying Value<sub>i</sub> is calculated by reference to the price, level or rate of the relevant Underlying<sub>i</sub> or, if a combination of an Underlying<sub>ix</sub> and an Underlying<sub>iy</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the relevant Underlying<sub>ix</sub> and of the relevant Underlying<sub>iy</sub> at the relevant time, as applicable. The sum of the value of various Underlyings each multiplied by the relevant leverage will be used as a component in this calculation and each may therefore affect the Redemption Payoff, subject to the Margin, the effect of taking an Absolute Value of part of the formula and the Cap.*

##### 3.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Strangle Redemption is applicable shall be calculated on such Redemption Determination Date as follows:

$$\text{Min}(\text{Cap}, \text{Absolute Value} (\text{Margin} + \sum (\text{Leverage}_i \times \text{Underlying Value}_i)))$$

and expressed as a percentage.

- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Strangle Redemption is applicable as a relevant Standard Redemption Payoff<sub>x</sub> as applicable, for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard Strangle Redemption Payoff Condition 3.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Redemption Payoff<sub>x</sub>.

##### 3.2 Relevant Observation

Where, in relation to these Standard Strangle Redemption Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of any Underlying Value<sub>i</sub>, references in these Standard Strangle Redemption Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Strangle Redemption Payoff Condition 3.3 below) shall, for the purposes of determining such Underlying Value<sub>i</sub>, be deemed to be references to the applicable Relevant Observation. For the purposes of these Standard Strangle Redemption Payoff Conditions:

### 3.3 Definitions and interpretation

For the purposes of these Standard Strangle Redemption Payoff Conditions, the following terms shall have the following meanings:

**Absolute Value** means, in respect of a number, its non-negative value without regard to its sign. For example, the Absolute Value of -10 is 10.

**Leverage<sub>i</sub>** means the percentage or number specified as such in the applicable Final Terms and corresponding to the relevant Underlying<sub>i</sub> (or, as applicable, the relevant Underlying<sub>ix</sub> and Underlying<sub>iy</sub>). For the avoidance of doubt, this may have a positive or a negative value or, in the case of a number, may be one (1).

**Redemption Determination Date** has the meaning set out in Annex 9 (*Redemption Method Conditions*).

**Redemption Observation Date** means, with respect to a Redemption Determination Date and an Underlying, each date specified as such in the applicable Final Terms or, alternatively, each date falling such number of Business Days specified in the applicable Final Terms immediately preceding the Redemption Determination Date, and each such date shall be deemed to be an 'Observation Date' for the purposes of the relevant Asset Conditions.

**Underlying<sub>i</sub>** means an Underlying corresponding to an *i*, as specified in the applicable Final Terms. For the avoidance of doubt, all Underlying<sub>i</sub>, Underlying<sub>ix</sub> and Underlying<sub>iy</sub> together constitute a Basket or a Multi-Asset Basket, as applicable (each as defined in the applicable Asset Conditions).

**Underlying<sub>ix</sub>** or **Underlying<sub>iy</sub>** means an Underlying bearing the subscript "x" or an Underlying bearing the subscript "y" respectively, each corresponding to an *i*, specified as such in the applicable Final Terms, if applicable. For the avoidance of doubt, all Underlying<sub>i</sub>, Underlying<sub>ix</sub> and Underlying<sub>iy</sub> together constitute a Basket or a Multi-Asset Basket, as applicable (each as defined in the applicable Asset Conditions).

**Underlying Value** means, with respect to a Redemption Observation Date or a Relevant Timing, as the case may be:

- (b) in respect of an Underlying, which is a Benchmark Rate, the Benchmark Rate Level;
- (c) in respect of an Underlying which is an Index or a Proprietary Index, the Index Level;
- (d) in respect of an Underlying, which is an Inflation Index, the Inflation Index Level;
- (e) in respect of an Underlying, which is a FX Rate, the relevant rate of exchange;
- (f) in respect of an Underlying which is an ETF, the ETF Closing Price; or
- (g) in respect of an Underlying which is a Share, the Share Price.

For the avoidance of doubt, the Underlying Value may have a positive value, negative value or may be equal to zero (0) and will be expressed without regard to the currency of denomination of the Underlying Value (if any).

**Underlying Value<sub>i</sub>** means:

- (a) the Underlying Value of an Underlying<sub>i</sub>; or

- (b) if a combination of an Underlying<sub>ix</sub> and an Underlying<sub>iy</sub> is specified in the applicable Final Terms for the same i:
- the sum of the Underlying Value of such Underlying<sub>ix</sub> and the Underlying Value of such Underlying<sub>iy</sub>, if "Addition" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>ix</sub> and Underlying<sub>iy</sub>; or
  - the algebraical difference between the Underlying Value of such Underlying<sub>ix</sub> and the Underlying Value of such Underlying<sub>iy</sub>, if "Subtraction" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>ix</sub> and Underlying<sub>iy</sub>; or
  - the product of the Underlying Value of such Underlying<sub>ix</sub> by the Underlying Value of such Underlying<sub>iy</sub>, if "Multiplication" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>ix</sub> and Underlying<sub>iy</sub>; or
  - the quotient of the Underlying Value of such Underlying<sub>ix</sub> by the Underlying Value of such Underlying<sub>iy</sub>, if "Division" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying<sub>ix</sub> and Underlying<sub>iy</sub>.

$\Sigma$  means the sum of the values, which follow in brackets.

$\Sigma$  (**Leverage<sub>i</sub> x Underlying Value<sub>i</sub>**) means the sum of the individual products of the Underlying Value<sub>i</sub> and the Leverage<sub>i</sub> for each i.

## Standard Payoff Conditions: Part B: Chapter 4: Standard Participation Redemption

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Participation Redemption to be applicable.*

*The following terms and conditions (the **Standard Participation Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Participation Redemption (the **Standard Participation Redemption**) is applicable. These Standard Participation Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Participation Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 4 STANDARD PARTICIPATION REDEMPTION

*The Redemption Payoff is calculated on the Redemption Determination Date as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) Leverage multiplied by the sum of Margin and the result of the  $Underlying_{Observation1}$  divided by the  $Underlying_{Observation2}$ . The  $Underlying_{Observation1}$  reflects the Underlying Value<sub>xy</sub> on the Underlying Observation Date<sub>1</sub> and the  $Underlying_{Observation2}$  reflects a specified value or the Underlying Value<sub>xy</sub> on the Underlying Observation Date<sub>2</sub>. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) observed on each of the relevant days may each be used as a component in this calculation and may therefore affect the Redemption Payoff, subject to the Leverage, the Margin, the Cap and the Floor.*

#### 4.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Participation Redemption is applicable shall be calculated on such Redemption Determination Date as follows:

$$\text{Min} \left( \text{Cap}, \text{Max} \left( \text{Floor}, \text{Leverage} \times \left( \frac{\text{Underlying}_{\text{Observation1}}}{\text{Underlying}_{\text{Observation2}}} + \text{Margin} \right) \right) \right)$$

and expressed as a percentage.

- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Participation Redemption is applicable as a relevant Standard Redemption Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard Participation Redemption Payoff Condition 4.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Redemption Payoff<sub>x</sub>.

#### 4.2 Relevant Observation

Where, in relation to these Standard Participation Redemption Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of the  $Underlying_{\text{Observation1}}$  and/or the  $Underlying_{\text{Observation2}}$ , references in these Standard Participation Redemption Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Participation Redemption Payoff

Condition 4.3 below) shall, for the purposes of determining the Underlying<sub>Observation1</sub> and/or the Underlying<sub>Observation2</sub>, as the case may be, be deemed to be references to the applicable Relevant Observation.

#### 4.3 Definitions and interpretation

For the purposes of these Standard Participation Redemption Payoff Conditions, the following terms shall have the following meanings:

## Standard Payoff Conditions: Part B: Chapter 5: Standard Participation Basket Redemption

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Participation Basket Redemption to be applicable.*

*The following terms and conditions (the **Standard Participation Basket Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Participation Basket Redemption (the **Standard Participation Basket Redemption**) is applicable. ### 5 STANDARD PARTICIPATION BASKET REDEMPTION

*The Redemption Payoff is calculated on the Redemption Determination Date as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) Global Leverage multiplied by the result of Margin added to the result of Basket Value<sub>1</sub> divided by Basket Value<sub>2</sub>. The Basket Value on any Redemption Observation Date is the sum of the individual products of Leverage<sub>i</sub> and the Underlying Value of each Underlying<sub>i</sub> observed on such date where the Underlying Value reflects the price, level or rate of the relevant Underlying at the relevant time. The sum of the value of each of the various Underlyings each observed on each of the relevant days may therefore be used as a component in this calculation and each may therefore affect the Redemption Payoff, subject to the Global Leverage, the Margin, the Cap and the Floor.*

#### 5.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Participation Basket Redemption is applicable shall be calculated on such Redemption Determination Date as follows:

$$\text{Min} \left( \text{Cap}, \text{Max} \left( \text{Floor}, \text{Global Leverage} \times \left( \frac{\text{Basket Value}_1}{\text{Basket Value}_2} + \text{Margin} \right) \right) \right)$$

and expressed as a percentage.

- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Participation Basket Redemption is applicable as a relevant Standard Redemption Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard Participation Basket Redemption Payoff Condition 5.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Redemption Payoff<sub>x</sub>.

#### 5.2 Relevant Observation

Where, in relation to these Standard Participation Basket Redemption Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of any Underlying(s) in the Basket and in respect of the Basket Value<sub>1</sub> and/or the Basket Value<sub>2</sub>, references in these Standard Participation Basket Redemption Payoff Conditions to 'Underlying Value' (save for the

definition of such term in Standard Participation Basket Redemption Payoff Condition 5.3 below) shall, for the purposes of determining the Underlying Value of any such Underlying(s) and in respect of the Basket Value<sub>1</sub> and/or the Basket Value<sub>2</sub>, as the case may be, be deemed to be references to the applicable Relevant Observation.

**Underlying Value<sub>i</sub>** means the Underlying Value of an Underlying.

$\Sigma$  means the sum of the values, which follow in brackets.

$\Sigma (\text{Leverage}_i \times \text{Underlying Value}_i)$  means the sum of the individual products of the Underlying Value<sub>i</sub> and the Leverage<sub>i</sub> for each i.

## **Standard Payoff Conditions: Part B: Chapter 6: Standard Multi Fixed Digital Redemption**

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Multi Fixed Digital Redemption to be applicable.*

*The following terms and conditions (the **Standard Multi Fixed Digital Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Multi Fixed Digital Redemption (the **Standard Multi Fixed Digital Redemption**) is applicable. These Standard Multi Fixed Digital Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Multi Fixed Digital Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### **6 STANDARD MULTI FIXED DIGITAL REDEMPTION**

*The Redemption Payoff will be equal to a fixed percentage calculated on the Redemption Determination Date which will differ depending on whether the Underlying Value is within one of the applicable ranges of Underlying Values<sub>xy</sub> specified in the Final Terms or which of such ranges of Underlying Values<sub>xy</sub> specified in the Final Terms, the Underlying Value falls within on each or any, as the case may be, relevant Redemption Observation Dates falling during the relevant Redemption Observation Period. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable. The value of the Underlying will therefore affect which fixed percentage is used to calculate the Redemption Payoff applicable to the Securities.*

#### **6.1 Redemption Payoff**

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Multi Fixed Digital Redemption is applicable shall be calculated on such Redemption Determination Date as:
  - (i) if the Underlying Value is within the Range<sub>A</sub> on, if Any Dates is specified in the applicable Final Terms, any Redemption Observation Date falling within the Redemption Observation Period or, if Specific Dates is specified in the applicable Final Terms, on each Redemption Observation Date falling during the Redemption Observation Period, equal to the Fixed Percentage<sub>A</sub>; or
  - (ii) if the Underlying Value is within the Range<sub>B</sub> on, if Any Dates is specified in the applicable Final Terms, any Redemption Observation Date falling within the Redemption Observation Period or, if Specific Dates is specified in the applicable Final Terms, on each Redemption Observation Date falling during the Redemption Observation Period, equal to the Fixed Percentage<sub>B</sub>; or
  - (iii) if the Underlying Value is within the Range<sub>C</sub> on, if Any Dates is specified in the applicable Final Terms, any Redemption Observation Date falling within the Redemption Observation Period or, if Specific Dates is specified in the applicable Final Terms, on each Redemption Observation Date falling during the Redemption Observation Period, equal to the Fixed Percentage<sub>C</sub>; or

  - (v) if the Underlying Value is within the Range<sub>E</sub> on, if Any Dates is specified in the applicable Final Terms, any Redemption Observation Date falling within the Redemption Observation Period or, if Specific Dates is specified in the applicable Final Terms, on each Redemption Observation Date falling during the Redemption Observation Period, equal to the Fixed Percentage<sub>E</sub>; and
  - (vi) otherwise, equal to the Fixed Percentage<sub>F</sub>.
- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Multi Fixed Digital Redemption is applicable as a relevant Standard Redemption Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard Multi Fixed Digital Redemption Payoff Condition 6.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Redemption Payoff<sub>x</sub>.

## 6.2 Relevant Observation

Where, in relation to these Standard Multi Fixed Digital Redemption Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of the Underlying Value, references in these Standard Multi Fixed Digital Redemption Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Multi Fixed Digital Redemption Payoff Condition 6.3 below) shall, for the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation.

## 6.3 Definitions and interpretation

For the purposes of these Standard Multi Fixed Digital Redemption Payoff Conditions, the following terms shall have the following meanings:

**Fixed Percentage<sub>A</sub>, Fixed Percentage<sub>B</sub>, Fixed Percentage<sub>C</sub>, Fixed Percentage<sub>D</sub>, Fixed Percentage<sub>E</sub>, or Fixed Percentage<sub>F</sub>** means the percentage specified as such in the applicable Final Terms.

## Standard Payoff Conditions: Part B: Chapter 7: Standard Digital to Participation Redemption

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Digital to Participation Redemption to be applicable.*

*The following terms and conditions (the **Standard Digital to Participation Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Digital to Participation Redemption (the **Standard Digital to Participation Redemption**) is applicable. These Standard Digital to Participation Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Digital to Participation Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 7 STANDARD DIGITAL TO PARTICIPATION REDEMPTION

*The Redemption Payoff is calculated on the Redemption Determination Date as either (a) if the Underlying Value<sub>xy</sub> is within the relevant Range on each Redemption Observation Date falling within the Redemption Observation Period, being Fixed Percentage or (b) otherwise, being the lesser of (i) Cap and (ii) the greater of (A) Floor and (B) Leverage multiplied by the sum of Margin and the result of Underlying<sub>Observation1</sub> divided by Underlying<sub>Observation2</sub>. Underlying<sub>Observation1</sub> reflects a specified value or the Underlying Value<sub>xy</sub> or the Underlying Value<sub>z</sub> on the Underlying Observation Date<sub>1</sub> for the relevant Interest Accrual Period and Underlying<sub>Observation2</sub> reflects a specified value or the Underlying Value<sub>xy</sub> or the Underlying Value<sub>z</sub> on the Underlying Observation Date<sub>2</sub> for the relevant Interest Accrual Period where (i) the Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying<sub>xy</sub> or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable and (ii) the Underlying Value<sub>z</sub> is calculated by reference to the price, level or rate of the Underlying<sub>z</sub> at the relevant time. The value of the Underlying<sub>xy</sub> (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) and, as applicable, the relevant Underlying<sub>z</sub> may therefore affect which rate is used to calculate the Redemption Payoff applicable to the Securities and the value of Underlying<sub>xy</sub> (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) and, as applicable, the relevant Underlying<sub>z</sub> observed on each of the relevant days may each be used as a component in the calculation of one of the rates, if applicable, subject to the Leverage, the Margin, the Cap and the Floor.*

#### 7.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Digital to Participation Redemption is applicable shall be calculated on such Redemption Determination Date as:
  - (i) if the Underlying Value<sub>xy</sub> is within Range<sub>A</sub> on each Redemption Observation Date falling within the Redemption Observation Period, equal to Fixed Percentage<sub>1</sub>; or
  - (ii) if the Underlying Value<sub>xy</sub> is within Range<sub>B</sub> on each Redemption Observation Date falling within the Redemption Observation Period, equal to Fixed Percentage<sub>2</sub>; or
  - (iii) if the Underlying Value<sub>xy</sub> is within Range<sub>C</sub> on each Redemption Observation Date falling within the Redemption Observation Period, equal to Fixed Percentage<sub>3</sub>; or
  - (iv) if the Underlying Value<sub>xy</sub> is within Range<sub>D</sub> on each Redemption Observation Date falling within the Redemption Observation Period, equal to Fixed Percentage<sub>4</sub>; or

- (v) if the Underlying Value<sub>xy</sub> is within Range<sub>E</sub> on each Redemption Observation Date falling within the Redemption Observation Period, equal to Fixed Percentage<sub>5</sub>; or
- (vi) if the Underlying Value<sub>xy</sub> is within Range<sub>F</sub> on each Redemption Observation Date falling within the Redemption Observation Period, equal to Fixed Percentage<sub>6</sub>; or
- (vii) otherwise, equal to:

$$\text{Min} \left( \text{Cap}, \text{Max} \left( \text{Floor}, \text{Leverage} \times \left( \frac{\text{Underlying}_{\text{Observation}_1}}{\text{Underlying}_{\text{Observation}_2}} + \text{Margin} \right) \right) \right)$$

and expressed as a percentage.

- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Digital to Participation Redemption is applicable as a relevant Standard Redemption Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard Digital to Participation Redemption Payoff Condition 7.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Redemption Payoff<sub>x</sub>.

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Multi Fixed Basket Redemption to be applicable.*

*The following terms and conditions (the **Standard Multi Fixed Basket Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Multi Fixed Basket Redemption (the **Standard Multi Fixed Basket Redemption**) is applicable. These Standard Multi Fixed Basket Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Multi Fixed Basket Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### **8 STANDARD MULTI FIXED BASKET REDEMPTION**

*The Redemption Payoff is calculated on the Redemption Determination Date as (a) if the Underlying Value of each Underlying<sub>i</sub> is within the Underlying Value<sub>i</sub> Range on the relevant Redemption Observation Date, being Fixed Percentage<sub>1</sub> or (b) if the Underlying Value of any Underlying<sub>j</sub> is within the Underlying Value<sub>j</sub> Range on the relevant Redemption Observation Date, being Fixed Percentage<sub>2</sub> or (c) otherwise, being Fixed Percentage<sub>3</sub>. The Underlying Value reflects the price, level or rate of the relevant Underlying at the relevant time. The value of the various Underlying<sub>i</sub> or Underlying<sub>j</sub> may each therefore affect which fixed percentage is used to calculate the Redemption Payoff applicable to the Securities.*

#### **8.1 Redemption Payoff**

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Multi Fixed Basket Redemption is applicable shall be calculated on such Redemption Determination Date as follows:

below) shall, for the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation.

### 8.3 Definitions and interpretation

**Fixed Percentage<sub>1</sub>, Fixed Percentage<sub>2</sub> or Fixed Percentage<sub>3</sub>** means the percentage specified as such in the applicable Final Terms.

## Standard Payoff Conditions: Part B: Chapter 9: Standard ABF Redemption

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard ABF Redemption to be applicable.*

*The following terms and conditions (the **Standard ABF Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard ABF Redemption (the **Standard ABF Redemption**) is applicable. These Standard ABF Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard ABF Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 9 STANDARD ABF REDEMPTION

*The Redemption Payoff is calculated as one (1), minus Global Leverage multiplied by the sum of (i) the result of Accrual Factor<sub>1</sub> multiplied by Leverage<sub>1</sub> and (ii) the result of Accrual Factor<sub>2</sub> multiplied by Leverage<sub>2</sub>.*

*An Accrual Factor is calculated by reference to, among other things, the relevant Underlying Value<sub>xy</sub>. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable. The value of the Underlying may therefore affect the Redemption Payoff since the value of the Underlying affects the value of the Accrual Factor, which is used as a component of the formula used to calculate the Redemption Payoff.*

#### 9.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Observation Date for Securities for which Standard ABF Redemption is applicable shall be calculated on such Redemption Determination Date as follows:

$$1 - \left( \text{Global Leverage} \left( (\text{Leverage}_1 \times \text{Accrual Factor}_1) + (\text{Leverage}_2 \times \text{Accrual Factor}_2) \right) \right)$$

and expressed as a percentage.

- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard ABF Redemption is applicable as a relevant Standard Redemption Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard ABF Redemption Payoff Condition 9.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Redemption Payoff<sub>x</sub>.

#### 9.2 Relevant Observation

Where, in relation to these Standard ABF Redemption Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of the Underlying Value, references in these Standard ABF Redemption Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard ABF Redemption Payoff Condition 9.3 below) shall, for the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation.

### 9.3 Definitions and interpretation

For the purposes of these Standard ABF Redemption Payoff Conditions, the following terms shall have the following meanings:

**Accrual Factor<sub>1</sub>** means, with respect to a Redemption Observation Period, the number of Range Accrual Days in the relevant Redemption Observation Period in respect of which the Underlying Value<sub>xy</sub> was within Range<sub>a</sub>, divided by the total number of Range Accrual Days in such Redemption Observation Period, in each case as determined by the Calculation Agent. For the purposes hereof, (and where Range Accrual Days are expressed in the applicable Final Terms as falling on calendar days which may not be Business Days) the Underlying Value<sub>xy</sub> in respect of any Range Accrual Day which is not a Business Day shall be deemed to be the Underlying Value<sub>xy</sub> in respect of either the immediately preceding or the immediately following Business Day, as specified in the applicable Final Terms.

**Accrual Factor<sub>2</sub>** means, with respect to a Redemption Observation Period, the number of Range Accrual Days in the relevant Redemption Observation Period in respect of which the Underlying Value<sub>xy</sub> was within Range<sub>b</sub>, divided by the total number of Range Accrual Days in such Redemption Observation Period, in each case as determined by the Calculation Agent. For the purposes hereof, (and where Range Accrual Days are expressed in the applicable Final Terms as falling on calendar days which may not be Business Days) the Underlying Value<sub>xy</sub> in respect of any Range Accrual Day which is not a Business Day shall be deemed to be the Underlying Value<sub>xy</sub> in respect of either the immediately preceding or the immediately following Business Day, as specified in the applicable Final Terms.

**Commencement Date** means the Issue Date or such other date falling prior to the Issue Date and specified as such in the applicable Final Terms.

**Leverage<sub>1</sub>** or **Leverage<sub>2</sub>** means the percentage or number specified as such in the applicable Final Terms. For the avoidance of doubt, this may have a positive or a negative value or, in the case of a number, may be one (1).

**Lower Range Accrual Level** means the percentage or number specified as such in the applicable Final Terms.

**Range** means any one (only) of Range<sub>1</sub>, Range<sub>2</sub>, Range<sub>3</sub>, Range<sub>4</sub>, Range<sub>5</sub> or Range<sub>6</sub> as specified in the applicable Final Terms.

**Range<sub>a</sub>** means the relevant Range specified as such in the applicable Final Terms.

**Range<sub>b</sub>** means the relevant Range specified as such in the applicable Final Terms.

**Range<sub>1</sub>** means that on the relevant Range Accrual Day the Underlying Value<sub>xy</sub> is greater than or equal to the Lower Range Accrual Level and less than or equal to the Upper Range Accrual Level.

**Range<sub>2</sub>** means that on the relevant Range Accrual Day the Underlying Value<sub>xy</sub> is greater than the Lower Range Accrual Level and less than the Upper Range Accrual Level.

**Range<sub>3</sub>** means that on the relevant Range Accrual Day the Underlying Value<sub>xy</sub> is greater than or equal to the Lower Range Accrual Level and less than the Upper Range Accrual Level.

**Range<sub>4</sub>** means that on the relevant Range Accrual Day the Underlying Value<sub>xy</sub> is greater than the Lower Range Accrual Level and less than or equal to the Upper Range Accrual Level.

**Range<sub>5</sub>** means that on the relevant Range Accrual Day the Underlying Value<sub>xy</sub> is less than the Lower Range Accrual Level or greater than the Upper Range Accrual Level.

**Range<sub>6</sub>** means that on the relevant Range Accrual Day the Underlying Value<sub>xy</sub> is less than or equal to the Lower Range Accrual Level or greater than or equal to the Upper Range Accrual Level.

**Range Accrual Day** means, with respect to a Redemption Observation Period, each date specified as a Range Accrual Day in the applicable Final Terms, which may be each Business Day, each calendar day, each calendar day or Business Day within a week, each calendar day or Business Day within a month, or any other day, falling within such Redemption Observation Period. Each Range Accrual Day shall be deemed to be an 'Observation Date' for the purposes of the relevant Asset Conditions.

## Standard Payoff Conditions: Part B: Chapter 10: Standard Rainbow Performance Redemption

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Rainbow Performance Redemption to be applicable.*

*The following terms and conditions (the **Standard Rainbow Performance Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Rainbow Performance Redemption (the **Standard Rainbow Performance Redemption**) is applicable. These Standard Rainbow Performance Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Standard Rainbow Performance Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 10 STANDARD RAINBOW PERFORMANCE REDEMPTION

*The Redemption Payoff is calculated on the Redemption Determination Date as (a) if the Rainbow Performance is within the applicable Range on each relevant Redemption Observation Date, the greater of the Rainbow Performance and the Floor or (b) if the Rainbow Performance is not within the applicable Range on any relevant Redemption Observation Date, the Fixed Percentage.*

*The Rainbow Performance is the sum of the performances of all Underlying<sub>i</sub>, with each performance weighed in accordance with its rank (from best to worst). The performance for each Underlying<sub>i</sub> is expressed as the Underlying Value<sub>i</sub> on the Underlying Observation Date<sub>1</sub> divided by Underlying Value<sub>i</sub> on the Underlying Observation Date<sub>2</sub>, minus one.*

*Underlying Value<sub>2i</sub> reflects a specified value or the Underlying Value<sub>i</sub> on the Underlying Observation Date<sub>2</sub> and Underlying Value<sub>1i</sub> reflects the Underlying Value<sub>i</sub> on the Underlying Observation Date<sub>1</sub>, where the Underlying Value<sub>i</sub> reflects the price, level or rate of the relevant Underlying<sub>i</sub> at the relevant time. The value of each Underlying<sub>i</sub> will therefore affect the Redemption Payoff applicable to the Securities.*

#### 10.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Rainbow Performance Redemption is applicable shall be calculated on such Redemption Determination Date as follows:
- (b) If the Rainbow Performance is within the Range on each Redemption Observation Date: Max [Floor; Rainbow Performance]  
 Otherwise: Fixed Percentage  
 and expressed as a percentage.
- (c) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Rainbow Performance Redemption is applicable as a relevant Standard Redemption Payoff<sub>x</sub>, for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard Rainbow Performance Redemption Payoff Condition 10.1(a) shall be used in the relevant Combination Payoff Condition as the relevant Standard Redemption Payoff<sub>x</sub>.

## 10.2 Relevant Observation

Where, in relation to these Standard Rainbow Performance Redemption Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable in respect of Underlying Value<sub>1i</sub> and/or Underlying Value<sub>2i</sub>, references in these Standard Rainbow Performance Redemption Payoff Conditions to 'Underlying Value' (save for the definition of such term in Standard Rainbow Performance Redemption Payoff Condition 10.3 below) shall, for the purposes of determining Underlying Value<sub>1i</sub> and/or Underlying Value<sub>2i</sub>, as the case may be, be deemed to be references to the applicable Relevant Observation.

## 10.3 Definitions and interpretation

For the purposes of these Standard Rainbow Performance Redemption Payoff Conditions, the following terms shall have the following meanings:

**P(i)** means the performance of Underlying Value<sub>i</sub> between the Underlying Observation Date<sub>2</sub> and the Underlying Observation Date<sub>1</sub> calculated as:

For the avoidance of doubt, the Underlying Value may have a positive value, negative value or may be equal to zero (0) and will be expressed without regard to the currency of denomination of the Underlying Value (if any).

**Underlying Value<sub>i</sub>** means the Underlying Value of Underlying<sub>i</sub>.

**Underlying Value<sub>1i</sub>** means Underlying Value<sub>i</sub> on the relevant Underlying Observation Date<sub>1</sub>.

**Underlying Value<sub>2i</sub>** means the level, percentage, number, price or amount specified in the applicable Final Terms or, if no such level, percentage, number, price or amount is specified, Underlying Value<sub>i</sub> on the Underlying Observation Date<sub>2</sub>.

**Standard Payoff Conditions: Part B:****Chapter 11: Standard Digital/Basket Performance Redemption**

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Digital/Basket Performance Redemption to be applicable.*

*The following terms and conditions (the **Standard Digital/Basket Performance Redemption Payoff Conditions**) will apply to the Securities if the applicable Final Terms indicate that Standard Digital/Basket Performance Redemption (the **Standard Digital/Basket Performance Redemption**) is applicable. These Standard Digital/Basket Performance Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms not defined in these Standard Digital/Basket Performance Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

**11 STANDARD DIGITAL/BASKET PERFORMANCE REDEMPTION**

*The Redemption Payoff is calculated on the Redemption Determination Date:*

- *where  $Combination_1$  is within  $Range_A$  on each of the Performance Observation Dates (if Specified Dates is specified as applicable in the applicable Final Terms) or at any time during the Performance Observation Period (if American is specified as applicable in the applicable Final Terms), as the lesser of (i)  $Cap_A$  and (ii) the greater of (A)  $Floor_A$  and (B)  $Global\ Leverage_A$  multiplied by the sum of  $Margin_A$  and  $Combination_2$ ;*
- *where  $Combination_1$  is within  $Range_B$  on each of the Performance Observation Dates (if Specified Dates is specified as applicable in the applicable Final Terms) or at any time during the Performance Observation Period (if American is specified as applicable in the applicable Final Terms), as the lesser of (i)  $Cap_B$  and (ii) the greater of (A)  $Floor_A$  and (B)  $Global\ Leverage_A$  multiplied by the sum of  $Margin_B$  and  $Combination_3$ ;*
- *in other cases as a fixed percentage.*

*Each of the  $Combinations_1$ ,  $2$  and  $3$  is determined by reference to the Best of Performance, Weighted Average Performance, Rainbow Performance, Absolute Value Performance or Worst of Performance depending on the choice specified in the applicable Final Terms. Performance is determined by reference to, among other things, the applicable  $P(i)$  value. The  $P(i)$  value means the performance of the Underlying Value<sub>*i*</sub> between the Underlying Observation Date<sub>*1*</sub> and the Underlying Observation Date<sub>*2*</sub> (based on the Underlying Value<sub>*i*</sub> on the Underlying Observation Date<sub>*2*</sub>, for the purposes of  $Combination_1$  and  $Combination_2$ , and based on the Underlying Value<sub>*i*</sub> observed on any Performance Observation Date (if Specified Dates is specified as applicable in the applicable Final Terms) or at any time during the Performance Observation Period (if American is specified as applicable in the applicable Final Terms) for the purposes of  $Combination_3$ ). The Underlying Value<sub>*i*</sub> on the Underlying Observation Date<sub>*1*</sub> means the level, percentage, number, price or amount specified in the applicable Final Terms, or reflects the price or rate of the Underlying<sub>*i*</sub> at the relevant time, and the Underlying Value<sub>*i*</sub> on the Underlying Observation Date<sub>*2*</sub> reflects the price, level or rate of the Underlying<sub>*i*</sub> at the relevant time.*

*The value of the Underlying<sub>*i*</sub> may therefore affect the rate used to calculate the Linked Interest Rate applicable to the Securities, and the value of the Underlying<sub>*i*</sub> observed on each of the relevant days may be used as a component in the calculation formula for one of the percentages, as applicable, subject to the Margin, Leverage, Cap and Floor.*

### 11.1 Redemption Payoff

expressed as a percentage.

- (ii) If Combination<sub>1</sub> is within Range<sub>B</sub>, (a) on the relevant Performance Observation Dates, if Specified Dates is specified as applicable in the applicable Final Terms, or (b) at any time during the Performance Observation Period, if American is specified as applicable in the applicable Final Terms:

$$\text{Min}(\text{Cap}_B, \text{Max}(\text{Floor}_B, \text{Global Leverage}_B \times \text{Combination}_3 + \text{Margin}_B))$$

- (iii) Otherwise as a Fixed Percentage.

The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Digital/Basket Performance Redemption is applicable as a relevant Standard Redemption Payoff<sub>x</sub> will, for the purposes of any applicable Combination Payoff Condition, be calculated in accordance with such Combination Payoff Condition, and the Redemption Payoff determined in accordance with Standard Digital/Basket Performance Redemption Payoff Condition 11.1(a) will be used in the relevant Combination Payoff Condition as the relevant Standard Redemption Payoff<sub>x</sub>.

### 11.3 Physical Settlement

Where the applicable Final Terms specify that "Physical Settlement" or "Cash or Physical Settlement" applies and where the Underlying is an ETF or a Share:

- (a) the Calculation Agent may use any of Best of Performance, Worst of Performance or Xth Worst Performance or such other feature of these Standard Digital/Basket Performance Redemption Payoff Conditions as shall be specified in the Final Terms in order to determine the Physical Settlement ETF or Physical Settlement Share (as such terms are defined in Chapter 6 (*Asset Conditions: ETF Linked Asset Conditions*) and Chapter 7 (*Asset Conditions: Share Linked Asset Conditions*) of Annex 1); and
- (b) in relation to the application of "Cash or Physical Settlement" and if specified in the Final Terms, the basis (in whole or in part) on which the Redemption Payoff is calculated or the level thereof

shall be used for the purposes of determining whether Physical Settlement will apply in addition to determining the Redemption Payoff, as set out in the Final Terms.

These Combination Addition Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Combination Addition Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 1 COMBINATION ADDITION INTEREST

*The Linked Interest Rate applicable to the Securities is calculated as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) the result of adding together the Linked Interest Rate calculated using Standard Interest Payoff<sub>1</sub> and the Linked Interest Rate calculated using Standard Interest Payoff<sub>2</sub>. You should also refer to the relevant Standard Payoff Conditions for an explanation of how to calculate the Linked Interest Rate (and, if applicable, the Floor and/or the Cap) calculated using the relevant Standard Interest Payoff used as a component for this Combination Payoff Condition.*

#### 1.1 Linked Interest Rate

The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Combination Addition Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Min}[\text{Cap}; \text{Max}(\text{Floor}, \text{Standard Interest Payoff}_{f_1} + \text{Standard Interest Payoff}_{f_2} + \text{Standard Interest Payoff}_{f_3})]$$

and expressed as a percentage.

#### 1.2 Definitions and Interpretation

For the purposes of these Combination Addition Interest Payoff Conditions, the following terms shall have the following meanings:

**Cap** means:

You should also refer to the relevant Standard Payoff Conditions for an explanation of how to calculate the Linked Interest Rate (and, if applicable, the Floor and/or the Cap) calculated using the relevant Standard Interest Payoff used as a component for this Combination Payoff Condition.*

#### 2.1 Linked Interest Rate

The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Combination Capitalisation Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Min} \left[ \text{Cap}; \text{Max} \left( \text{Floor}; \text{Previous Interest Amount} \times (1 + \text{Leverage} \times \text{Standard Interest Payoff}_1) \right) \right]$$

and expressed as a percentage.

The value of the Underlying will therefore affect which Standard Payoff Condition is used to calculate the Linked Interest Rate applicable to the Securities. You should also refer to the relevant Standard Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Standard Interest Payoff used as a component for this Combination Payoff Condition.*

*The Linked Interest Rate applicable to the Securities is calculated as the Linked Interest Rate calculated using Standard Interest Payoff<sub>1</sub> multiplied by the Accrual Factor. The Accrual Factor is calculated by reference to, among other things, each Underlying Value<sub>i</sub>. The value of the Underlying will therefore affect the Accrual Factor, which is used as a component of the formula used to calculate the Linked Interest Rate. ### 12 COMBINATION DIGITAL BASKET INTEREST

*The Linked Interest Rate is calculated as either (A) if the Underlying Value<sub>i</sub> is within the Underlying Value<sub>i</sub> Range on each relevant Performance Observation Date, being the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) the result of Leverage multiplied by Linked Interest Rate calculated using Standard Interest Payoff<sub>i</sub> added to Margin or (B) otherwise, being the Fixed Rate. The Underlying Value<sub>i</sub> is calculated by reference to the price, level or rate of the Underlying<sub>i</sub> or, if a combination of an Underlying<sub>ix</sub> and an Underlying<sub>iy</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>ix</sub> and of the Underlying<sub>iy</sub> at the relevant time, as applicable. The value of the Underlying<sub>i</sub> (or, as applicable, the relevant Underlying<sub>ix</sub> and Underlying<sub>iy</sub>) will therefore affect which rate is used to calculate the Linked Interest Rate applicable to the Securities. You should also refer to the relevant Standard Payoff Conditions for an explanation of how to calculate the Linked Interest Rate (and, if applicable, the Floor and/or the Cap) calculated using the relevant Standard Interest Payoff<sub>i</sub> used as a component for this Combination Payoff Condition.*

and expressed as a percentage; or

- (b) otherwise, be equal to Fixed Rate.

#### 12.2 Relevant Observation

Where, in relation to these Combination Digital Basket Interest Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable, references in these Combination Digital Basket Interest Payoff Conditions to 'Underlying Value' (save for the definition of such term in Combination Digital Basket Interest Payoff Condition 12.3 below) shall be deemed to be references to the applicable Relevant Observation.

## Combination Payoff Conditions: Part B: Chapter 8: Combination Snowrange Redemption

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Combination Snowrange Redemption to be applicable.*

*The following terms and conditions (the **Combination Snowrange Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Combination Snowrange Redemption (the **Combination Snowrange Redemption**) is applicable. These Combination Snowrange Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Combination Snowrange Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### 8 COMBINATION SNOWRANGE REDEMPTION

*The Redemption Payoff applicable to the Securities is calculated as the Redemption Payoff calculated using the Alternative Redemption or the First Redemption Amount, as applicable, multiplied by the Accrual Factor. The Accrual Factor is calculated by reference to, among other things, each Underlying Value<sub>i</sub>. The value of the Underlying will therefore affect the value of the Accrual Factor, which is used as a component of the formula used to calculate the Redemption Payoff. You should also refer to the relevant Standard Payoff Conditions for an explanation of how to calculate the Redemption Payoff calculated using the Standard Redemption Payoff<sub>1</sub> used as a component for this Combination Payoff Condition.*

#### 8.1 Redemption Payoff

The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Combination Snowrange Redemption is applicable shall be calculated on such Redemption Determination Date as follows:

$$\text{Min}(\text{Cap}, \text{Max}(\text{Floor}, \text{Alternative Redemption} \times \text{Accrual Factor}))$$

and expressed as a percentage.

#### 8.2 Relevant Observation

Where, in relation to these Combination Snowrange Redemption Payoff Conditions, the applicable Final Terms provides that 'Relevant Observation' is applicable, references in these Combination Snowrange Redemption Payoff Conditions to 'Underlying Value' (save for the definition of such term in Combination Snowrange Redemption Payoff Condition 8.3 below) shall be deemed to be references to the applicable Relevant Observation.

For the purposes hereof, (and where Range Accrual Days are expressed in the applicable Final Terms as falling on calendar days which may not be Business Days) the Underlying Value in respect of any Range Accrual Day which is not a Business Day shall be deemed to be the Underlying Value in respect of

either the immediately preceding or the immediately following Business Day, as specified in the applicable Final Terms.

**Alternative Redemption** means:

## **Combination Payoff Conditions: Part B: Chapter 13: Combination Complex Digital Basket Contingency Redemption**

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Combination Complex Digital Basket Contingency Redemption to be applicable.*

*The following terms and conditions (the **Combination Complex Digital Basket Contingency Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Combination Complex Digital Basket Contingency Redemption (the **Combination Complex Digital Basket Contingency Redemption**) is applicable. These Combination Complex Digital Basket Contingency Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Combination Complex Digital Basket Contingency Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### **13 COMBINATION COMPLEX DIGITAL BASKET CONTINGENCY REDEMPTION**

*The Redemption Payoff is calculated on the Redemption Determination Date as either (A) if the Underlying Value<sub>i</sub> is within the Underlying Value<sub>i</sub> Range on each relevant Redemption Observation Date, being the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) the result of Leverage multiplied by Redemption Payoff calculated using Standard Redemption Payoff<sub>1</sub> then added to Margin or (B) otherwise, being the greater of (a) 0 and (b) Fixed Percentage minus Unwind Costs. The Underlying Value<sub>i</sub> is calculated by reference to the price, level or rate of the Underlying<sub>i</sub> or, if a combination of an Underlying<sub>ix</sub> and an Underlying<sub>iy</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>ix</sub> and of the Underlying<sub>iy</sub> at the relevant time, as applicable. The value of the Underlying<sub>i</sub> (or, as applicable, the relevant Underlying<sub>ix</sub> and Underlying<sub>iy</sub>) will therefore affect which rate is used to calculate the Redemption Payoff applicable to the Securities. You should also refer to the relevant Standard Payoff Conditions for an explanation of how to calculate the Redemption Payoff (and, if applicable, the Floor and/or the Cap) calculated using the relevant Standard Redemption Payoff<sub>1</sub> used as a component for this Combination Payoff Condition.*

#### **13.1 Redemption Payoff**

The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Combination Complex Digital Basket Contingency Redemption is applicable shall be calculated on such Redemption Determination Date as follows:

- (a) if each Underlying Value<sub>i</sub> is within the Underlying Value<sub>i</sub> Range on each Redemption Observation Date, be calculated on the Redemption Determination Date as follows:

$$\text{Min} \left( \text{Cap}, \text{Max} \left( \text{Floor}, \text{Leverage} \times \text{Standard Redemption Payoff}_1 + \text{Margin} \right) \right)$$

and expressed as a percentage;

- (b) otherwise, be calculated on the Redemption Determination Date as follows:

$$\text{Max} (0, \text{Fixed Percentage}-\text{Unwind Costs})$$

and expressed as a percentage.

### 13.2 Relevant Observation

### **14 COMBINATION PAYOFF-LINKED DIGITAL REDEMPTION**

*The Redemption Payoff applicable to the Securities is calculated as either (a) if the Standard Redemption Payoff<sub>2</sub> is within the Range, the Redemption Payoff calculated using Standard Redemption Payoff<sub>1</sub> or (b) otherwise, the Fixed Percentage. The value of the Standard Payoff<sub>2</sub>, which may depend on the value of an Underlying, will therefore affect which rate is used to calculate the Redemption Payoff applicable to the Securities. You should also refer to the relevant Standard Payoff Conditions for an explanation of how to calculate the Redemption Payoff calculated using the relevant Standard Redemption Payoff used as a component for this Combination Payoff Condition.*

#### **14.1 Redemption Payoff**

The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Combination Payoff-Linked Digital Redemption is applicable shall be calculated on such Redemption Determination Date as follows:

The value of the Underlying<sub>i</sub> will therefore affect which rate is used to calculate the Redemption Payoff applicable to the Securities. You should also refer to the relevant Standard Payoff Conditions for an explanation of how to calculate the Redemption Payoff (and, if applicable, the Floor) calculated using the relevant Standard Redemption Payoff<sub>1</sub> used as a component for this Combination Payoff Condition.*

*All Securityholders acting together may at their option request or, as applicable, elect to switch the basis on which interest is calculated from (i) calculation of the Linked Interest Rate using Linked Interest<sub>1</sub> to (ii) calculation of the Linked Interest Rate using Linked Interest<sub>2</sub>, by sending a notice on or prior to an Investor Interest Switch Expiry Date. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Standard Interest Payoff or Combination Interest Payoff referred to for this Payoff Feature Condition.*

#### **1.1 Methodology**

If Investor Interest Switch Payoff Feature is specified in the applicable Final Terms to be applicable, the Qualifying Securityholders may, at their option, request (where Linked Interest<sub>2</sub> is to be specified as such in the Investor Interest Switch Notice) or elect (where Linked Interest<sub>2</sub> is specified as such in the applicable Final Terms) to switch the basis on which interest is calculated from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub> (the **Investor Interest Switch Option**) upon the Qualifying Securityholders delivering an Investor Interest Switch Notice on or prior to an Investor Interest Switch Expiry Date designating an Investor Interest Switch Date and, if applicable, Linked Interest<sub>2</sub>. The Qualifying Securityholders may exercise the Investor Interest Switch Option in accordance with the frequency provided for in the applicable Final Terms.

An Investor Interest Switch Notice must include (a) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Investor Interest Switch Notice relates and (b) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until two Business Days after the Investor Interest Switch Date.

Accordingly, the Linked Interest Rate applicable to the Securities shall be determined by the Calculation Agent:

- (a) if Linked Interest<sub>2</sub> is specified as such in the applicable Final Terms
  - (i) if the Qualifying Securityholders have delivered a valid Investor Interest Switch Notice in accordance with these Investor Interest Switch Payoff Feature Conditions, on each Interest Determination Date up to (but excluding) the Investor Interest Switch Date, in respect of each corresponding Interest Accrual Period in accordance with Linked Interest<sub>1</sub> and on each Interest Determination Date from (and including) the

- Investor Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest<sub>2</sub>;
- (ii) if the Qualifying Securityholders have not delivered a valid Investor Interest Switch Notice in accordance with these Investor Interest Switch Payoff Feature Conditions, on each Interest Determination Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest<sub>1</sub>;
- (b) if Linked Interest<sub>2</sub> is to be specified as such in the Investor Interest Switch Notice
- (i) if the Issuer accepts Linked Interest<sub>2</sub> notified in the Investor Interest Switch Notice, on each Interest Determination Date up to (but excluding) the Investor Interest Switch Date, in respect of each corresponding Interest Accrual Period in accordance with Linked Interest<sub>1</sub> and on each Interest Determination Date from (and including) the Investor Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest<sub>2</sub>;

The relevant Issuer may exercise the Issuer Interest Switch Option once only during the life of the Securities.

Accordingly, the Linked Interest Rate applicable to the Securities shall be determined by the Calculation Agent:

- (a) on each Interest Determination Date up to (but excluding) the Issuer Interest Switch Date, in respect of each corresponding Interest Accrual Period (or, if the relevant Issuer has not delivered a valid Issuer Interest Switch Notice in accordance with these Issuer Interest Switch Payoff Feature Conditions, each Interest Determination Date, in respect of each corresponding Interest Accrual Period), in accordance with Linked Interest<sub>1</sub>; and
- (b) on each Interest Determination Date from (and including) the Issuer Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest<sub>2</sub>.

## **Payoff Feature Conditions: Part A: Chapter 3: Knock-out Interest Switch Payoff Feature Conditions**

*This chapter sets out additional terms and conditions for Securities in respect of which the applicable Final Terms specify Knock-out Interest Switch Payoff Feature to be applicable.*

*The following terms and conditions (the **Knock-out Interest Switch Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Knock-out Interest Switch Payoff Feature (the **Knock-out Interest Switch Payoff Feature**) is applicable. These Knock-out Interest Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Knock-out Interest Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### **3 KNOCK-OUT INTEREST SWITCH PAYOFF FEATURE**

*The basis on which interest is calculated will automatically switch from (i) calculation of the Linked Interest Rate using Linked Interest<sub>1</sub> to (ii) calculation of the Linked Interest Rate using Linked Interest<sub>2</sub> if on (if Specified Dates is applicable) any Knock-out Interest Switch Observation Date, or (if American is applicable) at any time during the Knock-out Interest Switch Observation Period the Underlying<sub>KO</sub> Value is within the relevant Range. The Underlying<sub>KO</sub> Value reflects the price, level or rate of the Underlying<sub>KO</sub> at the relevant time. The value of the Underlying<sub>KO</sub> will therefore affect which Standard Payoff Condition or Combination Payoff Condition, as applicable, is used to calculate the Linked Interest Rate applicable to the Securities. For the avoidance of doubt, a Knock-out Interest Switch can occur once only during the life of the Securities. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Standard Interest Payoff or Combination Interest Payoff referred to for this Payoff Feature Condition.*

#### **3.1 Methodology**

If Knock-out Interest Switch Payoff Feature is specified to be applicable in the applicable Final Terms, the basis on which interest is calculated will automatically switch from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub> (a **Knock-out Interest Switch**) if during the life of the Securities a Knock-out Interest Switch Event occurs. The relevant Issuer shall, as soon as reasonably practical following the occurrence of a Knock-out Interest Switch Event, deliver a Knock-out Interest Switch Notice. For the avoidance of doubt, a Knock-out Interest Switch can occur once only during the life of the Securities.

The Linked Interest Rate applicable to the Securities shall be determined by the Calculation Agent:

**Range<sub>1</sub>** means that on a Knock-out Interest Switch Observation Date or at any time during the Knock-out Interest Switch Observation Period (as the case may be), the Underlying<sub>KO</sub> Value is greater than or equal to the Knock-out Lower Limit and less than or equal to the Knock-out Upper Limit.

**Range<sub>2</sub>** means that on a Knock-out Interest Switch Observation Date or at any time during the Knock-out Interest Switch Observation Period (as the case may be), the Underlying<sub>KO</sub> Value is greater than the Knock-out Lower Limit and less than the Knock-out Upper Limit.

*All capitalised terms that are not defined in these Knock-out Basket Interest Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### **4 KNOCK-OUT BASKET INTEREST SWITCH PAYOFF FEATURE**

*The basis on which interest is calculated will automatically switch from (i) calculation of the Linked Interest Rate using Linked Interest<sub>1</sub> to (ii) calculation of the Linked Interest Rate using Linked Interest<sub>2</sub> if on (if Specified Dates is applicable) any Knock-out Basket Interest Switch Observation Date, or (if American is applicable) at any time during the Knock-out Basket Interest Switch Observation Period the Basket<sub>KO</sub> Value is within the Range. Basket<sub>KO</sub> Value means the sum of the individual products of Leverage<sub>i</sub> and the Underlying Value of each Underlying<sub>i</sub> observed on a relevant date. The Underlying Value reflects the price, level or rate of the Underlying at the relevant time. The value of each Underlying<sub>i</sub> multiplied by the relevant leverage will therefore affect which Standard Payoff Condition or Combination Payoff Condition, as applicable, is used to calculate the Linked Interest Rate applicable to the Securities. For the avoidance of doubt, a Knock-out Basket Interest Switch can occur once only during the life of the Securities. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Standard Interest Payoff or Combination Interest Payoff referred to for this Payoff Feature Condition.*

#### **4.1 Methodology**

If Knock-out Basket Interest Switch Payoff Feature is specified to be applicable in the applicable Final Terms, the basis on which interest is calculated will automatically switch from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub> (a **Knock-out Basket Interest Switch**) if during the life of the Securities a Knock-out Basket Interest Switch Event occurs. The relevant Issuer shall, as soon as reasonably practical following the occurrence of a Knock-out Basket Interest Switch Event, deliver a Knock-out Basket Interest Switch Notice. For the avoidance of doubt, a Knock-out Basket Interest Switch can occur once only during the life of the Securities.

The Linked Interest Rate applicable to the Securities shall be determined by the Calculation Agent:

- (a) if the Unadjusted Interest Amount  $> 0$ , the Unadjusted Interest Amount  $\times (Y+1)$ ; or
- (b) if the Unadjusted Interest Amount  $\leq 0$ , 0.

#### **6.2 Definitions and interpretation**

*The following terms and conditions (the **Reset Option Interest Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Reset Option Interest Payoff Feature (the **Reset Option Interest Payoff Feature**) is applicable. These Reset Option Interest Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Reset Option Interest Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### **8 RESET OPTION INTEREST PAYOFF FEATURE**

*All Securityholders acting together may request to change the basis on which interest is calculated. Following receipt of such request, the Issuer will notify the Qualifying Securityholders of the manner in which it would propose to change the basis on which interest is calculated and the Qualifying Securityholders may agree with the Issuer in implementing such changes, or not. There is no guarantee that any change in the basis on which interest is calculated will be beneficial for Securityholders.*

#### **8.1 Methodology**

If Reset Option Interest Payoff Feature is specified in the applicable Final Terms to be applicable, the Qualifying Securityholders may, at their option, elect to switch the basis on which interest is calculated in accordance with these Reset Option Interest Payoff Feature Conditions (the **Reset Option**).

The Qualifying Securityholders may, at their option, deliver a Potential Switch Notice (with a copy to the Principal Paying Agent) on any Business Day on or prior to a Reset Notice Date. A Potential Switch Notice must include (a) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Potential Switch Notice relates and (b) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until two Business Days after the date on which a Reset Notification is delivered by the Issuer.

If the Potential Switch Notice is received by the Issuer prior to the Reset Notice Time on the relevant Business Day, the Issuer will deliver a Reset Notification no later than the Reset Notification Time on that Business Day, otherwise, the Issuer will deliver a Reset Notification no later than the Reset Notice Time on the next following Business Day. If the Reset Notice Time or Reset Notification Time is specified as 'Not Applicable' in the applicable Final Terms, no later than two (2) Business Days after receipt of the Potential Switch Notice, the relevant Issuer will deliver a Reset Notification.

The Qualifying Securityholders will, at their option, no later than two (2) Business Days after receipt of the Reset Notification, deliver to the relevant Issuer (with a copy to the Principal Paying Agent) a notice (a **Reset Switch Notice**) confirming the exercise of the Reset Option, following which the basis for calculating interest set out in the Reset Notification will apply to the Securities in respect of the next Interest Accrual Period and each subsequent Interest Accrual Period until the Qualifying Securityholders deliver another Potential Switch Notice (if any). A Reset Switch Notice must include (a) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the

Securities to which the Reset Switch Notice relates and (b) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until two Business Days after the Reset Switch Date.

The Qualifying Securityholders may exercise the Reset Option Interest Payoff Feature the Reset Option Number of occasions during the life of the Securities. For the avoidance of doubt, following the exercise by the Qualifying Securityholders of the Reset Option on such number of occasions equal to the Reset Option Number of times, the interest applicable to the Securities will be calculated in accordance with the last validly exercised Reset Option.

Accordingly, if a Reset Switch Date occurs, the interest applicable to the Securities and applicable to the Interest Accrual Period from (and including) such Reset Switch Date and for each subsequent Interest Accrual Period shall be determined by the Calculation Agent, in accordance with the basis for calculating interest set out in the relevant Reset Notification, subject to any further exercise by the Qualifying Securityholders in accordance with these Reset Option Interest Payoff Feature Conditions.

#### 10 KNOCK-OUT BASKET PERFORMANCE INTEREST SWITCH PAYOFF FEATURE

*The basis on which interest is calculated will automatically switch from (a) calculation of the Linked Interest Rate using Linked Interest<sub>1</sub> to (b) calculation of the Linked Interest Rate using Linked Interest<sub>2</sub> if, on (if Specified Dates is applicable) any Knock-out Interest Switch Observation Date or (if American is applicable) at any time during the Knock-out Interest Switch Observation Period, the Performance is within the range. The Issuer will, as soon as reasonably practical following the occurrence of a Knock-out Basket Performance Interest Switch Event, issue a Knock-out Basket Performance Interest Switch Notice. For the avoidance of doubt, a Knock-out Basket Performance Interest Switch Event can occur only once during the life of the Securities.

The Linked Interest Rate applicable to the Securities will be determined by the Calculation Agent:

- (a) on each Interest Determination Date up to (but excluding) the Knock-out Basket Performance Interest Switch Date, in respect of each corresponding Interest Accrual Period (or, if a Knock-out Basket Performance Interest Switch Event has not occurred in accordance with these

Knock-out Basket Performance Interest Switch Payoff Feature Conditions), in accordance with Linked Interest<sub>1</sub>; and

### 1 GLOBAL CAP PAYOFF FEATURE

*The amount payable on the Redemption Date or an Instalment Date may be reduced by (in the case of the Final Redemption Amount) an amount equal to the Global Cap Amount or (in the case of each Instalment Redemption Amount) the Instalment Cap. The value of an underlying may therefore affect the amount payable on the Redemption Date or an Instalment Date, as the case may be, if the interest amounts are calculated by reference to the value of an underlying.*

#### 1.1 Methodology

If Global Cap Payoff Feature is specified in the applicable Final Terms to be applicable

- (a) the Final Redemption Amount shall be an amount calculated following the subtraction of an amount equal to the Global Cap Amount, subject to a minimum of zero; or
- (b) each Instalment Redemption Amount shall be an amount calculated following the subtraction of an amount equal to the Instalment Cap, subject to a minimum of zero.

#### 1.2 Definitions and interpretation

For the purposes of these Global Cap Payoff Feature Conditions, the following terms shall have the following meanings:

For the purposes of these Global Floor Payoff Feature Conditions, the following terms shall have the following meanings:

**Σ Previous Coupons** means the sum of all Interest Amounts (paid in respect of (a) in the case of Securities represented by a Global Security, the aggregate outstanding nominal amount of the Securities and (b) in the case of each Security in definitive form, the product of the Calculation Amount and the Calculation Amount Factor) calculated up to and including the Redemption Date or the final Instalment Date, as the case may be.

**Dual Currency (Redemption) Exchange Rate** means, with respect to a Redemption Currency, the rate determined in accordance with the definition of "FX Rate" provided for in the FX Linked Asset Conditions unless otherwise specified in the applicable Final Terms. For this purpose, the FX Linked Asset Conditions are incorporated in, and apply *mutatis mutandis* (as though such provisions were set out in full herein) to, these Dual Currency (Redemption) Payoff Feature Conditions subject to the following:

*The following terms and conditions (the **Investor Redemption Switch Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Investor Redemption Switch Payoff Feature (**Investor Redemption Switch Payoff Feature**) is applicable. These Investor Redemption Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Investor Redemption Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### **4 INVESTOR REDEMPTION SWITCH PAYOFF FEATURE**

*All Securityholders acting together may at their option (once during the life of the Securities) request or, as applicable, elect to switch the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from (i) calculation of the Redemption Payoff using Linked Redemption<sub>1</sub> to (ii) calculation of the Redemption Payoff using Linked Redemption<sub>2</sub>, by sending a notice on or prior to an Investor Redemption Switch Expiry Date. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Redemption Payoff calculated using the relevant Standard Redemption Payoff or Combination Redemption Payoff referred to for this Payoff Feature Condition.*

#### **4.1 Methodology**

If Investor Redemption Switch Payoff Feature is specified in the applicable Final Terms to be applicable, the Qualifying Securityholders may, at their option, request (where Linked Redemption<sub>2</sub> is to be specified as such in the Investor Redemption Switch Notice) or elect (where Linked Redemption<sub>2</sub> is specified as such in the applicable Final Terms) to switch the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub> (the **Investor Redemption Switch Option**) upon the Qualifying Securityholders delivering an Investor Redemption Switch Notice on or prior to an Investor Redemption Switch Expiry Date designating an Investor Redemption Switch Date and, if applicable, Linked Redemption<sub>2</sub>. An Investor Redemption Switch Notice must include (a) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Investor Redemption Switch Notice relates and (b) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until two Business Days after the Investor Redemption Switch Date.

Accordingly, the Redemption Payoff applicable to the Securities shall be determined by the Calculation Agent:

- (a) if Linked Redemption<sub>2</sub> is specified as such in the applicable Final Terms

These Issuer Redemption Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Issuer Redemption Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### **5 ISSUER REDEMPTION SWITCH PAYOFF FEATURE**

*The relevant Issuer may at its option (once during the life of the Securities) elect to switch the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from (i) calculation of the Redemption Payoff using Linked Redemption<sub>1</sub> to (ii) calculation of the Redemption Payoff using Linked Redemption<sub>2</sub>, by sending a notice on or prior to an Issuer Redemption Switch Expiry Date. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Redemption Payoff calculated using the relevant Standard Redemption Payoff or Combination Payoff Conditions referred to for this Payoff Feature Condition.*

#### **5.1 Methodology**

If Issuer Redemption Switch Payoff Feature is specified in the applicable Final Terms to be applicable, the relevant Issuer may, at its option, elect to switch the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub> (the **Issuer Redemption Switch Option**) upon the relevant Issuer delivering an Issuer Redemption Switch Notice on or prior to an Issuer Redemption Switch Expiry Date designating the exercise of the Issuer Redemption Switch Option, provided that no Issuer Redemption Switch Notice may be given on or after the occurrence of an Early Redemption Date. The relevant Issuer may exercise the Issuer Redemption Switch Option once only during the life of the Securities.

Accordingly, the Redemption Payoff applicable to the Securities in respect of the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, shall be determined by the Calculation Agent:

- (a) in the case of Securities (other than Instalment Securities), if the relevant Issuer has not delivered a valid Issuer Redemption Switch Notice in accordance with these Issuer Redemption Switch Payoff Feature Conditions, in accordance with Linked Redemption<sub>1</sub>;
- (b) in the case of Securities (other than Instalment Securities), if the relevant Issuer has delivered a valid Issuer Redemption Switch Notice in accordance with these Issuer Redemption Switch Payoff Feature Conditions, in accordance with Linked Redemption<sub>2</sub>;

- (d) in the case of Instalment Securities, on each Redemption Determination Date from (and including) the Issuer Redemption Switch Date, in respect of each corresponding Instalment Date in accordance with Linked Redemption<sub>2</sub>.

## 5.2 Definitions and interpretation

For the purposes of these Issuer Redemption Switch Payoff Feature Conditions, the following terms shall have the following meanings:

These Knock-out Redemption Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Knock-out Redemption Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### **6 KNOCK-OUT REDEMPTION SWITCH PAYOFF FEATURE**

*The basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated will automatically switch from (i) calculation of the Redemption Payoff using Linked Redemption<sub>1</sub> to (ii) calculation of the Redemption Payoff using Linked Redemption<sub>2</sub> if on (if Specified Dates is applicable) any Knock-out Redemption Switch Observation Date, or (if American is applicable) at any time during the Knock-out Redemption Switch Observation Period the Underlying<sub>KO</sub> Value is within the relevant Range. The Underlying<sub>KO</sub> Value reflects the price, level or rate of the Underlying<sub>KO</sub> at the relevant time. The value of the Underlying<sub>KO</sub> will therefore affect which Standard Payoff Condition or Combination Payoff Condition, as applicable, is used to calculate the Redemption Payoff applicable to the Securities. For the avoidance of doubt, a Knock-out Redemption Switch can occur once only during the life of the Securities. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Redemption Payoff calculated using the relevant Standard Redemption Payoff or Combination Redemption Payoff referred to for this Payoff Feature Condition.*

#### **6.1 Methodology**

If Knock-out Redemption Switch Payoff Feature is specified to be applicable in the applicable Final Terms, the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated will automatically switch from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub> (a **Knock-out Redemption Switch**) if during the life of the Securities a Knock-out Redemption Switch Event occurs. The relevant Issuer shall, as soon as reasonably practical following the occurrence of a Knock-out Redemption Switch Event, deliver a Knock-out Redemption Switch Notice. For the avoidance of doubt, a Knock-out Redemption Switch can occur once only during the life of the Securities.

The Redemption Payoff applicable to the Securities in respect of the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, shall be determined by the Calculation Agent:

- (a) in the case of Securities (other than Instalment Securities), if a Knock-out Redemption Switch Event has not occurred in accordance with these Knock-out Redemption Switch Payoff Feature Conditions, in accordance with Linked Redemption<sub>1</sub>;
- (b) in the case of Securities (other than Instalment Securities), if a Knock-out Redemption Switch Event has occurred in accordance with these Knock-out Redemption Switch Payoff Feature Conditions, in accordance with Linked Redemption<sub>2</sub>;

- (c) in the case of Instalment Securities, on each Redemption Determination Date up to (but excluding) the Knock-out Redemption Switch Date, in respect of each corresponding Instalment Date (or, if a Knock-out Redemption Switch Event has not occurred in accordance with these Knock-out Redemption Switch Payoff Feature Conditions), in accordance with Linked Redemption<sub>1</sub>; or
- (d) in the case of Instalment Securities, on each Redemption Determination Date from (and including) the Knock-out Redemption Switch Date, in respect of each corresponding Instalment Date in accordance with Linked Redemption<sub>2</sub>.

*This chapter sets out additional terms and conditions for Securities in respect of which the applicable Final Terms specify Shout Option Performance Lock-in Redemption Payoff Feature to be applicable.*

*The following terms and conditions (the **Shout Option Performance Lock-in Redemption Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Shout Option Performance Lock-in Redemption Payoff Feature (the **Shout Option Performance Lock-in Redemption Payoff Feature**) is applicable. These Shout Option Performance Lock-in Redemption Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Shout Option Performance Lock-in Redemption Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### **7 SHOUT OPTION PERFORMANCE LOCK-IN REDEMPTION PAYOFF FEATURE**

*All Securityholders acting together may request to fix the Underlying Value of each relevant Underlying for the purposes of the determination of the Redemption Payoff applicable to the Securities in respect of the Final Redemption Amount or the relevant Instalment Redemption Amount, as the case may be, for the immediately following Redemption Determination Date at the Shout Option Performance Lock-in Level by delivering a notice on or before a Shout Option Performance Lock-in Expiry Date. The Issuer has discretion to decline such request or provide the relevant Shout Option Performance Lock-in Level. Each relevant Underlying Value reflects the price, level or rate of the relevant Underlying at the relevant time. The Qualifying Securityholders may exercise the Performance Lock-in Shout Option once only in respect of each Redemption Determination Date in respect of the Final Redemption Amount or the relevant Instalment Redemption Amount, as the case may be.*

#### **7.1 Methodology**

If Shout Option Performance Lock-in Redemption Payoff Feature is specified in the applicable Final Terms to be applicable, the Qualifying Securityholders may, at their option, request to fix the Underlying Value of each relevant Underlying for the purposes of the determination by the Calculation Agent of the Redemption Payoff applicable to the Securities in respect of the Final Redemption Amount or the relevant Instalment Redemption Amount, as the case may be, in accordance with these Shout Option Performance Lock-in Redemption Payoff Feature Conditions (**Performance Lock-in Shout Option**).

The Qualifying Securityholders may at their option, deliver a Potential Shout Option Performance Lock-in Exercise Notice on or before a Shout Option Performance Lock-in Expiry Date provided that no Potential Shout Option Performance Lock-in Exercise Notice may be given on or after the occurrence of an Early Redemption Date.

A Potential Shout Option Performance Lock-in Exercise Notice must include (a) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Potential Shout Option Performance Lock-in Exercise Notice relates and (b) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until two Business Days after the delivery of an Underlying Value Notification by the Issuer.

The relevant Issuer has discretion with respect to any Potential Shout Option Performance Lock-in Exercise Notice to (i) decline the request to provide a Shout Option Performance Lock-in Level for the relevant Shout Option Performance Date if in its reasonable opinion the relevant Issuer or its hedging affiliate will not be able to execute the request because of market conditions, time of the request or other reasons which, for the avoidance of doubt, (in which case the delivery of the Potential Shout Option Performance Lock-in Exercise Notice will not constitute exercise of the Performance Lock-in Shout Option), or (ii) provide a Shout Option Performance Lock-in Level for the relevant Shout Option Performance Date (in which case the receipt of a corresponding Shout Option Exercise Notice (as defined below) will constitute exercise of the Performance Lock-in Shout Option). No later than one (1) hour prior to the final time at which the Underlying Value (in relation to Linked Interest Securities or Linked Redemption Securities other than Inflation Linked Securities) is able to be determined in accordance with the relevant Asset Conditions on the date of receipt of the Potential Shout Option Performance Lock-in Exercise Notice if the Potential Shout Option Performance Lock-in Exercise Notice is received before the Notice Deadline on that day or otherwise, no later than the Notice Deadline on the following Business Day, the relevant Issuer will deliver an Underlying Value Notification. In relation to Inflation Linked Securities, no later than two (2) Business Days after receipt of the Potential Shout Option Performance Lock-in Exercise Notice, the relevant Issuer will deliver an Underlying Value Notification.

If in the Underlying Value Notification the relevant Issuer notifies the Qualifying Securityholders of the Shout Option Performance Lock-in Level, the Qualifying Securityholders will, at their option, no later than the date falling the Shout Option Number of Business Days after receipt of such Underlying Value Notification, deliver to the relevant Issuer (with a copy to the Principal Paying Agent) a notice (a **Shout Option Exercise Notice**) confirming the exercise of the Performance Lock-in Shout Option following which, for the immediately following Redemption Determination Date in respect of the Final Redemption Amount or the relevant Instalment Redemption Amount, as the case may be, the Underlying Value of each relevant Underlying for the purposes of the determination by the Calculation Agent of the Redemption Payoff applicable to the Securities will be the Shout Option Performance Lock-in Level.

A Shout Option Exercise Notice must include (a) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Shout Option Exercise Notice relates and (b) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until two Business Days after the relevant Redemption Determination Date. The Qualifying Securityholders may exercise the Performance Lock-in Shout Option once only in respect of each Redemption Determination Date in respect of the Final Redemption Amount or the relevant Instalment Redemption Amount, as the case may be.

## 7.2 Definitions and interpretation

**Underlying Value** has the meaning set out in the relevant Standard Payoff Conditions or Combination Payoff Conditions (as the case may be) applicable to the Standard Redemption Payoff or Combination Redemption Payoff specified to be applicable in relation to the then current Redemption Determination Date in the applicable Final Terms.

**Underlying Value Notification** means, with respect to a Potential Shout Option Performance Lock-in Exercise Notice, a written notice given by the relevant Issuer to the Qualifying Securityholders (with a copy to the Principal Paying Agent) in accordance with General Condition 14 (*Notices*) notifying the Qualifying Securityholders (i) that it declines the request to provide a Shout Option Performance Lock-in Level for the relevant Shout Option Performance Date or (ii) the Shout Option Performance Lock-in Level for the relevant Shout Option Performance Date.

## **Payoff Feature Conditions: Part B: Chapter 8: Reset Option Redemption Payoff Feature Conditions**

*This chapter sets out additional terms and conditions for Securities in respect of which the applicable Final Terms specify Reset Option Payoff Feature to be applicable.*

*The following terms and conditions (the **Reset Option Redemption Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Reset Option Redemption Payoff Feature (the **Reset Option Redemption Payoff Feature**) is applicable. These Reset Option Redemption Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Reset Option Redemption Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

### **8 RESET OPTION REDEMPTION PAYOFF FEATURE**

*All Securityholders acting together may request to change the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated. Following receipt of such request, the Issuer will notify the Qualifying Securityholders of the manner in which it would propose to change the Final Redemption Amount or the Instalment Amount, as the case may be, and the Qualifying Securityholders may agree with the Issuer in implementing such changes, or not. There is no guarantee that any change in the Final Redemption Amount or Instalment Redemption Amount, as the case may be, will be beneficial for Securityholders.*

#### **8.1 Methodology**

If Reset Option Redemption Payoff Feature is specified in the applicable Final Terms to be applicable, the Qualifying Securityholders may, at their option, request to switch the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated in accordance with these Reset Option Redemption Payoff Feature Conditions (the **Reset Option**).

The Qualifying Securityholders may, at their option, deliver a Potential Switch Notice on any Business Day on or prior to a Reset Notice Date. A Potential Switch Notice must include (a) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Potential Switch Notice relates and (b) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until two Business Days after the date on which a Reset Notification is delivered by the Issuer.

If the Potential Switch Notice is received by the Issuer prior to the Reset Notice Time on the relevant Business Day, the Issuer will deliver a Reset Notification no later than the Reset Notification Time on that Business Day, otherwise, the Issuer will deliver a Reset Notification no later than the Reset Notice Time on the next following Business Day. If the Reset Notice Time or Reset Notification Time is specified as 'Not Applicable' in the applicable Final Terms, no later than two (2) Business Days after receipt of the Potential Switch Notice, the relevant Issuer will deliver a Reset Notification.

The Qualifying Securityholders will, at their option, no later than two (2) Business Days after receipt of the Reset Notification, deliver to the relevant Issuer (with a copy to the Principal Paying Agent) a notice (a **Reset Switch Notice**) confirming the exercise of the Reset Option following which the basis for calculating the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, set out in the Reset Notification will apply in respect of the following Redemption Determination

Date unless the Qualifying Securityholders exercise the Reset Option again. A Reset Switch Notice must include (a) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Reset Switch Notice relates and (b) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until two Business Days after the relevant Redemption Determination Date.

The Qualifying Securityholders may exercise the Reset Option Redemption Payoff Feature the Reset Option Number during the life of the Securities. For the avoidance of doubt, following the exercise by the Qualifying Securityholders of the Reset Option on such number of occasions equal to the Reset Option Number of times during the life of the Securities, the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, will be calculated in accordance with the last validly exercised Reset Option.

Accordingly, if a Reset Switch Date occurs, the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, shall be determined by the Calculation Agent on the immediately following Redemption Determination Date in accordance with the basis for calculating the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, set out in the relevant Reset Notification, subject to any further exercise by the Qualifying Securityholders in accordance with these Reset Option Redemption Payoff Feature Conditions.

## Payoff Feature Conditions: Part B

### Chapter 9: Knock-out Basket Performance Redemption Switch Payoff Feature Conditions

*This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify a Knock-out Basket Performance Redemption Switch Payoff Feature to be applicable.*

*The following terms and conditions (the **Knock-out Basket Performance Redemption Switch Payoff Feature Conditions**) will apply to the Securities if the applicable Final Terms indicate that a Knock-out Basket Performance Redemption Switch Payoff Feature (a **Knock-out Basket Performance Redemption Switch Payoff Feature**) is applicable. These Knock-out Basket Performance Redemption Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms not defined in these Knock-out Basket Performance Redemption Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Condition) will have the meanings given to them in the applicable Final Terms.*

#### 9 KNOCK-OUT BASKET PERFORMANCE REDEMPTION SWITCH PAYOFF FEATURE

*The basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated will automatically switch from (a) calculation of the Redemption Payoff using Linked Redemption<sub>1</sub> to (b) calculation of the Redemption Payoff using Linked Redemption<sub>2</sub> if, on (if Specified Dates is applicable) any Knock-out Basket Performance Redemption Switch Observation Date or (if American is applicable) at any time during the Knock-out Basket Performance Redemption Switch Observation Period, the Performance is within the range. Performance is determined by reference to, among other things, the P(i) value. The P(i) value means the performance of the Underlying Value<sub>i</sub> between the Underlying Observation Date<sub>1</sub> and the Underlying Observation Date<sub>2</sub>. The Underlying Value<sub>i</sub> means the value specified as such in the applicable Final Terms or reflects the price, level or rate of the Underlying<sub>i</sub> at the relevant time. The value of each Underlying<sub>i</sub> will therefore affect which Standard Payoff Condition or Combination Payoff Condition, as applicable, is used to calculate the Redemption Payoff applicable to the Securities. For the avoidance of doubt, a Knock-out Basket Performance Redemption Switch can occur only once during the life of the Securities. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Redemption Payoff calculated using the relevant Standard Redemption Payoff or Combination Redemption Payoff referred to for this Payoff Feature Condition.*

##### 9.1 Methodology

If Knock-out Basket Performance Redemption Switch Payoff Feature is specified to be applicable in the applicable Final Terms, the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated will automatically switch from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub> (the **Knock-out Basket Performance Redemption Switch**) if, during the life of the Securities, a Knock-out Basket Performance Redemption Switch Event occurs. The Issuer will, as soon as reasonably practical following the occurrence of a Knock-out Basket Performance Redemption Switch Event, issue a Knock-out Basket Performance Redemption Switch Notice. For the avoidance of doubt, a Knock-out Basket Performance Redemption Switch Event can occur only once during the life of the Securities.

Consequently, the Redemption Payoff applicable to the Securities in respect of the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, will be determined by the Calculation Agent:

- (a) in the case of Securities (other than Instalment Redemption Notes), if a Knock-out Basket Performance Redemption Switch Event has not occurred in accordance with these Knock-out Basket Performance Redemption Switch Payoff Feature Conditions, in accordance with Linked Redemption<sub>1</sub>;

If the Collateral Manager disputes the contents of a Collateral Monitoring Agent Notice, it shall on the Collateral Business Day immediately following receipt of a Collateral Monitoring Agent Notice send the Collateral Monitoring Agent a Dispute Notice and the Collateral Monitoring Agent and the Collateral Manager shall consult with each other in good faith in an attempt to resolve the dispute.

If the Collateral Manager and the Collateral Monitoring Agent are able to resolve the dispute following such consultation by the second Collateral Business Day following delivery of the Collateral Monitoring Agent Notice, the Collateral Manager shall send or cause to be sent a Second Level Revised Collateral Test Notice to the Collateral Monitoring Agent and the Custodian (copied to the Issuer and the Guarantor) specifying the agreed adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed) such that the Collateral Test will be satisfied.

If the Collateral Manager and the Collateral Monitoring Agent fail to resolve the dispute by the second Collateral Business Day following delivery of the Collateral Monitoring Agent Notice, then the Collateral Manager (on behalf of the Issuer) shall send the Collateral Monitoring Agent a Dispute Resolution Procedure Notice and it will commence the Collateral Test Dispute Resolution Procedure to determine the adjustments to be made to the Collateral Pool.

Following a recalculation pursuant to the Collateral Test Dispute Resolution Procedure, the Collateral Manager shall issue a Post Dispute Collateral Test Notice to the Collateral Monitoring Agent and the Custodian (copied to the Issuer and the Guarantor) containing the Collateral Value, Required Collateral Value and any adjustments to be made to the Collateral Pool such that the Collateral Test will be satisfied, in each case determined in accordance with the Collateral Test Dispute Resolution Procedure, as soon as possible but in any event not later than the 30th Collateral Business Day following delivery of the Collateral Monitoring Agent Notice. A Post Dispute Collateral Test Notice issued following the conclusion of a Collateral Test Dispute Resolution Procedure shall be binding on the Collateral Manager and the Collateral Monitoring Agent and shall not be subject to further verification by the Collateral Monitoring Agent.

Following receipt of a Collateral Test Notice, First Level Revised Collateral Test Notice, Second Level Revised Collateral Test Notice or Post Dispute Collateral Test Notice, as applicable, from the Collateral Manager which indicates that the Collateral Test is not satisfied, the Collateral Manager on behalf of the Issuer will, as soon as reasonably practicable following delivery of such Collateral Test Notice or, where such Collateral Test Notice is followed by a Collateral Monitoring Agent Notice, the First Level Revised Collateral Test Notice, Second Level Revised Collateral Test Notice or Post Dispute Collateral Test Notice, as applicable, and in any event within the Required Settlement Period, Deliver, or procure the Delivery of, additional or replacement Collateral Assets to or from the Collateral Account such that after such adjustment of Collateral Assets the Collateral Test will be satisfied.

Without prejudice to the foregoing, in relation to any Series of Secured Securities in respect of which Collateral Monitoring is applicable, the Collateral Manager may request on behalf of the Issuer that Collateral Assets are withdrawn from the Collateral Account provided that following such withdrawal the Collateral Test will be satisfied.

#### **4.5 Substitution of Collateral Assets**

If, in relation to any Series of Secured Securities in respect of which Collateral Monitoring is applicable, "Collateral Substitution" is specified as applicable in the applicable Final Terms, the Issuer or (or the Collateral Manager on its behalf) may withdraw and/or replace Collateral Assets from the relevant Collateral Account provided that following such adjustment the Collateral Test will be satisfied. The Issuer (or the Collateral Manager on its behalf) will send or cause to be sent a notice to the Collateral Monitoring Agent and the Custodian (copied to the Issuer and the Guarantor) specifying the adjustments to be made to the Collateral Pool (including, *inter alia*, the type and quantity of any Collateral Assets to be deposited and/or removed). The Collateral Business Day immediately following a day on which such notice is given by the Issuer (or the Collateral Manager on its behalf) for the substitution of Collateral Assets as described above will be deemed to be a Collateral Test Date.

#### **4.6 Delegation to Collateral Manager**

The Issuer may, pursuant to the terms of the Collateral Management Agreement, delegate to the Collateral Manager the role of managing each Collateral Pool to comply with the requirements of these Secured Security Conditions.

#### **4.7 Required Collateral Default**

Following the occurrence of a Required Collateral Default, the Collateral Monitoring Agent will be required to send a Required Collateral Default Notice to the Issuer, the Guarantor, the Collateral Manager, the Custodian and the Security Trustee, specifying that a Required Collateral Default has occurred. The Issuer shall give notice in accordance with General Condition 14 (*Notices*) as soon as reasonably practicable to all relevant Securityholders if a Required Collateral Default Notice has been received.

#### **4.8 Third Party Chargor**

Where "Third Party Security" is specified as being applicable in the applicable Final Terms, the obligations of the Issuer in respect of the Secured Securities will be secured (such security being Third Party Security) by:

- (a) a Pledge Agreement, pursuant to which an Affiliate of the Issuer (such Affiliate being a Third Party Chargor in respect of such Series of Secured Securities) will grant a first ranking security interest over all of its rights in and to the Collateral Assets Delivered to the Custodian and held from time to time in the Collateral Account, together with all the Third Party Chargor's receivables, claims, right, title, interest and benefit in, under and to the Custodian Agreement against the Custodian; and
- (b) a Security Trust Deed, pursuant to which the Issuer will grant a first ranking security interest over its right, benefit, interest and title, present and future, in, under and to the Charged Documents (to the extent they relate to the relevant Series of Secured Securities and save for any such rights secured pursuant to the Pledge Agreement),

in favour of the Pledgee and the Security Trustee, respectively, to hold on trust for itself and the relevant Securityholders and the other relevant Secured Parties.

Unless otherwise specified in the applicable Final Terms, no security will be created over any other assets of the Third Party Chargor or the Issuer, any interest distributions paid on any Collateral Assets or any other assets in the Collateral Account, which will remain the property of the relevant Third Party Chargor or the Issuer, as the case may be, who shall be entitled to sell, dispose of, transfer or otherwise deal with such assets at any time.

Where Third Party Security is applicable, references in this Secured Security Condition 4 to the "Issuer" shall be deemed to be references to the relevant Third Party Chargor, as the context requires. In addition, where any notice is required to be Delivered to the Issuer pursuant to the applicable Terms and Conditions, such notice shall also be Delivered to the relevant Third Party Chargor to the contact details specified in the applicable Final Terms.

## **5 COLLATERAL MANAGER, COLLATERAL MONITORING AGENT AND SECURITY VALUATION AGENT**

The Collateral Manager, Collateral Monitoring Agent and Security Valuation Agent act solely as agents of the Issuer and do not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders.

All calculations and determinations made in respect of the Secured Securities by the Collateral Manager, Collateral Monitoring Agent and Security Valuation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Guarantor, the Securityholders and the Security Trustee.

Each of the Collateral Manager, Collateral Monitoring Agent and Security Valuation Agent may, with the consent of the Issuer, delegate any of their obligations and functions to a third party as provided for in the Collateral Management Agreement, Collateral Monitoring Agency Agreement and Security Valuation Agency Agreement, as applicable.

## **6 ACCELERATION, ENFORCEMENT AND REALISATION**

### **6.1 Acceleration and Enforcement of Collateral**

If, in relation to a Series of Secured Securities, a Secured Security Acceleration Notice is served, a Secured Security Acceleration Event shall occur and all Secured Securities comprising that Series will become immediately due and repayable at their Early Redemption Amount (or, where Physical Delivery of Collateral Assets on Enforcement is specified as being applicable in the applicable Final Terms, that all Secured Securities comprising that Series will be subject to settlement in accordance with Secured Security Condition 6.8). If a Secured Security Acceleration Event occurs, the Issuer or, failing which, the Security Trustee shall give notice thereof to all relevant Securityholders as soon as reasonably practicable following the occurrence of such event in accordance with General Condition 14 (*Notices*).

If neither the Issuer nor the Guarantor has paid all amounts due to Securityholders of a Series of Securities in relation to which a Secured Security Acceleration Event has occurred within the Pre-Enforcement Payment Period, any holder of Securities of such Series will be entitled to send a Collateral Enforcement Notice to the Security Trustee requesting that the security constituted by the relevant Pledge Agreement and Security Trust Deed be enforced.

The Security Trustee shall, following receipt of a Collateral Enforcement Notice, promptly give notice of the same to the Issuer, the Guarantor, the Collateral Manager, the Custodian and the other Securityholders whose Securities are secured on the Collateral Pool in relation to which such Collateral Enforcement Notice relates.

## **6.2 Enforcement and Realisation of Collateral Assets**

Upon receipt of a Collateral Enforcement Notice, and subject always to the Security Trustee being indemnified and/or secured (including by way of prefunding) against any liability it may incur by so acting, the Security Trustee will enforce the security constituted by the relevant Pledge Agreement and Security Trust Deed in accordance with the terms thereof and these Secured Security Conditions (as completed by the applicable Final Terms) and will (i) give instructions to the Disposal Agent to liquidate or realise some or all of the Collateral Assets in each Collateral Pool which secures a Series of Secured Securities in accordance with Secured Security Condition 6.6 (*Method of realisation of Collateral Assets*) and subsequently distribute the relevant Collateral Enforcement Proceeds Share to relevant Securityholders in accordance with Secured Security Condition 6.5 (*Application and distribution of proceeds of enforcement where Physical Delivery of Collateral Assets on Enforcement is not applicable*) or (ii) where Physical Delivery of Collateral Assets on Enforcement is specified as applicable in the applicable Final Terms, arrange for Delivery of the relevant Collateral Assets Entitlement to the relevant Securityholders in accordance with Secured Security Condition 6.8 (*Physical Delivery of Collateral Assets on Enforcement*), in each case after payment of any amounts payable to the Secured Parties ranking prior to the Securityholders in accordance with the Order of Priority specified in the applicable Final Terms (such amounts to be paid either out of the proceeds of such liquidation or realisation of Collateral Assets or out of the proceeds transferred by the Securityholders in accordance with Secured Security Condition 6.8 (*Physical Delivery of Collateral Assets on Enforcement*)).

## **6.3 Liability of the Security Trustee**

In the absence of any gross negligence, fraud or wilful default on the part of the Security Trustee, the Security Trustee shall not have any liability as to the consequence of any enforcement or realisation action and neither will have regard to the effect of such action on individual Securityholders.

## **6.4 Enforcement and Realisation by Securityholders**

No Securityholder shall be entitled to enforce a Pledge Agreement or Security Trust Deed or to proceed directly against the Issuer or any Third Party Chargor to enforce the other provisions of a Pledge Agreement or Security Trust Deed.

## **6.5 Application and distribution of proceeds of enforcement where Physical Delivery of Collateral Assets on Enforcement is not applicable**

Unless Physical Delivery of Collateral Assets on Enforcement is specified in the applicable Final Terms, following Enforcement and after the realisation and liquidation in full of all the Collateral Assets in a Collateral Pool in accordance with this Condition 6, the Security Trustee shall use the proceeds of such realisation and liquidation of the Collateral Assets to make payment of any amounts payable to the Secured Parties ranking prior to the Securityholders in accordance with the Order of Priority specified in the applicable Final Terms. Following such payment the Security Trustee shall determine the Collateral Enforcement Proceeds Share in respect of each Secured Security and shall notify such amounts to the Securityholders in accordance with General Condition 14 (*Notices*).

Subject as provided below, the remaining proceeds from the realisation of the Collateral Assets in a Collateral Pool will then be applied in meeting the claims of Securityholders under the Secured Securities which are secured by the relevant Collateral Pool (which claim will be equal to the Amount Owed) *pro rata* to the Collateral Enforcement Proceeds Share of each such Secured Security.

6.5.1 Any excess of the Collateral Enforcement Proceeds over the amounts payable prior to Securityholders and to Securityholders shall then be distributed to the Secured Parties ranking

after the Securityholders in accordance with the Order of Priority specified in the applicable Final Terms.

- 6.5.2 Where the Collateral Enforcement Proceeds Share for a particular Secured Security is less than the Amount Owed (such loss amount being a Collateral Enforcement Loss Amount), such Securityholder shall not be entitled to any further recourse against the Issuer or any Third Party Chargor for such Collateral Enforcement Loss Amount, but may claim any payment of such Collateral Enforcement Loss Amount from the Guarantor under the Guarantee.

## **6.6 Method of realisation of Collateral Assets**

Subject as may otherwise be provided for in these Secured Security Conditions or the Final Terms, in effecting the sales, the Disposal Agent (on behalf of the Security Trustee) may sell Collateral Assets in one single transaction or in a number of transactions as it considers appropriate in order to attempt reasonably to maximise the proceeds from such sale. The Disposal Agent may effect sales of Collateral Assets (i) on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted, (ii) in the over-the-counter market or (iii) in transactions otherwise than on such exchanges or in the over-the counter market.

Where the Disposal Agent is required or requested to dispose of any Collateral Assets other than on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted then:

- (a) the Disposal Agent shall seek firm bid quotations from at least three independent dealers in assets similar in nature to the relevant Collateral Assets (and, for such purpose, it may seek quotations in respect of such Collateral Assets in their entirety or in respect of a designated part or proportion thereof, as it considers appropriate in order to maximise the proceeds of the sale of such Collateral Assets);
- (b) for the purposes of obtaining the quotations referred to in (a) above, the Disposal Agent or any Third Party Bidder may itself provide a bid in respect of the relevant Collateral Assets or any part or proportion thereof; and
- (c) the Disposal Agent shall be authorised to accept in respect of each relevant part or proportion of the Collateral Assets or, as applicable, the entirety of the relevant Collateral Assets the highest quotation so obtained (which may be a quotation from the Disposal Agent (when providing such quotations itself, the Disposal Agent shall act in a commercially reasonable manner).

In circumstances where the Disposal Agent cannot act in accordance with this Secured Security Condition 6.6, or does not do so within a reasonable time, the Security Trustee shall effect any sales of the Collateral Assets in accordance with the Security Trust Deed (or may appoint an agent to do so on its behalf).

## **6.7 Inability to realise Collateral Assets**

If the Disposal Agent is unable to sell Collateral Assets on any securities exchange or quotation service on which such Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of one or more Collateral Assets, in each case pursuant to Secured Security Condition 6.6 (*Method of realisation of Collateral Assets*), for a period of one year from the date of the relevant Secured Security Acceleration Event (such Collateral Assets being **Non-Realised Collateral Assets**), then in lieu of cash settlement of such Non-Realised Collateral Assets and notwithstanding any other provision hereof, the Security Trustee (itself or acting through an agent) shall be entitled to Deliver, or procure the Delivery of, such Non-Realised Collateral Assets to the relevant Securityholders in accordance with

Secured Security Condition 6.8 (*Physical Delivery of Collateral Assets on Enforcement*) and the Order of Priority specified in the applicable Final Terms.

If Delivery of any Non-Realised Collateral Assets is illegal, impossible or impracticable due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event for a period of greater than 20 Collateral Business Days, (i) the Disposal Agent (or failing which the Security Trustee or an agent appointed on its behalf) shall be entitled to sell such Non-Realised Collateral Assets by accepting the first available price for such Non-Realised Collateral Assets or (ii) the Security Trustee (itself or acting through an agent) shall Deliver such Non-Realised Collateral Assets if Delivery subsequently becomes possible, legal or practicable, as the case may be.

## **6.8 Physical Delivery of Collateral Assets on Enforcement**

6.8.1 Where Physical Delivery of Collateral Assets on Enforcement is specified in the applicable Final Terms, following Enforcement, the Security Trustee (itself or acting through an agent) will determine the Collateral Assets Entitlement in respect of each Secured Security and shall notify such amounts to the Securityholders in accordance with General Condition 14 (*Notices*).

The Security Trustee will:

- (a) upon transfer by the Securityholders to the Security Trustee of sufficient funds to pay amounts equal to (i) any amounts payable to the Secured Parties ranking prior to the Securityholders in accordance with the Order of Priority specified in the applicable Final Terms and (ii) where the Hedge Amount is a positive sum (as determined in accordance with General Condition 6.8 (*Fair Market Value Redemption Amounts*)), the value of the Hedge Amount, the Security Trustee will pay such amounts to such Secured Parties in accordance with the Order of Priority specified in the applicable Final Terms and secondly, in the case of the Hedge Amount, pay an amount equal to the absolute value of the Hedge Amount to the Issuer; or
- (b) where Securityholders have not elected to make a transfer for the purposes of Secured Security Condition 6.8.1(a) realise, or procure that the Disposal Agent realises and liquidates sufficient Collateral Assets in accordance with Secured Security Condition 6.6 (*Method of realisation of Collateral Assets*) with a value equal to the amounts described in Secured Security Conditions 6.8.1(a)(i) and (ii) and pay such amounts to the Secured Parties and the Issuer, respectively, in accordance with the Order of Priority specified in the applicable Final Terms.

Following such payments, the Security Trustee will notify Securityholders of the relevant Collateral Delivery Date and, subject to Secured Security Condition 6.10 (*Physical Delivery of Collateral Assets Disruption Event*), will Deliver the Collateral Assets Entitlement to the Securityholders of the Secured Securities secured by the relevant Collateral Pool in accordance with Secured Security Condition 6.10 (*Physical Delivery of Collateral Assets Disruption Event*) in lieu of the Amount Owed pursuant to Secured Security Condition 6.1 (*Acceleration and Enforcement of Collateral*).

6.8.2 A Securityholder is only entitled to receive its Collateral Assets Entitlement and Delivery thereof is subject to the provisions of Secured Security Condition 6.10 (*Physical Delivery Procedures*). Any remaining Collateral Assets will be liquidated by the Security Trustee and the proceeds thereof distributed in accordance with the Security Trust Deed to the Secured Parties ranking after the Securityholders in accordance with the Order of Priority specified in the applicable Final Terms.

- 6.8.3 Where the Collateral Assets Entitlement for a particular Secured Security is less than the Amount Owed (such loss amount being a **Collateral Enforcement Loss Amount**), such Securityholder shall not be entitled to any further recourse against the Issuer or any Third Party Chargor for such Collateral Enforcement Loss Amount, but may claim any payment of such Collateral Enforcement Loss Amount from the Guarantor under the Guarantee.

## 6.9 Physical Delivery of Collateral Assets Disruption Event

- 6.9.1 If, in the opinion of the Security Trustee, Delivery of all or some of the Collateral Assets forming part of the Collateral Assets Entitlement using the method of delivery specified in the applicable Final Terms, or such other commercially reasonable manner as the Security Trustee has determined, is not practicable by reason of a Physical Delivery of Collateral Assets Disruption Event having occurred and continuing on any Collateral Delivery Date, then such Collateral Delivery Date shall be postponed to the first following Collateral Business Day in respect of which there is no such Physical Delivery of Collateral Assets Disruption Event, provided that the Security Trustee may elect in its sole discretion to Deliver the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner as it may select and in such event the Collateral Delivery Date shall be such day as the Security Trustee deems appropriate in connection with delivery of the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner.

Where a Physical Delivery of Collateral Assets Disruption Event affects some but not all of the Collateral Assets forming part of the Collateral Assets Entitlement due to be Delivered to a Securityholder, the Collateral Delivery Date for those Collateral Assets forming part of the Collateral Assets Entitlement which are able to be Delivered will be the Collateral Delivery Date on which such Collateral Assets are Delivered.

- 6.9.2 If Delivery of any Collateral Assets forming part of the Collateral Assets Entitlement is not possible due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event for a period of greater than 20 Collateral Business Days (or such other period specified in the Final Terms), then in lieu of physical settlement and notwithstanding any other provision hereof, the Disposal Agent (or failing which the Security Trustee or an agent on its behalf) shall sell or realise the Undeliverable Collateral Assets and deliver the proceeds thereof to Securityholders in the manner set out in Secured Security Condition 6.6 (*Method of realisation of Collateral Assets*).
- 6.9.3 If (i) the Disposal Agent (or the Security Trustee or an agent on its behalf, as the case may be) is unable to sell the Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of the Collateral Assets or (ii) the Security Trustee (itself or acting through an agent) is unable to Deliver such Collateral Assets due to the continuation of a Physical Delivery of Collateral Assets Disruption Event, for a period of one year from the date of the relevant Secured Security Acceleration Event, the Disposal Agent (or the Security Trustee or an agent on its behalf, as the case may be) shall be entitled to accept the first available price for such Collateral Assets.

The Security Trustee shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) that a Physical Delivery of Collateral Assets Disruption Event has occurred. No Securityholder shall be entitled to any payment in respect of the relevant Secured Securities in the event of any delay in the Delivery of the Collateral Assets forming part of the Collateral Assets Entitlement due to the occurrence of a Physical Delivery

of Collateral Assets Disruption Event and no liability in respect thereof shall attach to the Issuer, any Third Party Chargor, the Guarantor or the Security Trustee.

## 7 **SEGREGATION OF COLLATERAL POOLS AND LIMITED RECOURSE**

### 7.1 **Limited Recourse**

By acquiring and holding Secured Securities issued by either Crédit Agricole CIB FG or Crédit Agricole CIB FS, Securityholders will be deemed to acknowledge and agree that the obligations of the relevant Issuer to the Securityholders are limited in recourse to the Collateral Assets contained in the relevant Collateral Pool securing such Series of Secured Securities. If:

- (a) there are no relevant Collateral Assets in the relevant Collateral Pool remaining, which are capable of being realised or otherwise converted into, cash;

In particular, no Securityholder shall be entitled to have recourse to the Collateral Assets contained in a Collateral Pool other than the Collateral Pool, which secures the Securities held by such Securityholder.

In such a scenario, Securityholders will continue to be able to claim under the terms of the Guarantee against the Guarantor for any unpaid amounts.

This Secured Condition 7 does not apply to Secured Securities issued by Crédit Agricole CIB and as such, does not limit any recourse Securityholders may have to Crédit Agricole CIB in respect of any such Secured Securities.

## **8 COLLATERAL DISRUPTION EVENTS**

Upon the occurrence, as determined by the Issuer or the Collateral Manager, in each case acting in good faith, of a Collateral Disruption Event, the Issuer may at its option and in its sole discretion give notice to the Securityholders in accordance with General Condition 14 (*Notices*) and redeem all but not some only of the Secured Securities of the relevant Series at the Early Redemption Amount on the date specified by the Issuer in the notice to Securityholders.

## DESCRIPTION OF THE PROPRIETARY INDICES

*This section sets out a description of the proprietary indices.*

### 1 INTRODUCTION

Crédit Agricole CIB (or any affiliate or subsidiary designated by it) operates and acts as calculation agent (the **Proprietary Index Calculation Agent**) in respect of three series of proprietary indices: the Crédit Agricole CIB Long Only Strategy Index Series (the **Long Only Strategy Proprietary Indices**), the Crédit Agricole CIB Steepening Strategy Index Series (the **Steepening Strategy Proprietary Indices**) and the Crédit Agricole CIB Momentum Strategy Index Series (the **Momentum Strategy Proprietary Indices**) (each index within such series, a **Proprietary Index** and, together, the **Proprietary Indices**). A description of each of these series is set out below (the **Index Description**). The Proprietary Indices are "price return" indices which measure the returns accrued from notionally investing in certain underlying futures contracts (based on the prices of such futures contracts), which reference government bonds.

### 2 LONG ONLY STRATEGY PROPRIETARY INDICES

#### 2.1 Purpose of the Long Only Strategy Proprietary Indices

Each Long Only Strategy Proprietary Index is intended to express the notional returns accruing to a hypothetical investor holding a long position in a futures contract referencing certain underlying government bonds, such futures contract stated to be the subject of that Long Only Strategy Proprietary Index in the tables in paragraph 9 (*Proprietary Index Information*) below (the **Long Only Strategy Underlying Constituent**). A "long position" means that the Long Only Strategy Proprietary Index benefits if the price of the Long Only Strategy Underlying Constituent increases and suffers if the price decreases. A Long Only Strategy Proprietary Index will therefore generate positive notional returns if the price of the Long Only Strategy Underlying Constituent increases and generate negative returns if the price of the Long Only Strategy Underlying Constituent decreases.

#### 2.2 Determination of the Long Only Strategy Proprietary Index Level

The Proprietary Index Calculation Agent will calculate the level of the Long Only Strategy Proprietary Index (the **Long Only Strategy Proprietary Index Level**) on each Index Business Day in accordance with the formula set out in paragraph 2.3 (*Formula relating to the Long Only Strategy Proprietary Index Level*) below. The Long Only Strategy Proprietary Index Level will be expressed as a number.

The Long Only Strategy Proprietary Index Level on any Index Business Day other than a Strategy Roll Date will be an amount equal to the sum of (i) the Long Only Strategy Proprietary Index Level on the immediately preceding Strategy Roll Date and (ii) the Closing Level of the Long Only Strategy Underlying Constituent on that Index Business Day minus the Closing Level of the same constituent (i.e. the futures contract that became the Long Only Strategy Underlying Constituent at the immediately preceding Roll) on the immediately preceding Strategy Roll Date.

The Long Only Strategy Proprietary Index Level on an Index Business Day which is also a Strategy Roll Date will be calculated in accordance with the process described above immediately before the Roll (as defined in paragraph 7 (*Rolling of the Proprietary Indices*) below) occurs.

#### 2.3 Formula relating to the Long Only Strategy Proprietary Index Level

**Strategy Roll Date<sub>k</sub>** means, in relation to an Index Business Day<sub>t</sub>, the Strategy Roll Date immediately preceding such Index Business Day<sub>t</sub>.

### 3 STEEPENING STRATEGY PROPRIETARY INDICES

#### 3.1 Purpose of the Steepening Strategy Proprietary Indices

Each Steepening Strategy Proprietary Index is intended to take advantage of a steepening of the yield curve for a relevant government bond. The yield curve at any time reflects the range of yields that investors in a particular government's debt may expect to receive on their investments over a range of terms to maturity. The natural shape of the yield curve is generally considered to be upwards sloping, reflecting the relatively higher yields that an investor in longer term government bonds would generally expect to receive in exchange for investing capital for longer periods of time. A steepening yield curve indicates that the difference between the yields available for longer dated bonds and shorter dated bonds is widening. Conversely, a flattening yield curve indicates that the difference between longer dated bonds and shorter dated bonds is narrowing.

Each Steepening Strategy Proprietary Index seeks to reflect the performance of a notional portfolio consisting of futures contracts referencing a short duration and a long duration government bond. The portfolio is constructed so that the strategy takes a notional "short position" in the long duration futures contract and a notional "long position" in the short duration futures contract. A short position means that the strategy benefits if the price of the relevant futures contract decreases, and suffers if the price increases. Conversely, a "long position" means that the strategy benefits if the price of the relevant futures contract increases and suffers if the price decreases. More specifically, each Steepening Strategy Proprietary Index is intended to track (i) the notional returns accruing to a hypothetical investor holding a short position in a futures contract referencing a government bond of long duration stated to be the subject of that Steepening Strategy Proprietary Index in the tables in paragraph 9 (*Proprietary Index Information*) below (the **Long Duration Steepening Strategy Underlying Constituent**) and (ii) the notional returns accruing to a hypothetical investor holding a long position in a futures contract referencing a government bond of short duration stated to be the subject of that Steepening Strategy Proprietary Index in the tables in paragraph 9 (*Proprietary Index Information*) below (the **Short Duration Steepening Strategy Underlying Constituent** and, together with the Long Duration Steepening Strategy Underlying Constituent, the **Steepening Strategy Underlying Constituents**) multiplied by a duration factor, which is adjusted quarterly so as to ensure a duration neutral position (the **Duration Factor**). The level of a Steepening Strategy Proprietary Index is expected to increase if the yield curve for the relevant government bonds, which are referenced by the Steepening Strategy Underlying Constituents, steepens and decrease if the yield curve for the relevant government bonds, which are referenced by the Steepening Strategy Underlying Constituents, flattens.

### 3.2 Rebalancing of the Steepening Strategy Proprietary Indices

On each Strategy Roll Date the Duration Factor is recalculated as the ratio of the duration of the Long Duration Steepening Strategy Underlying Constituent divided by the duration of the Short Duration Steepening Strategy Underlying Constituent. The duration of each Steepening Strategy Underlying Constituent is a measure of the sensitivity of the Steepening Strategy Underlying Constituents to a change in interest rates of one basis point, as calculated by the Proprietary Index Calculation Agent.

### 3.3 Determination of the Steepening Strategy Proprietary Index Level

The Proprietary Index Calculation Agent will calculate the level of the Steepening Strategy Proprietary Index (the **Steepening Strategy Proprietary Index Level**) on each Index Business Day in accordance with the formula set out in paragraph 3.4 (*Formula relating to the Steepening Strategy Proprietary Index Level*) below. The Steepening Strategy Proprietary Index Level will be expressed as a number.

The Steepening Strategy Proprietary Index Level on any Index Business Day other than a Strategy Roll Date will be an amount equal to:

- (i) the Steepening Strategy Proprietary Index Level on the immediately preceding Strategy Roll Date, minus
- (ii) the Closing Level of the Long Duration Underlying Constituent on that Index Business Day minus the Closing Level of the same constituent (i.e. the futures contract that became the Long Duration Underlying Constituent at the immediately preceding Roll) on the immediately preceding Strategy Roll Date, plus
- (iii) the product of (A) the Duration Factor on the immediately preceding Strategy Roll Date, and (B) the Closing Level of the Short Duration Underlying Constituent on that Index Business Day minus the Closing Level of the same constituent (i.e. the futures contract that became the Short Duration Underlying Constituent at the immediately preceding Roll) on the immediately preceding Strategy Roll Date.

The Steepening Strategy Proprietary Index Level on an Index Business Day which is also a Strategy Roll Date will be calculated in accordance with the process described above immediately before the Roll (as defined in paragraph 7 (*Rolling of the Proprietary Indices*) below) occurs (and so will be calculated using the futures contracts and Duration Factor which are applicable immediately before the Roll is effected).

### 3.4 Formula relating to the Steepening Strategy Proprietary Index Level

**Steepening Strategy Proprietary Index Level** means, in relation to an Index Business Day<sub>t</sub>, and subject to paragraph 6 (*Disruption Events*) below of this Index Description, an amount calculated by the Proprietary Index Calculation Agent in accordance with the following formula:

$$Index_{k,t} = Index_k - (S1_{k,t} - S1_k) + (Duration Factor_k \times (S2_{k,t} - S2_k))$$

where:

**Index<sub>k,t</sub>** means the Steepening Strategy Proprietary Index Level on Index Business Day<sub>t</sub>;

**Index<sub>k</sub>** means the Steepening Strategy Proprietary Index Level on Strategy Roll Date<sub>k</sub>;

where:

**S1<sub>durationk</sub>** means the Duration of the futures contract that became the Long Duration Underlying Constituent immediately following the Roll on Strategy Roll Date<sub>k</sub>;

**S2<sub>durationk</sub>** means the Duration of the futures contract that became the Short Duration Underlying Constituent immediately following the Roll on Strategy Roll Date<sub>k</sub>; and

**Duration** means the sensitivity of an Underlying Constituent to a change in interest rates of one basis point, as calculated by the Proprietary Index Calculation Agent based on the interest rate sensitivity of that bond among the deliverable bonds specified for the Underlying Constituent, which is the cheapest-to-deliver at the time of determination and that bond's conversion factor.

## 4 MOMENTUM STRATEGY PROPRIETARY INDICES

### 4.1 Purpose of the Momentum Strategy Proprietary Indices

Each Momentum Strategy Proprietary Index is intended to identify and capitalise on existing trends in the market for certain government bonds. More specifically, each Momentum Strategy seeks to track the notional returns accruing to a hypothetical investor holding either a long or a short position in a futures contract which references certain underlying government bonds, stated to be the subject of that Momentum Strategy Proprietary Index in the tables in paragraph 9 (*Proprietary Index Information*) below (the **Momentum Strategy Underlying Constituent**) and rebalancing the exposure to the Momentum Strategy Underlying Constituent from short to long and vice versa, depending on certain momentum indicators on certain dates.

A "short position" in a Momentum Strategy Underlying Constituent means a position that benefits if the price of that Momentum Strategy Underlying Constituent decreases, and suffers if the price increases. Conversely, a "long position" in a Momentum Strategy Underlying Constituent means strategy position that benefits if the price of that Momentum Strategy Underlying Constituent increases and suffers if the price decreases. Whether the Momentum Strategy takes a long position or a short position in a Momentum Strategy Underlying Constituent will depend on:

- (i) the difference from time to time between (A) the Short Term Average (as defined below); and (B) the Long Term Average (as defined below); or
- (ii) the difference from time to time between (A) the Positive Directional Indicator (as defined below); and (B) the Negative Directional Indicator (as defined below).

A Momentum Strategy Proprietary Index will generate positive notional returns if (a) the price of the Momentum Strategy Underlying Constituent in respect of which the Momentum Strategy Proprietary Index has a long position (i.e. a positive Exposure as defined below) increases or (b) the price of the Momentum Strategy Underlying Constituent in respect of which the Momentum Strategy has a short position (i.e. a negative Exposure) decreases.

#### 4.2 Rebalancing of the Momentum Strategy Proprietary Indices

The exposure to the Momentum Strategy Underlying Constituent (the **Exposure**) will be rebalanced (from long to short Exposure or alternatively from short to long Exposure) on each Index Business Day upon the occurrence of a Momentum Strategy Rebalancing Event (as defined below) as determined by the Proprietary Index Calculation Agent. A **Momentum Strategy Rebalancing Event** will be deemed to occur in respect of an Index Business Day if:

- (i) (A) the Short Term Average is greater than or equal to the Long Term Average on that Index Business Day; and (B) on the immediately preceding Index Business Day the Short Term Average was less than the Long Term Average; or
- (ii) (A) the Short Term Average is less than the Long Term Average on that Index Business Day; and (B) on the immediately preceding Index Business Day the Short Term Average was greater than or equal to the Long Term Average; or
- (iii) (A) the Positive Directional Indicator is greater than or equal to the Negative Directional Indicator on that Index Business Day; and (B) on the immediately preceding Index Business Day the Positive Directional Indicator was less than the Negative Directional Indicator; or
- (iv) (A) the Positive Directional Indicator is less than the Negative Directional Indicator on that Index Business Day; and (B) on the immediately preceding Index Business Day the Positive Directional Indicator was greater than or equal to the Negative Directional Indicator.

The Index Business Day immediately after the Index Business Day in respect of which a Momentum Strategy Rebalancing Event occurs shall be a **Momentum Strategy Rebalancing Date**.

On a Momentum Strategy Rebalancing Date the Exposure will be adjusted as follows:

- (i) if the Short Term Average is greater than or equal to the Long Term Average on the day in respect of which the Momentum Strategy Rebalancing Event occurred, the Exposure from (but excluding) that Momentum Strategy Rebalancing Date to (and including) the next following Momentum Strategy Rebalancing Date will be +100 per cent.;
- (ii) if the Short Term Average is less than the Long Term Average on the Index Business Day in respect of which the Momentum Strategy Rebalancing Event occurred, the Exposure from (but excluding) that Momentum Strategy Rebalancing Date to (and including) the next following Momentum Strategy Rebalancing Date will be -100 per cent.;
- (iii) if the Positive Directional Indicator is greater than or equal to the Negative Directional Indicator on the Index Business Day in respect of which the Momentum Strategy Rebalancing Event occurred, the Exposure from (but excluding) that Momentum Strategy Rebalancing Date to (and including) the next following Momentum Strategy Rebalancing Date will be +100 per cent.; and

- (iv) if the Positive Directional Indicator is less than the Negative Directional Indicator on the Index Business Day in respect of which the Momentum Strategy Rebalancing Event occurred, the Exposure from (but excluding) that Momentum Strategy Rebalancing Date to (and including) the next following Momentum Strategy Rebalancing Date will be - 100 per cent.

#### 4.3 Determination of the Momentum Strategy Proprietary Index Level

The Momentum Strategy Proprietary Index Level will be expressed as a number.

The Momentum Strategy Proprietary Index Level on any Index Business Day, which is not a Momentum Strategy Rebalancing Date or a Strategy Roll Date (together, a Rebalancing Date), will be an amount equal to:

- (i) the Momentum Strategy Proprietary Index Level on the immediately preceding Rebalancing Date; plus
- (ii) the product of (A) the Exposure applicable from (but excluding) the immediately preceding Momentum Strategy Rebalancing Date, and (B) the Closing Level of the Momentum Strategy Underlying Constituent on that Index Business Day minus the Closing Level of the Momentum Strategy Underlying Constituent on the immediately preceding Rebalancing Date (and, for the avoidance of doubt, if the preceding Rebalancing Date was a Strategy Roll Date, the constituent is the new futures contract that became the Momentum Strategy Underlying Constituent at the Roll on that Strategy Roll Date).

The Momentum Strategy Proprietary Index Level on an Index Business Day, which is also a Momentum Strategy Rebalancing Date, will be calculated in accordance with the process described above immediately before the change to the Exposure.

The Momentum Strategy Proprietary Index Level on an Index Business Day which is also a Strategy Roll Date will be calculated in accordance with the process described above immediately before the Roll (as defined in paragraph 7 (*Rolling of the Proprietary Indices*) below) occurs.

- (ii) not calculate the Proprietary Index Level for such Index Business Day and suspend the calculation and publication of the Proprietary Index Level until the first succeeding Index Business Day, which is not a Disrupted Day for any Underlying Constituent of the Proprietary Index. The relevant Disrupted Day will not be an Index Business Day for the purposes of the Proprietary Index if the Proprietary Index Calculation Agent makes a determination pursuant to this paragraph (ii).

If an Inconvertibility Event or FX Disruption Event (that the Proprietary Index Calculation Agent determines is material) occurs on any Index Business Day in respect of a Currency relevant to an Index, the Proprietary Index Calculation Agent may (but is not obliged to) adjust any variable relevant to calculation of the Proprietary Index Level on such Index Business Day that it deems appropriate.

### 6.2 Extraordinary Events

If a Force Majeure Event occurs on an Index Business Day, the Proprietary Index Calculation Agent, acting in good faith and a commercially reasonable manner, may (but is not obliged to):

- (i) calculate and publish its good faith estimate of the Proprietary Index Level for any such Index Business Day; and/or
- (ii) make such amendments to the terms of the rules governing a Proprietary Index as it considers appropriate to determine the Proprietary Index Level on any such Index Business Day; and/or
- (iii) not calculate the Proprietary Index Level for any such Business Day and suspend the calculation and publication of the Proprietary Index Level until the next Index Business Day on which it determines that no Force Majeure Event exists; and/or
- (iv) permanently cease to calculate and publish the Proprietary Index Level.

If the Proprietary Index Calculation Agent, acting in good faith and a commercially reasonable manner, determines that a Hedging Disruption Event or an Increased Cost of Hedging Event has occurred or exists on an Index Business Day, the Proprietary Index Calculation Agent may (but is not obliged to):

- (i) calculate and publish its good faith estimate of the Proprietary Index Level for any such Index Business Day; and/or
- (ii) make such amendments to the terms of the rules governing a Proprietary Index as it considers appropriate to determine the Proprietary Index Level on any such Index Business Day; and/or
- (iii) not calculate the Proprietary Index Level for any such Business Day and suspend the calculation and publication of the Proprietary Index Level until the next Index Business Day on which it determines that no Hedging Disruption Event or Increased Cost of Hedging Event (as applicable) exists; and/or
- (iv) permanently cease to calculate and publish the Proprietary Index Level.

If the Currency of the Index relevant to a Proprietary Index is lawfully eliminated, converted, redenominates or exchanges into a new currency (**Successor Currency**) then such Currency of the Index affected by such elimination, conversion, redenomination or exchange shall be deemed replaced by such Successor Currency with effect from a date determined by the Proprietary Index Calculation Agent who may make such adjustment to the rules governing the Proprietary Index, as it determines in good faith to account for such event.

If in respect of a Proprietary Index, at any time, the licence granted (if required) to the Proprietary Index Calculation Agent (or its affiliates) to use any Underlying Constituent for the purposes of the Proprietary Index terminates, or the Proprietary Index Calculation Agent's rights to use the Underlying Constituent for the purpose of the Proprietary Index is otherwise disputed, impaired or ceases (for any reason), the Proprietary Index Calculation Agent may remove such Underlying Constituent from the Proprietary Index or replace such Underlying Constituent and may make such adjustments to the rules governing the Proprietary Index, each as it determines in good faith to be appropriate to account for such event on such dates as selected by the Proprietary Index Calculation Agent.

Without prejudice to the ability of the Proprietary Index Calculation Agent to amend the rules governing the Proprietary Index, the Proprietary Index Calculation Agent may in respect of a Proprietary Index, acting in good faith and in a commercially reasonable manner exclude or substitute any Underlying Constituent following the occurrence (and/or continuation) of a Change in Law, and if it excludes or substitutes any Underlying Constituent, then the Proprietary Index Calculation Agent may adjust the rules governing the Proprietary Index as it determines in good faith to be appropriate to account for such exclusion or substitution on such date(s) selected by the Proprietary Index Calculation Agent.

## 7 ROLLING OF THE PROPRIETARY INDICES

Each futures contract which forms the Underlying Constituent for a Proprietary Index is "rolled" quarterly on the 5<sup>th</sup> Index Business Day before the First Notice Date of the First Expiry Futures Contract (such date, the **Strategy Roll Date**). On each Strategy Roll Date the existing futures position in the First Expiry Futures Contract is liquidated and an equivalent position is entered into in the Second Expiry Futures Contract, with a notional value equal to that previously invested in the First Expiry Futures Contract, effective from the Index Business Day after the Strategy Roll Date (each such reinvestment, a **Roll**). This means that in the period from (but excluding) the Strategy Roll Date to the Expiry Date of the First Expiry Futures Contract, the Active Contract for the Underlying Constituent for a Proprietary Index is the Second Expiry Futures Contract.

On the Expiry Date of the First Expiry Futures Contract, the Second Expiry Futures Contract (which the strategy position has already moved into) becomes the First Expiry Futures Contract, as set out in the following timeline:

where:

**Active Contract** means, in respect of a Proprietary Index, the futures contract in which the Proprietary Index is currently invested;

**Expiry Date** means, in respect of a futures contract, the date on which that contract expires;

**First Expiry Futures Contract** means, at any time, the futures contract closest to expiry;

**First Notice Date** means the first day, varying by contract and exchange on which the contract trades, on which notices of intent to deliver actual financial instruments against futures are authorised; and

**Second Expiry Futures Contract** means, at any time, the futures contract second closest to expiry.

## 8 PUBLICATION OF PROPRIETARY INDEX LEVELS

Subject to any Market Disruption Events and Extraordinary Events (as set out in paragraph 6 (*Disruption Events*)) in respect of each Proprietary Index, the Proprietary Index Calculation Agent shall calculate Proprietary Index Level and publish it (in a manner determined by the Proprietary Index Calculation Agent from time to time) in respect of each Index Business Day. All Proprietary Index Levels are rounded to 2 decimal places before being published and calculated in the Currency of the Index.

## FORM OF GUARANTEE

*This section sets out the final Form of the Guarantee given by Crédit Agricole Corporate and Investment Bank in favour of the Securityholders.*

### DEED OF GUARANTEE

**THIS DEED OF GUARANTEE** is made on 10 May 2017 (the **Programme Date**) by Crédit Agricole Corporate and Investment Bank (the **Guarantor**) in favour of the Relevant Account Holders (as defined in the Deed of Covenant referred to below) and the holders for the time being of the Securities (as defined below) (the **Securityholders**) and the interest coupons (if any) appertaining to the Securities (the **Coupons**, which expression shall include the receipts for the repayment of nominal in instalments (if any) appertaining to the Securities), the Coupons being attached on issue to Definitive Security(ies) (as defined below). Each Relevant Account Holder, each holder of a Security and each holder of a Coupon is referred to herein as a **Securityholder**.

#### WHEREAS:

- (A) Crédit Agricole Corporate and Investment Bank, Crédit Agricole CIB Finance (Guernsey) Limited, Crédit Agricole CIB Financial Solutions (together, the **Issuers** and each an **Issuer**) and the Guarantor have entered into a programme agreement (the **Programme Agreement**, which expression includes the same as it may be amended, supplemented or restated from time to time) dated the Programme Date with the Dealers named therein under which each Issuer proposes from time to time to issue securities (the **Securities**), such expression to include each Definitive Security issued by an Issuer and each Global Security issued by an Issuer (where **Definitive Security** and **Global Security** have the meanings ascribed thereto in the Conditions (as defined below) and shall include any coupons for interest and any receipts issued in respect of Securities repayable in instalments under a €50,000,000,000 Structured Debt Instruments Issuance Programme (the **Programme**));
- (B) each Issuer has executed a Deed of Covenant dated the Programme Date (the **Deed of Covenant**) relating to Global Securities issued by that Issuer pursuant to the Programme Agreement;
- (C) the Issuers and the Guarantor have entered into an Agency Agreement (the **Agency Agreement**, which expression includes the same as it may be amended, supplemented or restated from time to time) dated the Programme Date with the agents named therein;
- (D) in respect of Securities issued on or after the Programme Date, this Guarantee replaces the deed of guarantee (the **Previous Guarantee**) dated 11 May 2016 executed by the Guarantor (this does not affect any Securities issued under the Programme prior to the Programme Date); and
- (E) terms defined in the Terms and Conditions of the Securities as provided in the Base Prospectus relating to the Programme (the **Conditions**) shall have the same meaning when used in this Guarantee.

#### NOW THIS DEED WITNESSES as follows:

- 1.1 **Guarantee:** The Guarantor irrevocably and unconditionally guarantees by way of deed poll to each Securityholder that, if for any reason, an Issuer does not pay any sum payable by it to such Securityholder in respect of any Security or Coupon or under the Deed of Covenant or, in the event that any Physical Settlement Amount (as defined in ETF Linked Asset Condition 2 (*General Definitions relating to ETF Linked Securities*)) in respect of ETF Linked Securities, Share Linked Asset Condition 2 (*General Definitions relating to Share Linked Securities*) in respect of Share Linked Securities, Credit Linked Condition 4 (*Physical Settlement*) in respect of Credit Linked Securities and

Bond Linked Condition 6 (*Definitions*) in respect of Bond Linked Securities) fail to be delivered under the Conditions, fail to pay and deliver such Physical Settlement Amounts in accordance with the Conditions, as the case may be, (including any premium or any other amounts of whatever nature or additional amounts which may become payable under any of the foregoing) as and when the same shall become due under any of the foregoing, the Guarantor will within 14 Business Days after receipt of written notice pay to such Securityholder the amount payable by the relevant Issuer to such Securityholder, or deliver any Physical Settlement Amounts to be paid and delivered in accordance with the Conditions by the relevant Issuer to such Securityholder provided that, where such amounts relate to a Secured Security and are payable or deliverable, as the case may be, following a Secured Security Event of Default, such amounts shall only become payable or deliverable by the Guarantor under this Guarantee following distribution of the related Collateral Enforcement Proceeds Share or Collateral Assets Entitlement, as the case may be, by the Security Trustee in accordance with the applicable Order of Priority. This Guarantee shall apply to all Securities issued on or after the Programme Date and all references herein to Securities shall be construed accordingly. Securities issued prior to the Programme Date shall continue to have the benefit of the Previous Guarantee or, if applicable, any deed of guarantee preceding the Previous Guarantee.

- 1.2 **Guarantor as Principal Debtor:** Without affecting the relevant Issuer's obligations, the Guarantor will be liable under this Guarantee as if it were the sole principal debtor and not merely a surety. Accordingly, it will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal debtor (including (a) any time, indulgence, waiver or consent at any time given to the relevant Issuer or any other person, (b) any amendment to any Security, any Coupon or the Deed of Covenant or to any security or other guarantee or indemnity, (c) the making or absence of any demand on the relevant Issuer or any other person for payment, (d) the enforcement or absence of enforcement of any Security, any Coupon, the Deed of Covenant or of any security or other guarantee or indemnity, (e) the release of any such security, guarantee or indemnity, (f) the dissolution, amalgamation, reconstruction or reorganisation of the relevant Issuer or any other person or (g) the illegality, invalidity or unenforceability of or any defect in any provision of any Security, any Coupon or the Deed of Covenant or any of the relevant Issuer's obligations under any of them).
- 1.3 **Guarantor's Obligations Continuing:** Subject as provided below, the Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no sum remains payable under any Security, any Coupon or the Deed of Covenant. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Securityholder, whether from the Guarantor or otherwise. The Guarantor irrevocably waives all notices and demands whatsoever. Notwithstanding the foregoing, the Guarantor's liability under this Guarantee in relation to any Series of Securities shall be extinguished automatically and in full following the replacement and substitution of the Issuer of such Series of Securities pursuant to General Condition 17 (*Substitution of the relevant Issuer*) by a Substituted Debtor.
- 1.4 **Repayment to the relevant Issuer:** If any payment received by a Securityholder is, on the subsequent liquidation or insolvency of the relevant Issuer, avoided under any laws relating to liquidation or insolvency, such payment will not be considered as having discharged or diminished the liability of the Guarantor and this Guarantee will continue to apply as if such payment had at all times remained owing by the relevant Issuer.
- 1.5 **Indemnity:** As a separate and alternative stipulation, the Guarantor unconditionally and irrevocably agrees that any sum expressed to be payable by the relevant Issuer under any Security, any Coupon or

the Deed of Covenant but which is for any reason (whether or not now known or becoming known to the relevant Issuer, the Guarantor or any Securityholder) not recoverable from the Guarantor on the basis of a guarantee will nevertheless be recoverable from it as if it were the sole principal debtor and will be paid by it to the Securityholder within 14 Business Days after receipt of written notice. This indemnity constitutes a separate and independent obligation from the other obligations in this Guarantee, gives rise to a separate and independent cause of action and will apply irrespective of any indulgence granted by any Securityholder.

- 1.6 **Status of Guarantee:** The Guarantee will constitute an unconditional and unsecured obligation of the Guarantor and ranks (save for statutorily preferred exceptions) *pari passu* with any other existing or future unsecured and unsubordinated obligations of the Guarantor.
- 1.7 **Incorporation of Conditions:** So long as any of the Securities, Receipts or Coupons remains outstanding (as defined in the Agency Agreement) the Guarantor will comply with the provisions applicable to it in the Conditions of the Securities as though the same were set out in full herein.
- 1.8 **Power to execute:** The Guarantor hereby warrants, represents and covenants with each Securityholder that it has all corporate power, and has taken all necessary corporate or other steps, to enable it to execute, deliver and perform this Guarantee, and that this Guarantee constitutes a legal, valid and binding obligation of the Guarantor in accordance with its terms.
- 1.9 **Deposit of Guarantee:** This Guarantee shall take effect as a Deed Poll for the benefit of the Securityholders from time to time and for the time being. This Guarantee shall be deposited with and held by CACEIS Bank, Luxembourg Branch, for the benefit of the Securityholders until all the obligations of the Guarantor have been discharged in full.
- 1.10 **Production of Guarantee:** The Guarantor hereby acknowledges the right of every Securityholder to the production of, and the right of every Securityholder to obtain (upon payment of a reasonable charge) a copy of, this Guarantee, and further acknowledges and covenants that the obligations binding upon it contained herein are owed to, and shall be for the account of, each and every Securityholder, and that each Securityholder shall be entitled severally to enforce the said obligations against the Guarantor.
- 1.11 **Subrogation:** Until all amounts which may be payable under the Securities, the Coupons and/or the Deed of Covenant have been irrevocably paid in full, the Guarantor shall not by virtue of this Guarantee be subrogated to any rights of any Securityholder or claim in competition with the Securityholders against the relevant Issuer.
- 1.12 **Contracts (Rights of Third Parties) Act 1999:** No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Guarantee, but this does not affect any right or remedy of any person, which exists or is available apart from that Act.
- 1.13 **Governing Law and Jurisdiction:** This Guarantee and any non-contractual obligations arising out of or in connection with the Guarantee is governed by and shall be construed in accordance with English law. The Guarantor and each Securityholder hereby agree that the English courts are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with this Guarantee and that accordingly any suit, action or proceedings (together referred to as **Proceedings**) arising out of or in connection with this Guarantee shall be brought in such courts.

The Guarantor hereby appoints Crédit Agricole Corporate and Investment Bank, London branch, at its registered office for the time being in England (being presently at Broadwalk House, 5 Appold Street, London EC2A 2DA) as its agent for service of process in England in respect of any Proceedings and undertakes that in the event of it ceasing so to act it will appoint another person as its agent for that purpose.

As of 7 June 2016 (last rating action) Fitch Ratings has assigned the following Ratings:

- Short Term IDR: F1

A short term issuer default rating (**IDR**) issued by Fitch reflects a financial institution's vulnerability to default in the short term. For financial institutions and most other issuers, the "short term" typically means up to 13 months.

- Long Term IDR: A, positive outlook

A long term IDR issued by Fitch in respect of a financial institution expresses Fitch's opinion on that institution's relative vulnerability to default on its financial obligations. In accordance with Fitch's rating definitions, the default risk addressed by the IDR is generally that of the financial obligations whose non-payment would "best reflect the uncured failure of that entity". Fitch considers that the obligations of financial institutions whose non-payment would best reflect uncured failure are usually senior obligations to third-party, non-government creditors. IDRs of financial institutions therefore typically opine on the probability of default on such obligations.

The Fitch Ratings group of companies established in the EU, which includes Fitch Ratings Limited, was registered on 31 October 2011 in accordance with the CRA Regulation.

As of 19 July 2016 (last rating action) Moody's Investors Service Ltd has assigned the following Ratings:

- Short Term Debt: Prime-1
- Long Term Debt: A1, stable outlook

Ratings assigned on Moody's global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by non-financial corporates, financial institutions, structured finance vehicles, project finance vehicles, and public sector entities. Long-term ratings are assigned to issuers or obligations with an original maturity of one year or more and reflect both on the likelihood of a default on contractually promised payments and the expected financial loss suffered in the event of default. Short-term ratings are assigned to obligations with an original maturity of thirteen months or less and reflect the likelihood of a default on contractually promised payments.

Moody's Investors Service Ltd was registered on 31 October 2011 in accordance with the CRA Regulation.

As of 2 December 2015 (last rating action) Standard & Poor's Rating Services, a division of Standard & Poor's Credit Market Service Europe Limited has assigned the following Ratings:

- Short Term Debt: A-1
- Long Term Debt: A, stable outlook

Standard & Poor's credit ratings express Standard & Poor's opinion about the ability and willingness of an issuer to meet its financial obligations in full - and on time. Beyond that, credit ratings can also speak to the credit quality of an individual debt issue and the relative likelihood that the issue may default. Ratings are expressed as letter grades that range from 'AAA' to 'D' (in the case of long term ratings) or 'A-1' to 'D' (in the case of short term ratings) to communicate Standard & Poor's opinion of relative level of credit risk.

Standard & Poor's Credit Market Service Europe Limited was registered on 31 October 2011 in accordance with the CRA Regulation.

Crédit Agricole CIB is dependent on the performance of its subsidiaries and affiliates.

## RECENT DEVELOPMENTS

*This section sets out recent developments with respect to the Issuers.*

### 1/ Sale of Crédit Agricole Securities Taiwan

On 31 July 2013, Crédit Agricole CIB Group withdrew from the brokerage business, with notably the disposal of the CLSA BV Group to Citics International by CASA BV. Since Taiwanese law prohibits ownership of more than 30% of a Taiwanese company by Chinese (PRC) interests, CLSA's operations in Taiwan were hived off and sold to Crédit Agricole Securities Asia B.V.. In the CLSA BV sale contract, Crédit Agricole Securities Asia B.V. had agreed to maintain brokerage operations in Taiwan for two years. During the second quarter of 2015, a contract was signed selling the shares to a new third counterparty. The sale, approved by the local regulator and later finalised on 31 May 2016, led to a non-material capital gain.

### 2/ Single Resolution Fund

The Single Resolution Fund (SRF) was established by Regulation (EU) No 806/2014 as a single funding mechanism for all Member States participating in the Single Supervisory Mechanism (SSM) established by Council Regulation (EU) No 1024/2013 and in the Single Resolution Mechanism (SRM). The SRF is financed by the banking sector. The target level of the Fund is 1% of the amount of deposits covered by the Deposit Guarantee Fund and must be reached by 31 December 2023. 85% of the contribution to the resolution fund is payable in cash, in the form of an annual contribution. The remaining 15% is the subject of an irrevocable payment commitment, collateralised through a cash security deposit held by the Fund. The deposit will be held for the duration of the commitment. It is repayable at maturity. Thus, for the 2016 financial year, Crédit Agricole CIB Group paid €140 million in respect of the annual contribution, as opposed to €77 million for year ended 31 December 2015, recognised in the income statement in taxes other than on income or payroll related.

### 3/ Tax consolidation convention

97.33% owned by Crédit Agricole S.A. (CASA), whether directly or indirectly, Crédit Agricole CIB (CACIB) is part of the tax consolidation group constituted by CASA and is head of the CACIB tax sub-group constituted with the member subsidiaries of the tax consolidation group. Under the terms of the tax consolidation convention, the losses of the CACIB sub-group were, until 31 December 2015, compensated by CASA up to the limit of CACIB's integrated individual losses. A revision of the tax consolidation convention in 2016 stipulates the compensation by CASA of the losses generated as of 1 January 2016 by all the subsidiaries in the CACIB subgroup and the monetisation of the tax loss carryforwards of the CACIB sub-group at that date. The income tax charge for the financial year reflects the consequences of the revised convention through (see Note 4.10 "Income Tax Charge" and Note 6.13 "Current and deferred tax assets and liabilities" to the consolidated financial statements):

- i. compensation of the 2016 losses of the sub-group;
- ii. monetisation of the loss carryforwards of the sub-group prior to 1 January 2016;
- iii. and, consequently, the cancellation of our Deferred tax assets regarding CASA;
- iv. recognition in the consolidated financial statements of a deferred tax liability on losses generated by nonconsolidated member subsidiaries of the tax group to materialise CACIB's obligation to repay the sums.

### 4/ Euribor/Libor

On 7 December 2016, the European Commission jointly fined Crédit Agricole S.A. and Crédit Agricole CIB €114.7 million over Euribor. This payment must be made within three months of notification of the decision,

namely on 8 March 2017 at the latest. The Commission does not specify how it should be allocated between Crédit Agricole S.A. and Crédit Agricole CIB and leaves it up to them to contractually agree the portion of the fine allocated to each, in line with European Court of Justice case law. Crédit Agricole S.A. and Crédit Agricole CIB, which are challenging this decision, have decided to petition the European Court of Justice to overturn it. Various procedural and substantive arguments will be put forward to support the appeal. Therefore, even though the fine is immediately payable it may be overturned. Pending the decision of the European Court (see Note 6.18 “Reserves” to the consolidated financial statements), Crédit Agricole S.A. decided to provisionally pay the full amount of the fine. It should be recalled that Crédit Agricole S.A. is, as central body, responsible for the liquidity and solvency of all its affiliates including Crédit Agricole CIB.

## BOOK-ENTRY CLEARANCE SYSTEMS

*This section sets out the procedures relating to the clearing of certain Securities.*

*The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear or Clearstream, Luxembourg (together, the **Clearing Systems**) currently in effect. The information in this section concerning the Clearing Systems has been obtained from sources that the Issuers and the Guarantor believe to be reliable, but none of the Issuers, the Guarantor nor any Dealer takes any responsibility for the accuracy thereof. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuers, the Guarantor nor any other party to the Agency Agreement will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Securities held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.*

### Book-entry Systems

#### DTC

DTC has advised the relevant Issuer that it is a limited purpose trust company organised under the New York Banking Law, a "banking organisation" within the meaning of the New York Banking Law, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to Section 17A of the Exchange Act. DTC holds securities that its participants (**Participants**) deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerised book-entry changes in Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc. and the National Association of Securities Dealers, Inc. Access to the DTC System is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (**Indirect Participants**).

Under the rules, regulations and procedures creating and affecting DTC and its operations (the **Rules**), DTC makes book-entry transfers of Registered Securities among Direct Participants on whose behalf it acts with respect to Securities accepted into DTC's book-entry settlement system (**DTC Securities**) as described below and receives and transmits distributions of nominal and interest on DTC Securities. The Rules are on file with the Securities and Exchange Commission. Direct Participants and Indirect Participants with which beneficial owners of DTC Securities (**Owners**) have accounts with respect to the DTC Securities similarly are required to make book-entry transfers and receive and transmit such payments on behalf of their respective Owners. Accordingly, although Owners who hold DTC Securities through Direct Participants or Indirect Participants will not possess Registered Securities, the Rules, by virtue of the requirements described above, provide a mechanism by which Direct Participants will receive payments and will be able to transfer their interest in respect of the DTC Securities.

Purchases of DTC Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the DTC Securities on DTC's records. The ownership interest of each actual purchaser of each DTC Security (**Beneficial Owner**) is in turn to be recorded on the Direct and Indirect Participant's records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the DTC Securities are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates

representing their ownership interests in DTC Securities, except in the event that use of the book-entry system for the DTC Securities is discontinued.

To facilitate subsequent transfers, all DTC Securities deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of DTC Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Securities; DTC's records reflect only the identity of the Direct Participants to whose accounts such DTC Securities are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to Cede & Co. If less than all of the DTC Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. will consent or vote with respect to DTC Securities. Under its usual procedures, DTC mails an omnibus proxy to the relevant Issuer as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the DTC Securities are credited on the record date (identified in a listing attached to the omnibus proxy).

Nominal and interest payments on the DTC Securities will be made to DTC. DTC's practice is to credit Direct Participants' accounts on the due date for payment in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on the due date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of DTC or the relevant Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of nominal and interest to DTC is the responsibility of the relevant Issuer, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

Under certain circumstances, including if there is an Event of Default under the Securities, DTC will exchange the DTC Securities for definitive Registered Securities, which it will distribute to its Participants in accordance with their proportionate entitlements and which, if representing interests in a Rule 144A Global Security, will be legended as set forth under "*Subscription and Sale*".

Since DTC may only act on behalf of Direct Participants, who in turn act on behalf of Indirect Participants, any Owner desiring to pledge DTC Securities to persons or entities that do not participate in DTC, or otherwise take actions with respect to such DTC Securities, will be required to withdraw its Registered Securities from DTC as described below.

The address of DTC is 55 Water Street, New York NY 10041-0099, USA.

*Euroclear and Clearstream, Luxembourg*

Euroclear and Clearstream, Luxembourg each holds securities for its customers and facilitates the clearance and settlement of securities transactions by electronic book-entry transfer between their respective account holders. Euroclear and Clearstream, Luxembourg provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depository and

custodial relationships. Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear and Clearstream, Luxembourg customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.

The address of Euroclear is 1, boulevard du Roi Albert II, B-1210, Brussels, Belgium.

The address of Clearstream, Luxembourg is 42, avenue J F Kennedy, L-1855, Luxembourg.

#### *Euroclear Sweden*

Euroclear Sweden is a subsidiary within the Euroclear group of companies and a limited liability company incorporated in Sweden. It is authorised and regulated by the Swedish Financial Supervisory Authority as a central securities deposit within the meaning of the Swedish Financial Instruments Accounts Act (1998:1479 (as amended)) and as a clearing organisation within the meaning of the Swedish Securities Markets Act (2007:528 (as amended)).

Swedish Securities will be issued in registered, unnoted and dematerialized book-entry form with Euroclear Sweden in accordance with the Swedish CSD Rules. No physical notes, certificates or other physical instruments (whether in global, temporary or definitive form) will be issued in respect of the Swedish Securities other than as specifically allowed in the Terms and Conditions of the Securities.

All transactions relating to the Swedish Securities (such as issuance, sale and transfer, pledge arrangements and other dispositions and redemptions) are executed as computerized book-entry registrations. Consequently, in order to effect such entries holders must establish a book entry account through a credit institution or a securities firm acting as an account operator with Euroclear Sweden. More information regarding Euroclear Sweden and its rules and operating procedures can be found at its internet web site at <http://www.euroclear.eu>.

#### **Book-entry Ownership of and Payments in respect of DTC Securities**

The relevant Issuer may apply to DTC in order to have any Tranche of Securities represented by a Registered Global Security accepted in its book-entry settlement system. Upon the issue of any such Registered Global Security, DTC or its custodian will credit, on its internal book-entry system, the respective nominal amounts of the individual beneficial interests represented by such Registered Global Security to the accounts of persons who have accounts with DTC. Such accounts initially will be designated by or on behalf of the relevant Dealer. Ownership of beneficial interests in such a Registered Global Security will be limited to Direct Participants or Indirect Participants, including, in the case of any Regulation S Global Security, the respective depositaries of Euroclear and Clearstream, Luxembourg. Ownership of beneficial interests in a Registered Global Security accepted by DTC will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in U.S. dollars of nominal and interest in respect of a Registered Global Security accepted by DTC will be made to the order of DTC or its nominee as the registered holder of such Security. In the case of any payment in a currency other than U.S. dollars, payment will be made to the Exchange Agent on behalf of DTC or its nominee and the Exchange Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Registered Global Security in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participants' account.

The relevant Issuer expects DTC to credit accounts of Direct Participants on the applicable payment date in accordance with their respective holdings as shown in the records of DTC unless DTC has reason to believe that it will not receive payment on such payment date. The relevant Issuer also expects that payments by Participants to beneficial owners of Securities will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such Participant and not the responsibility of DTC, the Principal Paying Agent, the Registrar or the relevant Issuer. Payment of nominal, premium, if any, and interest, if any, on Securities to DTC is the responsibility of the relevant Issuer.

### **Transfers of Securities Represented by Registered Global Securities**

Transfers of any interests in Securities represented by a Registered Global Security within DTC, Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Securities represented by a Registered Global Security to such persons may depend upon the ability to exchange such Securities for Securities in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Securities represented by a Registered Global Security accepted by DTC to pledge such Securities to persons or entities that do not participate in the DTC system or otherwise to take action in respect of such Securities may depend upon the ability to exchange such Securities for Securities in definitive form. The ability of any holder of Securities represented by a Registered Global Security accepted by DTC to resell, pledge or otherwise transfer such Securities may be impaired if the proposed transferee of such Securities is not eligible to hold such Securities through a direct or indirect participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Registered Securities described under "*Subscription and Sale*", cross-market transfers between DTC, on the one hand, and directly or indirectly through Clearstream, Luxembourg or Euroclear accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the Registrar, the Fiscal Principal Paying Agent and any custodian (**Custodian**) with whom the relevant Registered Global Securities have been deposited.

On or after the Issue Date for any Series, transfers of Securities of such Series between accountholders in Clearstream, Luxembourg and Euroclear and transfers of Securities of such Series between participants in DTC will generally have a settlement date three (3) business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Clearstream, Luxembourg or Euroclear and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Clearstream, Luxembourg and Euroclear, on the other, transfers of interests in the relevant Registered Global Securities will be effected through the Registrar, the Principal Paying Agent and the Custodian receiving instructions (and, where appropriate, certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between Euroclear or Clearstream, Luxembourg accountholders and DTC participants cannot be made on a delivery versus payment basis. The securities will be delivered on a free delivery basis and arrangements for payment must be made separately.

DTC, Clearstream, Luxembourg and Euroclear have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Securities among participants and accountholders of DTC, Clearstream, Luxembourg and Euroclear. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuers, the Guarantor, the Agents or any Dealer will be responsible for any performance by DTC, Clearstream, Luxembourg, Euroclear or their respective direct or indirect participants or accountholders of their respective

obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Securities represented by Registered Global Securities or for maintaining, supervising or reviewing any records relating to such beneficial interests.

## TAXATION

*This section sets out a summary of certain taxation considerations relating to the Securities*

**All prospective Securityholders should seek independent advice as to their tax position. This summary does not apply when payments of interest and other income with respect to the Securities are made by a paying agent (within the meaning of council directive 2003/48/EC) established in Austria.**

### TAXATION IN BELGIUM

#### General

*The following summary describes the principal Belgian tax considerations with respect to the holding of the Securities.*

*This information is of a general nature and does not purport to be a comprehensive description of all Belgian tax considerations that may be relevant to a decision to acquire, to hold or to dispose of the Securities. In some cases, different rules can be applicable. This summary does not describe the tax consequences for a holder of Securities that are redeemable in exchange for, or convertible into assets, of the exercise, settlement or redemption of such Securities or any tax consequences after the moment of exercise, settlement or redemption.*

*This summary is based on the Issuers' interpretation of Belgian tax legislation, treaties, rules, and administrative interpretations with respect to Belgian income taxes and similar documentation, in force as of 10 January 2017, without prejudice to any amendments introduced at a later date, even if implemented with retroactive effect.*

*Each prospective holder of Securities should consult a professional adviser with respect to the tax consequences of an investment in the Securities, taking into account the influence of each regional, local or national law.*

#### Taxes on income and capital gains

##### ***Resident individual private investors***

Individuals who are Belgian residents for tax purposes, i.e. individuals subject to the Belgian individual income tax ("*Personenbelasting*" / "*Impôt des personnes physiques*"), and who hold the Securities as a private investment are subject to the following income tax treatment in Belgium with respect to the Securities. Other tax rules apply to Belgian resident individuals holding the Securities not as a private investment but in the framework of their professional activity or when the transactions with respect to the Securities fall outside the scope of the normal management of their own private estate.

Under Belgian tax law, "interest" income includes: (i) periodic interest income, (ii) any amount paid by the Issuer in excess of the issue price (whether or not on the redemption date), and (iii) if the Securities qualify as "fixed income securities" (in the meaning of article 2, §1, 8° Belgian Income Tax Code), in the case of a realisation of the Securities between two interest payment dates, the interest accrued during the detention period. In general, Securities are qualified as fixed income security if there is a causal link between the amount of interest income and the detention period of the Securities, on the basis of which it is possible to calculate the amount of *pro rata* interest income at the moment of the sale of the Securities during their lifetime.

Payments of interest on the Securities made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). The Belgian withholding tax constitutes the final income tax for Belgian resident individuals. This means that they are not obliged to declare the interest obtained on the Securities in their personal income tax return, provided withholding tax was levied on these interest payments. They may nevertheless elect to declare interest in respect of the Securities in their personal income tax return.

If the interest is paid outside Belgium without the intervention of a Belgian paying agent, the interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return.

Interest income, which is declared in the annual personal income tax return, will in principle be taxed at a flat rate of 30 per cent. (or at the progressive personal tax rate taking into account the taxpayer's other declared income, whichever is more beneficial). If the interest payment is declared, any withholding tax retained may be credited and refunded.

Capital gains realised upon the sale of the Securities, are in principle tax exempt, except if the capital gains are realised outside the scope of the normal management of one's private estate or except to the extent that the capital gains qualify as interest (as defined above). Capital losses are in principle not tax deductible.

#### ***Tax treatment of resident corporations***

Corporations that are Belgian residents for tax purposes, i.e. corporations subject to Belgian Corporate Income Tax ("*Vennootschapsbelasting*" / "*Impôt des sociétés*") are subject to the following income tax treatment in Belgium with respect to the Securities.

Interest derived by Belgian resident investors on the Securities and capital gains realised on the Securities will be subject to Belgian corporate income tax at the ordinary rate of 33.99 per cent. Capital losses on the Securities are in principle tax deductible.

Payments of interest (as defined in the section "Resident individual private investors") on the Securities made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). However, the interest on the Securities (except Zero Coupon Securities and other Securities, which provide for the capitalisation of interest) can under certain circumstances be exempt from withholding tax (e.g. a special affidavit might be required). The Belgian withholding tax that has been levied is creditable and refundable in accordance with the applicable legal provisions.

#### ***Tax treatment of Organisations for Financing Pensions***

Belgian pension fund entities that have the form of an Organization for Financing Pensions ("*OFP*") are subject to Belgian Corporate Income Tax ("*Vennootschapsbelasting*" / "*Impôt des sociétés*"). OFPs are subject to the following tax treatment in Belgium with respect to the Securities.

Interest derived on the Securities and capital gains realized on the Securities will not be subject to Belgian Corporate Income Tax in the hands of OFPs. Any Belgian withholding tax that has been levied on interest payments on the Securities is creditable and refundable in accordance with the applicable legal provisions.

#### ***Other resident legal entities***

Legal entities that are Belgian residents for tax purposes i.e. that are subject to Belgian tax on legal entities ("*Rechtspersonenbelasting*" / "*impôt des personnes morales*"), are subject to the following withholding tax treatment in Belgium with respect to the Securities.

Payments of interest (as defined above in the section "Resident individual private investors") on the Securities made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium and no further tax on legal entities will be due on the interest. Note that, in case the paying agent does not meet his legal obligation to withhold the tax, it will become the legal obligation of the receiving legal entity to pay the withholding tax. However, if the interest is paid outside Belgium, i.e. without the intervention of a Belgian paying agent and without deduction of the Belgian withholding tax, the legal entity itself is required to declare and pay the Belgian 30 per cent. withholding tax to the Belgian treasury.

Capital gains realized on the sale of the Securities are in principle tax exempt, unless and to the extent that they qualify as interest (as defined above). Capital losses on the Securities are in principle not tax deductible.

### ***Tax treatment of Belgian non-residents***

The interest income on the Securities paid to a Belgian non-resident outside of Belgium, i.e. without the intervention of a professional intermediary in Belgium, is not subject to Belgian withholding tax.

Interest income on the Securities paid through a Belgian professional intermediary is in principle subject to a 30 per cent. Belgian withholding tax, unless the holder of Securities is resident in a country with which Belgium has concluded a double taxation agreement that provides for a lower rate and delivers the required affidavit.

Non-resident holders that have not allocated the Securities to business activities in Belgium can also obtain an exemption of Belgian withholding tax on interest if the interest is paid through a Belgian credit institution, a Belgian stock market company or a Belgian clearing or settlement institution and provided that the non-resident (i) is the owner or usufructer of the Securities, (ii) has not allocated the Securities to business activities in Belgium and (iii) delivers an affidavit confirming his non-resident status and the fulfilment of conditions (i) and (ii).

If the holder of a Security is a Belgian branch of a foreign company to which the Securities are attributable, the rules applicable to Belgian corporations (see above) will apply.

### ***EU Exchange of tax information***

Under council Directive 2003/48/EC on the taxation of savings income, Member States were required to provide to the tax authorities of other Member States details of certain payments of interest or similar income paid or secured by a person established in a Member State to or for the benefit of an individual resident in another Member State or certain limited types of entities established in another Member State.

On 10 November 2015 the Council adopted Directive 2015/2060 on taxation of savings income in the form of interest payments. This directive repeals Directive 2003/48/EC as from 1 January 2016 (1 January 2017 in the case of Austria). The Council adopted Directive 2015/2060 in order to avoid overlap between Directive 2003/48/EC and the new automatic exchange of information regime to be implemented under Directive 2015/2376 amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation. The scope of the exchange of information has been broadened to include all non-resident holders of a Belgian account receiving interest payments, irrespective whether they are individuals or legal entities.

### ***Belgian tax on stock exchange transactions***

A stock exchange tax ("*Taxe sur les opérations de bourse*", "*Taks op de beursverrichtingen*") will be levied on the acquisition and disposal of existing Securities for consideration on the secondary market in Belgium through a professional intermediary. The tax is due separately from each party to any such transaction, i.e., the seller (transferor) and the purchaser (transferee), both collected by the professional intermediary. The tax rate is 0.09 per cent. with a maximum amount of EUR 1300 per transaction and per party. As of 1 January 2017 the tax is also due in case of transactions for which the order has (directly or indirectly) been given to a foreign intermediary (not registered with the FSMA) by an individual with habitual residence in Belgium or by a legal entity on behalf of its Belgian seat or establishment. In case the professional intermediary is located abroad, the person giving the order will become debtor of the tax and will have to comply with the legal obligations in that regard, unless he is able to demonstrate that the tax has been paid.

However, this tax will not be payable by exempt persons acting for their own account, including non-residents (subject to certain formalities) and certain Belgian institutional investors, as defined in Articles 126-1, 2° of the Code on Miscellaneous Duties and Taxes ("*Code des droits et taxes divers*").

### **Belgian tax on the physical delivery of bearer Securities**

A tax of 0.6 per cent. is levied upon the physical delivery of bearer Securities pursuant to their acquisition on the secondary market through a professional intermediary. The same tax applies to the conversion of registered Securities into bearer Securities and to the physical delivery of bearer Securities pursuant to a withdrawal of these Securities from open custody. The tax on the delivery of bearer Securities is due either on the sums payable by the purchaser, or on the sales value of the Securities as estimated by the custodian in the case of a withdrawal from open custody or by the person asking for the conversion of the Securities in case of conversion of a registered Securities in a bearer Securities. The tax is payable by the issuer, the professional intermediary or the custodian.

The physical delivery of bearer Securities to recognised Belgian professional intermediaries (such as credit institutions), acting for their own account, is exempt from the above tax.

### **TAXATION IN FRANCE**

The following is a basic summary of certain tax considerations in France relating to the Securities that may be issued under the Programme to any holder of Securities who does not concurrently hold shares of the Issuer and who is not related to the Issuer within the meaning of article 39, 12 of the French *Code général des impôts* (the French tax code – the "FTC"). This summary is based on the tax laws and regulations of France, as currently in effect and applied by the French tax authorities, all of which are subject to change or to different interpretation, with possible retroactive effect.

Prospective holders or beneficial owners of the Securities are advised to consult their own appropriate independent and professionally qualified tax advisors as to the tax consequences of any investment in, ownership of, or transactions involving the Securities.

#### **French resident investors**

Prospective purchasers of Securities who are French resident for tax purposes or who would hold the Securities through a permanent establishment or a fixed base in France, should be aware that transactions involving the Securities including any purchase or disposal of, or other dealings in the Securities and any transaction involved in the exercise and settlement of the Securities, may have French tax consequences. The tax consequences regarding interest, premium on redemption and capital gains in particular may depend, amongst other things, upon the status of the prospective purchaser (i.e. legal entities or individuals).

Pursuant to Article 125 A of the FTC, subject to certain limited exceptions, interest and assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 24% withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and other related contributions) are also levied by way of withholding tax at an aggregate rate of 15.5% on interest and assimilated income paid to individuals who are fiscally domiciled (*domiciliés fiscalement*) in France.

#### **Non-French resident investors who would not hold the Securities through a permanent establishment or a fixed base in France**

The treatment regarding withholding tax in relation to any Securities will depend on the nature and characterisation of such Securities. Prospective purchasers of Securities should consult their own appropriate independent and professionally qualified tax advisers about the tax consequences of any investment in, ownership of transactions involving the Securities.

#### ***Securities issued by Crédit Agricole Corporate and Investment Bank***

*Securities constituting debt instruments for French tax purposes*

Payments with respect to Securities issued as from 1 March 2010 by Crédit Agricole Corporate and Investment Bank which constitute debt instruments for French tax purposes (other than such Securities consolidated (*assimilables* for the purposes of French law) and forming a single series with Securities issued prior to 1 March 2010 with the benefit of article 131 *quater* of the FTC, as further described below) fall under the French withholding tax regime provided by the French *loi de finances rectificative pour 2009 no. 3* (n°2009-1674 dated 30 December 2009) as interpreted by the French tax authorities in their official guidelines (BOI-INT-DG-20-50-20140211), applicable as from 1 March 2010 (the "**Law**"). Payments of interest and assimilated income made by Crédit Agricole Corporate and Investment Bank on such Securities will not be subject to the withholding tax provided by article 125 A III of the FTC unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of article 238-0 A of the FTC (a "**Non-Cooperative State**"). If such payments under such Securities are made in a Non-Cooperative State, a 75% withholding tax will be applicable (regardless of the tax residence of the purchasers of Securities and subject to exceptions certain of which are set out below and to the more favourable provisions of any applicable double tax treaty) by virtue of article 125 A III of the FTC. The list of Non-Cooperative States is published by a ministerial executive order and is updated on an annual basis.

Furthermore, according to article 238 A of the FTC, interest and other income on such Securities may not be deductible from the French Issuer's taxable income, if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid to a bank account opened in a financial institution located in such a Non-Cooperative State. Under certain conditions, any such non-deductible interest and other income may be recharacterised as constructive dividends pursuant to article 109 *et seq.* of the FTC, in which case such non-deductible interest and other income may be subject to the withholding tax provided by article 119 *bis* 2 of the FTC, at a rate of 30% or 75%, subject to the more favourable provisions of any applicable double tax treaty.

Notwithstanding the foregoing, the Law provides that neither the 75% withholding tax provided by article 125 A III of the FTC nor the non-deductibility provided under article 238 A of the FTC will apply in respect of a particular issue of such Securities solely by reason of the relevant payments being made to persons domiciled or established in a Non-Cooperative State or paid in such a Non-Cooperative State if Crédit Agricole Corporate and Investment Bank can prove that the principal purpose and effect of such issue of such Securities were not that of allowing the payments of interest or other income to be made in a Non-Cooperative State (the **Exception**) and that relevant interest or income relate to genuine transactions and are not in an abnormal or exaggerated amount. Pursuant to the official guidelines issued by the French tax authorities (under references BOI-INT-DG-20-50-20140211, no. 990, BOI-RPPM-RCM-30-10-20-40-20140211, no. 70, and BOI-IR-DOMIC-10-20-20-60-20150320 no. 10), an issue of such Securities will benefit from the Exception without the French Issuer having to provide any proof of the purpose and effect of such issue of Securities, if such Securities are:

- (i) offered by means of a public offer within the meaning of article L.411-1 of the French Monetary and Financial Code (*Code monétaire et financier*) or pursuant to an equivalent offer in a State other than a Non-Cooperative State. For this purpose, an "equivalent offer" means any offer requiring the registration or submission of an offer document by or with a foreign Securities market authority; or
- (ii) admitted to trading on a regulated market or on a French or foreign multilateral Securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (iii) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing and delivery and payments systems operator within the meaning of article L.561-2 of the French Monetary and Financial Code (*Code monétaire et financier*), or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

Payments of interest and assimilated income with respect to (i) such Securities issued (or deemed issued) outside France within the meaning of article 131 *quater* of the FTC, before 1 March 2010 and (ii) such Securities consolidated (*assimilables* for the purposes of French law) and forming a single series with such first mentioned Securities, will continue to be exempt from the withholding tax provided by article 125 A III of the FTC.

Pursuant to the official guidelines of the French tax authorities (BOI-RPPM-RCM-30-10-30-30-20140211, no. 100), the exemption will also apply if the payments are made outside France in a Non-Cooperative State. Such Securities issued before 1 March 2010, whether denominated in euro or in any other currency, and constituting *obligations* under French law, or *titres de créances négociables* within the meaning of the official guidelines of the French tax authorities (BOI-RPPM-RCM-30-10-30-30-20140211, no. 50), or other debt securities issued under French or foreign law and considered by the French tax authorities as falling into similar categories, are deemed to be issued outside France for the purpose of article 131 *quater* of the FTC pursuant to the above-mentioned guidelines.

In addition, payments made by Crédit Agricole Corporate and Investment Bank of interests or other income on such Securities issued before 1 March 2010 (or such Securities issued on or after 1 March 2010 consolidated (*assimilables for the purpose of French law*) and forming a single series with such first mentioned Securities) will be subject neither to the withholding tax set out in article 119 *bis* 2 of the FTC nor to the non-deductibility provided under article 238 A of the FTC solely on account of their being paid in a Non-Cooperative State or accrued or paid to persons established or domiciled in a Non-Cooperative State.

#### ***EU Savings Tax Directive***

The European Council Directive 2003/48/EC on taxation of savings income (the "**EU Savings Tax Directive**") was implemented into French law under article 242 *ter* of the FTC and articles 49 I *ter* to 49 I *sexies* of Schedule III to the FTC. These provisions impose on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another Member State (or in certain territories), including, among other things, the identity and address of the beneficial owner and a detailed list of the different categories of interest (within the meaning of the EU Savings Tax Directive) paid to that beneficial owner.

Considering that the EU Savings Tax Directive has been repealed by the European Council Directive 2015/2060/UE, Article 104 of the French Finance Act for 2017 (n°2016-1917 dated 29 December 2016) repealed the provisions of Articles 242 *ter* of the FTC implementing the EU Savings Tax Directive as of 1 January 2018.

#### ***Transfer Tax and other taxes***

The following may be relevant in connection with Securities, which are settled or redeemed by way of physical delivery of French shares (or certain assimilated securities):

- the disposal of French shares for consideration is, in principle, subject to a 0.1% transfer tax (the "**Transfer Tax**"), provided, in the case of shares listed on a recognised stock exchange, that the transfer is evidenced by a written deed or agreement;
- a financial transaction tax (the "**French Financial Transaction Tax**") is imposed, subject to certain exceptions, on certain acquisitions of French shares (or certain assimilated securities) which are listed on a recognised stock exchange where the relevant issuer's stock market capitalisation exceeds €1 billion (on 1 December of the previous calendar year). The French Financial Transaction Tax rate is 0.3 % of the acquisition price of the transaction;
- if the French Financial Transaction Tax applies to a transaction, an exemption in respect of the Transfer Tax is applicable.

*Securities not constituting debt instruments for French tax purposes*

Subject to the immediately following paragraph, payments in respect of Securities issued by Crédit Agricole Corporate and Investment Bank which do not constitute debt instruments for French tax purposes irrespective of their date of issue may either not be subject to French withholding tax, or else benefit from an exemption from French withholding tax provided that the beneficial owner of such Securities and the payment thereunder is resident or domiciled in a country which has entered into an appropriate double tax treaty with France and fulfils the relevant requirements set out in such double taxation treaty.

Under certain circumstances, and subject to the more favourable provisions of any applicable double tax treaty, payments in respect of such Securities may also be recharacterised as constructive dividends and subject to a withholding tax at a rate of 30% or 75% if they are paid or accrued to persons established or domiciled in a Non-Cooperative State, or paid in such a Non-Cooperative State.

Potential purchasers of Securities which are resident or domiciled in a country which has not entered into an appropriate double tax treaty with France or which are located or established in a Non-Cooperative State are advised to consult their own appropriate independent and professionally qualified tax advisors as to the tax consequences of any investment in, ownership of or transactions involving the Securities.

#### *Securities issued by a non-French resident Issuer*

Payments made by a non-French resident Issuer in respect of Securities issued by an Issuer which is a non-French resident for tax purposes and which is not issuing the Securities through a permanent establishment or a fixed base in France should not be subject to French withholding tax.

### **TAXATION IN THE PEOPLE'S REPUBLIC OF CHINA (PRC)**

*The following is a summary of current PRC law and practice relating to the taxation of the Securities. The statements herein regarding taxation are based on the tax laws and regulations of the PRC as currently in effect and applied by the PRC tax authorities, all of which are subject to change or to different interpretation. Prospective holders or beneficial owners of the Securities are advised to consult their own appropriate independent and professionally qualified tax advisors as to the tax consequences of any investment in, ownership of, or transactions involving the Securities.*

#### **PRC tax resident investors (enterprise)**

##### *Enterprise Income Tax (EIT)*

If the holder or beneficial owner of the Securities is a PRC entity and is a tax resident of the PRC ("**PRC Tax Resident**"), then pursuant to the PRC EIT Law and its implementation regulations, capital gains and interest income gained or received by a PRC Tax Resident from selling or holding the Securities will be subject to EIT. The current EIT rate is twenty five per cent (25 per cent). Moreover, the PRC EIT provides that, if an enterprise incorporated outside the PRC has its "de facto management body" located within the PRC, such enterprise may be regarded as a "PRC Tax Resident" and be subject to EIT at the rate of twenty five per cent (25 per cent) on its worldwide income.

If any holder or beneficial owner of the Securities is deemed as a PRC Tax Resident because its "de facto management body" is in the PRC, any capital gains or interest income gained or received by such holders or beneficial owners will be subject to EIT at a rate of twenty five per cent (25 per cent).

##### *Value-added tax (VAT) and local surcharges*

Pursuant to a tax notice issued in December 2016 by the PRC Ministry of Finance and State Administration of Taxation (Cai Shui [2016] No.140), VAT will be levied on interest income obtained by a PRC Tax Resident from principal protected Securities at a rate of six per cent (6 per cent). Furthermore, local surcharges will also be levied

on the amount of VAT payable. The rate of local surcharges varies depending on where in the PRC is the PRC Tax Resident located at. Interest income generated from non-principal protected Securities is not subject to VAT.

#### **Non-PRC tax resident investors (enterprise)**

The holders or beneficial owners of the Securities who are non-PRC Tax Resident will not be subject to tax in the PRC with respect of their interests in the Securities.

### **TAXATION IN THE FEDERAL REPUBLIC OF GERMANY**

#### ***German tax resident Investors***

The following general overview does not consider all aspects of income taxation in the Federal Republic of Germany ("**Germany**") that may be relevant to a holder in the light of the holder's particular circumstances and income tax situation. This general overview is based on German tax laws and regulations, all as currently in effect and all subject to change at any time, possibly with retroactive effect.

As each series of Securities may be subject to a different tax treatment due to the specific terms of such Series as set out in the respective Final Terms, the following section only provides some very general information on the possible tax treatment of a generic Security.

**Prospective Holders of Securities are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposal of Securities, including the effect of any state, local or church taxes, under the tax laws of Germany and each country of which they are residents.**

#### ***German tax resident investors holding Securities as private assets***

##### *Taxation of income from the Securities*

If the Securities are held as private assets (*Privatvermögen*) by an individual investor whose residence or habitual abode is in Germany, payments of interest under the Securities are generally taxed as investment income (*Einkünfte aus Kapitalvermögen*) at a 25 per cent. flat tax (*Abgeltungsteuer*) (plus a 5.5 per cent. solidarity surcharge (*Solidaritätszuschlag*) thereon and, if applicable to the individual investor, church tax (*Kirchensteuer*)).

The same applies to capital gains from the sale or redemption of the Securities. The capital gain is generally determined as the difference between the proceeds from the sale or redemption of the Securities and the acquisition costs. Expenses directly and factually related (*unmittelbarer sachlicher Zusammenhang*) to the sale or redemption are taken into account in computing the taxable capital gain. Otherwise the deduction of related expenses for tax purposes is not permitted. In case of physical delivery of assets upon redemption of the Securities, generally the fair market value of the assets delivered will be taken into account when determining the amount of proceeds received from the redemption subject to the provisions on the rollover relief described below.

Where the Securities are acquired and/or sold in a currency other than Euro, the acquisition costs will be converted into Euro at the time of acquisition, the sales proceeds will be converted in Euro at the time of sale, and only the difference will then be computed in Euro.

In case of Securities where the Issuer is entitled to physical delivery of shares or securities (*Wertpapiere*), the delivery of the shares or securities may depending on the final terms of the Securities not constitute a taxable event with respect to capital gain or losses built into the Securities at the time of the delivery (so-called rollover relief). In case of the rollover relief being available, the acquisition costs the investor has in the Securities will generally be rolled over into acquisition costs of the shares or securities delivered. Any capital gains or losses built into the Securities would then be taxable upon the sale or redemption of the shares or securities delivered only.

The flat tax is generally collected by way of withholding (see subsequent paragraph – *Withholding tax*) and the tax withheld shall generally satisfy the individual investor's tax liability with respect to the Securities. If, however, no

or not sufficient tax was withheld (e.g., in case there is no Domestic Paying Agent, as defined below) the investor will have to include the income received with respect to the Securities in its annual income tax return. The flat tax will then be collected by way of tax assessment. The investor may also opt for inclusion of investment income in its income tax return if the aggregated amount of tax withheld on investment income during the year exceeded the investor's aggregated flat tax liability on investment income (e.g., because of available losses carried forward or foreign tax credits). If the investor's individual income tax rate, which is applicable on all taxable income including the investment income, is lower than 25 per cent., the investor may opt to be taxed at individual progressive rates with respect to its investment income.

Capital losses from the sales or redemption of the Securities held as private assets should generally be tax-recognised irrespective of the holding period of the Securities. However, in case where no (or only *de minimis*) payments are made to the holders on the redemption date of the Securities, any capital losses might not be recognised by the German tax authorities. Any tax-recognised capital losses may not be used to offset other income like employment or business income but may only be offset against investment income. Capital losses not utilised in one annual assessment period may be carried forward into subsequent assessment periods but may not be carried back into preceding assessment periods.

Individual investors are entitled to a saver's lump sum tax allowance (*Sparer-Pauschbetrag*) for investment income of 801 Euro per year (1,602 Euro jointly assessed husband and wife). The saver's lump sum tax allowance is also taken into account for purposes of withholding tax (see subsequent paragraph – *Withholding tax*) if the investor has filed a withholding tax exemption request (*Freistellungsauftrag*) with the respective Domestic Paying Agent (as defined below). The deduction of related expenses for tax purposes is not permitted.

#### *Withholding tax*

If the Securities are kept or administered in a domestic securities deposit account by a German credit institution (*Kreditinstitut*) or financial services institution (*Finanzdienstleistungsinstitut*) (or with a German branch of a foreign credit or financial services institution), or with a German securities trading company (*Wertpapierhandelsunternehmen*) or a German securities trading bank (*Wertpapierhandelsbank*) (altogether a "**Domestic Paying Agent**") which pays or credits the interest, a 25 per cent. withholding tax, plus a 5.5 per cent. solidarity surcharge thereon, resulting in a total withholding tax charge of 26.375 per cent, is levied on the interest payments. The applicable withholding tax rate is in excess of the aforementioned rate if church tax is collected for the individual investor.

Capital gains from the sale or redemption of the Securities are also subject to the 25 per cent. withholding tax, plus a 5.5 per cent. solidarity surcharge thereon, if the Securities are kept or administered by a Domestic Paying Agent effecting the sale or redemption from the time of their acquisition. If the Securities were sold or redeemed after being transferred to a securities deposit account with another Domestic Paying Agent, 25 per cent. withholding tax (plus solidarity surcharge thereon) would be levied on 30 per cent. of the proceeds from the sale or the redemption, as the case may be, unless the investor or the previous depository bank was able and allowed to prove evidence for the investor's actual acquisition costs to the current Domestic Paying Agent. *The* applicable withholding tax rate is in excess of the aforementioned rate if church tax is collected for the individual investor.

#### ***German resident investors holding the Securities as business assets***

##### *Taxation of income from the Securities*

If the Securities are held as business assets (*Betriebsvermögen*) by an individual or corporate investor which is tax resident in Germany (i.e., a corporation with its statutory seat or place of management in Germany), interest income and capital gains from the Securities are subject to personal income tax at individual progressive rates or corporate income tax (plus a 5.5 per cent. solidarity surcharge thereon and church tax, if applicable) and, in general, trade tax. The effective trade tax rate depends on the applicable trade tax factor (*Gewerbsteuer-Hebesatz*)

of the relevant municipality where the business is located. In case of individual investors the trade tax may, however, be partially or fully creditable against the investor's personal income tax liability depending on the applicable trade tax factor and the investor's particular circumstances.

In case of physical delivery of assets upon redemption of the Securities, the delivery will constitute a taxable exchange where the difference amount between the fair market value of the Securities and the tax base of the Securities (i.e., generally book values) will be subject to personal income tax or corporate income tax and, in general, trade tax as described above. Unlike for German tax resident investors holding the Securities as private assets, no rollover relief will be available for German resident investors holding the Securities as business assets.

Capital losses from the sale or redemption of the Securities should generally be tax-recognised and may generally be offset against other income. It can however not be ruled out that certain Securities may be classified as derivative transactions (*Terminingeschäfte*) for tax purposes. In this case, any capital losses from such Securities would be subject to a special ring-fencing provision and could generally only be offset against gains from other derivative transactions.

#### *Withholding tax*

If the Securities are kept or administered by a Domestic Paying Agent which pays or credits the interest, a 25 per cent. withholding tax, plus a 5.5 per cent. solidarity surcharge thereon, resulting in a total withholding tax charge of 26.375 per cent, is generally levied on the interest payments. The applicable withholding tax rate is in excess of the aforementioned rate if church tax is collected for the individual investor.

No withholding is generally required on capital gains from the disposal or redemption of the Securities, which is derived by German resident corporate investors and, upon application, by individual investors holding the Securities as assets of a German business, subject to certain requirements.

Any capital losses incurred from the disposal or redemption of the Securities will not be taken into account for withholding tax purposes. The withholding tax does not satisfy the investor's personal or corporate income tax liability with respect to the Securities. The income from the Securities will have to be included in the investor's personal or corporate income tax return.

Any German withholding tax (including surcharges) is generally fully creditable against the investor's personal or corporate income tax liability or refundable, as the case may be.

#### ***Non-German tax resident Investors***

Income derived from the Securities by investors who are not tax resident in Germany is in general not subject to German income taxation, and no withholding tax shall be withheld, provided however (i) the Securities are not held as business assets of a German permanent establishment of the investor or by a permanent German representative of the investor or (ii) the income derived from the Securities does not otherwise constitute German source income (such as income from the letting and leasing of certain property located in Germany) or (iii) the income is paid by a Domestic Paying Agent against presentation of the Securities or interest coupons (so-called over-the-counter transaction, *Tafelgeschäfte*).

If the income derived from the Securities is subject to German taxation according to (i) through (iii) above, the income is subject to German income taxation and withholding tax similar to that described above for German tax residents. Under certain circumstances, foreign investors may benefit from tax reductions or tax exemptions under applicable double tax treaties (*Doppelbesteuerungsabkommen*) entered into with Germany.

#### ***Inheritance tax and gift tax***

The transfer of Securities to another person by way of gift or inheritance may be subject to German gift or inheritance tax, respectively, if *inter alia*:

- (i) the testator, the donor, the heir, the donee or any other acquirer had his residence, habitual abode or, in case of a corporation, association (*Personenvereinigung*) or estate (*Vermögensmasse*), has its seat or place of management in Germany at the time of the transfer of property,
- (ii) except as provided under (i), the testator's or donor's Securities belong to business assets attributable to a permanent establishment or a permanent representative in Germany,

Special regulations may apply to certain German expatriates.

Prospective holders are urged to consult with their tax advisor to determine the particular inheritance or gift tax consequences in light of their particular circumstances.

#### **Other taxes**

The purchase, sale or other disposal of Securities does not give rise to capital transfer tax, value added tax, stamp duties or similar taxes or charges in Germany. However, under certain circumstances entrepreneurs may choose liability to value added tax with regard to the sales of Securities to other entrepreneurs, which would otherwise be tax exempt. Net wealth tax (*Vermögensteuer*) is, at present, not levied in Germany.

#### **TAXATION IN GUERNSEY**

“The Income Tax (Zero 10) (Guernsey) Law, 2007” was approved by the States of Guernsey in September 2007 and the general rate of income tax to be paid by Guernsey companies became zero per cent, with effect from the tax year 2008 and subsequent years. The legislation also introduced a 10 per cent company intermediate rate which applies to certain activities carried on by banks licensed under the Banking Supervision (Bailiwick of Guernsey) Law, 1994 and regulated by the Guernsey Financial Services Commission. The 10 per cent company intermediate rate also applies in relation to the profits arising from the provision of credit facilities by any business in the ordinary course of its business. With effect from 1 January 2013 the 10 per cent company intermediate rate was extended to include licensed fiduciaries (in respect of regulated activities), licensed insurers (in respect of domestic business), licensed insurance intermediaries and licensed insurance managers in respect of the carrying on of business and acting as such. With effect from 1 January 2015 the 10 per cent company intermediate rate was further extended to licensed fund administration businesses providing administration services to unconnected third parties. In addition, income from trading activities regulated by the Guernsey Competition and Regulatory Authority, income from gas and hydrocarbons business, income from large retail business carried on in Guernsey and income from the ownership of land and buildings situated in Guernsey are subject to tax at the company higher rate of 20 per cent. It is not intended that the activities of Crédit Agricole CIB FG will be subject to the company intermediate or higher rates.

Provided a Noteholder does not carry on business in Guernsey and is not resident in Guernsey for Guernsey tax purposes, he will not suffer any charge to Guernsey income tax on any payments received from Crédit Agricole CIB FG, nor will such a holder be required to file or make any return to the Income Tax Authority in Guernsey. Accordingly no withholding tax will apply to any such payments.

Capital Gains Tax, Wealth Tax, Capital Transfer Tax and Estate or Inheritance Tax do not exist under current Guernsey law and as such no liability to tax will arise on the issue, exercise, transfer, realisation or redemption of Securities issued by Crédit Agricole CIB FG, nor is any stamp duty or similar tax payable in Guernsey on the issue or transfer of Securities.

A holder of Securities who is resident for tax purposes in Guernsey or who carries on a trade in Guernsey through a branch or agency (to which the Securities are attributable) may be subject to Guernsey income tax on any interest paid in respect of the Securities, and should seek independent tax advice, if necessary, on the liability to tax thereon, and the necessity to disclose the relevant amounts.

## **EU Savings Tax Directive**

On 3 June 2003, the European Council of Economics and Finance Ministers adopted a Directive 2003/48/CE regarding the taxation of savings income in the form of interest payments (the **Directive**). The Directive required Member States, subject to a number of conditions being met, to provide to the tax authorities of other Member States details of payments of interest and other similar income made by a paying agent located within its jurisdiction to, or for the benefit of, an individual resident in that other Member State, except that, for a transitional period, Austria instead withheld an amount on interest payments, unless the relevant beneficial owner of such payment elected otherwise.

On 21 June 2004, the States of Guernsey authorised the Chief Minister or other Minister designated for the purpose to sign bi-lateral agreements with EU Member States to implement the “same” measures. Under these agreements, Guernsey either applied a retention tax on interest income paid by paying agents in Guernsey to individuals resident in the EU countries with which agreements have been concluded, or during the transitional period, Guernsey applied automatic exchange of information relating to such payments with those countries. At its meeting on 24 November 2010, the Guernsey States of Deliberation passed a resolution to move to automatic exchange of information and abolish retention tax with effect from 1 July 2011.

On the 10 November 2015 the Council of the European Union repealed the Directive which had implemented the EU Savings Tax Directive. The Directive ceased to apply after 2015 (the exchange of 2015 information was due to be exchanged by 31 March 2016). The intention is that the EU version of the Common Reporting Standard which is the Directive on Administrative Cooperation (DAC) has replaced the EU Savings Tax Directive from the 1 January 2016.

Whilst the equivalent Guernsey legislation remains extant, in practice, this has been superseded from 1 January 2016 by reporting under the Multilateral Competent Authority Agreement for Automatic Exchange of Taxpayer Information (see below) in respect of residents of the 27 member states of the EU that have also agreed to the early adoption of the CRS, and from 1 January 2017 in respect of residents of Austria.

### **Multilateral Competent Authority Agreement for Automatic Exchange of Taxpayer Information**

On 13 February 2014, the Organisation for Economic Co-operation and Development released the "Common Reporting Standard" ("CRS") designed to create a global standard for the automatic exchange of financial account information, similar to the information to be reported under FATCA. On 29 October 2014, fifty-one jurisdictions signed the multilateral competent authority agreement ("Multilateral Agreement") that activates this automatic exchange of FATCA-like information in line with the CRS. Pursuant to the Multilateral Agreement, certain disclosure requirements may be imposed in respect of certain Shareholders in the Company who are, or are entities that are controlled by one or more, residents of any of the signatory jurisdictions.

Early adopters who signed the Multilateral Agreement (including Guernsey) have pledged to work towards the first information exchanges taking place by September 2017. Others are expected to follow with information exchange starting in 2018. Guidance regarding the implementation of the CRS and the Multilateral Agreement in Guernsey is yet to be published in finalised form, and the implementing legislation has only recently been enacted.

## **TAXATION IN ITALY**

The following is a summary of current Italian law and practice relating to the taxation of the Securities. The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The Issuer will not update this summary to reflect changes in laws and if such a change occurs the information in this summary could become invalid.

The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules.

This summary does not describe the tax consequences for a holder of the Securities in case Physical Delivery is provided and, in particular, in respect of Securities that are redeemable in exchange for, or convertible into, shares, of the exercise, settlement or redemption of such Securities and/or any tax consequences after the moment of exercise, settlement or redemption.

With regard to certain innovative or structured financial instruments there is currently neither case law nor comments of the Italian tax authorities as to the tax treatment of such financial instruments. Accordingly, it cannot be excluded that the Italian tax authorities and courts or Italian intermediaries may adopt a view different from that outlined below.

Prospective purchasers are advised to consult their own tax advisers concerning the overall tax consequences of their interest in the Securities.

### **Tax treatment of the Securities**

#### ***Securities qualified as bonds or debentures similar to bonds***

Legislative Decree No. 239 of 1 April 1996, as subsequently amended, (**Decree No. 239**) provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price, **Interest**) from Securities falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, *inter alia*, by non-Italian resident issuers.

For this purpose, securities similar to bonds are debt instruments implying a "use of capital" issued in mass that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value and that do not allow a direct or indirect participation in the management of the issuer.

#### ***Italian resident Securityholders***

Where the Italian resident Securityholder who is the beneficial owner of the Securities is (i) an individual not engaged in an entrepreneurial activity to which the Securities are connected (unless he has opted for the application of the *risparmio gestito* regime, see paragraph 2 "Capital gain" below), (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, Interest payments relating to the Securities are subject to a withholding tax, referred to as "*imposta sostitutiva*", currently levied at the rate of 26 per cent. (either when the interest is paid by the Issuer, or when payment thereof is obtained by the Securityholder on a sale of the relevant Securities). The *imposta sostitutiva* may not be recovered as a deduction from the income tax due.

In case the Securities are held by an individual or a non-commercial private or public institution engaged in a business activity and are effectively connected with same business activity, the Interest will be subject to the *imposta sostitutiva* and will be included in the relevant income tax return. As a consequence, the interest will be subject to the ordinary income tax and the *imposta sostitutiva* may be recovered as a deduction from the income tax due.

Where an Italian resident Securityholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Securities are effectively connected and the Securities are deposited with an authorised intermediary, Interest from the Securities will not be subject to *imposta sostitutiva*, but must be included in the relevant Securityholder's income tax return and are therefore subject to general Italian corporate tax

(*imposta sul reddito delle società*, **IRES**), and, in certain circumstances, depending on the "status" of the Securityholder, also to the regional tax on productive activities (*imposta regionale sulle attività produttive*, **IRAP**).

Where the Securityholder is an Italian resident real estate investment funds established pursuant to article 37 of Legislative Decree No. 58 of 24 February 1998 (the **Real Estate Investment Funds**) or a close-ended real estate investment company (the **Real Estate SICAF**), Interest is subject neither to substitute tax nor to any other income tax in the hands of the Fund or SICAF. A withholding tax may apply in certain circumstances at the rate of up to 26 per cent. on distributions made by Italian Real Estate Funds and Real Estate SICAF and, in certain cases, a tax transparency regime may apply in respect of certain categories of investors in the Italian Real Estate Fund/SICAF owning more than 5 per cent. of the fund or SICAF's units.

Where the Securityholder is an Italian investment funds (which includes *Fondi Comuni d'Investimento*, or open-end investment company (*società di investimento a capitale variabile* – **SICAV**) or an close-ended investment company, other than a real estate investment company (*società di investimento a capitale fisso* – **SICAF**), as well as Luxembourg investment funds regulated by article 11-bis of Law Decree No. 512 of 30 September 1983 (collectively, the **Funds**), Interest is subject neither to substitute tax nor to any other income tax in the hands of the Fund. A withholding tax may apply in certain circumstances at the rate of up to 26 per cent. on distributions made by the Fund, SICAV or SICAF.

Where the Securityholder is a pension fund (subject to the tax regime set forth by article 17 of Legislative Decree No. 252 of 05/12/2005, the **Pension Funds**) Interest is not subject to substitute tax, but must be included in the Pension Fund's annual net accrued result that is subject to a 20 per cent. substitutive tax.

Pursuant to Decree No. 239, *imposta sostitutiva* is applied by banks, SIMs, fiduciary companies, SGRs, stockbrokers and other entities identified by a decree of the Ministry of Economy and Finance (each an **Intermediary**). An Intermediary must (i) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary and (ii) intervene, in any way, in the collection of interest or in the transfer of the Securities. For the purpose of the application of the *imposta sostitutiva*, a transfer of Securities includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Securities or in a change of the Intermediary with which the Securities are deposited.

#### *Non-Italian resident Securityholders*

Where the Securities are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a Securityholder.

Interest payments relating to Securities received by non-Italian resident beneficial owners are generally, provided that certain conditions and formalities are met, not subject to tax in Italy.

Capital gains realised on any sale or transfer of the Securities for consideration or on redemption thereof by Italian resident or non-Italian resident investors is subject to the tax regime described under paragraph "Capital Gain" below.

#### *Securities qualified as Atypical securities*

Securities that (i) are not deemed to be bonds (*obbligazioni*), debentures similar to bonds (*titoli similari alle obbligazioni*), shares (*azioni*), or securities similar to shares (*titoli similari alle azioni*) pursuant to Presidential Decree 22 December 1986 n. 917 (**TUIR**) and (ii) generate income from the investment of capital (*reddito di capitale*) pursuant article 44 of TUIR would be considered as "atypical" securities pursuant to article 8 of Law Decree No. 512 of 30 September 1983 converted by Law No. 649 of 25 November 1983. In this event, payments relating to Securities may be subject to withholding tax, levied at the rate of 26 per cent., if made to the following Italian resident Securityholders: (i) individuals, (ii) non-commercial partnerships; (iii) Real Estate Investment Funds, (iv) Funds, (v) Pension Fund and (vi) entities exempt from Italian corporate income tax. Payments made to

Italian resident Securityholders, which are companies, or similar commercial entities (including a permanent establishment in Italy of a foreign entity to which the Securities are effectively connected) are not subject to the 26 per cent. withholding tax, but will form part of their aggregate income subject to IRES according to ordinary rules. In certain cases, such amounts may also be included in the taxable base for IRAP purposes.

Payments relating to Securities received by non-Italian resident beneficial owners are generally, provided that certain conditions and formalities are met, not subject to tax in Italy.

This withholding is levied by any entities, resident in Italy, which intervene, in any way, in the collection of payment of income arising from the Securities or in the transfer of the Securities.

Capital gains realised on any sale or transfer of the Securities for consideration or on redemption thereof by Italian resident or non-Italian resident investors is subject to the tax regime described under paragraph 2 "Capital gains" below.

***Securities representing financial instruments non-entailing a static use of capital"***

Based on the principles stated by the Italian tax authorities in resolution No. 72/E of 12 July 2010, income deriving from Securities representing a securitised derivative financial instrument or a bundle of derivative financial instruments not entailing a static "use of capital" ("*impiego di capitale*"), but rather an indirect investment in underlying financial instruments for the purpose of obtaining a profit deriving from the negotiation of such financial instruments as well as capital gains realised through the sale of the same Securities should be subject to Italian taxation according to the principles provided under paragraph "Capital gains" below.

**Capital gains**

Where the Italian resident holder of Securities who is the beneficial owner of the Securities is (i) an individual not engaged in an entrepreneurial activity to which the Securities are connected, (ii) a non-commercial partnership, pursuant to article 5 of Presidential Decree No. 917 of 22 December 1986 (with the exception of general partnership, limited partnership and similar entities) (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, and the Securities generate capital gains pursuant to article 67 TUIR, capital gains accrued on the sale of the Securities are subject to a substitute tax (*imposta sostitutiva*) currently levied at 26 per cent.. The recipient who is an Italian resident individual not engaged in an entrepreneurial activity to which the Securities are connected may opt for three different taxation criteria provided for by article 67 TUIR and Legislative Decree No. 461 of 21 November 1997 (**Decree 461**), as subsequently amended:

- under the tax declaration regime (*regime della dichiarazione*), which is the standard regime for taxation of capital gains realised by Italian resident individuals not engaged in an entrepreneurial activity to which the Securities are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a yearly cumulative basis, on all capital gains, net of any offsettable capital loss, realised by the Italian resident individual holding the Securities not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Securities carried out during any given tax year. Italian resident individuals holding the Securities not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four subsequent tax years. However due to the recent amendments in the rate of the *imposta sostitutiva*, capital losses in excess of capital gains realised prior to 31 December 2011 may be carried forward against capital gains realised after 1 July 2014 only to the extent of 48.08 per cent. of their amount; whilst capital losses realised from 1 January 2012 to 30 June 2014 may be carried forward against capital gains realised after 1 July 2014 only to the extent of 76.92 per cent. of their amount;

- as an alternative to the tax declaration regime, Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Securities (the "*risparmio amministrato*" regime provided for by article 6 of the Decree 461). Such separate taxation of capital gains is allowed subject to (i) the Securities being deposited with Italian banks, SIMs or certain authorised financial intermediaries and (ii) an express election for the *risparmio amministrato* regime being timely made in writing by the relevant holder of the Securities. The depository is responsible for accounting the *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Securities (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the holder of Securities or using funds provided by the holder of Securities for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of the Securities results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same relationship of deposit, in the same tax year or in the following tax years up to the fourth. However due to the recent amendments in the rate of the *imposta sostitutiva*, capital losses in excess of capital gains realised prior to 31 December 2011 may be carried forward against capital gains realised after 1 July 2014 only to the extent of 48.08 per cent. of their amount; whilst capital losses realised from 1 January 2012 to 30 June 2014 may be carried forward against capital gains realised after 1 July 2014 only to the extent of 76.92 per cent. of their amount. Under the *risparmio amministrato* regime, the holder of Securities is not required to declare the capital gains in the annual tax return;
- any capital gains realised or accrued by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Securities, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime (provided for by article 7 of the Decree 461) will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any decrease in value of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. However due to the recent amendments in the rate of the mentioned substitute tax, the decrease in value accrued prior to 31 December 2011 may be carried forward against 48.08 per cent. of its amount, whilst the decrease in value accrued from 1 January 2012 to 30 June 2014 may be carried forward against increase in value of the investment portfolio accrued after 1 July 2014 only to the extent of 76.92 per cent. of its amount. Under the *risparmio gestito* regime, the holder of Securities is not required to declare the capital gains realised in the annual tax return.

Where an Italian resident holder of the Securities who is the beneficial owner of the Securities is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the Securities are effectively connected, capital gains arising from the Securities will not be subject to *imposta sostitutiva*, but must be included in the relevant holder of Securities' income tax return and are therefore subject to IRES and, in certain circumstances, depending on the "status" of the Securityholder, also as a part of the net value of production for IRAP purposes.

Any capital gains realised on the transfer of or redemption of the Securities by beneficial owners, which are Italian Real Estate Funds and Real Estate SICAFs, are not subject to any substitute tax at the fund level nor to any other income tax in the hands of the fund. Italian Real Estate Funds and Real Estate SICAFs are not subject to any substitute tax at the fund or SICAF level nor to any other income tax in the hands of the fund, whereas a withholding tax at a rate of up to 26 per cent. will be applied under certain circumstances on income realised by the participants to the fund or SICAF on distributions or redemption of the fund or SICAF's units (where the item of income realised by the participants may include the capital gains on the Securities).

Any capital gains realised through the transfer for consideration or redemption of the Securities by beneficial owners, which are Funds, SICAV or SICAF, will not be subject to any withholding or substitute tax applied at source. A withholding tax may apply in certain circumstances at the rate of up to 26 per cent. on distributions or redemptions made by the Fund, SICAV or SICAF to certain categories of investors.

Any capital gains realised through the transfer for consideration or redemption of the Securities by beneficial owners which are Pension Funds subject to the regime provided for by article 17 of Decree 252/2005 are included in the calculation of the management result of the fund, accrued in each year, subject to substitute tax at the current rate of 20 per cent..

Any capital gains realised on the transfer for consideration or redemption of the Securities by non-Italian resident beneficial owners without a permanent establishment in Italy to which the Securities are effectively connected:

- are not subject to taxation in Italy pursuant to article 23 TUIR, in case the Securities are traded in a regulated market. Non-Italian resident beneficial owners may be required to timely produce an appropriate self-declaration stating that they are not resident in Italy for tax purposes, in order to benefit from the exemption from taxation in Italy of capital gains realised on the transfer or the redemption of the Securities;
- are in principle subject to a 26 per cent. substitute tax on capital gains pursuant to article 5 of Decree 461/1997 in case the Securities are held in Italy and are not traded in a regulated markets. However, in such case, pursuant to article 5, paragraph 5 of Decree 461/1997, capital gains are exempt from the 26 per cent. substitute tax if realised by (a) non-Italian resident persons, which are resident for tax purposes in a State or territory with which Italy has an adequate exchange of information (b) international bodies and organisations established in accordance with international agreements ratified in Italy; (c) foreign institutional investors, even if they are not taxable persons, set up in a State or territory with which Italy has an adequate exchange of information; and (d) Central Banks and entities also managing official State reserves. In relation to non-Italian resident investors holding the Securities with an Italian authorised financial intermediary, the exclusion of Italian taxation may be subject to certain procedural formalities.

In case the above exemption does not apply, the provisions of Decree 461/1997 do not preclude the application of more favourable provisions laid down in any applicable double tax treaty entered into by Italy.

### **Inheritance and gift taxes**

Pursuant to Law Decree No. 262 of 3 October 2006 (**Decree No. 262**), converted into Law No. 286 of 24 November 2006, as subsequently amended, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (i) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the total value of the inheritance or the gift exceeding €1,000,000 per beneficiary;
- (ii) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the total value of the inheritance or the gift exceeding €100,000 per beneficiary; and
- (iii) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the beneficiary of any such transfer is a disabled individual, whose handicap is recognised pursuant to Law No. 104 of 5 February 1992, the tax is applied only on the value of the assets (including the Instruments) received in excess of €1,500,000 at the rates illustrated above, depending on the type of relationship existing between the deceased or donor and the beneficiary.

Moreover, an anti-avoidance rule is provided for in case of gift of assets, such as the Securities, whose sale for consideration would give rise to capital gains to be subject to the *imposta sostitutiva* provided for by legislative decree No. 461 of 21 November 1997, as subsequently amended. In particular, if the donee sells the Securities for consideration within five years from their receipt as a gift, the donee is required to pay the relevant *imposta sostitutiva* as if the gift had never taken place.

### **Transfer Tax**

Article 37 of Law Decree No 248 of 31 December 2007, converted into Law No. 31 of 28 February 2008, published on the Italian Official Gazette No. 51 of 29 February 2008, has abolished the Italian transfer tax, provided for by Royal Decree No. 3278 of 30 December 1923, as amended and supplemented by the Legislative Decree No. 435 of 21 November 1997.

Following the repeal of the Italian transfer tax, as from 31 December 2007 contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarised deeds are subject to fixed registration tax at rate of €200; (ii) private deeds are subject to registration tax only in case of use or voluntary registration.

### **Wealth Tax**

According to article 19 of Decree of 6 December 2011, No. 201 (**Decree No. 201/2011**), converted with Law of 22 December 2011, No. 214, Italian resident individuals holding certain financial assets – including the Securities – outside of the Italian territory are required to pay a wealth tax at the current rate of 0.20 per cent.. The tax applies on the market value at the end of the relevant year or – in the lack of the market value – on the nominal value or redemption value of such financial assets held outside of the Italian territory.

### **Stamp taxes and duties**

According to article 19 of Decree No. 201/2011, a proportional stamp duty applies on a yearly basis at the current rate of 0.20 per cent. on the market value or – in the lack of a market value – on the nominal value or the redemption amount of any financial product or financial instruments. The stamp duty, for investors other than individuals, cannot exceed the amount of €14,000. Based on the wording of the law and the implementing decree issued by the Italian Ministry of Finance on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 9 February 2011) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

### **Tax monitoring**

Pursuant to Law Decree No. 167 of 28 June, 1990, converted by Law No. 227 of 4 August, 1990, as amended, individuals resident in Italy who hold investments abroad or foreign financial activities must, in certain circumstances, disclose the aforesaid and related transactions to the Italian tax authorities in their income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return).

### **Italian Financial Transaction Tax**

According to article 1 of Law 24 December 2012, no. 228 and the related implementing regulations, an Italian Financial Transaction tax (**FTT**) applies on the transfer of property rights in shares and other equity instruments issued by Italian resident companies as well as on securities representative of the same shares or other equity instruments issued by Italian resident companies regardless of the tax residence of the issuer of the securities. FTT applies regardless of the tax residence of the parties and/or where the transaction is entered into. FTT applies on the transfer of shares and equity instruments at a rate of 0.20%, reduced to 0.10% if the transaction is executed on a regulated market or a multilateral trading system as defined under Directive 2004/39/CE of States of the European Union or of States of the European Economic Area allowing an adequate exchange of information with the Italian

tax authorities. The taxable base is the transaction value, which is defined as the consideration paid for the transfer or as the net balance of the transactions executed by the same subject in the course of the same day.

Specific exemptions are provided for the transfer of shares and equity instruments under certain transactions (such as repo or securities lending transactions), for the shares and equity instruments traded on regulated markets or multilateral trading systems issued by companies with an average market capitalisation below certain thresholds or for transactions executed by certain parties (such as, for example, mandatory providential entities).

FTT also applies on the execution of transactions on derivative financial instruments as defined under Art. 1, paragraph 3, legislative decree 24 February 1998, n. 58, on securities allowing the purchase or sale of financial instruments referred to under Art. 1, paragraph 1-bis, lett. c) legislative decree 24 February 1998, n. 58 or on securities providing for a cash settlement referred to under Art. 1, paragraph 1-bis, lett. d), legislative decree 24 February 1998, no. 58, if the underlying financial instruments or the underlying reference value is represented for more than 50 per cent. by the market value of shares or equity instruments issued by Italian resident companies or securities representative of the same shares or equity instruments. FTT applies on such derivative financial instruments and securities as from 1 September 2013 at a fixed amount for each transaction, ranging from 0.01875 to 200 euro, depending on the notional value of the instrument and the type of underlying financial instrument. Such amount is reduced to 1/5 in case of transactions executed on regulated markets or on multilateral systems as defined under Directive 2004/39/CE of States of the European Union or of States of the European Economic Area allowing an adequate exchange of information with the Italian tax authorities.

### **EU Savings Tax Directive**

Italy has implemented the EU Savings Tax Directive through Legislative Decree No. 84 of 18 April 2005 (**Decree No. 84**), which was however repealed by Law No. 122 of 7 July 2016, implementing in Italy the Council Directive 2011/16/EU concerning the mandatory automatic exchange of information between tax administrations (subject to on-going requirements to fulfil some reporting communications and administrative obligations for the whole of 2016).

### **TAXATION IN LUXEMBOURG**

The statements herein regarding withholding tax considerations in Luxembourg are based on the laws in force in the Grand Duchy of Luxembourg as of the date of this Base Prospectus and are subject to any changes in law.

The following information is of a general nature only, is not intended to be, nor should it be construed to be, legal or tax advice, and does not purport to be a comprehensive description of all the Luxembourg tax considerations which may be relevant to a decision to purchase, own or dispose of the Securities. In particular, such information does not describe the tax consequences for a holder of Securities that are redeemable in exchange for, or convertible into, shares. Each prospective holder or beneficial owner of the Securities should consult its tax advisor with respect to particular circumstances, the effects of state, local or foreign laws, including Luxembourg law, to which they may be subject and as to their tax position, as a result of the purchase, ownership and disposition of the Securities.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a similar tax, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

#### **Withholding tax**

Under Luxembourg tax law currently in effect and with the possible exception of interest paid to Luxembourg resident individual holders of the Securities, there is no Luxembourg withholding tax on payments of interest (including accrued but unpaid interest) or upon repayment of principal or premium in case of reimbursement, redemption, repurchase or exchange of the Securities.

**Luxembourg non-residents**

Under Luxembourg tax laws currently in effect, there is no Luxembourg withholding tax under the Securities on payments of interest (including accrued but unpaid interest) made to non-resident holders of Securities, nor is any Luxembourg withholding tax payable upon repayment of principal or premium in case of reimbursement, redemption, repurchase or exchange of the Securities.

**Luxembourg residents**

Subject to the Luxembourg law of 23 December 2005, as amended (the **Relibi Law**), there is under Luxembourg tax laws currently in effect no Luxembourg withholding tax under the Securities on payments of interest (including accrued but unpaid interest) made to resident holders of Securities, nor is any Luxembourg withholding tax payable upon repayment of principal or premium in case of reimbursement, redemption, repurchase or exchange of the Securities.

Under the Relibi Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg are subject to a withholding tax of 20% as of 1 January 2017. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent.

**TAXATION IN PORTUGAL**

The following is a summary of the current Portuguese tax treatment at the date hereof in relation to certain aspects of payments of nominal and income in respect of Securities. The statements do not deal with other Portuguese tax aspects regarding Securities and relate only to the position of persons who are absolute beneficial owners of Securities. The following is a general guide, does not constitute tax or legal advice and should be treated with appropriate caution. Securityholders who are in any doubt as to their tax position should consult their professional advisers.

The reference to "investment income" and "capital gains" in the paragraphs below means "investment income" and "capital gains" as understood in Portuguese tax law. The statements below do not take any account of any different definitions of "investment income" or "capital gains" which may prevail under any other law or which may be created by the Conditions of the Securities or any related documentation.

***Securityholder's Income Tax***

Income generated by the holding (distributions) and disposal of Securities is generally subject to the Portuguese tax regime for debt securities (*obrigações*).

Economic benefits derived from amortisation, reimbursement premiums and other types of remuneration arising from Securities are designated as investment income (*rendimentos de capital*) for Portuguese tax purposes.

Gains obtained with the repayment of Securities or of any other debt securities are qualified as capital gains (*mais-valias*) for Portuguese tax purposes.

***Withholding tax***

Under current Portuguese law, investment income payments in respect of Securities made to Portuguese tax resident companies are included in their taxable income and are subject to Portuguese a corporate income tax at rate of (i) 21 per cent. or (ii) 17 per cent if the taxpayer is a small or medium enterprise, as established in Decree-Law no. 372/2007, of 6 November 2007, with taxable profits up to €15,000 and 21 per cent. on profits in excess thereof. An additional municipal surcharge (*derrama municipal*) may be added of up to 1.5 per cent. of the taxable income. Corporate taxpayers with a taxable income of more than € 1,500,000 are also subject to State surcharge

(*derrama estadual*) of (i) 3 per cent. on the part of its taxable profits exceeding €1,500,000 up to €7,500,000, (ii) 5 per cent. on the part of the taxable profits that exceeds €7,500,000 up to €35,000,000, and (iii) 7 per cent. on the part of the taxable profits that exceeds €35,000,000.

As regards to investment income on Securities arising from Crédit Agricole CIB and Crédit Agricole CIB FS made to Portuguese tax resident individuals, they are subject to personal income tax which shall be withheld at the current final withholding rate of 28 per cent. if there is a Portuguese resident paying agent, unless the individual elects to include it in his taxable income, subject to tax at the current progressive rates of up to 48 per cent. An additional income tax rate will be due on the part of the taxable income exceeding Euro 80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding Euro 80,000 up to Euro 250,000, and (ii) 5 per cent. on the remaining part (if any) of the taxable income exceeding Euro 250,000. Additionally, in case the income aggregation is chosen, an additional surcharge is due for the tax year of 2017 according to the taxpayer taxable income, as follows: (i) 0,88 per cent for taxable income exceeding EUR 20,261 up to EUR 40,522; (ii) 2,75 per cent for taxable income exceeding EUR 40,522 up to EUR 80,640 and (iii) 3,21 per cent for taxable income above EUR 80,640. In this case, the tax withheld is deemed to be a payment on account on the final tax due.

Investment income payments due by Crédit Agricole CIB and Crédit Agricole CIB FS to Portuguese tax resident individuals are subject to an autonomous taxation at a rate of 28 per cent. whenever those payments are not subject to Portuguese withholding tax unless the individual elects to include it in his taxable income, subject to tax at the current progressive rates of up to 48 per cent. An additional income tax rate will be due on the part of the taxable income exceeding Euro 80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding Euro 80,000 up to Euro 250,000, and (ii) 5 per cent. on the remaining part (if any) of the taxable income exceeding Euro 250,000. Additionally, in case the income aggregation is chosen, an additional surcharge is due for the tax year of 2017 according to the taxpayer taxable income, as follows: (i) 0,88 per cent for taxable income exceeding EUR 20,261 up to EUR 40,522; (ii) 2,75 per cent for taxable income exceeding EUR 40,522 up to EUR 80,640 and (iii) 3,21 per cent for taxable income above EUR 80,640. In this case, the tax withheld is deemed to be a payment on account on the final tax due.

Since Crédit Agricole CIB FG is an entity domiciled in a blacklisted jurisdiction for Portuguese tax purposes, investment income payments made by Crédit Agricole CIB FG to Portuguese tax resident individuals are subject to a 35 per cent. withholding tax if there is a Portuguese resident paying agent, or to an autonomous taxation of 35 per cent whenever those payments are not subject to Portuguese withholding tax.

Interest and other investment income ("*colocado à disposição*") paid or made available to accounts in the name of one or more accountholders acting on behalf of undisclosed entities is subject to a final withholding tax at 35 per cent., unless the beneficial owner of the income is disclosed, in which case the general rules will apply.

None of the Issuers are responsible for withholding any amount in respect of Portuguese withholding tax, whenever applicable, on interest payments arising from the Securities.

Payments of nominal on Securities are not subject to Portuguese withholding tax. For these purposes, nominal shall mean all payments carried out without any income component.

### ***Capital Gains***

Under current Portuguese law, capital gains obtained by Portuguese tax resident companies on the disposal of Securities issued by non-resident entities are included in their taxable income and are subject to IRC corporate income at a rate of (i) 21 per cent. or (ii) 17 per cent if the taxpayer is a small or medium enterprise, as established in Decree-Law no. 372/2007, of 6 November 2007 and with taxable profits up to €15,000 and 21 per cent. on profits in excess thereof. An additional municipal surcharge (*derrama municipal*) may be added of up to 1.5 per cent. of the taxable income. Corporate taxpayers with a taxable income of more than €1,500,000 are also subject to State surcharge (*derrama estadual*) of (i) 3 per cent. on the part of its taxable profits exceeding €1,500,000 up to

€7,500,000, (ii) 5 per cent. on the part of the taxable profits that exceeds €7,500,000 up to €35,000,000, and (iii) 7 per cent. on the part of the taxable profits that exceeds €35,000,000.

Capital gains obtained by individuals who are resident in Portugal for tax purposes on the disposal of Securities issued by Crédit Agricole CIB and Crédit Agricole CIB FS are subject to a special tax rate of 28 per cent., levied on the positive difference between the capital gains and capital losses of each year unless the individual opts to include the income in his taxable income, subject to tax at the current progressive rates of up to 48 per cent. An additional income tax rate will be due on the part of the taxable income exceeding Euro 80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding Euro 80,000 up to Euro 250,000, and (ii) 5 per cent. on the remaining part (if any) of the taxable income exceeding Euro 250,000. Additionally, in case the income aggregation is chosen, an additional surcharge is due for the tax year of 2017 according to the taxpayer taxable income, as follows: (i) 0,88 per cent for taxable income exceeding EUR 20,261 up to EUR 40,522; (ii) 2,75 per cent for taxable income exceeding EUR 40,522 up to EUR 80,640 and (iii) 3,21 per cent for taxable income above EUR 80,640.

There is no Portuguese withholding tax on capital gains on such cases.

Capital gains obtained by individuals who are resident in Portugal for tax purposes on the disposal of Securities issued by Crédit Agricole CIB FG will be subject to Portuguese taxation at a rate of 35 per cent.

### ***Administrative Cooperation in the Field of Taxation***

The EU Savings Directive was repealed by Council Directive 2015/2060, of 10 November 2015. The aim was the adoption of a single and more comprehensive cooperation system in the field of taxation in the European Union under Council Directive 2011/16/EU, of 15 February 2011. Notwithstanding the repeal of the Savings Directive as of 1 January 2016 (in all Member States other than Austria, where it will be repealed as of 1 January 2017), certain provisions will continue to apply for a transitional period.

The new regime under Council Directive 2011/16/EU, as amended by Council Directive 2014/107/EU, of 9 December 2014, introduced the automatic exchange of information in the field of taxation concerning bank accounts and is in accordance with the Global Standard released by the Organization for Economic Co-operation and Development in July 2014. This regime is generally broader in scope than the Savings Directive.

Under Council Directive 2014/107/EU, financial institutions are required to report to the Tax Authorities of their respective Member State (for the exchange of information with the State of Residence) information regarding bank accounts, including depository and custodial accounts, held by individual persons residing in a different Member State or entities which are controlled by one or more individual persons residing in a different Member State, after having applied the due diligence rules foreseen in the Council Directive. The information refers not only to personal information but also to the account balance at the end of the calendar year, and (i) in case of depository accounts, income paid or credited in the account during the calendar year; or, (ii) in the case of custodial accounts, the total gross amount of interest, dividends and any other income generated, as well as the proceeds from the sale or redemption of the financial assets paid or credited in the account during the calendar year to which the financial institution acted as custodian, broker, nominee, or otherwise as an agent for the account holder, among others.

Portugal has implemented Directive 2011/16/EU through Decree-law 61/2013, of 10 May. Also, Council Directive 2014/107/EU was implemented through Decree-law 64/2016, of 11 October.

### **TAXATION IN SPAIN**

*The following general summary does not consider all aspects of income taxation in Spain that may be relevant to a holder of the Securities in the light of the holder's particular circumstances and income tax situation. This summary applies to holders of the Securities, who are solely tax resident in Spain, and it is not intended to be, nor should it be construed to be, legal or tax advice. It is based on Spanish tax laws and regulations, all as currently in effect and all subject to change at any time, possibly with retroactive effect.*

*Prospective holders are urged to consult their own tax advisers as to the particular tax consequences to them of subscribing, purchasing, holding and disposing of the Securities, including the application and effect of state, local, foreign and other tax laws and the possible effects of changes in the tax laws of Spain.*

### **Spanish resident individuals**

#### ***Personal Income Tax (Impuesto sobre la Renta de las Personas Físicas)***

Both interest periodically received and income derived from the transfer, redemption or conversion of the Securities constitute a return on investment obtained from the transfer of a person's own capital to third parties in accordance with the provisions of Article 25 of Law 35/2006, of November 28, on Personal Income Tax (the **PIT Law**) and therefore will form part of the so called savings income tax base pursuant to the provisions of the aforementioned Law and will be subject to the following rates in 2015: (i) income up to €6,000 will be taxed at a flat rate of 19 per cent.; (ii) income between €6,000 and €50,000 will be taxed at a flat rate of 21 per cent.; and (iii) the excess over €50,000 will be subject to a flat rate of 23 per cent.

As a general rule, on the basis that the Issuer is not resident in Spain for tax purposes and does not operate in Spain through a permanent establishment, as defined in the Spanish Tax Law, all payments of nominal and interest in respect of the Securities can be made free of any withholding or deduction for or on account of any taxes in Spain of whatsoever nature imposed, levied, withheld, or assessed by Spain or any political subdivision or taxing authority thereof or therein, in accordance with applicable Spanish law. Notwithstanding the above, please consider the following rules:

The withholding tax regime will be as follows:

- (i) Interest paid to holders who are Spanish resident individuals will be subject to Spanish withholding tax at 19 per cent. to be deducted by the depositary entity of the Securities or the entity in charge of collecting the income derived thereunder, provided such entities are resident for tax purposes in Spain or have a permanent establishment in the Spanish territory.
- (ii) Income obtained upon transfer of the Securities will be subject to Spanish withholding tax at 19 per cent. to be deducted by the financial entity acting on behalf of the seller, provided such entity is resident for tax purposes in Spain or has a permanent establishment in the Spanish territory.
- (iii) Income obtained upon redemption of the Securities will be subject to Spanish withholding tax at 19 per cent. to be deducted by the financial entity appointed by the Issuer (if any) for redemption of the Securities, provided such entity is resident for tax purposes in Spain or has a permanent establishment in the Spanish territory.

In any event, individual Securityholders may credit the withholding against their final PIT liability for the relevant fiscal year.

#### ***Net Wealth Tax (Impuesto sobre el Patrimonio)***

According to Spanish Budget Act for year 2016 (*Ley 48/2015, de 29 de octubre, de Presupuestos Generales del Estado para el año 2016*), Net Wealth Tax has been restored temporarily for tax period 2016.

This tax is levied on the net worth of an individual's assets and rights to the extent that their net worth exceeds €700,000. The marginal rates ranging between 0.2 per cent. and 2.5 per cent. and some reductions could apply. Individuals with tax residency in Spain who are under the obligation to pay Net Wealth Tax must take into account the amount of the Securities, which they hold as at December 31, in each year, when calculating their Net Wealth Tax liabilities. However, Spanish tax resident holders should take into account the specific tax regulations approved by their respective Spanish Autonomous Region, as some of them provides a full relief for Net Wealth Tax.

**Inheritance and Gift Tax** (*Impuesto sobre Sucesiones y Donaciones*)

Individuals resident in Spain for tax purposes who acquire ownership or other rights over any Securities by inheritance, gift or legacy will be subject to the Spanish Inheritance and Gift Tax in accordance with the applicable Spanish regional and State rules. The applicable tax rates range between 7.65 per cent. and 81.6 per cent., depending on relevant factors. This is nevertheless subject to the specific rules approved by the relevant Spanish Autonomous Regions with respect to this tax.

**Legal entities with tax residence in Spain****Corporate Income Tax (CIT)** (*Impuesto sobre Sociedades*)

Both interest periodically received and income derived from the transfer, redemption or conversion of the Securities will be included in the CIT taxable income and will be taxed at the general tax rate of 25 per cent. in accordance with the rules for this tax.

As stated above, as a general rule, on the basis that the Issuer is not resident in Spain for tax purposes and does not operate in Spain through a permanent establishment, as defined in the Spanish Tax Law, all payments of nominal and interest in respect of the Securities can be made free of any withholding or deduction for or on account of any taxes in Spain of whatsoever nature imposed, levied, withheld, or assessed by Spain or any political subdivision or taxing authority thereof or therein, in accordance with applicable Spanish law.

Notwithstanding the above, please consider that under certain conditions, withholding taxes may apply to Spanish taxpayers when a Spanish resident entity or a non-resident entity that operates in Spain through a permanent establishment in Spain is acting as depositary of the Securities, as a financial entity appointed by the Issuer or as a collecting agent of any income arising from the Securities (withholding tax at 19 per cent.).

Finally, please note that no withholdings on account of the final CIT liability of Spanish corporate investors will have to be deducted on income derived under the Securities if, and to the extent that, the Securities are listed on an organised market of an OECD country provided that certain requirements are met.

In any event, amounts withheld, if any, may be credited by the relevant investor against its final CIT liability for the relevant fiscal year.

**Inheritance and Gift Tax** (*Impuesto sobre Sucesiones y Donaciones*)

Legal entities resident in Spain for tax purposes, which acquire ownership or other rights over the Securities by inheritance, gift or legacy, are not subject to the Spanish Inheritance and Gift Tax but must include the market value of the acquired Securities in their taxable income for Spanish CIT purposes.

**Net Wealth Tax** (*Impuesto sobre el Patrimonio*)

Legal entities are not subject to Net Wealth Tax.

**Non-resident investors with a permanent establishment in Spain**

A non-resident holder of the Securities who has a permanent establishment in Spain to which the Securities are effectively connected with, will be subject to Spanish Non-Residents' Income Tax on any income under the Securities, including both interest periodically received and income arising on the disposal, redemption or reimbursement of the Securities. In general terms, the tax rules applicable to non-resident investors acting through a permanent establishment in Spain are the same as those applicable to Spanish Corporate Income Tax taxpayers (explained above).

**Payments made by the Guarantor**

With respect to payments made by a non-Spanish Guarantor (if applicable) to Spanish resident Securityholders or non-resident Securityholders with a permanent establishment in Spain to which the Securities are effectively connected, our understanding of Spanish tax law is that such payments should be treated as a payment made by the Issuer, and thus should be subject to the Spanish tax regime described in the previous paragraphs.

### **Indirect taxation**

Whatever the nature and residence of the holder, the acquisition and transfer of the Securities will be exempt from indirect taxes in Spain, i.e., exempt from Transfer Tax and Stamp Duty and from Value Added Tax.

### **Reporting obligations to the Spanish Tax Authorities**

Spanish resident Securityholders or non-resident Securityholders with a permanent establishment in Spain to which the Securities are effectively connected should seek advice from their tax advisor as to whether they should include the Securities in the annual reporting (Form 720) to the Spanish Tax Authorities declaring the assets and rights held outside Spain.

### **TAXATION IN UNITED KINGDOM**

The comments below are of a general nature based on current United Kingdom tax law as applied in England and Wales and HM Revenue & Customs practice (which may not be binding on HM Revenue & Customs) and are not intended to be exhaustive. They assume that neither interest on the Securities nor payments in respect of the Guarantee have a United Kingdom source and, in particular, that neither the Issuer nor the Guarantor is United Kingdom resident or acts through a permanent establishment in the United Kingdom in relation to the Securities. Any Securityholders who are in doubt as to their own tax position should consult their professional advisers.

#### ***Interest on the Securities***

Payments of interest on the Securities by the Issuer may be made without withholding or deduction for or on account of United Kingdom income tax.

#### ***Payments in respect of the Guarantee***

Any payments in respect of the Guarantee may be made without withholding or deduction for or on account of United Kingdom income tax.

#### ***Stamp duty/SDRT***

A charge to United Kingdom stamp duty liability at 1.5 per cent. will arise on the first transfer by delivery in the United Kingdom of any Definitive Bearer Note.

United Kingdom stamp duty may be required to be paid in relation to the transfer of an asset on redemption of a Security which can be settled by physical delivery of such asset.

Where a Security can be settled by physical delivery of an asset, SDRT may be payable in respect of the agreement to transfer such an asset. However, any such liability to SDRT will be cancelled (or if already paid, will be repaid) if the instrument effecting the transfer is chargeable with stamp duty (or is otherwise required to be stamped) and has been duly stamped within six years of the agreement being made or, in the case of a conditional agreement, within six years of all conditions being satisfied, or if such instrument is not chargeable with stamp duty or otherwise required to be stamped.

A Global Certificate may be subject to United Kingdom stamp duty if it is executed in the United Kingdom or if it relates to any property situate, or to any matter or thing done or to be done, in the United Kingdom.

If a Global Certificate is subject to United Kingdom stamp duty, but the stamp duty has not been paid, that Global Certificate cannot be used for any purpose in the United Kingdom; for example it will be inadmissible in evidence in civil proceedings in a United Kingdom court.

If a Global Certificate is subject to United Kingdom stamp duty, and it becomes necessary to pay that stamp duty (for example because this is necessary in order to enforce the document in the United Kingdom), interest will be payable (in addition to the stamp duty) in respect of the period from 30 days after the date of execution of the relevant Global Certificate to the date of payment of the stamp duty. Penalties may also be payable if a Global Certificate which was executed outside the United Kingdom is not stamped within 30 days of first being brought into the United Kingdom; or, if the Global Certificate was executed in the United Kingdom, within 30 days of execution. If any United Kingdom stamp duty is required to be paid, it would be payable at a rate of 0.5 per cent. by reference to the amount of consideration given for the issue of Certificates represented by the relevant Global Certificate.

SDRT may be payable in relation to the issue into a clearing system of any Certificate which gives the holder an interest in, or rights arising out of, or the right to acquire, stocks, shares or loan capital, unless such stocks, shares or loan capital would be exempt from all stamp duties.

SDRT may be payable in relation to any agreement to transfer any Certificate which give the holder an interest in, or rights arising out of, or the right to acquire, stocks, shares or loan capital, unless such stocks, shares or loan capital would be exempt from all stamp duties.

United Kingdom stamp duty may be required to be paid in relation to the transfer of an asset on the exercise of a Certificate which can be settled by physical delivery of such asset.

### ***Information Reporting***

HM Revenue & Customs has powers to obtain information relating to securities in certain circumstances. This may include details of the beneficial owners of the Securities (or the persons for whom the Securities are held), details of the persons to whom payments derived from the Securities are or may be paid and information and documents in connection with transactions relating to the Securities. Information may be required to be provided by, amongst others, the holders of the Securities, persons by (or via) whom payments derived from the Securities are made or who receive (or would be entitled to receive) such payments, persons who effect or are a party to transactions relating to the Securities on behalf of others and certain registrars or administrators. In certain circumstances, the information obtained by HM Revenue & Customs may be exchanged with tax authorities in other countries.

## **UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS**

### **General**

**HOLDERS SHOULD SEEK ADVICE BASED ON THEIR PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISER.**

A Final Terms for an issue of Securities may specify with respect to the issue of Securities to which it relates (and where relevant) the potential U.S. federal income tax consequences to Securityholders of the purchase, ownership, disposition, lapse and exercise of the Securities.

Each Issuer will not investigate and will not have access to information that would permit it to ascertain, whether any company, which has issued equity or other instruments to which Securities, relate are passive foreign investment companies for U.S. tax purposes.

A U.S. taxpayer that holds Securities may be subject to a variety of U.S. tax consequences depending on the subject and the terms of the Securities. U.S. taxpayers should consult their own advisers about the tax consequences of

purchasing Securities, particularly whether the Securities being acquired could be treated for U.S. tax purposes as debt instruments or as ownership interests in the assets referenced by the Securities.

### **FATCA Withholding**

The foreign account tax compliance provisions of the Hiring Incentives to Restore Employment Act of 2010 (**FATCA**) impose a withholding tax of 30% (**FATCA Withholding**) on certain U.S.-source payments and proceeds from the sale of assets that give rise to U.S.-source interest or dividends (including Dividend Equivalent Payments, as defined below), as well as certain payments by non-U.S. entities to persons that fail to meet certain certification or reporting requirements. Under current law, withholding is currently imposed in respect of certain U.S.-source payments (including interest and dividends) and will be imposed starting (x) 1 January 2019 in respect of proceeds from the sale of assets that give rise to U.S.-source interest or dividends and (y) 1 January 2019, at the earliest, in respect of "foreign passthru payments" (which term is not yet defined under FATCA). The Issuer and other financial institutions through which payments on the Securities are made may be required to withhold on account of FATCA if (a) an investor does not provide information sufficient for the Issuer or the relevant financial institution to determine whether the investor is subject to FATCA Withholding or (b) a "foreign financial institution" (as defined under FATCA) to or through which payments on the Securities are made (including a foreign financial institution that is a beneficial owner of the Securities) is a "non-participating foreign financial institution". No FATCA Withholding will be imposed with respect to any "foreign passthru payments" until the later of 1 January 2019 and the date on which final regulations are issued defining the term "foreign passthru payment."

The application of FATCA to interest, nominal or other amounts paid with respect to the Securities is not clear. Guernsey and France have entered into intergovernmental agreements with the United States to help implement FATCA for certain entities in those jurisdictions. The full impact of such an agreement on the Issuer and its reporting and withholding responsibilities under FATCA is unclear. The Issuer may be required to report certain information on its U.S. account holders to the governments of Guernsey and France (as applicable) in order (i) to obtain an exemption from FATCA Withholding on payments the Issuer receives and/or (ii) to comply with any applicable domestic laws. It is not yet certain how the United States, Guernsey and France will address withholding on "foreign passthru payments" (which may include payments on the Securities) or if such withholding will be required at all.

If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, nominal or other payments on the Securities, neither the relevant Issuer nor any Agent nor any other person would, pursuant to the conditions of the Securities, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, in that case investors would generally receive less interest or nominal than expected. The Securityholders should consult their own tax advisers on how these rules may apply to payments they receive under the Securities.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on final and temporary regulations and official guidance that is subject to change. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, nominal or other payments on the Securities, the Securities may be, or in certain circumstances will be, redeemed early at their fair market value.

### **Legislation affecting Dividend Equivalent Payments**

Payments on any Security that are, in whole or in part, directly or indirectly contingent upon, or determined by reference to, the payment of a dividend from a U.S. entity (a **Dividend Equivalent Payment**) may become subject to a 30 per cent. U.S. withholding tax when made to non-U.S. persons (as defined below). The imposition of this U.S. withholding tax will reduce the amounts received by non-U.S. persons. Neither the Issuer, the Guarantor, nor the agent nor any other person shall pay any additional amounts to the non-U.S. persons in respect of such U.S. withholding. If a non-U.S. person becomes subject to this withholding tax, the non-U.S. person may be able to

claim benefits (i.e., an exemption from or reduction in the rate of such withholding tax) under its applicable double tax treaty with the United States. The application and interpretation of the rules governing U.S. withholding tax on Dividend Equivalent Payments is subject to change.

For these purposes, a non-U.S. person is a beneficial owner of a Security that is not a: (i) a citizen or individual resident of the United States, as defined in Section 7701(b) of the U.S. Internal Revenue Code, as amended, (ii) a corporation, including any entity treated as a corporation for U.S. federal income tax purposes, created or organised in or under the laws of the United States, any State thereof or the District of Columbia; (iii) an estate the income of which is subject to U.S. federal income tax without regard to its source; or (iv) a trust if (x) a court within the United States is able to exercise primary supervision over the administration of the trust, and one or more United States persons have the authority to control all substantial decisions of the trust, or (y) such trust has a valid election in effect under applicable U.S. Treasury Regulations to be treated as a United States person.

## **TAXATION IN SWITZERLAND**

*The following is a generic summary only of the Issuer's understanding of current law and practice in Switzerland relating to the taxation of the Securities issued under this Base Prospectus. Because this summary does not address all tax considerations under Swiss law and as the specific tax situation of an investor cannot be considered in this context, potential investors are recommended to consult their personal tax advisors as to the tax consequences of the purchase, ownership, sale or redemption of and the income derived from the Securities issued under this Base Prospectus including, in particular, the effect of tax laws of any other jurisdiction.*

The Swiss Federal Tax Administration has issued on 7 February 2007 a Circular Letter No. 15 regarding Certificates and Derivative Financial Instruments subject to Direct Federal Tax, Withholding Tax and Stamp Tax. The Securities issued under this Base Prospectus will be taxed in accordance with this Circular Letter No. 15 and its appendices. Depending on the qualification of the relevant Security by the competent Swiss tax authorities the taxation of each Security may be different.

The taxation depends on the set-up of each single Security for which reason the following remarks are again only of generic nature.

### *Income Tax*

Securities held as Private Assets by a Swiss Resident Holder:

#### (a) Structured Products

If a Security classifies as a structured product, its income taxation depends on whether the bond and the derivative financial instrument(s) embedded therein are recorded separately from each other and whether the Security classifies as a structured product with or without a predominant one-time interest payment.

Non-transparent derivative financial instruments: If the embedded bond is not recorded separately from the embedded derivative financial instrument(s), the Security classifies as non-transparent structured product and any return over the initial investment classifies as a taxable interest payment. Non-transparent derivative financial instruments generally include a predominant one-time interest payment. If so, Swiss resident private investors will be taxed on any interest payments and on any gains, including capital and foreign exchange gains, realised on the Securities (differential taxation method).

Transparent derivative financial instruments without a predominant one-time interest payment: If the embedded bond is recorded separately from the embedded derivative financial instrument(s) and the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest payment (see below "Transparent derivative financial instruments with a predominant one-time interest payment"), then any periodic interest payment and the one-time interest payment is taxed when paid to the holder of the Security. A gain, including interest accrued, realised on the sale of a Security is a tax-free

private capital gain, whereas a loss is a non-tax-deductible private capital loss (see below "Capital Gains Taxation – Securities held as Private Assets by a Swiss Resident Holder"). The same applies if the Security is redeemed except that interest accrued is taxed when paid.

Transparent derivative financial instruments with a predominant one-time interest payment: If the embedded bond is recorded separately from the embedded derivative financial instrument(s) and the yield-to-maturity predominantly derives from a one-time interest-payment such as an original issue discount or a repayment premium, and not from periodic interest payments, then any periodic interest payments at sale or redemption of the Security as well as the difference between the value of the embedded bond at sale or redemption and its value at issuance or purchase, as applicable, converted, in each case, into Swiss francs at the rate of exchange prevailing at the time of sale, redemption, issuance or purchase constitutes taxable income (modified differential taxation method). A value decrease on the embedded bond realised on the sale or redemption of the Security may be offset against any gains (including periodic interest payments) realised within the same taxation period from all financial instruments with a predominant one-time interest payment. Any residual return realised on the embedded derivative financial instrument(s) is a tax-free private capital gain, and any residual loss is a non-tax-deductible private capital loss (see below "Capital Gains Taxation – Securities held as Private Assets by a Swiss Resident Holder").

(b) Bonds

Bonds without a predominant one-time interest payment: If a Security classifies as a pure bond without a predominant one-time interest payment (the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest-payment), Swiss resident private investors will be taxed on the periodic and any one-time interest payments, converted into Swiss francs at the rate of exchange prevailing at the time of payment. A gain, including interest accrued, realised on the sale of a Security is a tax-free private capital gain, whereas a loss is a non-tax-deductible private capital loss (see below "Capital Gains Taxation – Securities held as Private Assets by a Swiss Resident Holder").

Bonds with a predominant one-time interest payment: If a Security classifies as a pure bond with a predominant one-time interest payment (the yield-to-maturity predominantly derives from a one-time interest-payment such as an original issue discount or a repayment premium and not from periodic interest payments), Swiss resident private investors will be taxed on any periodic interest payments and on any gains, including capital and foreign exchange gains, realised on the Securities (differential taxation method).

(c) Pure Derivative Financial Instruments

Periodic and one-time dividend equalisation payments realised on a Security which classifies as a pure derivative financial instrument (such as pure call and put options, including low exercise price options with a maturity not exceeding one year, pure futures, static certificates replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) and which is held as part of their private assets constitute taxable investment income. Any other return will be classified as a tax-exempt capital gain or a non-tax deductible capital loss (see below "Capital Gains Taxation – Securities held as Private Assets by a Swiss Resident Holder").

(d) Low Exercise Price Options (LEPO):

According to the current practice of the Swiss Federal Tax Administration, low exercise price options are given if the underlying has been pre-financed by at least 50 per cent. at the time of issuance. For low exercise price options with a maturity exceeding one year, the interest component of the low exercise price option (i.e. issue discount) constitutes taxable investment income. Any other return will be classified as a tax-exempt capital gain or a non-tax deductible capital loss (see below "Capital Gains Taxation – Securities held as Private Assets by a Swiss Resident Holder").

## (e) Fund-like Products

An individual holding a fund-like product as part of private assets only receives taxable income (which he or she must report annually) over such portion of the distributions (in case the fund is distributing the income realised on the underlying investments) or earnings credits (in case the fund is reinvesting the income realised on the underlying investment) as derived from dividends and interest (less attributable costs) on the underlying instruments. Any distributions or credits deriving from capital gains realised on the underlying investments constitute a tax-free private capital gain and any loss on the underlying investments is a non-tax-deductible private capital loss. Such taxation will only apply if dividend and interest income (less attributable costs) and capital gains and losses are reported and distributed separately. Any gain realised within a taxation period on the sale of a fund-like instrument (including accrued dividends and interest) is exempt from income taxation as a private capital gain, and, conversely, any loss realised is a non-tax-deductible capital loss (see below "Capital Gains Taxation – Securities held as Private Assets by a Swiss resident Holder").

**Securities held as Assets of a Swiss Business:**

Corporate entities and individuals who hold Securities as part of a trade or business in Switzerland (in the case of residents abroad carried on through a permanent establishment or a fixed place of business in Switzerland) are required to recognise any payments on, and any capital gains or losses realised on the sale or redemption of, such Securities (irrespective of their classification) in their income statement and will be taxed on any net taxable earnings for the respective taxation period.

The same taxation treatment also applies to Swiss-resident individuals who are classified by the tax authorities as "professional securities dealers" for reasons of, inter alia, frequent dealing and leveraged investments in securities.

*Capital Gains Taxation***Securities held as Private Assets by a Swiss Resident Holder:**

A gain or a loss realised by an individual resident in Switzerland upon the sale or other disposal of a Security held as part of his or her private assets, is a tax-free private capital gain or a non-tax deductible capital loss, respectively, unless such individual is classified by the tax authorities as a "professional securities dealer" for reasons of, inter alia, frequent dealing and leveraged investments in securities. If an individual is classified as "professional securities dealer" he or she will be taxed in accordance with the principles set forth above under "Securities held as Assets of a Swiss Business". Concerning the separation into a tax-exempt capital gains or non-tax deductible capital loss component, as applicable, and a taxable income component of a security, see the breakdown principles set forth above with regard to the different instruments under "Income Taxation – Securities held as Private Assets by a Swiss Resident Holder".

**Securities held as Assets of a Swiss Business**

Capital gains realised on Securities held as assets of a Swiss business are taxed in accordance with the taxation principles set forth above under "Income Taxation – Securities held as Swiss Business Assets".

*Withholding Tax*

The Swiss Withholding Tax is in principle levied on income (such as, but not limited to, interest, pensions, profit distributions etc.) from, amongst others, bonds and other similar negotiable debt instruments issued by a Swiss tax resident ("Inländer"), distributions from Swiss tax resident corporations, interest on deposits with Swiss banks as well as distributions of or in connection with Swiss tax resident collective investment schemes. For Swiss Withholding Tax purposes, an individual or corporation qualifies as a Swiss tax resident ("Inländer") being subject to withholding taxation if it (i) is resident in Switzerland, (ii) has its permanent abode in Switzerland, (iii) is a company incorporated under Swiss law having its statutory seat in Switzerland, (iv) is a company incorporated

under foreign law but with a registered office in Switzerland, or (v) is a company incorporated under foreign law but is managed and conducts business activities in Switzerland. Hence, as long as the Securities are not issued by an issuer qualifying as a Swiss tax resident for the purposes of the Swiss Withholding Tax, income derived from the Securities is in principle not subject to Swiss Withholding Tax.

#### *Transfer and Issue Stamp Tax*

Swiss Stamp Tax is, amongst other, either levied as Swiss Transfer Stamp Tax or as Swiss Issuance Stamp Tax.

Dealings in Securities which classify as pure derivative financial instruments (such as pure call and put options, including low exercise price options (LEPOs) with a maturity not exceeding twelve months, pure futures with a maximal pre-financing of 25 per cent., static certificates replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) are not subject to the Swiss Transfer Stamp Tax.

Dealings in Securities which have been issued by an issuer outside of Switzerland and which classify as structured products, share-like instruments (including low exercise price options on shares with a maturity exceeding twelve months) or fund-like instruments are subject to Swiss Transfer Stamp Tax of 0.3 per cent. on the consideration paid, however, only if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or intermediary to the transaction and no exemption applies.

Dealings in bonds and structured products with a maturity not exceeding one year are exempt from Swiss Transfer Stamp Tax.

The delivery of an underlying taxable security at exercise or redemption to the holder of the Security is subject to the Swiss Transfer Stamp Tax of 0.3 per cent. in case a security issued by an issuer outside Switzerland is delivered, and of 0.15 per cent. in case a security issued by a domestic issuer is delivered, however, in each case, only if a Swiss domestic securities dealer (as defined in the Swiss Federal Stamp Tax Act) is a party or intermediary to the transaction and no exemption applies.

Swiss Issuance Stamp Tax is levied on the issuance of Swiss shares and similar participation rights by Swiss resident. Hence, the issuance of Securities is not subject to the Swiss Issuance Stamp Tax.

**ERISA CONSIDERATIONS**

Each purchaser or holder of a Security shall be deemed to have represented by such purchase and/or holding that it is not a benefit plan investor, is not using the assets of a benefit plan investor to acquire the Securities, and shall not at any time hold such Securities for or on behalf of a benefit plan investor. For the purposes hereof, "benefit plan investor" means (a) an employee benefit plan (as defined in Section 3(3) of the U.S. Employee Retirement Income Security Act of 1974, as amended, (ERISA)), that is subject to Title I of ERISA (b) a plan described in Section 4975(e)(1) of the U.S. Internal Revenue Code of 1986, as amended, or (c) any entity whose underlying assets include plan assets by reason of a plan's investment in the entity under U.S. Department of Labor Regulations § 2510.3-101 (29 C.F.R. § 2510.3-101), as amended by Section 3(42) of ERISA.

## SUBSCRIPTION AND SALE

*This section sets out a summary of certain restrictions regarding who can purchase the Securities in certain jurisdictions.*

The Dealers have, in an amended and restated programme agreement dated 10 May 2017 (the **Programme Agreement**), agreed with the relevant Issuer a basis upon which they or any of them may from time to time agree to purchase Securities. Any such agreement will extend to those matters stated under "*Form of the Securities*" and "*Terms and Conditions of the Securities*". In the Programme Agreement, the relevant Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Securities under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith. For the avoidance of doubt, references to the Securities include both the Securities and the Guarantee, where applicable.

Any such modification may be set out in the subscription agreement (if applicable) in respect of the Tranche to which it is related or in a supplement to this Base Prospectus. For the avoidance of doubt, references to the Securities herein include both the Securities and the Guarantee.

### **UNITED STATES**

The Securities and any Guarantee have not been and will not be registered under the Securities Act, or with any securities regulatory authority of any state or other jurisdiction of the United States and trading in the Securities has not been approved by the Commodity Futures Trading Commission (**CFTC**) under the Commodity Exchange Act, as amended (**CEA**), and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

In addition, each of Crédit Agricole CIB FG and Crédit Agricole CIB FS has not been and will not be registered as an investment company under the Investment Company Act by virtue of Section 3(c)(7) of the Investment Company Act which, in general, excludes from the definition of an investment company any issuer whose outstanding securities are owned exclusively by persons who are "qualified purchasers" (as defined in Section 2(a)(51) of the Investment Company Act and the rules and regulations thereunder) and which has not made and does not propose to make a public offering of its securities. Accordingly, any transfer of Securities issued by Crédit Agricole CIB FG and Crédit Agricole CIB FS will also need to comply with the provisions of Section 3(c)(7) of the Investment Company Act.

In connection with any Securities which are offered or sold outside the United States in reliance on an exemption from the registration requirements of the Securities Act provided under Regulation S (**Regulation S Securities**), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or delivered and will not offer, sell or deliver Securities (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution, as determined and certified by the relevant Dealer or, in the case of an issue of Securities on a syndicated basis, the relevant lead manager, of all Securities of the Tranche of which such Securities are a part, within the United States or to, or for the account or benefit of, U.S. persons. Each Dealer has further agreed, and each further Dealer

appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Securities during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Securities within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Securities, an offer or sale of such Securities within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Dealers may arrange for the resale of Securities to QIBs pursuant to Rule 144A or to IAIs pursuant to Section 4(2) of the Securities Act and, in the case of Securities issued by Crédit Agricole CIB FG and Crédit Agricole CIB FS, to persons who are also QPs as defined for the purposes of Section 3(c)(7) of the Investment Company Act, and each such purchaser of Securities is hereby notified that the Dealers may be relying on the exemption from the registration requirements of the Securities Act provided by Rule 144A. The minimum aggregate nominal amount of Securities which may be purchased by a QIB pursuant to Rule 144A is U.S.\$100,000 and the minimum aggregate nominal amount which may be purchased by an IAI is U.S.\$500,000 (or, in each case, the approximate equivalent thereof in any other currency). To the extent that each Issuer is not subject to or does not comply with the reporting requirements of Section 13 or 15(d) of the Exchange Act or the information furnishing requirements of Rule 12g3-2(b) thereunder, such Issuer has agreed to furnish to holders of Securities and to prospective purchasers designated by such holders, upon request, such information as may be required by Rule 144A(d)(4).

Each issuance of physically settled Securities, Credit Linked Securities, Commodity Linked Securities or Index Linked Securities shall be subject to such additional U.S. selling and transfer restrictions as the relevant Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Securities.

#### *US Tax Selling Restrictions*

Securities in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations.

Securities that constitute "registration required obligations" under the United States Tax Equity and Fiscal Responsibility Act of 1982, the U.S. Tax Code, or U.S. Treasury regulations and are not considered to be in "registered form" for U.S. federal income tax purposes ("**TEFRA Securities**") are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to or for the account or benefit of a United States person except in certain circumstances, including compliance with (i) U.S. Treas. Reg. §1.163-5(c)(2)(i)(D) or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Tax Code (the "**TEFRA D Rules**"), or (ii) U.S. Treas. Reg. §1.163-5(c)(2)(i)(C) or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Tax Code (the "**TEFRA C Rules**").

With respect to TEFRA Securities issued in compliance with the TEFRA D Rules, the Issuer and each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (i) except to the extent permitted under the TEFRA D Rules, (a) it has not offered or sold, and during the required restricted period it will not offer or sell such TEFRA Securities to a person who is within the United States or its possessions or to a United States person and (b) it has not delivered and agrees that it will not deliver within the United States or its possessions Securities that are TEFRA Securities that will be sold during the restricted period;

- (ii) it has and agrees that throughout the restricted period it will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling such TEFRA Securities are aware that such TEFRA Securities may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person (except to the extent permitted under the TEFRA D Rules);
- (iii) if it is a United States person, it is acquiring such TEFRA Securities for purposes of resale in connection with their original issuance, and if it retains such TEFRA Securities for its own account, it will do so in accordance with the requirements of the TEFRA D Rules; and
- (iv) with respect to each affiliate or distributor that acquires such TEFRA Securities from the Issuer or a Dealer for the purpose of offering or selling such TEFRA Securities during the restricted period, the Issuer or Dealer either repeats and confirms the representations and agreements contained in Paragraphs (i), (ii) and (iii) above on such affiliate's or distributor's behalf or agrees that it will obtain from such affiliate or distributor for the benefit of the Issuer or Dealer the representations and agreements contained in such Paragraphs.

With respect to TEFRA Securities issued in compliance with the TEFRA C Rules, the Issuer and each Dealer have represented and agreed that:

- (i) it has not offered, sold or delivered, and will not offer, sell or deliver, directly or indirectly, such TEFRA Securities within the United States or its possessions in connection with their original issuance; and
- (ii) it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if it is within the United States or its possessions or otherwise involve its U.S. office, if any, in the offer or sale of such TEFRA Securities.

Terms used in this Section shall have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended, ("**US Tax Code**") and the U.S. Treasury regulations promulgated thereunder, including the TEFRA D and TEFRA C Rules.

The Hiring Incentives to Restore Employment Act of 2010 repealed the TEFRA D Securities for TEFRA Securities issued after 18 March 2012. However, in Notice 2012-20, the U.S. Department of Treasury and the U.S. Internal Revenue Service indicated that they intend to provide in regulations that rules identical to the TEFRA D Rules will apply to non-US issuers of TEFRA Securities for purposes of establishing an exemption from the excise tax imposed by Section 4701 of the U.S. Tax Code. (The amount of the excise tax is one per cent. of the principal amount of the obligation, multiplied by the number of calendar years until the obligation reaches maturity.) Consequently, TEFRA Securities issued in accordance with the TEFRA D and TEFRA C Rules should continue to be treated as "foreign targeted obligations" that are exempt from the excise tax.

#### **PUBLIC OFFER SELLING RESTRICTION UNDER THE PROSPECTUS DIRECTIVE**

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a **Relevant Member State**), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the **Relevant Implementation Date**) it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State, except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Securities to the public in that Relevant Member State:

- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
